Venue of the event: JKL University, Jaipur

Glimpse/s of the event

About the Event:

on the occasion of **National Startup Day**, The first 'Round Table Discussion' on '**Rajasthan Startup Eco-system and it's policies**' at AIC-JKL on 16th January 2023 on

It was a fruitful discussion on the policies and the issues which everyone in the eco-system is facing. As we discussed this we are mentioning the pointers of discussion

- Lack of knowledge of various schemes and opportunities offered by various government departments.
- Lack of communication between all the e-cell/incubators regarding their events and programs.
- Rajasthan startup policy should ease the process of patent filing mechanism and approvals from DST.
- DST should work standalone to get the process faster.
- Rural Entrepreneurship should be promoted more in the Rajasthan startup ecosystem.
- AIC's should be launched and created by the state government.
- Every Institute should have a separate budget for in the name of 'Innovation Head' to support the student startups at an early stage.

Along with that we attended the Technology Driven Prototype Exhibition, which is open for students from every stream to experience the new ideas/projects and get an insight out of it.
