1. About SKIT: -

SKIT(SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic. Students joining the institute share the box full of opportunities for professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation, we need to root it out as early as possible."

– Swami Keshvanand

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centres and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavours to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player.

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves. Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services."

2. Approval letter of the Workshop: -

Swami Keshavnand Institute of Technology, Management & Gramothan, Jaipur
(Department of Electrical Engineering)

Proposal for 3 Days Student Workshop (Offline Mode) On "Industrial Competent Enhancement Program"

07/10/2022

| | |
|----------------|--|
| Proposed Dates | 13 – 15 October, 2022 |
| Coordinators | Mr. Tarun Naruka, Associate Professor, Mr. Akash Deo, Assistant Professor Mr. Vikas Mahala, Assistant Professor Mr. Deepak Saini, Assistant Professor |

Objective: To enhance the applied knowledge of engineering concept which are fruitful for employability skill

Target Audience: II year Students of Electrical Department

Expert Members: Faculty members (EE & Other department) and Eminent Persons from Industry

Proposed Budget

| S.No | Item | Total |
|-------|---|----------|
| 1 | External Faculty remuneration | 15000/- |
| 2 | Printing materials and stationary items | 3000/- |
| Total | | 18,000/- |

Kindly approve the budget of Rs. 18000/- only

yes permitted.
Forwarded to Registrar/Officer
for approval. 8/10/22

Approved

8/10/2022

Dr. Sarfaraz Nawaz
(Head-EE Dept)

|---|---|--|---------------|---------------|----------------|---------------|---------------------------|---------------|--------|---------------|---------------------------|-----------------------------|------------|-------------|---------------------------|----------------------------------|------------------|------------|
| <p>ABOUT SKIT, JAIPUR</p>  <p>Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) has been Ranked No.1 Engineering Institute in Rajasthan by RTU Kota consecutively for the last five years. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier centre of technical education not only in Rajasthan but also in Northern India, which has been realized through efficient and dedicated faculty members, innovative teaching learning methods, and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA). SKIT is only affiliated technical institute in Rajasthan to have earned an A++ grade by National Assessment And Accreditation Council (NAAC).</p> | <p>DEPARTMENT OF ELECTRICAL ENGINEERING</p> <p>The Department of Electrical Engineering is distinctly focused towards integrating academics with cutting edge technology in the field of Electrical Engineering. The B. Tech. Program has been accredited four times in succession by NBA since 2009. Department is also conducting M. Tech. and Ph.D Program in Power Systems specialization. All efforts are subtly harnessed with the aim of preparing the budding engineers to face the challenging dimensions of technical excellence in areas such as Electrical Machines & Drives, Control & Automation, Power Systems Design, Power Electronics and MATLAB Applications. The department puts in consistent efforts for field exposure to students through various research oriented projects taken up for meeting the industry demands. The department offers a perfect blend of Electrical, Electronics and Computer related courses to help students pursue a professional career or higher studies</p> <p>ABOUT THE WORKSHOP</p> <p>The workshop aims at deliberation, sharing knowledge to the target audience about the significance of different tools and their applications. The workshop will going to enhance students knowledge in different specialised areas. The students will get to learn about Industrial Automation, IoT along with an overview on enhancing communication skills in corporate world.</p> | <p>THRUST AREA</p> <ul style="list-style-type: none"> • Python Programming • MATLAB Simulation and Modelling • Hands on PV Syst. Software • Basic of Programming Language • Industrial Automation (IA) and SQL • Internet of Things (IoT) • PCB Design • Soft Skills <p>WORKSHOP SCHEDULE</p> <p>The workshop will be conducted from 13th-15th October, 2022 consisting of three sessions in each day.</p> <table border="1"> <thead> <tr> <th>DATE</th> <th>8:30-10:00 AM</th> <th>10:00-11:30 AM</th> <th>12:30-1:30 PM</th> </tr> </thead> <tbody> <tr> <td>13th OCT 2022</td> <td>Basics of C++</td> <td>MATLAB</td> <td>Basics of IoT</td> </tr> <tr> <td>14th OCT 2022</td> <td>Basics of PV Syst. 7. Schedule of the Workshop: -

The poster features a purple and blue background with abstract shapes. At the top left is the SKIT logo, and at the top right is the Swami Keshvanand Institute of Technology, Management & Gramothan logo. The main title is 'INDUSTRIAL COMPETENT ENHANCEMENT PROGRAM' in large, bold, black letters. Below it is the date '13th-15th OCTOBER, 2022' and '(Day-1)'. The poster is divided into three columns for Session-I, Session-II, and Session-III. Each session includes a circular portrait of the speaker, their name and title, and the topic of the session. The background also features a stylized illustration of a city skyline and a person's head profile.

Industrial Competent Enhancement Program

13-15 OCTOBER, 2022

Certificate of Participation

This is to certify that **Name**
has attended three days workshop on "**Industrial Competent Enhancement Program**" held from October 13-15, 2022 at Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur.

| | | |
|--|--|---|
|  Dr. Ramesh Kr. Pachar Principal SKIT, JAIPUR |  Dr. Sarfaraz Nawaz Head of EE Dept. SKIT, JAIPUR |  Mr. Vikas Mahala Deputy Head of EE Dept.,SKIT |
|  Mr. Tarun Naruka Associate Professor, EE Dept., SKIT |  Mr. Akash Deo Assistant Professor, EE Dept.,SKIT |  Mr. Deepak Saini Assistant Professor, EE Dept.,SKIT |

13. List of Participants who received Certificates: -

| S.No. | Roll No. | Name |
|-------|------------|-------------------------|
| 1 | 21ESKEE001 | Abhay Verma |
| 2 | 21ESKEE002 | Abhinav Srivastava |
| 3 | 21ESKEE004 | Aman Jangid |
| 4 | 21ESKEE005 | Aman Maru |
| 5 | 21ESKEE006 | Ankita Jangir |
| 6 | 21ESKEE007 | Anuj Kanchal |
| 7 | 21ESKEE008 | Arman Mathew |
| 8 | 21ESKEE009 | Ashish Mahawat |
| 9 | 21ESKEE010 | Ayush Gaur |
| 10 | 21ESKEE011 | Badal Saini |
| 11 | 21ESKEE012 | Bhavya Singh |
| 12 | 21ESKEE013 | Chirag Parihar |
| 13 | 21ESKEE014 | Deependra Singh Ranawat |
| 14 | 21ESKEE015 | Devesh Nagar |
| 15 | 21ESKEE016 | Devesh Sharma |
| 16 | 21ESKEE017 | Dipesh Jalwania |
| 17 | 21ESKEE018 | Divya Jain |
| 18 | 21ESKEE020 | Hardik Verma |
| 19 | 21ESKEE021 | Harish |
| 20 | 21ESKEE022 | Harshit Sharma |
| 21 | 21ESKEE023 | Himanshu Choudhary |
| 22 | 21ESKEE024 | Himanshu Yadav |
| 23 | 21ESKEE026 | Kailash Pooniya |
| 24 | 21ESKEE027 | Kalpith Mathur |
| 25 | 21ESKEE028 | Kanika Gupta |
| 26 | 21ESKEE029 | Kanishk Khandal |
| 27 | 21ESKEE030 | Kanishk Saini |
| 28 | 21ESKEE031 | Kannu Sharma |
| 29 | 21ESKEE032 | Karan Mourya |
| 30 | 21ESKEE033 | Kartikey Nehra |
| 31 | 21ESKEE034 | Keshav Gautam |
| 32 | 21ESKEE035 | Khusi Nayak |
| 33 | 21ESKEE037 | Krati Choudhary |
| 34 | 21ESKEE039 | Mohammed Fardeen |
| 35 | 21ESKEE040 | Mohit Jarwal |
| 36 | 21ESKEE041 | Naveen Ghosliya |
| 37 | 21ESKEE042 | Navin Suthar |
| 38 | 21ESKEE043 | Neeraj Godwal |
| 39 | 21ESKEE044 | Nishchay Parashar |
| 40 | 21ESKEE045 | Palak |

| | | |

| 72 | | Arpit Sharma |

14. Day Wise Report: -

Day-1 Session-1

Date: - 13-10-2022

It was the first session of the first day of the workshop on 'Industrial Competent Enhancement Program' organized by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Mr. Kailash Soni (Associate Professor, CS Dept., SKIT). The session was commenced at 08:30 A.M. with a welcome note to the speaker by the student host.

Mr. Kailash Soni Sir first threw light on basic C. He talked about the difference between Procedural Oriented Programming and Object-Oriented Programming. He discussed the history of C++ oriented programming language. In 1980, Bjarne Stroustrup added two languages 'C' and 'Simula67' and defined new Language named it as 'C WITH CLASSES'. Later, in 1983 it was renamed it and defined C++. He gave a brief overview of C++ language. He also elucidated the features of OOPs language. He talked about Object-oriented programming (OOP) which is a style of programming characterized by the identification of classes of objects closely linked with the methods (functions) with which they are associated. He also discussed the features of OOPs language. He briefly explained OOPs language features like class, attribute, operation, data hiding, data abstraction and polymorphism. Lastly, He also briefed about types of inheritance i.e., single level inheritance, multi-level inheritance, multiple inheritance, hierarchical inheritance Concepts and hybrid inheritance.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 10:00 A.M.

Day-1 Session-2

Date: - 13-10-2022

It was the second session of the second day of the workshop on 'Industrial Competent Enhancement Program' organised by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The speaker of the session was Mr. Tarun Naruka (Associate Professor, EE Dept., SKIT). The session commenced at 10:00 A.M. with a heartfelt welcome note from the student host.

Mr. Tarun Naruka first threw light on the importance of MATLAB (Matrix Laboratory) and covered some points, as it provides a huge number of toolboxes to plot the graphs, mathematical computation, algorithm development, data acquisition, modelling simulation and data analysis and visualisation. Then, he introduced the basics of MATLAB to the students. After that he emphasised on Simulink, as it is a platform for simulation and model-based design for dynamic structures and it provides an interactive graphical environment and a customised set of block libraries, and can be extended for specialised applications. He also articulated the matrix in MATLAB, as how a matrix is written in a command window of MATLAB, he performed some operations on a matrix in MATLAB some are

addition, subtraction, multiplication, division, etc. and some special operators Colon(:) used for indexing, vector creation, Semicolon(;) used for ending a row, and it suppresses output of code line, Exclamation point(!) used as an operating system command, Question mark(?) used as meta class of MATLAB class, Single Quotes(' ') used as character array constructed. After that, he enunciated Arrays in MATLAB as it is the most fundamental datatype in MATLAB and arrays are a collection of several values of the same data type. Afterwards, the students interacted with the speaker through the questionnaire session and the speaker resolved all the doubts of the students.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 11:00 A.M.

Day-1 Session-3

Date: - 13-10-2022

It was the third session of the first day of the workshop on 'Industrial Competent Enhancement Program' organized by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Mr. Dinesh Kumar (Assistant Professor, ECE Dept., SKIT). The session was commenced at 12:30 P.M. with a welcome note to the speaker by the student host.

Mr. Dinesh Kumar talked about the projects and work he had done during pandemic for the betterment of society. He motivated students for practical learning and students must make projects with their studies. He explained red node that provides calibration of meter. The students can also easily design any meter with the help of red note technology. He also elucidated that red node color combination in red node provide more efficient triggering. Later, he briefly explained servo motor and stepper motors. Servo Motor are electronic devices and rotary or linear actuators that rotate and push parts of a machine with precision. Servos are mainly used on angular or linear position. He also discussed stepper motor which is a brushless DC electric motor that divides a full rotation into number of equal parts. Later, He talked about lithium-ion battery is a type of rechargeable battery which uses the reversible reduction of lithium ions to store energy. It is the predominant battery type used in portable consumer electronics and electric vehicles. He also briefed about battery management system (BMS) is technology dedicated to the oversight of a battery pack, which is an assembly of battery cells, electrically organized in a row column matrix configuration to enable delivery of targeted range of voltage and current for a duration of time against expected load scenarios. He discussed about an infrared sensor is an electronic device, that emits in order to sense some aspects of the surroundings and can also measure the heat of an object as well as detects the motion. Lastly, he talked about current sensor which is a device that detects and converts current to an easily measurable output voltage, which is proportional to the current through the measured path. He made the students aware about the importance of making projects with your studies.

At last, Mr. Vikas Mahala (Dy. HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 1:30 P.M.

Day-2 Session-1

Date: - 14-10-2022

It was the first session of the second day of the workshop on 'Industrial Competent Enhancement Program' organised by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Dr. Tanuj Rawat (Assitant Professor, EE Dept., SKIT). The session was commenced at 8:30 A.M. with a welcome note to the speaker by the student host.

Dr. Tanuj Rawat briefed the students about the PV SYSTEM SOFTWARE and how this software is benefitted for engineers. He defined this software by taking the example of renewable sources and taught about the Remote Solar Microgrid, hybrid distributed power system that uses a combination of solar and diesel battery technology. Further, he talked about its features and key players in India, and how this software helps us to know what are the proper parameters (radiation, shading analysis and selection of panel, etc.) of solar panels for our location. He explained the importance of this software in the field of solar industries. He took an example of 5 KW system, then PV SYST gave all the parameters like losses, energy graph, direction of plates and range of invertor, etc.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks for his valuable contribution to make this workshop successful. In this way, the session ended at 10:00 A.M.

Day-2 Session-2

Date: - 14-10-2022

It was the second session of the second day of the workshop on 'Industrial Competent Enhancement Program' organized by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Mr. Akash Deo (Assistant Professor, EE Dept., SKIT). The session commenced at 10:00 A.M. with a welcome note to the speaker by the student host.

Dr. Akash Deo started with the objective of the session and told the students that the PCB design is a part of Power Electronics. Then, he elaborated the students about the specification of PCB, some basic components, the material used in the fabrication of the PCB, and use of PCB in various appliances. He explained the definition of PCB, its characteristics, its specifications, structure, rules to design a PCB which is operational, and some important elements in the design of PCB. He also focused on the quality of wires used in the design of PCB and the works done over the PCB to make it operational. He enunciated the students about the difficulties in designing PCB of single and multi-layer, pin diagram and dimensions of PCB, and about the data required for the design of PCB. He briefed the students about the hole mounting & surface mounting device with design and example. He described the students about the schematic design, patterns of the device, about the routing between the elements, and rules of designing a circuit.

Then, he explained the students about the software used to design PCB efficiently i.e., easyeda and alltium designer and get the design printed over the PCB for the fabrication of circuit and the software used by different companies. He also made the students aware about the companies which design PCB, the costing of fabrication and the companies which require PCB designers. At last, the speaker resolves the queries of the students.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 11:00 A.M.

Day-2 Sesssion-3

Date: - 14-10-2022

It was the third session of the second day of the workshop on 'Industrial Competent Enhancement Program' organised by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Dr. Anupriya Singh (Associate Professor, English Dept., SKIT). The session was commenced at 12:30 P.M. with a welcome note to the speaker by the student host.

Dr. Anupriya Singh talked about the importance of the communication skills in the outer world. She emphasised on the aspects of communication i.e., Listening, Speaking, Reading, and Writing and what communication possesses and requires. She talked about the difficulties faced by the human in communication, the causes which makes speaking difficult and the problems in understanding. She enunciated about the difficulties faced in speaking with the help of presentation and told the students to read magazines and English newspaper to improve the communication skills. Then, she talked about how the pronunciation of words affects the meaning of the sentence. She briefed about some content words which are informal by increases the fluency in speaking. She described about some speaking features like fluency, pace of speaking, pitch, rate of delivery, volume, pronunciation, articulation, and the manner of approach over the point which is important. Then, she talked about phonetics (pronunciation of words) and how the stressing over different letters in a word changes its meaning and kind of word. She also made the students practised of some of the words which the students enjoyed and learn a lot about the communication skills.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 1:30 P.M.

Day-3 Sesssion-1

Date: - 15-10-2022

It was the first session of the third day of the workshop on 'Industrial Competent Enhancement Program' organized by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker

of the session was Dr. M.P Sharma (RRVNL, Jaipur). The session was commenced at 08:30 A.M. with a welcome note to the speaker by the student host.

Dr. M.P Sharma first threw light on transmission losses in Rajasthan power system structure. He explained about power i.e., active power and reactive power. He talked about the transmission losses in transmission network that depends upon load on network, load curve, reactive power management operation and function, network design and system operating condition. He explained basic concept of power flow with the help of power triangle. He spoke about that in transmission system shunt reactors and shunt capacitors, both are installed so that as per requirement voltage can be controlled. Later, he moved his focus towards the effect of line power factor on transmission losses. He also explained effect of reactive flow in typical 132/33 KV substation. He elucidated load flow study without and with shunt capacitor bank. He discussed the impact on apparent power flow, current flow, power factor, network voltage, transmission loss, and energy saving.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 10:30 A.M.

Day-3 Session-2

Date: - 15-10-2022

It was the second session of the third day of the workshop on 'Industrial Competent Enhancement Program' organized by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Mr. Kartavya Jain (Co- Founder Seldom India). The session was commenced at 10:00 A.M. with a welcome note to the speaker by the student host.

Mr. Kartavya Jain talked about the importance of algorithms. He talked about algorithms which are a step-by-step procedure, which defines a set of instructions to be executed in a certain order to get the desired output. Algorithms are generally created independent of underlying languages, i.e., an algorithm can be implemented in more than one programming language. He briefed about Python which is a computer programming language often used to build websites and software, automate tasks, and conduct data analysis. Python is a general-purpose language, meaning it can be used to create a variety of different programs and is not specialized for any specific problems. Then, he told students to open Python Compiler. He explained basic python programming. He explained algorithms. He gave students tasks to find out the values of variables in arithmetic operations. He also taught basic arithmetic operations in python programming to students. He gave students brief overview of the basics of python programming. Later, with the help of examples he told them to perform the tasks.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 11:30 A.M.

Day-3 Session-3

Date: - 15-10-2022

It was the third session of the third day of the workshop on 'Industrial Competent Enhancement Program' organised by IEI Student Chapter of Electrical Engineering Department of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur (SKIT). The Guest Speaker of the session was Mr. Ajay Soni (Senior Developer, Seldom India). The session was commenced at 12:30 P.M. with a welcome note to the speaker by the student host.

Mr. Ajay Soni firstly briefed about android which is a open source operating system. Then, he briefed about kernel in android which provides basic services for all other parts of the OS. Kernel also performs memory management. The android kernel is based on a upstream Linux Long Term Supported Kernel. Further, he discussed about the history of android and the importance of android in today's world. HTC is the first commercial company to launch android. He told students that for android development java is required. Later, He explained UI in android which is a graphical representation of views displayed on a smartphone or tablet. It allows users to interact with the features, functions and contents of application. He also briefed about SQL database in which managing of data is held in a relational database management system. In SQL database a lot of operations can be performed.

At last, Dr. Sarfaraz Nawaz (HOD EE Dept., SKIT) presented a vote of thanks and memento to the guest speaker. In this way, the session lasted for one hour and ended at 1:30 P.M.

15. Words of Acknowledgement: -

I believe that guidance, support and blessings are the incomparable qualities that my gratitude to our Chairman, **Shri Surja Ram Meel**, Director, **Shri Jaipal Meel** and Registrar, **Smt. Rachna Meel** for providing unconditional freedom and financial support to execute this student's workshop.

I would like to extend a special thanks to **Dr. M.P. Sharma** (RRVNL) for educating the students on Rajasthan Power System Structure.

I also thanks to Industry experts, who educated our participants in this 3-days' workshop.

I would also like to thank **Dr. S.L. Surana**, Director (Academics) and **Prof. (Dr.) Ramesh Kumar Pachar**, Principal (SKIT) to allow me to execute this workshop in the college campus and your guidance.

I would also thank to **Dr. Sarfarz Nawaz** ji, Head of Electrical Engineering Department, SKIT for consisting contribution in this workshop.

I would also like to thank all the technical and non-technical staff members for providing their valuable time for the successful execution of this workshop.

I would also thank to all our participants and students for their participation in this workshop and my best wishes to all the students for their bright future and life.

Thank
You
