1. About BOSCH India Ltd.:-

The Bosch Group is a leading global supplier of technology and services. It employs roughly 402,600 associates worldwide (as of December 31, 2021). The company generated sales of 78.7 billion euros in 2021. Its operations are divided into four business sectors: Mobility Solutions, Industrial Technology, Consumer Goods, and Energy and Building Technology. As a leading IoT provider, Bosch offers innovative solutions for smart homes, Industry 4.0, and connected mobility. It uses its expertise in sensor technology, software, and services, as well as its own IoT cloud, to offer its customers connected, cross-domain solutions from a single source. Bosch improves quality of life worldwide with products and services that are innovative and spark enthusiasm. In short, Bosch creates technology that is "Invented for life."

2. About SKIT:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industryready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrantpursuit of knowledge by the young aspirants make the environmentserene, pleasant and dynamic.

Students joining the institute share the box full of opportunitiesfor professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation we need to root it out as early as possible."

– Swami Keshvanand

PRINCIPAL
Swami Keshvanand Institute of
Technology, Management & Gramothan
Ramnagar, Jaipur, Rajasthan 302017

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools,

50 hostels and innumerable libraries, social service centers and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavour to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services."

3. :- About SKIT Incubation Cell, Entrepreneurship Development Cell

About Incubation Cell

The institute has an incubation cell named as "SRIJAN" was established in the year of 2016. Objectives are to encourage students to develop innovative projects/products to become job givers instead of job seekers through facilitation in opening start-ups, take up development of industry-sponsored projects, Encourage Faculty /students teams to conduct seminars/trainings on state of art technology platforms otherwise not covered in the syllabus and encourage amongst faculty/students C.F.T Culture for project development.

About Entrepreneurship Development Cell

Entrepreneurship Development Cell "TOPAZ" is a platform for students which are dedicated to the development of multidimensional skills. The cell serves as a forum to bring together the heterogeneous culture of students from various disciplines. Entrepreneurial skills are important for employees and employers both. Entrepreneurial skills, attitude and aptitude are a must for all the students. Since its inception ED cell has been actively fostering Entrepreneurship in its students. Case study workshops, Knowledge Camps are conducted throughout the year to involve students in activities that are essential to an entrepreneur.

Course 1 Skill Entrepreneurship

Skill Entrepreneurship program, unlike many other social entrepreneurship programs, the requirement is not to sacrifice one's professional ambitions for the sake of serving others, but to develop their own Skilling Centres as profitable, sustainable, and scalable ventures that benefit both themselves and the society.

These Skill Centres, to make use of the existing infrastructure available, can be run in the existing educational institutes (like higher secondary schools, colleges, or universities), in-line with the

direction given in New Education Policy to vocationalise higher education.

This program targets to those aspiring skill entrepreneurs who currently work as freelance trainers as well as teachers in junior/degree thereby creating a win-win situation. Simply put, this program will enable the participants in raising themselves while lifting others.

We are confident that Bosch's 60 years of experience in Skilling India will be able to provide the necessary guidance and hand-holding support to these aspiring youngsters who are committed to making a difference in the country.

Nation Building Attitudes & Behaviours

The difference between the poor and rich nations is not the age of the nation. This can be demonstrated by countries, which are many thousand years old and still poor. On the other hand, there are countries like Canada, Australia and New Zealand which, about 150 years back were insignificant, and now are developed and rich.

The difference between the poor and rich nation does not also depend on the availability of natural resources. Japan has limited territory, 80% mountainous, unsuitable for agriculture or farming, but is the 2nd in the world economy. The country is like an immense floating factory, importing raw material from the whole world and exporting manufactured products.

Switzerland is another example, which does not grow cocoa but produces the best chocolates in the world. In her small territory, she rears animals and cultivates the land only for four months in a year, nevertheless manufactures the best milk products. A small country which is an image of security which had made it the strongest world bank.

Executives from rich countries who interact with their counterparts from poor countries show no significant intellectual differences.

The racial or color factors also do not evince importance: migrants heavy in laziness in their country of origin are forcefully productive in the rich European countries.

The difference is the attitude of the people, moulded for many years by education and culture. When we analyse the conduct of the people from the rich and developed countries, it is observed that majority abide by the principles of life, like ethics, integrity, responsibility, the respect for law and regulations, love for work and punctuality etc. In poor countries a small minority follow these basic principles in their daily life.

While these soft skills and attitudes are equally important to each citizen to learn and practice every day, Academic Leaders are in a unique position to emphasize on the same and influence thereby making a significant contribution in Nation Building.

Topics Covered

- ▶ Ethics
- ▶ Integrity
- ▶ Responsibility
- ▶ Respect for laws & Regulations
- ▶ The Respect from Majority of Citizens by Right
- ▶ The Love for Work
- ▶ The Effort to Save and Invest
- ▶ The Will to be Productive
- ▶ Punctuality
- ▶ Attitude of Gratitude

The making of a Developed Country

Most Practice Soft Skills & Attitudes for the Youth & all Citizens

It is not the availability of Natural Resources or the Higher level of Intelligence of people that makes a country 'Developed' but the right Soft Skills & Attitude practiced by its citizens, each day.

Course 3 Future Human Competencies

The world of work is evolving in all industries. Increased automation and rapid technological advancements are beginning to impact many job roles. In this milieu, researchers suggest that not only the nature of jobs will continue to change, but also the types of work-related problems.

According to the World Economic Forum, "The global shift to a future of work is defined by an ever-expanding cohort of new technologies, by new sectors and markets, by global economic systems that are more interconnected than in any other point in history, and by information that travels fast and spreads wide.

Problem Solving Skills

- ▶ Analytical Thinking and Innovation
- ▶ Complex Problem Solving
- ▶ Critical Thinking and Analysis
- ▶ Creativity, Originality and Initiative
- ▶ Reasoning, Problem Solving and Ideation

Self-Management

- ▶ Active Learning for Self-management
- ▶ Learning strategies
- ▶ Resilience, stress tolerance and flexibility
- ▶ Leadership and Social Influence

Technology and Development

- ▶ Market based pressure and incentives
- ▶ Current trends and opportunities in CSR
- ▶ Successful corporate initiatives & challenges of CSR
- ▶ Major CSR Initiatives in India

People management

- ▶ Defining Leadership and Social Influence
- ▶ Importance of Leadership and Social Influence
- ▶ How Do Leaders Lead?
- ▶ Characteristics of a Leader
- ▶ How Does Society Shape and Influence Individuals?

Yet the bounty of technological innovation which defines our current era can be leveraged to unleash human potential. We have the means to reskill and upskill individuals in unprecedented numbers towards the jobs of tomorrow where they will be able to thrive."

This Course focuses on **four groups** of skills comprising of ten top skills which employers see as rising in importance. These include *Problem Solving, Self-Management, Working with People, and Technology Use and Development.*

If these skills are developed well, organizations and their people will be in a much better position to adapt to the unpredictable changes in the future driven by advancements like Artificial Intelligence.

Course 4 Social Responsibility

Social Responsibility is an ethical theory in which individuals are accountable for fulfilling their civic duty, and the actions of an individual must benefit the whole of society. In this way, there must be a balance between economic growth and the welfare of society and the environment.

- ▶ Environmental Responsibility
- ▶ Ethical Responsibility
- ▶ Philanthropic Responsibility
- ▶ Economic Responsibility

Corporate Social Responsibility

The definition of CSR might differ, depending on who is being asked this question. A businessman might call CSR a business strategy while an environmental activist might call it a "greenwash".

Moreover, CSR as a concept has evolved through time. The changing socio-political climate has been a huge influencer in reaching a consensus on the definition of CSR. The handbook not only introduces you to CSR, it also helps you gain knowledge about the minor but extremely relevant aspects of CSR.

Introduction to CSR

- ▶ Defining CSR
- ▶ Evolution of CSR in India
- ▶ Legal Perspective CSR
- ▶ CSR initiatives in India
- ▶ Impact of Globalisation & liberalisation on CSR

Institutional Framework for CSR

- ▶ Sustainable Development Goals
- ▶ UN guiding principles on business & Human rights
- ▶ OECD- CSR policy tools

CSR-Legislation in India

- ▶ Section 135 of Companies Act 2013
- ▶ Scope of CSR activities under schedule VII
- ▶ Appointment of Independent Directors on the Board
- ▶ CSR Implementing Process in India
- ▶ Impact Assessment Tools of CSR

Introduction

What is LSRW?

L-S-R-W is a set of four capabilities that allow an individual to comprehend and produce language for proper and effective interpersonal communication. These skills are **Listening, Speaking, Reading, and Writing**. In the context of language acquisition, the four skills are most often acquired in the order of listening first, then speaking, then possibly reading and writing. Hence, these abilities are frequently called LSRW way of Learning.

Why LSRW is necessary for students?

In present scenario of market **placement patterns, effective communication offers an edge to outshine and showcase one's skills more effectively**. Currently, students who are very good in technical skills are lagging in communication. When it comes to 21st-century skills, most organizations today are looking for employees who can handle challenges, navigate conflicts and communicate with impact. Communication is one of the most sought-after skills in the modern workplace. So, it makes sense to invest time and effort for building these four skills. Whether one is a fresh graduate looking for first job or a seasoned professional who wants to switch careers, LSRW abilities are the four pillars of effective communication that will help in facilitating quick growth in all areas of life.

Why Spoken English ?

Learning a new language is not an easy task. There are many things to consider like difficult grammar rules, extra vocabulary, and even new pronunciation. As an English Second Language (ESL) learner, one might feel nervous about speaking and participating in long conversations. Hence, the need was felt to include a session on speaking skills so as to make the students aware of the importance of speaking and also to guide them how to acquire this skill easily.

This programme aims to provide assistance for the students to acquire the four skills of Language learning to become industry ready.

AIMS AND OBJECTIVES OF THE PROGRAMME

Aims: -

To enable the learner -

- a) to communicate effectively and appropriately in real-life situations.
- b) to develop and integrate the use of the four language skills i.e. Reading, Listening, Speaking, Writing.
- c) to encourage students to think on their own and form their ideas using their experience, knowledge, and imagination than being text or teacher dependent.

Students participating in this workshop will develop their skills in reading, writing and speaking English in an intensive study situation.

Objectives: -

By the end of the course, students should be able to:

1. identify and apply the purpose of listening (e.g., for pleasure, general interest, specific information etc.)
2. listen to a talk and understand the topic and main points and interpret messages conveyed in person or by telephone;
3. listen for information required for a specific purpose (e.g., radio broadcast, commentaries, airport and railway station announcements);
4. understand and respond appropriately to instruction, advice, request and warning.
5. adopt different strategies to convey ideas effectively according to purpose, topic and audience (including the polite expressions);
6. narrate events and incidents, real or imaginary in a logical sequence;
7. take active part in discussions;
8. plan, organise and present ideas coherently by introducing, developing and concluding a topic;
9. present a clear description (e.g., of a place, a person, an object or a system);
10. present a clear account of events (e.g., process, a narrative, a trend or a cause-effect relationship);
11. present an argument or persuasion supporting it with appropriate examples;

Duration of the Programme: 2 Weeks (In Labs as per time-table)

Registration Fee: Free for all the students

Introduction:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning and Gramothan. Today the institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

Average Marks in different Baseline Test:-

Performance Analysis:-

The Performance Analysis is very important aspect in order to identify the training & development opportunities for the students. Here we will be summarizing the students' performance in the Baseline test in brief:

1. The %age marks wise distribution of the students in **Cognitive Baseline Test 1** shown below:-

2. The %age marks wise distribution of the students in **Electrical Engg Baseline Test 1** shown below:-

Analyzing the Accuracy Table:-

Topic	%age Accuracy				
	$\leq 30\%$	$> 30\% \& \leq 50\%$	$> 50\% \& \leq 70\%$	$> 70\% \& \leq 90\%$	$> 90\%$
Synonyms	27	49	58	74	0
Data Interpretation	27	45	54	0	0
Blood Relations	27	43	52	0	0
Coding-Decoding	21	39	0	0	0
Sequence Series	20	39	0	0	0
Simple & Compound Interest	14	38	0	0	0

Recommendations:-

1. The students in category (<50%), need personalized and rigorous training
2. The (>50%) students should resume their learning and practice more tests on platform; training for this set of students can be optional.
3. The (>80%) students are performing well and need to focus on their speed and accuracy.
4. Mentors should conduct input session for the students in the respective topics in which students are having low performance. Topics with area of concern are highlighted with appropriate colors.
5. Students should work upon enhancing their speed and accuracy in the Cognitive Skills especially in Quantitative Aptitude & Reasoning Skills by practicing the test series which they can easily find on the MyPerfectice platform.
6. Strict mail should be sent to absentee students and remind them to attempt the Test.

Thank You

Date: 8.12.22

Notice

Awareness Drive for Resume Building and Self Introduction

It has often been observed that students do not appear prepared with an appropriate resume during the placement drives. They also miss out the opportunity to introduce themselves effectively due to lack of awareness about what is to be highlighted and how to present a strong connection between their resume and their self introduction. SKIT Skill Development Cell is initiating an awareness drive in this area for the students of V Semester of all branches. In this regard, the resume from the students will be collected and the corrected drafts will be shared with the students during the specially designed sessions. The first phase of this drive starts with the students of V Semester CS (A&B) on 9.12.22. The session will take place from 9-10 AM at JC Bose Seminar Hall.

PROJECTS

GUI MENU

Key skills : Python

(July 21, 2022 - July 22, 2022)

In this I create a GUI menu, which contains various applications like word, notepad, excel, gmail etc. A graphical user interface is an application that has buttons, windows, and lots of other widgets that the user can use to interact with your application.

Password Generator GUI Application

Key skill : Python

(July 24, 2022 - July 26, 2022)

In this, I create a simple application that can randomly generate strong passwords using the Python Tkinter module. This application can generate a random password, with the combination of letters, numerics and special characters. One can mention the length of the password based on requirement and can also select the strength of the password.

SKIT SKILL DEVELOPMENT CELL

A SUMMARY OF ACTIVITIES CONDUCTED DURING 2021-22

The Skill Development Cell of SKIT caters to a wide range of developmental activities for its students. The cell focuses on three aspects of assessment, training and grading in the field of communication skills, Soft skills and technical skills. The institute is ready to spread its wings and join hands with the government bodies to assist their students for training and mentoring in the fields of technical and non technical skills. Our faculty members have already been taking training sessions with CEG, Polytechnic Colleges of Rajasthan, RTU and Rajasthan University. The cell conducted the following assessments and training programmes during the previous session:

- I. **Technical Tests by Myperfectice App:** All the students of IV Year were instructed to take technical tests by the app called MyPerfectice. The app falls outside the domain of the institute and proved useful for assessing the technical skills of the students as per the current parameters of technical knowledge.
- II. **Technical Tests by Respective Departments:** All the engineering departments conducted technical tests at their level to judge the foundation of engineering skills. The students who scored low were provided with mentoring sessions to overcome their weak areas.
- III. **Mock Interviews for V Semester Students:** The students of V semester mandatorily appeared for technical and HR based mock interviews. In the same process, the students were graded on their Resumes and necessary corrections were suggested right at the time of the interviews.
- IV. **Mock Interviews for V Semester Students:** The students of V semester mandatorily appeared for technical and HR based mock interviews. In the same process, the students

were graded on their Resumes and necessary corrections were suggested right at the time of the interviews.

- V. **Soft Skills Test for II Year Students:** The students of II year were trained in the various domains of soft-skills and were assessed through a mandatory for all soft- skills test. The students were given short training sessions round the year to understand the behavioural requirements at their professional domain.
- VI. **Communication Test for I Year Students:** The students of I year were trained in the various domains of communication and were assessed through a mandatory for all test for communication. The students were given short training sessions round the year to understand the language and communication based requirements at their professional domain.
- VII. **Infosys Springboard Certification:** The students of I year were motivated and guided for acquiring Springboard certification from Infosys. This is a self learning platform that provides short courses on technical and non technical courses. Each student gets a certificate after successfully passing the final test.
