1. About FDP: -

One week faculty development program on “Recent Trends and Advancements in Computer Science & Engineering” scheduled for the faculty members and research scholars. The objective of this FDP is to form a bridge between the industry and academic Institutions to apprise their knowledge and to impart the basic concepts and techniques of emerging technologies which includes a variety of technology such as Machine Learning, Internet of Things, robotics, Image Processing, Neural networks, Sensors, Greed computing, Blockchain etc. Aim of the FDP is to cultivate the level of technical knowledge and research aptitude of the young faculty members, either doing research or planning to undertake research work under the domain of Computer Science and Engineering, including M. Tech. Scholars.

The Faculty Developing Programme will conduct in eight interesting and knowledge imparting sessions thrilling broad segment of Computer Science Engineering. FDP will cover various domains with different technical sessions imparting knowledge from networks to neural networks, big data to machine learning, research paper writing to thesis writing, etc. This FDP intent to bring together researchers and experts from around the country to discuss and stimulate ideas.

2. About SKIT:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management. The Institute is NAAC accreted by grade A++ and various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA).

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industryready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrantpursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

Students joining the institute share the box full of opportunitiesfor professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation we need to root it out as early as possible."

– Swami Keshvanand

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centers and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavour to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services."

5. Objective of the FDP:-

-  To form a bridge between the industry and academic institutions to update their knowledge.
-  To understand the need of ML and AI in the research community and software industry in India.
-  To appreciate differences between Machine Learning, Deep Learning and Artificial Intelligence.
-  To understand innovative application's need such as Smart City, Smart Health, Smart Manufacturing, Smart Agriculture, etc.
-  To train participants how to design and program the machine learning based system.
-  To build industry capable talent, start-up community and entrepreneurial ecosystem for AI.
-  To understand the reduction of import dependency on AI and promote indigenization.
-  To energize research mind-set and reduce costs in research and development by providing neutral and interoperable, multi-technology stack laboratory facilities.
-  To provide environment for product creation, testing and also for validation & incubation.

6. Content of the FDP:-

-  Introduction to Mathematical model and implementations with ML
-  Research Scope and Recent Trends in cloud computing and IOT.
-  Sensor Networks and sensor Cloud.
-  Introduction to Machine Learning.
-  Introduction to Automation Tool and Techniques
-  Image Processing applications and future scope
-  Research and industrial exposure of Network security
-  Deep learning and its scope

Respect Sir,

We are pleased to inform you that SKIT, Jaipur is organizing a One Week Faculty Development Program on "Recent Trends and Advancements in Computer Science & Engineering" from 21st -25th November, 2022.

As you have immense experience in the area; I shall be extremely privileged if you accept our invitation for the expert lecture. We humbly request you to accept the proposal and kindly indicate your preferred date(s).

Further, for any query you may contact the FDP coordinator(s). As per the Institute norms the honorarium for the expert Lecture will be directly transferred to the expert through NEFT in the personal account.

Kindly send following with the acceptance mail for the successful conduction of program

1. Brief introduction with One Photograph for Introductory Poster
2. Topic of the Expert Talk session
3. Preferred date on November 21 , 2022.

10 STEPS TO A GOOD SURVEY DESIGN

1. Identify what you want to cover in a survey
2. Put questions that are necessary
3. Keep it short and simple
4. Ask one question at a time
5. Avoid using jargons
6. Open-ended questions or closed-ended question?
7. Spend time to design your survey
8. Analyze the responses after collecting
9. Put a summary report together
10. Conclude your plan of action

14. Day to Day Execution of the FDP: -

Department of Computer Science and Information Technology organized a 5 days International Faculty Development Program on Recent Trends and Advancements in Computer Science and Engineering. The FDP is Conducting in Offline mode and the Speaker of first day's Session was Dr. Varun Bajaj Associate Professor PDPM, IIITDM, Jabalpur give her Valuable insight on the AI and Health care and also taking hands on Session for the same and discussed Complex medical problem of Sleep apnea through the Signal Processing and a machine Learning (EEG) techniques. He underlined many examples of the health care in AI and discussed the innovative research ideas in the field of ML and DL. The Program was inaugurated by floral welcome of Guest Speaker Dr. Varun Bajaj. Dr. Mukesh Kumar Gupta (HOD Department of Computer Science and Engineering SKIT, Jaipur) Introduce the Event and Dr. Nilam Chaudhary (Associate Professor of Department CSE) Welcome the esteemed audience by introducing the Session wise events. Dr. Pankaj Dadech (Deputy Head and Associate Professor Department of CSE) gave the vote of thanks. The FDP Session was well coordinated by Ms. Anjana Sangwan Ms. Priyanka Sharma, Ms. Surbhi Sharma and Mr. Rajesh Ranjan.

On the second day first session speaker Dr. Shruti Sharma, AJOU University, South Korea shared her valuable insights on Artificial Intelligence and Machine Learning and discussed Complex Algorithms. The speaker of the second session, Dr. Mamta Rani, Associate Professor and Head, Computer Science, Central University of Rajasthan, took a very interactive session on Network Cryptography and outlined several examples for research. The session was started by Dr. Pankaj Dadhich with floral welcome to guest speaker Dr. Mamta Rani. In the end, Dr. Nilam Choudhary presented the vote of thanks to the guest.

On the day third first session speaker Dr. Preeti Singh Head depart of CSE, JMNIIT Jaipur shared her valuable insights on Deep learning from basics to advanced models. She explained all the seep learning models with examples. In the second half session Dr. Smith Khare, Aaruhs University Denmark took a fantastic hands-on session on python and MATLAB with AI deep learning models.

On the day fourth first session was taken by Dr. Sandeep by in which he gave introductory session on innovations on machine learning and IOT.

Mr. Mohit ji took the afternoon session in which he explained the importance of software testing and hands on session on software testing.

Day fifth Morning session was covered Prof. Vladen Devedzic, Professor CS university of Balgrade, Serbia discussed the importance of academic research and technology used for the same. In the second half, the FDP valedictory session was organized in which certificates were distributed to the participants and coordinators.
