1. About SKIT:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industryready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrantpursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

Students joining the institute share the box full of opportunitiesfor professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation we need to root it out as early as possible."

– Swami Keshvanand

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centers and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavour to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services

About the Workshop

- Data analytics is an essential skill in today's business world.
- Tableau is one of the leading tools for data analysis and visualization, and this workshop will teach you how to use it effectively. Tableau provides a drag-and-drop interface that makes it easy to create visualizations, regardless of users' technical expertise. It has a wide range of visualization types, including bar charts, line charts, scatter plots, maps, and more, and users can customize them with different colors, shapes, labels, and formatting options.
- Tableau also provides advanced features for data analytics, such as calculated fields, parameters, sets, and groups, which allow users to perform complex calculations, create custom metrics, and segment data based on specific criteria.
- This workshop will provide an opportunity to learn about data analytics and Tableau, a powerful data visualization tool with hands-on practice session which will help you enhance your skills and advance your career.

Eligibility Criteria

This workshop is ideal for anyone interested in learning how to use Tableau for data analytics. No prior experience with Tableau is required, but basic computer skills are necessary.

Note:

- **The workshop will be conducted in OFFLINE Mode.**
- **The registration for the workshop is on first come first serve(Limited Seats).**
- **After filling the registration form, you will get an email confirming your registration.**
- **Certificate will be provided to those students who will attend all the sessions and submit assignments including feedback of workshop.**
- **No Registration Fee.**

Resource Person

The sessions of workshop will be taken by experts from various software industry.
