Feedback of Event:-

First and foremost, the choice of theme for this year's Pravah was both captivating and relevant, setting the stage for an immersive and engaging experience throughout the fest. The inauguration ceremony effectively captured the essence of this theme, providing attendees with a glimpse into what promises to be an exciting journey over the coming days.

The organization and execution of the ceremony were impeccable. From the seamless coordination of various segments to the flawless transitions between speeches, performances, and multimedia presentations, it was evident that a tremendous amount of effort and planning had gone into ensuring a memorable event. One aspect that particularly stood out to me was the inclusivity of the ceremony. By incorporating elements from both the technological and cultural spheres, the organizers succeeded in catering to a diverse audience, thereby fostering a sense of unity and community spirit among participants.

Furthermore, I must commend the choice of speakers and performers for the inauguration ceremony. Each presentation was not only entertaining but also thought-provoking, offering valuable insights and perspectives on the theme of Pravah 2024. Whether it was a stirring musical performance, an inspiring keynote address, or a thoughtfully curated video montage, every contribution added depth and richness to the overall experience.

The core aim of this event is to spread joy among the children from underprivileged schools in Jagatpura and Jhalana Kachhi Basti. Through BHAGIRATH, we endeavor to inspire these children to pursue education by rewarding those who excel in their studies with prizes. Our goal is to see big smiles on their faces and ignite a passion for learning within them.

Details (Execution): -

A colourful and memorable social event **BHAGIRATH** is organised in SKIT, every year in college annual fest PRAVAH. This year in the event we invited two schools of under privileged children which are:

Sajal Prakhar Madhyamik Vidhyalaya (Free Education) Kacchibasti, Jagatpura
Sakhi BAL Niketan (Free Education), Kacchi Basti, Jaipur.

The morning commenced with a warm welcome ceremony where approximately 300 children from the aforementioned schools were greeted. Those who demonstrated exceptional academic performance were honored with gifts by our esteemed chief guest, Sh. Dinesh Sharma, a Retd. Chief Engineer PHED, alongside Prof. Dr. S. L. Surana, Director (Academics) of SKIT. The welcome ceremony concluded with a delightful cake-cutting ceremony. Following this, the children indulged in snacks, engaged in various games at food counters, and explored the play zones, thoroughly enjoying themselves.

Following the cultural performances by students from the aforementioned schools, including dance and singing acts, a captivating magic show delighted everyone with its intriguing and unique tricks. Lunch was served in the garden of the girls' hostel, where all the children enjoyed a meal together. The event concluded with the distribution of gifts, stationery, and essential school supplies to all the children, fulfilling the event's objective of bringing smiles to their faces. Coordination of the event was overseen by Dr. Kiran Rathi & Dr. Meenakshi Nawal, with student coordinators Ujjwal Sharma, Shreya Jha, Darsh Agrawal and Manish Singh ensuring its smooth execution.

Objective of Event:- This play was organized by students to spread awareness of ‘Drug Addiction’ among youth. This event would initiate students and our society to think of this spreading evil which is termite-like eating. Through this play we aim to achieve the following:-

- 1) **Education & Awareness-** Inform audience about effects of drug abuse, its effect on mental & physical health.
- 2) **Empowerment-** Empower college students to actively participate in spreading awareness and encourage their peers to live drug-free lifestyle.
- 3) **Breaking Stigma-** Challenge stereotypes associated with addiction and make people understand about consequences of addiction.

Details (Execution):- On 13th March 2024, our college organized a street play (Nukkad Natak) in college premises. The event started at 11:00 am with gathering of performers and spectators. Coordinators, Darshan Suwalka and Kirti Sharma started play with a catching tag line which attracted visitors towards them. This event included 2 acts which conveyed deep message about impact of drug addiction on society.

The first act was about a college boy who took admission in an engineering college, left his home with expectation of getting knowledge and job. First month of his college passed with disappointment and was in stress. To overcome this situation he held hands of his friends who took them in world of drugs. He left his studies and went on wrong track to satisfy his need of drugs. He was arrested by police and was going to be charged with case. His parents requested to set him off. His parents solved his problem and took him out of this quagmire and he stopped taking drugs.

The second act was about domestic violence, where a drunkard husband used to beat his wife for money to get alcohol. No one from neighbour came forward to help her. She made a complaint in police about this and husband was arrested for his crime.

These acts conveyed a meaning of how drugs are eating our life like termite, it also laid stress to quit on consuming drugs and make people aware about it. Our principal praised students for their effort on raising this social issue.

Objective of the event: - To interact with elder's and show gratitude towards them.

Details (Execution):- On *15th March 2024*, our college organized a social event UMANG for the elderly residents of a nearby old age home. The event started at 10:00 am with a warm welcome by applying tilak. After the welcoming ceremony, Poorvanshi, Arnav, Yashveer, Vishal and Varun, our talented college students, performed beautiful songs for our guests. The performance was enjoyed by all, and the guests were left feeling entertained and delighted.

Next, we served cake and breakfast to our guests, they enjoyed the delicious food with joy. This was followed by an interactive session where the elderly guests were able to share their stories and experiences with our students and teachers. We then played the game of 'Housie', which was enjoyed by all and added to the festive atmosphere of the event. The guests were happy to win some exciting prizes.

At 12:30 am, we served lunch to our guests, which they appreciated very much. Finally, at 1:00 pm, the event ended with a heartfelt departure ceremony. We thanked our guests for attending the event and gifted them bedsheets and medicine boxes as a token of our appreciation. The elderly guests left with a smile on their faces, and we were happy to have been able to create a positive and memorable experience for them.

In conclusion, the college fest social event for old age home people was a great success and we are motivated to organize more such events.

Objective of the event:- The objective of the Titan Snake Steps event was to offer a unique and engaging experience to the participants during the Pravah. By recreating the classic game of Snake and Ladder in a human-sized format, our aim was to foster teamwork, strategizing skills, and create a fun-filled environment where participants could enjoy themselves while also challenging their intellect. Additionally, the event aimed to promote camaraderie among participants and provide an opportunity for sponsors like "The Salt Tea House & Bistro" and "The Treasure Box" to engage with the college community.

Details (Execution):-

1. Conceptualization and Planning:

- The event was conceptualized to replicate the traditional game of Snake and Ladder in a larger-than-life format, involving human participants as game pieces.
- A detailed plan was chalked out, including the design and construction of a giant snake and ladder board, creation of promotional materials such as posters, flexes, and digital content like reels and posters.
- Tasks and goodies were strategically placed on certain blocks of the board to add excitement and challenges to the game.

2. Promotion and Marketing:

- Promotional materials were created and distributed across the college campus, including posters, flexes, and digital content, to create awareness and generate interest among the student body.
- Social media platforms were utilized to reach a wider audience and attract participants from other colleges as well.
- Sponsorship from "The Salt Tea House & Bistro" and "The Treasure Box" was secured and prominently featured in all promotional materials, acknowledging their support for the event.

3. Registration and Participant Engagement:

- Two categories of participation were offered: individual and team (of 2).
- Online registrations were accepted through Pravah website along with offline registration through registration desk on the day of the event.

- A total of 25 individual registrations and 37 team registrations were received, indicating significant interest and participation in the event.
4. Event Setup and Execution:
- The event setup included two giant snake and ladder boards, accommodating 5 individuals and 3 teams respectively.
 - Participants were briefed on the rules and objectives of the game before the start of each round.
 - Tasks and goodies placed on specific blocks added an element of surprise and excitement to the game, encouraging active participation and teamwork among participants.
5. Certificates and Prizes:
- All participants were awarded participation certificates to acknowledge their involvement in the event.
 - Winners of each round, both in the individual and team categories, were awarded winner certificates along with a winning prize.
6. Feedback and Evaluation:
- Feedback forms were distributed to participants to gather their opinions and suggestions for improvement.
 - Post-event evaluation sessions were conducted to analyze the success of the event and identify areas for enhancement in future editions.

Objective of the event :- Entertainment

Details :- As the coordinator of a horror discussion event, I am pleased to present this report summarizing the key points and takeaways from the event.

The discussion was held on the March 15th, 2024, at JC BOSE seminar hall. The event was well attended, with approximately 150 horror enthusiasts in attendance. The attendees ranged from juniors to seniors, and all shared a common interest in the horror genre. The discussion was moderated by myself, and I opened the event by welcoming everyone and thanking them for coming.

The attendees had a lively discussion about their favorite horror films and books, and many shared their opinions on what makes a good horror story. Some attendees preferred psychological horror, while others preferred more visceral, gore-filled horror. We also discussed the importance of suspense and tension in horror, as well as the role of music and sound design in creating a scary atmosphere.

One of the more interesting points raised during the discussion was the idea that horror can serve as a commentary on societal issues. Several attendees mentioned that horror can be a way to explore and confront our fears and anxieties, including those related to politics, technology, and the environment.

Towards the end of the discussion, we talked about the future of horror and what trends we might see in the coming years. Some attendees predicted a return to more traditional horror themes, while others speculated that horror would continue to evolve and explore new territory.

Overall, the horror discussion was a success, with attendees sharing their insights and opinions on the genre. It was clear that everyone had a passion for horror, and I hope that this discussion has inspired them to continue exploring the many facets of this fascinating genre.

Objective of the event :- The objective of a treasure hunt is typically to find a hidden object or treasure by following a series of clues or instructions. It's often a fun and adventurous activity that can be enjoyed by individuals or groups, and it usually involves problem-solving and exploration.

Details (Execution):-

The students were informed to come before 15 to 20 mins so that we can explain rules and regulations to them to maintain discipline in the campus. After explaining them we had distributed map of college to them for better understanding. Then we distributed our first clue. As the participants are in large quantity, so to avoid chaos we divided the students and send them to two locations for the first round i.e. open gym and yoga meditation centre. Now the next clue is for college temple. And the next is outside the library where they had to face a bottle flip challenge for next clue. From there they move to cs block where we collect uniform. Then they were given a picture as a clue. The last location is bike parking near gate no 2 where they had to search for the ribbon and the one who come to us with ribbon first is the winner. Every round is an elimination round based on first come first served.

Objective of the Event:

The objective of an escape room is typically to solve a series of puzzles, find clues, and accomplish tasks within a set time limit in order to "escape" from a locked room or series of rooms. The exact objective can vary depending on the theme and storyline of the escape room, but it generally involves using teamwork, critical thinking, and problem-solving skills to uncover secrets, unlock doors, and ultimately find a way out.

Details of the event:***Round 1:***

- Participants receive question sheets hidden within envelopes.
- Envelopes in their row contain book titles, each with a sheet featuring three incorrect answers and one correct answer, along with corresponding page numbers.
- Players select the correct answer and use the provided page number to locate a marked word within the book.
- One team out of three progresses to the next round in each of the four rooms.

Round 2:

- Participants receive question sheets hidden within envelopes in their respective rows.
- Words are decoded into numerical values using a word chart provided in each room.
- Participants add these numbers together until only a single digit remains.
- Three teams are in each room, aiming to advance one team to Round 3.
- There are four rooms in total.

Round 3:

- Participants are given a question slip containing a riddle.
- They must find the answer, and within their row are 16 puzzle pieces.
- These pieces, when assembled in the correct order, form a specific word according to a fixed format.
- Each room contains three teams.
- The round is time-based, with each team's time recorded, and winners determined accordingly

Objective of the event:-

To immerse participants in a realistic and engaging murder investigation scenario, allowing them to apply critical thinking, problem-solving skills, and teamwork to analyze evidence, interrogate suspects, and ultimately solve the crime. Through this experience, participants will gain insights into the complexities of criminal investigation processes, enhance their deductive reasoning abilities, and foster collaboration and communication within teams.

Details (Execution):- Participants were enrolled as a team comprising of maximum of three members. Each team was provided with 2 PDFs on their respective computers which consisted of case file of a murder investigation at a cruise ship. Participants had to infer the murderer before 120 minutes. To evaluate a winner, students were provided with a form that consisted of questions such as motive behind murder, murder weapon and name of murderer. All questions had different weightage and different marks given for a correct answer. Participants were also given a choice to look at clues (life lines) in case they get stuck, but looking at each clue resulted in negative marking. Finally, the team with the highest marks won the event.

News:-

SKIT Roadies was introduced for the first time in the history of Pravah. The objective of the event was to engage participants in a series of playful yet competitive activities to ignite enthusiasm, foster team spirit and create lasting memories.

The participants had to combat physical and mental challenges along with the help of their team members.

This event has contributed in enhancing attributes of students such as fearlessness, camaraderie, creativity, conflict resolution, accountability, etc.

The activities involved in every round were designed in a manner so as to create a lively and enjoyable atmosphere.

The contribution of our sponsors Masala house also contributed to the success of our event.

Details

•Conceptualization and Planning

SKIT Roadies was inspired by the famous TV program 'MTV Roadies' in which contestants have to perform rigorous physical and mental tasks.

The whole event of SKIT Roadies was divided into 2 rounds. Each round involved different tasks and participants had to perform all the tasks without fail to qualify for the successive rounds. This event was held in football ground at 9.00am to 11.00 on 14 March 2024.
