Memorandum of Understanding (MOU) for

Undertaking Skill Development activities under provisions of Flexi-MOU scheme

Between

Rajasthan LSA, Department of Telecommunications
Ministry of Communications, Govt. of India
AND

Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur
Ramnagria, Jagatpura, Jaipur, Rajasthan 302017

This memorandum of Understanding ("MOU") is entered on the 27.03.2023 at
Jaipur, Rajasthan

Between

Rajasthan LSA, Department of Telecommunications, Ministry of Communications,
Govt. of India (Here in after referred to as "DoT"), having its office at Sanchar Bhawan,
Jhalana Institutional Area, Jaipur-302004.

AND

Swami Keshvanand Institute of Technology, Management & Gramothan (Here in after referred to as "SKIT") inspired from the learning's of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning and Gramothan. Today the institute is recognized as one of the centres of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Postgraduate and Graduate Courses in Engineering and Management. The institute is accredited by NACC with A++ grade and is ranked No.1 Institute by Rajasthan Technical University, Kota for last five consecutive years. The UG Programmes of Institute namely Computer science & Engineering, Information Technology, Electronics and Communication Engineering, Electrical Engineering, Mechanical Engineering are continuously accredited and re-accredited by National Board of Accreditation since 2009.

Terms of Agreement:

This agreement shall be in effect as of the date signed by both parties and shall remain in effect for a period of 2 years, unless terminated earlier, and can be renewed with mutual consent thereafter.

Dear Sir

Swami Keshvanand Institute of Technology, Management & Gramothan

(Accredited by NAAC with 'A' Grade)

Approved by AICTE, Ministry of Education, Government of India

Recognized by UGC under Section 2 (f) of the UGC Act, 1956

Affiliated to Rajasthan Technical University, Kota

Areas of Collaboration:

DoT and SKIT will work jointly to promote engineering technologies among youth to provide them opportunity to learn and earn certifications through their active participation in Short Term Vocational Training Programs to be conducted at SKIT centre. DoT & SKIT shall perform the roles stated below to strengthen the intended objectives of MOU.

Objectives of MOU

The primary purpose of this 'Memorandum of Understanding' is to promote cooperation/ collaboration between DoT and SKIT to promote engineering technologies among youth to provide them opportunity to learn and earn certifications through their active participation in Short Term Vocational Training Programs to be conducted at SKIT centre. These programs are to be conducted to strengthen the 'Make in India' and 'Skill India' initiatives of Govt. of India, and are expected to boost the employability of young aspirants at National level.

A. Role of DoT: In view of recent 5G Spectrum auctions & subsequent deployments, a rise in demand for the skilled manpower will be seeing in almost every district of India in next 03 years in 5G domain. It is expected that the huge number of trained workforce will be required for preparation of infrastructure for 5G roll out and maintenance over next few years.

2. 5G will also spur jobs in areas like Internet of Things (IOT), Artificial Intelligence (AI), M2M Communication, Augmented Reality (AR), Virtual Reality (VR) and other areas. Therefore, there is a need to look closely at creation of the talent pipelines to address these emerging opportunities.

3. In this regard, Telecom Sector Skill Council (TSSC) has developed emerging skill courses under national skill Qualification Framework (NSQF) at various levels. National Council of Vocational Education and Training (NCVET) have already approved 13 Qualification Packs (QPs) on 5G oriented roles and 37 Qualification Packs (QPs) on other Telecom related job roles.

4. Coordinate with TSSC and state skill development Missions/ Corporations (SSDM/SSDC) for empanelment of training centres for such courses. Engineering Colleges/ Polytechnics are already allowed by AICTE to run short term skill courses under KARMA scheme.

5. Capacity building of ITI for telecom-oriented job roles.

Swami Keshvanand Institute of Technology, Management & Gramothan

(Accredited by NAAC with 'A'' Grade)

Approved by AICTE, Ministry of Education, Government of India

Recognized by UGC under Section 2 (f) of the UGC Act, 1956

Affiliated to Rajasthan Technical University, Kota

B. Role of SKIT: In view of the above, it is requested to run these 50 Qualification Packs (QPs) in your centre to train the youth to cater the requirement of trained workforces for preparation of infrastructure for 5G roll out and maintenance over next few years.

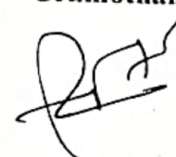

2. To guide and enforce faculty and students to enrol in various 5G related courses or AICTE approved FDP courses on SWAYM /NPTEL Platform.

IN WITNESS WHEREOF, each of the Parties has caused this Agreement to be executed on its behalf by its duly authorized representation hereinafter identified.

1. Objective and Outcome of the event

Objectives

The objectives of the summer training are to:

- Become familiar with mobile network evolution from 1G to 5G.
- Learn the 5G use cases families: M2M and its security.
- Understand principles enabling 5G communications.

Outcomes

Discussing the latest and recent trends in communication System and its security issues and Latest in 5G technologies

To,

Dr. Monika Mathur,
Associate Professor, SKIT, Jaipur

Respected Madam,

As DoT Rajasthan LSA is organizing Regional Seminar on M2M/IoT security and use cases at Jaipur on 18th August, 2023, which would be participated by the senior officers of DoT HQ/TEC/CDoT New Delhi, All TSPs & ISPs of Rajasthan, MP & Gujarat LSA along with DoT officers.

Kindly grace the occasion with your presence by accepting the invitation as guest speaker in the event. The invitation & schedule of the seminar with your due consultation is enclosed herewith, please.

It is also requested to kindly share a brief writeup on your Qualification, Professional Achievements/Awards so that same could be highlighted during your presentation.

For the speakers presenting online, the VC link is: <https://odotmeet.cdof.in/vmeet/pra-0bevis-wdx>

With regards

Pradhyuman Meena

10. Technical Report

As per the MOU between the DOT-LSA and SKIT Prof. Monika Mathur was invited as speaker in the scheduled workshop. The topic of the workshop was M2M /IOT Security and its user cases. Govt. Policies about the securities for IOT technologies were discussed and how the cases for 5G and M2M are now ready to implement were discussed.

What is IOT and what are its beneficial applications, presented by the Prof. Monika Mathur. About the IOT like the Internet of Things can be used in many different aspects of life, in both the private and public sectors. Thanks to IoT, people can track things like lost pets, their house's security systems, or appliance maintenance schedule. Consumers can use the IoT to help them make restaurant reservations, monitor their exercise progress and overall health, and receive coupons for a store only by virtue of walking by the business in question. Businesses can use IoT to monitor supply chains, track customers' spending habits as well collect their feedback, monitor and maintain inventory levels, and engage in predictive maintenance of their machines and devices were discussed in detail.

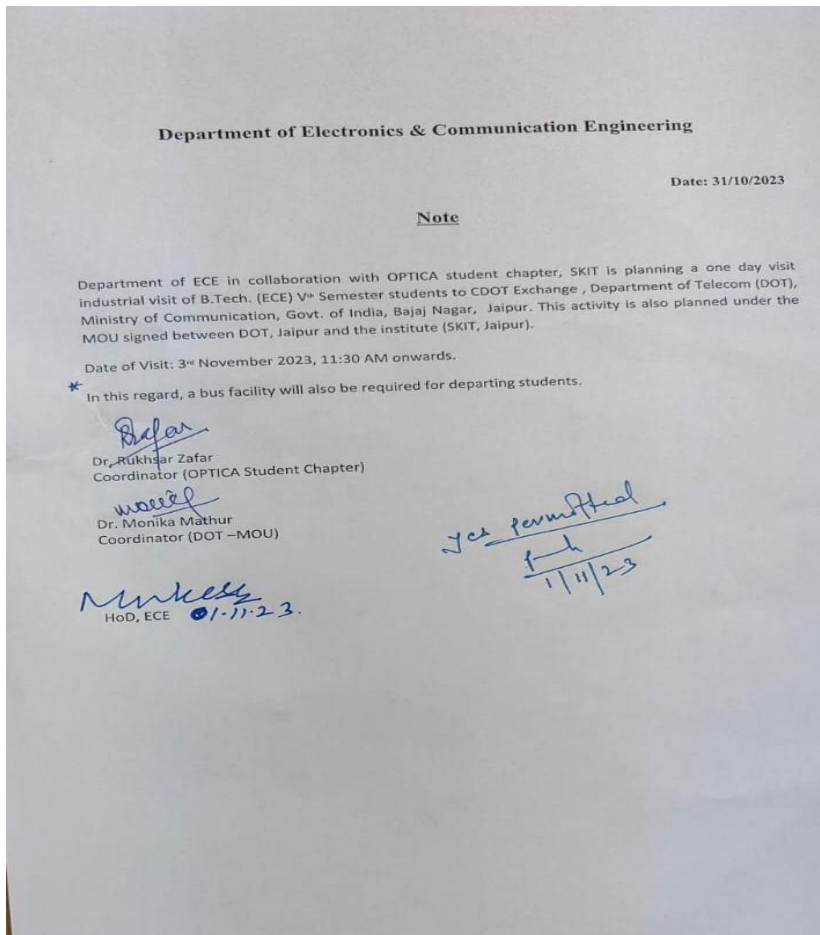

Industrial Visit

Date: - 3rd November 2023, 11:30 onwards.

Venue: - CDOT Exchange, Department of Telecom (DOT), Ministry of Communication, Govt. of India, Bajaj Nagar, Jaipur.

Level of the visit: - College level

Notice for the visit: -

Objective of the event: - The primary objective of the visit was to gain insights into the operations, infrastructure, functioning and technological advancements of a prominent telecommunication service provider in India.

Details (Execution): -

This visit was organized by the OPTICA Chapter. Bharat Sanchar Nigam Limited (BSNL) is a leading government-owned telecommunication service provider in India. Established in 2000, BSNL has a widespread network infrastructure across the country, providing a wide range of services including landline, mobile, broadband, and internet connectivity.

During the visit, we were provided with an overview of the organizational structure of BSNL. The company is divided into various functional departments, including technical, marketing, finance, and customer service. This hierarchical structure enables efficient coordination and management of operations.

We were introduced to the latest technologies employed by BSNL. This included discussions on 4G and 5G technologies, optical fiber networks, and satellite communication systems. The demonstration of equipment used for network maintenance and troubleshooting provided valuable insights into the technical aspects of telecommunication operations.

Throughout the visit, students got the idea about the following concepts:

- Local Telephone Exchange
- Broadband
- PCM/OFC / DWDM
- BTS - GSM System
- MDF
- Battery Power Plant

Students had the opportunity to interact with customer service representatives who shared their experiences in managing customer inquiries and resolving issues efficiently. It was evident that BSNL places a strong emphasis on providing quality customer service.

The representatives at BSNL discussed the challenges faced by the company in a highly competitive telecom market. These challenges included adapting to rapidly evolving technologies, maintaining network security, and meeting the increasing demands for high-

speed internet. We also learned about BSNL's initiatives to innovate and stay competitive in the market.

One of the challenges highlighted during the visit was the increasing demand for high-speed internet services and the need for continuous technological upgrades to meet customer expectations. BSNL's focus on implementing 5G technology and expanding fiber-optic networks was a clear indication of their commitment to staying at the forefront of the industry.

The industrial visit to the BSNL office was an enriching experience that provided valuable insights into the telecommunication industry. We gained a deeper understanding of the operational intricacies, technological advancements, and customer-centric approach of BSNL. This visit has enhanced our knowledge and will be instrumental in our academic and professional pursuits.

33.	Khwaish Saini	22ESKEC052	II	ECE

Feedback of the visit: - The industrial visit to the BSNL office was an incredibly informative and eye-opening experience. It provided students with valuable insights into the operations of a leading telecommunication service provider in India. The visit exceeded their expectations in terms of learning opportunities and exposure to cutting-edge technologies. Students look forward to apply the knowledge and insights gained during this visit in their future studies and career. This will not only broaden their knowledge but will also ignite a deeper interest in the telecommunication industry.

Objective and Outcome of the event

Objectives

1. Highlighting successful technological achievements.
2. Inspiring young students and innovators to pursue advancements in science and technology.
3. Showcasing the possibilities and career paths in science, technology, engineering, and mathematics (STEM)

Outcomes

Participants will be able to:

1. Understand recent technological advancements and innovation in the nation.
2. Discuss the impact of innovations in societal and environmental context.
3. Recognize the need to engage in life long learning in context of technological change.

Feedback of Event:-

The National Technology Day Celebration was a success! Attendees appreciated the insightful talks, expert speakers, and vibrant atmosphere. The focus on 5G advancements and telecom developments captivated the audience. Engaging Q&A sessions and networking opportunities made it a hub of innovation. Feedback was overwhelmingly positive, with many calling for more events like this. A truly inspiring and informative event!

Technical Report

The inaugural ceremony of the regional conclave witnessed the presence of

1. Mr. Brijesh Prajapati, ADG (Telecom) Head of DoT, Govt. of India - Rajasthan
2. Dr. Manish Tiwari, Professor, Dept. of ECE, Manipal University, Jaipur

Swami Keshvanand Institute of Technology, Management & Gramothan Jaipur (SKIT Jaipur), celebrated National Technology Day on 11th May 2024. The event was sponsored by the Department of Science and Technology (DST) Rajasthan and was based on the theme of igniting young minds to innovate. The event was graced by the benign presence of Mr. Brijesh Prajapati, ADG (Telecom), Head of DoT, Govt. of India Rajasthan, Dr. Arvind Samariya, Assistant Director, DST

Jaipur, Sh. Pramil Gupta, DDG Technology, DoT Jaipur and Professor Manish Tiwari, Manipal University. The Guests motivated the students to be an innovative thinker and be capable to approach problems creatively and demonstrate a willingness to try new things. Mr. Prajapati shed light that Technology Day celebrates the innovative spirit of inventors, engineers, scientists, and technologists who have developed groundbreaking technologies that have changed the way we live, work, and communicate. He also shared the recent development in 5G technology and the government plans to improve the deployment in rural areas. Prof. Manish Tiwari emphasized that Technology has the power to empower individuals and communities by providing access to information, education, healthcare, and economic opportunities. Technology Day acknowledges the transformative impact of technology on improving quality of life and promoting social inclusion.

Prof. Mukesh Arora, Head-Dept. of ECE and OFA, SKIT welcomed the guest and highlighted the importance of the role of technology in shaping our world and driving progress. The event was coordinated by Ms. Manju Choudhary and Ms. Priyanka Sharma. Prof. Praveen Kumar Jain, Dy HoD, ECE Department, SKIT presented the formal vote of thanks to the gathering.
