1. About Intellectual Property Rights Cell (IPR Cell)

The Intellectual Property Rights (IPR) Cell is a strategic initiative established by the Internal Quality Assurance Cell (IQAC) of the Institute, aimed at fostering a robust framework for the protection and management of intellectual property. Officially inaugurated on August 19, 2021, the IPR Cell was launched by two distinguished individuals: Dr. Manu Sikarwar, the IPR Project Director at the Department of Science and Technology (DST) Rajasthan, and Dr. D. K. Palwalia, the Dean of the IPR Cell at Rajasthan Technical University (RTU), Kota.

The IPR Cell operates in close collaboration with the Institute's Innovation Cell and Incubation Cell, creating a synergistic environment for innovation and intellectual property management. This partnership enhances the IPR Cell's capacity to serve as a vital entity within the Institute, fulfilling several key functions.

2. Aims and Objectives of IPR Cell

The following are aims and objectives of Institute's IPR Cell:

1. Education and Awareness:

- 1.1 Workshops and Seminars: Organize regular workshops and seminars on intellectual property for students, faculty, and staff.
- 1.2 Educational Materials: Develop and distribute educational materials, including brochures, pamphlets, and online resources, to enhance understanding.

2. IP Policy Development:

- 2.1 Policy Framework: Formulate a comprehensive IP policy that clearly defines ownership, rights, and the procedures for disclosure and protection.
- 2.2 Stakeholder Input: Involve stakeholders, including faculty, researchers, and legal experts, in the development and refinement of the policy.

3. Invention Disclosure Process:

- 3.1 Guidance and Support: Provide guidance and support to inventors during the disclosure process, including workshops and one-on-one consultations.
- 3.2 Confidentiality Assurance: Ensure confidentiality and establish trust to encourage inventors to disclose their inventions without fear of unauthorized disclosure.

4. Patent Filing and Protection:

- 4.1 Expert Consultation: Collaborate with patent attorneys and experts to assess the patentability of inventions.

4.2 Timely Filing: Implement a streamlined process to ensure timely filing of patent applications to protect inventions.

5. Licensing and Commercialization:

5.1 Market Analysis: Conduct market analysis to identify potential licensing opportunities for patented technologies.

5.2 Negotiation Support: Assist in negotiations between inventors and potential licensees to ensure fair and mutually beneficial agreements.

6. Research Collaboration Agreements:

6.1 Clear Agreements: Develop clear and comprehensive research collaboration agreements outlining IP rights, responsibilities, and revenue-sharing mechanisms.

6.2 Dispute Resolution: Include provisions for dispute resolution in case of disagreements among collaborators.

7. Monitoring and Enforcement:

7.1 Regular Audits: Conduct regular audits to monitor the use of intellectual property and identify potential infringements.

7.2 Legal Actions: Work closely with legal experts to initiate legal actions when necessary to enforce IP rights.

8. Technology Transfer Office:

8.1 Dedicated Staff: Assign dedicated staff to manage the Technology Transfer Office and facilitate seamless technology transfer processes.

8.2 Networking: Build a strong network with industry partners to explore potential collaborations and technology transfer opportunities.

9. Documentation and Record Keeping:

9.1 Centralized Database: Establish a centralized and secure database to document and store all information related to IP, including disclosures, patents, agreements, and licensing details.

9.2 Access Controls: Implement access controls to ensure that only authorized personnel have access to sensitive information.

10. Collaboration with Legal Experts:

10.1 Legal Workshops: Arrange workshops and sessions with legal experts to keep stakeholders informed about evolving IP laws and regulations.

10.2 Legal Advisory Services: Provide ongoing legal advisory services to address specific queries and concerns related to intellectual property.

11. Promotion of Innovation and Creativity:

11.1 Incentive Programs: Introduce incentive programs such as awards, recognition, and grants to encourage innovation and creativity.

11.2 Incubation Support: Collaborate with incubation centers to support the development and commercialization of innovative ideas.

12. Ethical Considerations:

12.1 Code of Ethics: Establish a code of ethics related to intellectual property to guide the behavior of all stakeholders.

12.2 Ethics Training: Conduct training sessions on ethical considerations in intellectual property management.

By addressing these detailed aspects, IPR Cell can effectively manage and maximize the value of intellectual property within institute thereby fostering innovation and contributing to the institute's overall success.

About Seminar

Online Payment Systems and Prevention of Frauds

"Online Payment Systems and Prevention of Frauds" is a hypothetical event created for the purpose of generating a sample report. The content and details provided in the report are fictional and intended to serve as a template or example for creating an official report for a seminar on online payment systems and fraud prevention.

If there have been real-world developments or events related to online payment systems and fraud prevention since then, I wouldn't have information on those specific occurrences. Please verify with up-to-date sources to obtain the latest and accurate information regarding any developments in the field of online payment systems and fraud prevention.

The policies for "Online Payment Systems and Prevention of Frauds" are designed to create a secure financial ecosystem. This includes the implementation of robust user authentication measures such as multi-factor authentication and device authorization, as well as the adoption of encryption standards like SSL/TLS to safeguard sensitive data during transmission. Continuous transaction monitoring with real-time analysis and predefined thresholds ensures the prompt detection and prevention of suspicious activities. Strict due diligence on vendors and third-party security, coupled with the use of advanced fraud detection systems leveraging AI and machine learning, forms a critical component of these policies. Moreover, user education through regular security training, clear communication channels for reporting, and compliance with legal frameworks and data protection laws contribute to a comprehensive approach. Regular audits, patch management, and collaboration with industry stakeholders for information sharing further enhance the effectiveness of these policies in the dynamic landscape of online payments and fraud prevention.

The realm of "Online Payment Systems and Prevention of Frauds" confronts significant challenges, including the perpetual evolution of cybersecurity threats, ranging from sophisticated attacks to the persistent risk of data breaches. Ensuring robust user authentication mechanisms remains a concern due to the vulnerability of credentials to theft and the imperative to strike a balance between fraud detection and minimizing false positives in transaction monitoring. The rise of mobile payments introduces new risks associated with device security and the potential for compromised smartphones. Adapting to a dynamic regulatory landscape, addressing algorithmic challenges in machine learning, countering social engineering attacks, and mitigating insider threats add layers of complexity. Furthermore, integrating emerging technologies like blockchain and managing cross-border transactions pose additional hurdles. Successfully navigating these challenges requires a multifaceted approach, combining technological innovation, user education, cross-industry collaboration, and a proactive stance against emerging threats.

Online payment systems play a crucial role in facilitating electronic transactions over the internet. They provide a secure and convenient way for individuals and businesses to send and receive money, make purchases, and conduct financial transactions without the need for physical currency. Preventing security breaches and ensuring the safety of online payment systems is crucial to maintaining trust among users and safeguarding sensitive financial information. The regulatory framework and compliance landscape for online payment systems are essential components to ensure the security, transparency, and legality of financial transactions. Different regions and countries may have distinct regulatory bodies and requirements. Industry perspectives and best practices in the realm of online payment systems evolve as technology advances and user behaviors change. The seminar fostered collaboration among industry experts, facilitating a panel discussion on best practices in fraud prevention. Case studies illuminated successful strategies employed by organizations in mitigating risks and responding to emerging threats. The importance of cross-industry collaboration in sharing threat intelligence and collectively enhancing security measures was a recurring theme.

"Online Payment Systems and Prevention of Frauds" provided a rich platform for participants to gain insights into the complexities of the digital financial landscape. The challenges outlined underscored the urgency for a holistic and adaptive approach to fraud prevention. The seminar served not only as an information-sharing forum but also as a catalyst for ongoing discussions and collaborations essential for safeguarding the integrity of online payment systems.

About Seminar

IPR Policies

Financial planning is a systematic and strategic approach to managing one's finances to achieve specific life goals and secure a stable financial future. It involves assessing the current financial situation, setting realistic and measurable goals, and developing a comprehensive plan to achieve those objectives. Key components of financial planning include budgeting, savings, investments, debt management, retirement planning, insurance, tax planning, and estate planning. By creating a well-structured financial plan, individuals can navigate through various life stages with confidence, whether it be buying a home, funding education, or retiring comfortably. A successful financial plan is not static but evolves over time to adapt to changing circumstances and goals. It provides a roadmap for making informed financial decisions, optimizing resources, and mitigating risks. Ultimately, financial planning empowers individuals to take control of their financial destinies, ensuring financial security and the ability to meet both short-term and long-term aspirations.

Labour Policies

The "Awareness Seminar on Financial Planning" is a comprehensive educational event designed to empower participants with the knowledge and tools necessary to make informed decisions about their financial well-being. The seminar delves into the core principles of financial planning, beginning with the basics such as budgeting, savings, and assessing financial health. Participants will gain a deep understanding of various investment options, retirement planning strategies, and effective debt management techniques. The seminar also covers the critical aspects of insurance, tax planning, and estate planning, providing a holistic view of how these elements contribute to overall financial stability. Through real-life examples, case studies, and interactive discussions, attendees will have the opportunity to apply the concepts learned to their own financial situations. The seminar not only imparts valuable information but also encourages a proactive approach to financial decision-making, fostering a sense of empowerment and control over one's financial future.

About Workshop

- The workshop on "Intellectual Property: Protecting Innovation and Creativity" serves as a platform to educate participants about the importance of safeguarding intellectual property (IP) rights in the context of innovation and creativity. Through interactive sessions and expert-led discussions, attendees gain insights into various forms of IP, including patents, trademarks, copyrights, and trade secrets, and their role in fostering innovation-driven economies. The workshop delves into the legal frameworks and best practices for IP protection, equipping participants with the knowledge and tools necessary to navigate the complexities of IP law and effectively manage their intellectual assets.
- Moreover, the workshop facilitates dialogue among stakeholders from diverse backgrounds, including entrepreneurs, inventors, legal professionals, and policymakers, fostering a collaborative environment for sharing experiences and addressing challenges related to IP protection. By raising awareness about the value of IP rights and providing practical guidance on strategies for IP management and enforcement, the workshop empowers participants to leverage their innovations and creative works while mitigating risks associated with infringement and unauthorized use. Ultimately, by promoting a culture of respect for intellectual property, the workshop contributes to fostering an environment conducive to sustained innovation and economic growth.

About Conference

The rapid growth of startups within the vibrant Indian entrepreneurial environment has brought about a real transformation. Propelled by creativity and determination, these nascent businesses are breaking barriers and reshaping the Indian economic scene. Yet, in the fast-paced world of startups, there is still one crucial issue that needs attention- Intellectual Property Rights (IPR).

In pursuit of safeguarding and fostering the rights associated with Intellectual Property (IPR) for startups, and as a means to nurture innovation and creativity within this demographic, the government, under the leadership of Prime Minister Narendra Modi, introduced the 'Start-Ups Intellectual Property Protection (SIPP)' initiative in 2016. Subsequently, this scheme underwent a revision in November 2022. An entity actively engaged in advancing this cause is Einfoolge Technologies.

This distinguished organization has emerged as a prominent institution in the dynamic landscape of intellectual property (IP) services, extending a diverse spectrum of knowledge solutions across various domains. Einfoolge Technologies specializes in patent research, patent analytics and market research. The company boasts a seasoned team of professionals well-versed in various aspects of intellectual property, ensuring the delivery of high-quality and reliable services.

Panel Discussion

Technical Report of Workshop

On the occasion of World Intellectual Property Rights (IPR) Day, the IPR Cell of SKIT M&G Jaipur organized an enlightening international conference titled "Navigating the Future: IPR and Innovation Ecosystem." The event witnessed esteemed guests, thought-provoking discussions, and insightful deliberations on the role of intellectual property in shaping the future of innovation.

The conference commenced with a warm welcome address by Mr. Jaipal Meel, Director of SKIT Jaipur, who emphasized the importance of fostering an innovation-friendly environment. Following this, Prof. S L Surana, Director of Academics, shared his wisdom on navigating the complexities of the innovation landscape.

Dr. Savita Choudhary, the convener of the IPR Cell, provided an overview of the conference, highlighting its significance in promoting awareness and understanding of intellectual property rights.

The event's distinguished Chief Guest, Prof. Anand Bhalerao, Hon'ble Vice Chancellor of Central University of Rajasthan, shared his wealth of experience in innovation, providing practical examples to illustrate his insights. Additionally, the Guest of Honor, Dr. Mohit Gambhir, President of Verispire Corp, USA, captivated the audience with his profound understanding of innovation and intellectual property, emphasizing the significance of World IP Day.

A compelling panel discussion on the theme "IP and the SDGs: Building our common future with innovation and creativity" ensued, moderated by Dr. Puneet Sharma, Media Adviser of Smart India Hackathon, Ministry of Education, and Anchor at Doordarshan. The panelists, including Dr. Bharati Jain, Advocate & Patent Agent; Mr. Prateek Shrivastava, Patent Attorney & Founder of PNA Intellectual Property & Technology Attorneys; and Dr. Jitendra Sharma, Assistant Controller of Patents & Designs at the Indian Patent Office, engaged the audience with their expertise and real-world experiences engaged the audience, enriching the discourse on the intersection of intellectual property and Sustainable Development Goals (SDGs). Through insightful discussions, attendees gained valuable insights into leveraging innovation and creativity to shape a brighter future.

"The event left faculty members and students spellbound with its enriching discussions, providing a robust platform to participants. Esteemed members of the IPR cell, including Dr. P K Jain, Dr. Rishi Vyas, Dr. Geetika Patni, Dr. Praveen Saraswat, Dr. Manasvi Dixit, Dr. Sunita Gupta, Dr. Smriti Jain, Mr. Rajesh Rajan, and Mr. Pawan Patidar, who graced the occasion with their presence.

विश्व बौद्धिक संपदा अधिकार (आईपीआर) दिवस पर , एसकेआईटी एम एंड जी जयपुर के आईपीआर सेल ने "नेविगेटिंग द फ्यूचर: आईपीआर एंड इनोवेशन इकोसिस्टम" शीर्षक से एक अंतर्दृष्टिपूर्ण अंतर्राष्ट्रीय सम्मेलन की मेजबानी की। बौद्धिक संपदा अधिकारों के बारे में जागरूकता बढ़ाने के लिए प्रतिवर्ष आयोजित होने वाला यह कार्यक्रम विश्व बौद्धिक संपदा दिवस 2024 के लिए डब्ल्यूआईपीओ द्वारा घोषित आधिकारिक थीम पर केंद्रित है: "आईपी और एसडीजी: नवाचार और रचनात्मकता के साथ हमारे सामान्य भविष्य का निर्माण।" केंद्रीय विश्वविद्यालय, राजस्थान के माननीय कुलपति प्रोफेसर आनंद भालेराव और वेरिस्पायर कॉर्प, यूएसए के डायरेक्टर डॉ. मोहित गंभीर सहित सम्मानित अतिथियों ने अपनी उपस्थिति से इस अवसर की शोभा बढ़ाई। सम्मेलन की शुरुआत एसकेआईटी जयपुर के निदेशक श्री जयपाल मील द्वारा प्रतिभागियों और अतिथियों के स्वागत के साथ हुई, जिसमें नवाचार-अनुकूल वातावरण को बढ़ावा देने के महत्व पर जोर दिया गया। अकादमिक निदेशक प्रोफेसर एस एल सुराणा ने नवाचार की जटिलताओं को समझने में अंतर्दृष्टि प्रदान की।

आईपीआर सेल की संयोजका डॉ. सविता चौधरी ने बौद्धिक संपदा अधिकारों के बारे में जागरूकता को बढ़ावा देने में सम्मेलन के महत्व पर प्रकाश डाला। प्रोफेसर आनंद भालेराव और डॉ. मोहित गंभीर ने भविष्य को आकार देने में नवाचार और बौद्धिक संपदा की महत्वपूर्ण भूमिका पर जोर देते हुए अपनी विशेषज्ञता साझा की। डॉ. पुनीत शर्मा द्वारा संचालित "आईपी और एसडीजी: नवाचार और रचनात्मकता के साथ हमारे सामान्य भविष्य का निर्माण" विषय पर एक प्रेरक पैनल चर्चा में डॉ. भारती जैन, श्री प्रतीक श्रीवास्तव और डॉ. जितेंद्र शर्मा जैसे विशेषज्ञों का आकर्षक योगदान रहा। . उपस्थित लोगों ने उज्ज्वल भविष्य के लिए नवाचार का लाभ उठाने में मूल्यवान अंतर्दृष्टि प्राप्त की।
