Swachhata Pakhwada 2.Cleanliness Awareness Session

Date: - 27th October 2023

Venue: - Netaji Subhash Chandra Bose Govt. School, Jagatpura, Jaipur

Level of the event: - College level

Objective of the event: - The main objective of the Swachhata Pakhwada Session is to educate students about the significance of cleanliness, promote personal hygiene, ignite scientific curiosity, enhance scientific literacy, and motivate them to consider careers in science and technology.

Details (Execution): -

This Session was an initiative organized by the Gramothan Club, Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur. This session aimed to promote the importance of cleanliness, personal hygiene and scientific motivation among the students.

This session consisted of visit to a notable school near SKIT, Netaji Subhash Chandra Bose Govt. School. It sought to educate and motivate students, instilling in them a deeper understanding of cleanliness and a heightened interest in science.

The dedicated team from the Gramothan Club played a pivotal role in this session. They engaged with the students, to comprehend their challenges related to cleanliness and academics problems were also taken into consideration and offer solutions. The faculty member Dr. Kiran Rathi (ECE Dept.), who joined the Gramothan session engaged in constructive interactions with the principal, teaching staff and students of the school. During this session they provided a comprehensive understanding of the importance of cleanliness in our daily lives.

The discussion during the session took a comprehensive approach to improving cleanliness and scientific motivation, addressing not just surface-level aspects but also the overall development of the students. The team elaborated on how the suggested solutions would benefit the school and most importantly the students in the context of cleanliness and scientific motivation.

The proposals put forward by the Gramothan team were driven by a dedication to enriching the learning environment and fostering a nurturing atmosphere for both educators and students. Their insights and recommendations were intended to initiate positive transformations within the schools, making them more conducive to effective teaching and meaningful student development.

Dr Kiran Rathi played a crucial role to instill a sense of responsibility, hygiene and environmental stewardship among the students, fostering a cleaner and healthier environment. The students, Shreya Jha, Darsh Agerwal and Ashita Bansal also played a crucial role in organizing and managing the session.

During the session, the team not only discussed about the significance of cleanliness in safeguarding their health but also offered valuable insights into various subjects, particularly Science and Technology. The initiative went beyond the confines of classrooms as the team actively engaged in fun and educational activities with the students, further enhancing their learning experience.

In essence, Session organized by the Gramothan Club concluded with a call to action, encouraging students to apply their scientific curiosity in preparing innovative projects for science exhibition, while actively promoting cleanliness within the school and the community. By carrying forward these lessons, we hope students will contribute to a cleaner, healthier and more scientifically curious environment.
