Details/List of invited guest/speakers:-To speakers were invited from Vision World Tech.

1. Mr. Saurabh Sharma
2. Mr. Pallav Rawal

Objective of the event:-Main purpose of the workshop is to make familiar all the students about Microcontroller like Arduino and various types of sensors and IOT based equipment's like GPS, RF id reader and tag, Fire sensor etc.

Details (Execution):-

In this workshop speaker Mr. Pallav Rawal brief all the attendees about microcontroller and microprocessors by stating most common differences between microcontroller and microprocessor.
After telling about most basic differences and their uses speaker started to introduce all the attendee about most common microcontroller Arduino UNO and mega.

Speaker started giving all the necessary information about Arduino like their input pins, digital pins, analog pins, pins with pwm capability, Atmega 328 and input and output ports.

After this speaker started telling students about its programming and simulation. For simulation we use tinker cad online simulator. For programming Arduino we use Arduino ide. First they demonstrate how to code for Arduino and how to upload it to Arduino usingArduino ide.

Then speaker started simulation of Arduino on tinker cad with a basic LED blinking program. After simulation speaker show some sensors to all the attendee and brief them about their uses in daily life.
