About The Club:- Embedded Club strives to impart enthusiasm and passion for electronics and allied fields among students of ECE. The club aims to uncover those key topics that are not part of the curriculum or just grazed upon by the syllabus. The functions of the club are to deal from basics of electronics to the peak of it. This club, for sure, will help the students not only in their studies but also in their career.

The club helps the students by integrating their skills in the various fields of Engineering & technology, to cope up with the highly competitive environment. This club motivates the students to pursue research in the field of Embedded Design and to get funded projects in Embedded Domain. This club aims to orient students towards practical implementation of theoretical knowledge with innovative ideas in embedded field and to meet industrial expectation and social needs with ethical and global awareness.

The activities of the club include:

- Introductory Session
- Awareness on Embedded Systems
- Guest Lectures
- Workshops & Seminars

Objective of the club: -

1. To make the students conceptually and practically knowledgeable on the upcoming Embedded System Technologies.
2. To create a platform for sharing innovative ideas and to develop research based activities.

Outcomes of the club: -

1. Understand hardware and software design requirements of embedded systems.
2. Analyze the embedded systems' specification and develop software programs.
3. Evaluate the requirements of programming Embedded Systems, related software architectures and tool chain for Embedded Systems.

Details of Registered Students (1st to 4th year):-

Sr. No.	Name	Roll No.	Year	Branch
1	Aaditya Bansal	B230261	1	CS
2	Aayush Jha	B231172	1	ECE
3	Abhimanyu Singh Rathore	B230519	1	ECE
4	Aditya Bagdi	20ESKCE006	4	CE
5	Aditya Kumar	22ESKCA010	2	CS-AI
6	Aditya Kumar Singh	B230349	1	ECE
7	Advika Sharma	22ESKCX006	2	CS-DS

Yearly Calendar (List of Activities):-

Sr. No.	Date	Name of The Activity	Description	Remarks (if any)
1.	14 October 2023	TinkerCAD Workshop	This workshop will expose students to new possibilities of making circuits come to life and catch any errors if present.	
2.	14 March 2024	Circuit-A-Thon	It is a circuit-based treasure hunt is to have fun while solving electronic puzzles and challenges related to circuits.	
3.	29 April, 2024	Workshop on Proteus	This workshop will expose students to new possibilities of making circuits come to life and catch any errors if present	
4.	8 May 2024	Workshop on L293N Motor Driver	This workshop will expose students to new possibilities of making robots and other embedded system which uses motors in them.

NOTICE TINKERCAD WORKSHOP

"Embedded Club" is conducting an online session on 14 October 2023 on the topic TinkerCAD

In this session the students will learn how to microcontrollers work and how different sensors are used with microcontrollers.

Date - 14th October 2023

Timing - 9 PM to 10 PM

Venue - Online

Notice

Embedded Club Event

All the students are hereby informed that we are conducting an event "Circuit-a-thon" as a Pravah event. Show your presence to make this event more enthusiastic. Details are mentioned below

Event Particulars:

- Date: 14-03-2024
- Time: 9:00 AM to 11AM
- Venue: 101, CS Block

Faculty Coordinators:

Mrs. Priyanka Sharma
(Department of electronics and communication)

Dr. Vikas Pathak
(Department of electronics and communication)

Pravah Coordinator:

Mr. Abhishek Gupta
(Department of Electrical Engineering)

Objective of event:- The objective of a circuit-based treasure hunt is to have fun while solving electronic puzzles and challenges related to circuits. It's a creative way to test your circuit knowledge in a hands-on and exciting adventure.

Details (Execution):-

- The participating teams were first provided with a blank circuit which had missing components in it.
- They were also provided with a map of the college where the location of the QR codes were given.
- On the provided location the participants scanned the QR and were given a puzzle/riddle in which they had to solve to get the location of the next QR.
- After collecting all the clues, they had to place all the missing components in the blank circuit and stimulate it.
- If the simulation works, then they have to calculate the amount of current flowing in it by calculating it theoretically.
- The team which took less time in collecting and solving the circuit was finally declared as the winner.

Details of the Faculty Coordinators:-

Sr. No.	Name of the teacher	Department
1.	Ms. Priyanka Sharma	ECE
2.	Dr. Vikas Pathak	ECE
