Mentoring Sessions Conducted:

VRITTANT: Memories from the Alumni

SKIT Alumni Association organized *VRITTANT: A special interactive session* for the newly admitted students of B.TECH first year and MBA. Mr. Mahendra Beniwal and Dr NehaPurohit welcomed the alumni and acknowledged their precious presence. The event witnessed a galaxy of alumni from India and abroad. MrPiyush Sharma from the second batch talked about the glaring gaps between education in India and abroad. Currently working in Australia, Mr. Sharma emphasizes introducing the practical dimension of imparting education. Many other alumni stressed enhancing skills to lead in the life ahead. They highlighted the importance of communication and soft skills. Ms.IshaSinghal, a wellness entrepreneur, maintained that the most important thing in life is to keep redefining success at different stages of life. The alumni also rejoiced in some old memories and laughed their hearts out while remembering the funny moments. The freshers asked myriad questions on self-improvement and preparation for the professional life ahead. The event was coordinated by Mr.Sitaram Saini and Mr Ajay Bharadwaj. The Heads of various departments were present during the show to encourage their former students. The alumni assured their juniors of mentoring of all kinds.

DEPARTMENT OF ELECTRICAL ENGINEERING

Synergy-2023

A REPORT ON ALUMNI INTERACTION WITH MS. KANISHKA MATHURIA

A ninety minute interaction with the eminent alumni of the Institute, Ms. Kanishka Mathuria (A3 Logic, Jaipur) was organized by the Department of Electrical Engineering (Alumni Cell) on 24th August 2023, Thursday, at 08:30 am. The event was coordinated for the students of II Year B.Tech. More than 80 students attended the session.

Ms. Kanishka Mathuria commenced the session by briefly introducing herself and her academic background.She had graduated from our esteemed institution with a bachelor's degree in Electrical Engineering and had always been passionate about technology, albeit in a different domain than she eventually pursued in her professional life. She explained the challenges she faced while transitioning to a different field and how she realized her passion for coding and software development. Learning JAVA and the fundamentals of software development required intense dedication and self-study. She highlighted the significance of internships and personal projects, she narrated her job hunting experience and how she eventually secured a position at a renowned JAVA development company. The alumni interaction session with Ms. Kanishka Mathuria provided several takeaways for current students.

The alumni interaction session with Ms. Kanishka Mathuria was a valuable experience for the students at our college. It showcased that a determined individual with the right mindset can successfully transition from a non-tech background to a tech-related career. Her journey from Electrical Engineering to JAVA development served as an inspirational example, emphasizing the importance of passion, dedication, and networking in achieving one's career goals.

A REPORT ON ALUMNI INTERACTION WITH MR. ISHANT BHATIA

On 19-08-2023, Saturday, a highly informative and engaging alumni interaction session aimed at shedding light on government job opportunities for electrical engineers and sharing insights into placement prospects in the electrical department. The session was held is of ninety minutes and it was attend by a diverse group of students, and faculty members who have excelled in the field of electrical engineering.

Mr. Ishant Bhatia shared their personal journey and emphasized the vast opportunities available in the field of electrical engineering, especially in government sectors. The talk covered government departments, PSU's(public sector undertakings), and the consecutive exams that aspiring engineers should be aware of. He also presented information on the ongoing and upcoming opportunities in the electrical department within the college. This includes updates on collaborations with industry partners, recent recruitment drives, and the skills in demand.

The interactive session of Mr. Ishan Bhatia is not only educated students about various career paths but also inspired and motivated them to excel in their field. The insights provided by eminent alumni of our institute will undoubtedly guide students in making informed decisions regarding the career choices.

About the Program:

The startup industry continues to experience rapid growth and innovation, creating diverse employment opportunities across various sectors. With an emphasis on disruptive technologies, digital transformation, and agile business models, startups are seeking individuals with a dynamic skill set and a proactive approach to problem-solving. Startups are actively recruiting for roles such as software developers, data scientists, digital marketers, product managers, business development specialists, and user experience designers. Additionally, there is an increasing demand for professionals with expertise in artificial intelligence, blockchain, cyber security, and sustainable technologies.

Key Objectives

- Industry Awareness and Education
- Skill Empowerment and Development
- Networking and Collaboration

- Inspiration and Innovation

Key Outcomes and Insights:

- The seminar shed light on the growing demand for professionals in specialized roles, including data analytics, digital marketing, product management, and business development. Participants gained a deeper understanding of the skills and expertise required to succeed in these diverse job functions within startups.

- The seminar emphasized the significance of soft skills such as communication, adaptability, and problem-solving abilities in the context of startup environments. Attendees recognized the pivotal role of interpersonal skills in fostering effective teamwork and driving innovation within a fast-paced and dynamic work setting.

- Speakers emphasized the value of cultivating an entrepreneurial mindset, highlighting the significance of taking initiative, embracing risk, and learning from failure. Participants were encouraged to develop a proactive approach to problem-solving and to leverage their creativity and critical thinking skills to contribute meaningfully to the growth of a startup.

- The seminar underscored the importance of building a robust professional network within the startup community. Attendees were encouraged to leverage networking opportunities to establish meaningful connections, gain industry insights, and explore potential career prospects within the startup ecosystem.

About the Program:

Fostering an entrepreneurial mindset in education is crucial for equipping students with the skills and mindset necessary to thrive in a rapidly evolving and competitive global landscape. By incorporating entrepreneurial principles into educational curricula, institutions can cultivate a culture of innovation, critical thinking, and proactive problem-solving among students, preparing them for success in various professional endeavors and encouraging a mindset of continuous

learning and adaptation.Encouraging the entrepreneurial spirit can be a driver for economic growth and contributes to wealth and job creation. As the entrepreneurial spirit is important for the economy the fostering of the entrepreneurial mindset in the educational sector is important. Entrepreneurship education can contribute to the development of the mindset.

Key Strategies

- Encouraging Creative Thinking
- Cultivating a Risk-Tolerant Environment
- Promoting Hands-On Learning Experiences
- Nurturing Collaboration and Communication Skills
- Instilling a Sense of Social Responsibility

Key Objectives:

- Promoting Awareness and Understanding
- Sharing Effective Strategies and Best Practices
- Encouraging Collaboration and Networking
- Inspiring Innovation and Adaptability
- Empowering Student Success

Key Outcomes and Insights:

- The seminar fostered increased awareness and understanding among participants regarding the importance of fostering an entrepreneurial mindset in education. Participants gained insights into the transformative impact of integrating entrepreneurial principles into the curriculum, thereby enhancing their understanding of the benefits of nurturing creativity and adaptability among students.

- Participants were equipped with effective strategies and best practices that have proven successful in fostering an entrepreneurial mindset in educational settings. Through the sharing of case studies, successful initiatives, and practical examples, participants gained valuable insights into the implementation of innovative teaching methodologies and approaches, enabling them to effectively integrate entrepreneurial concepts into their educational practices.

- The seminar facilitated enhanced collaboration and networking among educators, administrators, and industry professionals invested in promoting an entrepreneurial mindset in education. Participants engaged in meaningful discussions, collaborative sessions, and networking opportunities, fostering a supportive environment for the exchange of ideas and experiences, and encouraging the development of collaborative initiatives aimed at fostering an entrepreneurial culture within educational institutions.

- Participants were inspired to foster innovation and adaptability within educational settings, encouraging them to explore creative teaching methodologies and adapt to the evolving educational landscape. Through the exploration of transformative practices, participants were motivated to embrace new approaches to curriculum design, pedagogy, and student engagement that promote critical thinking, problem-solving, and resilience among students.

- The seminar empowered participants with the knowledge and skills necessary to effectively nurture an entrepreneurial mindset among students. By emphasizing the significance of fostering creativity, collaboration, and ethical awareness, participants were equipped to prepare students to become proactive, innovative, and socially responsible leaders in their respective fields, thereby contributing to their future success and the betterment of society.

Synergy: Interaction With Alumni

On

05th October, 2023

"Report"

Department of Management Studies organized an alumni interaction on the topic "Fostering an Entrepreneurial Mindset in Education" on 05th October, 2023 at Dr. A. P. J. Abdul Kalam Seminar Hall, SKIT Jaipur. The Speaker of the program was Mr. Divyansh Maheshwari (Entrepreneur), Gadget Villa (Batch 2019-2021) of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur.

The entrepreneurial mindset is about how to deal with life. More precise is about how to deal with problems and interact with other people. Entrepreneurship and the entrepreneurial mindset are skills that can be trained and learned. Everyone is able to change his mindset if one is really willing to do it. Moreover it is a solution oriented way of thinking.The way of thinking, with innovative and creative ideas, is not only for the individual important but rather for the whole economic situation of a country. Industry needs can be met through knowledge and the necessary skills, reached through an efficient design of entrepreneurship education. Furthermore a "will

do" and "can do" mindset is stimulated.Entrepreneurial intentions are important for developing an entrepreneurial mindset. Developing an entrepreneurial mindset needs different external and internal factors. On the one hand the entrepreneurial skills are important and on the other hand the environmental factors. Intention-based models are based on attitudes, beliefs, social norms and the desirability of individuals which are central issues in describing the way someone is thinking. Moreover the entrepreneurial mindset is seen as a composition of characteristics and intentions of individuals.

Recommendations:

- Encourage curiosity and exploration.
- Embrace failure as a learning opportunity.
- Foster creative thinking.
- Teach resilience and perseverance.
- Cultivate a growth mindset.
- Promote financial literacy.
- Provide opportunities for leadership.

By implementing these strategies, educational institutions can effectively foster an entrepreneurial mindset among students, equipping them with the essential skills, attitudes, and values necessary to succeed in an increasingly dynamic and competitive global economy. Empowering students with an entrepreneurial mindset not only prepares them for successful entrepreneurial ventures but also cultivates a culture of innovation and resilience that can drive positive societal and economic change.

"Report"

Department of Management Studies organized an alumni interaction on the topic "Career Opportunities in Startups" on 30ᵗʰ September, 2023 at Dr. A. P. J. Abdul Kalam Seminar Hall, SKIT Jaipur. The Speaker of the program was Miss Megha Sharma (Transformation HR and Admin Executive), Axestrack Software Solutions Pvt. Ltd. an alumnus (Batch 2019-2021) of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur.

Employers in the startup ecosystem value skills such as adaptability, creativity, critical thinking, teamwork, and a strong entrepreneurial mindset. Candidates with a demonstrated ability to innovate, communicate effectively, and thrive in a fast-paced environment are highly sought after.Many startups are embracing remote work options, allowing professionals to work flexibly and contribute to innovative projects from any location. This trend has significantly expanded the pool of potential candidates and diversified the talent acquisition process for startups.Startups prioritize a positive and inclusive work culture that fosters collaboration, open communication, and a sense of ownership among employees. Candidates who align with the company's mission, values, and vision are likely to thrive in the dynamic and evolving startup environment.

Recommendations:

- Acquire relevant technical skills and stay updated on the latest industry trends to remain competitive in the job market.
- Cultivate an entrepreneurial mindset and demonstrate a willingness to take on challenges and learn new technologies.
- Build a strong professional network through industry events, online platforms, and startup communities to explore career opportunities and gain valuable insights from industry experts.
- Develop strong communication and interpersonal skills to effectively collaborate with cross-functional teams and contribute to the growth and success of the startup.
- Foster a proactive and adaptable approach to problem-solving and decision-making.

The startup sector presents a promising landscape for career-driven individuals seeking dynamic and innovative work environments. By embracing continuous learning, fostering a strong professional network, and showcasing a proactive and adaptable approach, job seekers can position themselves for rewarding and impactful career opportunities within the thriving startup ecosystem.

Through a strategic focus on industry awareness, skill empowerment, networking, and inspiration, the conference endeavors to equip participants with the necessary tools, knowledge, and motivation to thrive within the dynamic and challenging environment of startup organizations. This comprehensive approach is designed to cultivate a robust community of skilled professionals who can contribute significantly to the continued growth and success of the startup ecosystem.

SKIT ALUMNI ASSOCIATION

Analysis of the Alumni Feedback 2023-24

Alumni filled the Google form which was circulated among the registered alumni. The feedback received reflects the following points:

Areas worth Appreciation:

I.   The alumni unanimously have appreciated the overall experience gained at SKIT that caters to holistic development..

II. The alumni acknowledge a very strong culture of extracurricular activities and fondly remember the cultural fest Pravah.

III. The alumni maintain that majority of the faculty and staff is well trained and qualified.

IV. The alumni have acknowledged the organization of regular conferences and workshops and other developmental activities.

V. The alumni agree upon the vital benefits of the batch counseling system of the institute.

Areas for Improvement

I. As the technological landscape evolves rapidly, students need more exposure to the industry. SKIT should facilitate internships in product-based companies for students in their third or fourth year to gain hands-on experience.

II. More Product based companies should be invited

III. Much more emphasis should be given on practical execution and level of the assignments should be raised.

IV. Many alumni believe that their prestigious college must align its syllabus to current industry needs and technology. Emphasis should be made upon creating startups incubator and intensive research labs. In adopting the New, the existing value system of our college should not be compensated at any cost.

V. More alumni interactions should be organized to apprise the current students about the latest trends in the industry.

VI. Building an environment to encourage students for startups, educating them on how to build startup, how to raise funding, How to manage startup, How to implement ideas.

VII. The alumni appreciate the placement structure of the CS, IT and EC branches but the placement opportunities for the core branches may be increased.

VIII. More efforts are needed for soft skills and industry preparedness. More mock tests and mock interviews for non CS students should be organized.

Mahendra Beniwal

Chief Coordinator
Alumni Association
