1. About Angular

Angular (also referred to as "Angular 2+") is a Type-Script based free and open source web application framework led by the Angular Team at Google and by a community of individuals and corporations. *Service* is a broad category encompassing any value, function, or feature that an application needs. A service is typically a class with a narrow, well-defined purpose. Dependency injection (DI) is the part of the Angular framework that provides components with access to services and other resources. Angular provides the ability for you to *inject* a service into a component to give that component access to the service. Observables are a powerful feature used extensively in reactive programming to handle asynchronous operations and data streams.

Handling user input with forms is the cornerstone of many common applications. Applications use forms to enable users to log in, to update a profile, to enter sensitive information, and to perform many other data-entry tasks.

Features of Angular

- Support Dependency Injection

The term "dependency injection" refers to the dynamic insertion of necessary functionalities into modules at runtime. AngularJS provides a robust dependency injection mechanism, allowing developers to create, manage easily, and test applications.

- Speed and Performance

Achieve the maximum speed possible on the Web Platform today, and take it further, via Web Workers and server-side rendering. Angular puts you in control over scalability. Meet huge data requirements by building data models on RxJS, Immutable.js or another push-model.

- Develop Across All Platforms

One way to build applications with Angular and reuse your code and abilities to build apps for any deployment target. For web, mobile web, native mobile and native desktop.

2. About IEEE:-

The IEEE Computer Society (IEEE CS) is the premier source for information, inspiration, and collaboration in computer science and engineering. Connecting members worldwide, the IEEE Computer Society empowers the people who advance technology by delivering tools for individuals at all stages of their professional careers.

IEEE CS's trusted resources include SWEBOK, continuous learning opportunities, a robust digital library, international conferences, peer-reviewed publications, and globally recognized standards.

All activities of IEEE CS are supported in India, including the starting of IEEE Computer Society student Chapters, IEEE CS conferences, organizing student workshops and faculty development programs, and promoting IEEE CS offerings. Key offerings include SWEBOK, the Computer Society Digital Library, and custom newsletters.

3. About SKIT:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learning's of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centres of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

SWAMI KESHVANAND INSTITUTE OF TECHNOLOGY, MANAGEMENT & GRAMOTHAN, JAIPUR

Students joining the institute share the box full of opportunities for professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation we need to root it out as early as possible."

– Swami Keshvanand

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centers and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand lifelong endeavour to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology, management skills and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.

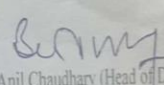

SWAMI KESHVANAND INSTITUTE OF TECHNOLOGY, MANAGEMENT & GRAMOTHAN, JAIPUR

- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services.”

Dear Ankit,

I hope this email finds you well. I am reaching out on behalf of the Department of Information Technology, Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur. We are interested in collaborating with **HabileLabs Private Limited, India** to host a workshop for students centred on Graphical User Interface (GUI) design, specifically focusing on leveraging the Angular Framework.

HabileLabs Private Limited expertise in Angular Framework, we believe that your insights and resources would greatly benefit our students. The workshop aims to provide them with practical knowledge and hands-on experience in GUI Design, empowering them to excel in their academic and professional endeavors.

Here is a brief outline of the proposed workshop:

Title: "Graphical User Interface design using Angular Framework".

Date: 26/02/2024 to 02/03/2024

Venue: IAI Lab, Vikram Sarabhai Block, SKIT, Jaipur

Additionally, we are open to discussing any specific requirements or preferences that you may have regarding the workshop format, content, or logistics. Please let us know if you are interested in partnering with us for this initiative. We are keen to discuss the details further and work together to make this workshop a success.

8. Objective of the Workshop:-

- To understand the concepts of Graphical user interface design using angular framework.
- To provide an exposure of basic and advance HTML, CSS, JS programming.
- To provide hands-on-experience of best practices for Angular framework through various case studies.
- Expression to bind data to HTML.
- Student will be able to develop small application. For enterprise.

9. Content of the Workshop:-

- Introduction to Graphical user interface designing using angular framework.
- Understand the building single-page client applications using HTML and Java script.
- Understand that we can save time on mending code errors.
- Angular is a promising framework to promote dynamic interfaces, and with the levels of productivity it offers for developers and designers of UI and UX design optimization, the changing pace of web programming can be more at reach.

DEPARTMENT OF INFORMATION TECHNOLOGY

SKIT/IT/2023-24/32

Date:- 20/02/2024

NOTICE

This is hereby inform all the students of VI Sem. IT A&B that, department is going to organize a six days student workshop on “**Graphical User Interface using Angular Framework**”. This workshop will be great help for you to develop your skills to develop major project and in campus recruitments, as Angular is one of the most popular and frequently used front-end development frameworks. The market for recruiting Angular engineers has gotten more competitive as the popularity of this technology has grown. Mobile and desktop applications can be built using this platform.

Prerequisite for the workshop is basic knowledge of HTML and JavaScript. Students may come with their own laptops. We look forward to your active participation and engagement in this enriching learning opportunity. As attendance is mandatory.

Workshop Details:

Date: 26 February 2024 to 2 March 2024

Venue: IAI Lab, Vikram Sarabhai Block, SKIT, Jaipur (Mode of Conduction: - Offline)

Timings: 8:00 AM to 2:30 PM.

Note: - Workshop Participation Selection Criteria (Top 80 scorer will be eligible to attend):- There is an online quiz schedule on Friday (23/02/2024) at IAI Lab during 1:30 to 2:30 PM for all VI Sem. IT (It's mandatory for all.)

For any inquiries or clarification regarding the workshop or selection criteria, please feel free to contact.

Richa Rawal (Associate Professor, IT)

12. Schedule of the Workshop:-

Inaugural Session
Date: 26 th February, 2024
Time: 8:30am onwards
Venue: IAI Lab, Vikram Sarabhai Block, SKIT, Jaipur

Angular Training Plan (Workshop Agenda)

Day 1: Introduction to Web Development and Angular Basics

Session 1
Introduction to web development and basic concepts (HTML, CSS)
Introduction to JavaScript and its importance in web development

Session 2
Introduction to Angular framework
Setting up development environment (Node.js, Angular CLI)
Creating a simple Angular application

Day 2: Components and Templates

Session 1
Understanding Angular components and their structure
Creating and using components in Angular application

Session 2
Introduction to Angular templates and data binding
Hands-on exercises on creating templates and data binding

Day 3: Directives and Services

Session 1
Explaining Angular directives and their significance
Hands-on exercises on using built-in directives

Session 2
Introduction to Angular services and dependency injection
Creating and using services in Angular application

**SWAMI KESHVANAND INSTITUTE OF TECHNOLOGY,
MANAGEMENT & GRAMOTHAN, JAIPUR**

Day 4: Routing and Navigation

Session 1

Understanding Angular routing and its importance in single-page applications

Hands-on exercises on configuring routes and navigation

Session 2

Implementing navigation between multiple views in Angular application

Introduction to Angular router module and its features

Day 5: Forms and Validation

Session 1

Introduction to Angular forms and form controls

Hands-on exercises on creating forms in Angular application

Session 2

Explaining form validation techniques in Angular

Hands-on exercises on form validation and error handling

Day 6: HTTP and Observables, Deployment and Project

Session 1

Introduction to HTTP client module in Angular

Making HTTP requests to a server using Angular HttpClient

Understanding Observables and asynchronous programming

Session 2

Hands-on exercises on handling asynchronous operations with Observables

Overview of Angular deployment options (e.g., Firebase, Netlify)

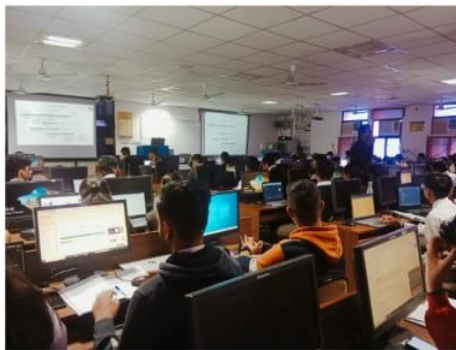

Deploying an Angular application to a hosting service

Project work: Participants work on a simple Angular project
