About The Club: CodeFiesta is a dynamic and inclusive coding club that fosters a passion for programming, innovation, and problem-solving among students. It serves as a platform for tech enthusiasts to collaborate, learn, and grow through workshops, coding challenges, hackathons,

and project showcases. The club promotes peer-to-peer learning and keeps members updated with the latest trends in software development, data science, and competitive programming. Whether you're a beginner or an experienced coder, CodeFiesta encourages curiosity, creativity, and confidence in coding. By nurturing technical skills and teamwork, it prepares students for both academic excellence and real-world tech industry challenges.

Objective of the club: - The programme is designed in a way that addresses the following domains of skill sets:

1. Promote interest in coding and technology.
2. Enhance programming and problem-solving skills.
3. Organize coding contests and hackathons.
4. Encourage peer learning and collaboration.
5. Conduct workshops on latest tech trends.
6. Bridge the gap between theory and practice.
7. Develop leadership and teamwork abilities.

Outcomes of the club: - The members of the club have been able to achieve the following landmarks:

1. Enhanced coding and problem-solving skills
2. Hands-on project development experience
3. Exposure to industry tools and technologies
4. Improved teamwork and collaboration
5. Leadership and event management skills
6. Stronger technical portfolio for placements

Details/List of guests/speakers:- N.A

Objective of the event:- To inform the new joiners of the club about the events, vision, and mission of our club.

Details (Execution):- On 18th September 2024, our club organised the first info session of this year. We were delighted to introduce the participants to our club and share what we do. We introduced them to the past events, hackathons, expert sessions etc organized by our club. They were also told about the vision and mission of this club.

Our faculty advisor enlightened the participants with her wise words. The participants were then introduced to the hardworking team of this club. Our mentor addressed the new brains and encouraged them to join our coding family and develop their coding skills in this fast-growing tech world.

Feedback of the event:- The coding club info session was engaging and informative. It provided a clear overview of the club's mission, upcoming projects, and learning opportunities. The presenters were knowledgeable, and the session inspired excitement for collaboration and skill-building. We encouraged the students to join our club and involve enthusiastically in the upcoming events of our club.

realise his potential.

Someone is coming for you too.

DATE: 25th September 2024

VENUE: J.C. Bose Hall, Civil Block, SKIT Jaipur

TIME: 1:45 PM – 3:15 PM

Ready to take the **First Step Towards Success**

Details/List of invited guest/speakers:- Shaurya Singh (SDE II, SalesForce and Ex Software Engineer at Amazon) { Virtual Zoom Meet, By Coding Ninja }

Objective of the event:- To equip B.Tech students especially 1st year students with essential knowledge and resources to effectively start their college journey, focusing on coding skills, academic support, and career opportunities, while fostering a supportive community for their growth and development.

Details (Execution):- On 25th September 2024, our club proudly hosted the

"Freshman Induction: The First Step Towards Success" workshop in Collaboration with Coding Ninjas, designed to kickstart the engineering journey for first-year B.Tech students. We were excited to introduce participants to our club's activities, including past events, hackathons, and expert sessions, while emphasizing the importance of coding skills. Shaurya Singh, SDE2 at Salesforce and former Software Developer at Amazon, provided valuable insights on how to effectively kickstart your journey in B.Tech college.

Objective of the event:- To help you stand out and boost your career.

Details (Execution):- The workshop focused on building strong Microsoft and LinkedIn profiles to boost professional visibility and career growth. Participants learned to optimize LinkedIn profiles with effective headlines, summaries, and endorsements while engaging meaningfully with connections. It also covered Microsoft tools like Word, Excel, and Teams for creating professional resumes, dashboards, and presentations. Attendees explored Microsoft Learn certifications and synced them with LinkedIn. Interactive activities, real-time feedback, and a Q&A session ensured practical takeaways, and participants also received gifts.

Details/list of invited guest/speakers:-N.A

Objective of the event: - ByteChase 2.0 – A Tech Treasure

Adventure, organized by the **CodeFiesta Club**, aims to foster a deeper understanding and enthusiasm for technology among students. Through a series of engaging riddles and puzzles, the event enhances problem-solving abilities, logical reasoning, and technical acumen. It provides an interactive platform to cultivate innovation, critical thinking, and a passion for technology-driven challenges.

Details (Execution): -

Byte Chase 2.0 is an interactive scavenger hunt-style coding event where teams solve coding challenges to navigate through different locations. The event combines logical thinking, problem-solving, and teamwork, making it an engaging experience for participants.

Event Flow & Execution:

1. Setup & Coordination:

- A total of **10 coordinators** were stationed at **10 different locations** across the venue/campus.
- Each location has **3 QR codes** placed strategically—**1 correct QR code** leading to the next challenge and **2 fake QR codes** to mislead teams.

2. Game Start:

- Each team starts from a designated **initial location** assigned randomly.
- Once at their starting point, they **scan the QR codes** and attempt the coding challenge.
- Solving the correct challenge reveals the next location they need to reach.

3. Navigating the Hunt:

- Teams must be cautious while choosing QR codes—scanning a **fake QR code** may result in a time waste.
- Upon solving each challenge, they move to the next assigned location.

4. Winning Criteria:

- Teams must complete the entire circuit, solving all coding challenges, and return to their starting location.
- The team that **completes the hunt in the shortest time** wins the event.

Details of faculty coordinator(s): -

Feedback of event: -

ByteChase 2.0, the tech treasure hunt event, featured innovative challenges that promoted teamwork and critical thinking. Participants enjoyed the engaging tasks, testing their problem-solving abilities. However, there were issues with malfunctioning QR codes, which caused delays and disrupted the flow of the event. Streamlining the technical aspects and improving time management would enhance future editions, but the creativity and collaboration were standout elements that made the event enjoyable.

ByteChase 2.0: A Thrilling Tech Treasure Hunt Experience

ByteChase 2.0, the highly anticipated tech treasure hunt event, recently took place, offering participants an exciting blend of problem-solving, innovation, and teamwork. The event featured a series of unique challenges designed to test participants' technical skills and creativity, encouraging collaboration and critical thinking. Teams raced through different tech-based tasks, showcasing their knowledge while having fun in a fast-paced, competitive environment. With its engaging activities and dynamic atmosphere, ByteChase 2.0 was a resounding success, leaving participants eager for the next edition.
