Dr. Ajay Bhagwat
Director inpods India
(Ed-tech Evangelist,
Accreditation and OBE Educationalist)

Brief Introduction :

Ajay Bhagwat is an ed-tech expert of technologies for Academic Quality Assurance, Competency based medical education (CBME), Outcomes-based education, and of technologies to improve outcomes of accreditations such as ABET, AACSB, NBA, NAAC accreditation.

Ajay is a passionate Computer and Mechanical engineer and has over 35 + years of professional experience. Ajay is dedicated to maintaining a reputation built on quality, service, and uncompromising ethics.

Ajay manages Product Engineering, Market and Business Development, and Delivery for InPods in India for implementation of their state-of-the-art cloud-based technology platform for State and Private Universities, B-schools, Engineering colleges, and corporate training divisions.

Ajay has special expertise of Lean manufacturing. He spearheaded a program of implementation of Lean Manufacturing principles based on Toyota's standards of manufacturing, in a large-scale seamless steel tubes plant. The core objective was to improve quality and plant efficiency, continuous improvement, reduce wastes, inventory, and costs.

Ajay passionately conducts Faculty Development Programs for the teachers in higher education to promote the culture of Outcomes-based Education.

Participated in Education research funded by NSF, USA and under Dr Cem Kaner of Florida Tech Institute

Objective of the event:-

- Students will know about IEEE Society via this Expert talk as it will be conduct by IEEE Computer society Student Branch Chapter, SKIT.
- Students will understand and gain a deeper knowledge about Program Outcome, Graduate attribute by NBA and initial process of placements.
- Students will get the depth knowledge about various techniques used for placements in companies. How student become ready for Industry and importance of every subject for the same.

Details (Execution):-

Session was mind-boggling and execution sequence of the session is as below:
Sessions started by Dr. Nilam Choudhary with welcome note for the speaker and brief note about the IEEE Computer society student branch chapter. Students and Faculty members of the institution were also present in the session. There were 282 participants present in the session from the different prestigious Institutions of India like IIT, NIT, IIIT and other repute institutions. Session was very interactive participants were active and asked many questions via chat box and voice interaction. Speaker have a great experience of more than 35 + years and excellent knowledge about Industry and NBA, NAAC etc, he was confident and very much clear about all the questions. Session end with QA by speaker and in the last Screen shot photography also done for the report writing and social media coverage for the same.

Details/List of invited guest/speakers:-

Vivek Arya
Assistent Professor, Departement of ECE, FET
Gurukul Kangri (Deemed to be University) Haridwar

Brief Introduction :

Vivek Arya working as Assistant Professor in Faculty of Engineering & Technology, Gurukula Kangri (Deemed to be University) Haridwar, India. He is also serving for Charles Walter Society for Innovation & Research organisation as a state co-ordinator. Mr. Arya is NSS incharge of FET. He has completed M.Tech in Electronics and Communication Engineering along with a gold medal and qualified the UGC NET exam. His research interests include 'Digital Image Processing, Video Processing, Adaptive Signal Processing and Satellite and Radar Based Antennas". He has authored one international book on "Image Compression Techniques Using MATLAB" and also published many chapters in international books. He has patented many inventions at national level as well as at international level. He has published more than 30 research papers in international reputed journals and also serving as reviewer in many journals of international repute. He has delivered various international lectures/talks for different countries/Universities, even for the ministry of Indonesia. He also organised/participated in more than 130 conferences, FDPs, STTC and webinars of national and international level.He is also helping many institutions of india for innovation and IIC related activities. Apart from this, he is engaged in various social services like clean Ganga drive, arranging free medical camps and providing free education for financially incapable students.

Objective of the event:-

- Students will know about IEEE Society via this Expert talk as it will be conduct by IEEE Computer society and MTT student Branch Chapter SKIT.
- Students will understand and gain a deeper knowledge of Digital Image Processing and its applications.
- Students will get the depth knowledge about various techniques that are used in digital image processing like enhancement, compression, encryption, segmentation, etc.

Details (Execution):-

Session was mind-boggling and execution sequence of the session is as below:
Sessions started by Dr. Nilam Choudhary with welcome note for the speaker and brief note about the IEEE Computer society and MTT student branch chapter. Students and Faculty members of the institution were also present in the session. There were 113 participants present in the session from the different Institutions of India like IIT, NIT, IIIT and other repute institutions. Session was very interactive participants were active and asked many questions via chat box and voice interaction. Speaker have a great experience of more than 10 years and excellent knowledge about the DIP, he was confident and very much clear about all the questions. Session end with QA by speaker and in the last Dr. Shubhi Jain gave vote of thanks to all the participants and speaker. Screen shot photography also done for the report writing and social media coverage for the same.

CONCLUSIONS
Activities involving biotech, greentech, medtech, artificial intelligence, big data, block chain and distributed ledgers, cyber security, 5G, Web 3.0 and gaming and fintech drive this demand.
For example, an accountant who does general auditing today may need to acquire skills to do "green audits". A lawyer will have to segue his or her legal mind towards environmental, social, and governance (ESG)-driven activity.
In short, our workforce must acquire the requisite skills to remain relevant in this new workplace. Much of this will have to be via mid-career training.
Top 20 clusters of skills most urgently needed in Singapore's digital, green and care sectors

1. Objective and Outcome of the event

Objectives

- To give the knowledge about the Solar Energy, Sustainability and benefits of the solar energy.
- Estimate the energy production from a solar panel array and Compare the costs of electricity sources.
- Students able to understand about solar power plant. Solar water pumping system, solar home lighting system
- Determine the economic benefit of installing a solar array.

Outcomes

The participants of this session able to gain the knowledge from the experience of experts. He enhances the technology by continuous research and development in the field of Harnessing Solar Energy for Sustainable Development. Students will explore the geographic conditions that favor or restrict the use of various renewable energy technologies in a particular place. Students will create an optimal renewable energy plan for a community that meets specific constraints and criteria.

7. Topic that can be covered in the next course?

- Electronics
- Full stack development, cloud development, web development, android development
- Artificial intelligence
- More about science.

- Wind energy water energy
- IOT
- AI
- Energy Sources other than Solar
- Astronomy
- Web development or cyber security
- Data Science
- 5G technology
- Related to natural resources
- PPS in language in computer
- Global warming
- Green revolution
- Antenna
- Solar energy
- C programming

8. Knowledge gained by the course.

- Solar power
- Really a great course to experience, learned about great aspects of science
- About solar energy and systems.
- Solar energy
- Very knowledgeable
- Informative session on alternative energy sources and their applications.
- About resources in nature.
- About new science technologies

9. Overall experience of the course.

- Good
- Superb
- Excellent
- Useful

- Very best
- it was overall a good course to gain knowledge
- Brilliant
- 10 on 10
- Excellent
- nil
- Very good
- Good session

10. Suggestions

- Nothing
- More Advanced and on demand topics should be covered
- More interactive session
- More discussion and deep knowledge about the topic should given
- Keep it up to your teach and useful of students
- All good.
- It was far better than previous one.
- Very good session
- Useful session

9. Technical Report

IEEE-MTT student chapter of Swami Keshvanand Institute of Engineering and Technology Management and Gramothan, Jagatpura , organised an interactive session on the occasion of "National Science Day 2022" based upon theme "Integrated Approach in Science and Technology for a Sustainable Future" on 28/2/2022.Title of the talk was "Harnessing Solar Energy for Sustainable Development" Special guest for this interactive session was Dr. Minal Bafna,Head , Department Of Physics, Agarwal PG College,Jaipur. Session begin with Dr. Shubhi Jain telling the students about the importance of National Science Day. Then Dr. Praveen Jain welcomed the guest with humble words. In this interactive session Dr. Minal Bafna briefed the students about the solar energy, its ease of availability in a country like India,and how this blessing that the geographic location of India has can be used for it's own benefit.She made the students aware about the current energy scenario where the demand of energy is increasing day by day and the supply is not sufficient and even the natural reserves of fossil fuels are depleting and problems which goes unnoticed like the improper distribution of resources mainly in the hilly areas and lack of employability of the localites , where there is plenty of sunlight and this can be used to solve this problem to a significant extent .This interactive session was concluded by the note of thanks by Assistant Prof. Harshal Nigam .

Report on Expert Talk on

'Awareness about Energy Conservation'

Date: 21 Feb 2022

Mr. Indra Prakash, expert from Petroleum Conservation Research Association (PCRA), explained the importance of Energy conservation in his talk held on 21 Feb., 2022 in Meghnad seminar hall. PCRA aims at making oil conservation a national movement. As part of its mandate, PCRA is entrusted with the task of creating awareness amongst the masses about the importance, methods and benefits of conserving petroleum products & emission reduction.

PCRA is an aegis of Ministry of Petroleum & Natural Gas, Government of India. PCRA is a national government agency engaged in promoting energy efficiency in various sectors of economy. It helps the government in proposing policies and strategies for petroleum conservation, aimed at reducing excessive dependence of the country on oil requirement.

It is very much important for youth to understand Energy Conservation and its importance for the future. PCRA disseminates recent technological advances an and improved operation practices for raising energy efficiency. During the event, expert shared industry audit experiences and good practices pertaining to the industry. Thus Energy audit, fuel oil diagnostic study, small scale industry, star rating are the emerging areas of energy conservation.

After query session students given a positive response to the expert talk and shown

Deepak Kumar, Associate Professor.

To Whom It May Concern

It is certified that Mr. **INDRA PRAKSH**, PCRA faculty has successfully completed "Institutional Training Program (ITP) on Energy Conservation" on date **21.02.2022** in our campus following all the norms of Covid-19 issued by the government.

The session was well designed, delivered by the faculty and received by the participants. The session was well interactive and also included a question answer session. During the program documentary films have also been shown by the faculty.

The learning from the session will certainly help the participants in their daily regime to contribute for energy conservation continuously and effectively.

We would like to continue this association with PCRA in future as well.

Report on Online Expert Talk on

'Strategy to Crack GATE & Other Competitive Exams'

Date: 09/02/2022

The Department of Mechanical Engineering, SKIT, Jaipur organized an Online Expert Talk of Mr. Suneel Kumar Tiwari (Ex.-Assistant Engineer, Prasar Bharti, Govt of India) on "Strategy to Crack GATE & Other Competitive Exams" from 9:30 AM to 10:30AM on 11 Feb., 2022.

In this talk, the expert explained the importance of GATE Exam to engineering students on 11 Feb. 2022. He discussed the effective preparation planning of GATE and others competitive Examination (i.e. IES, J.En., etc.) He said that self-made notes are very effective for quick revision. He also suggested that students need to refer standard books for mastering their knowledge about any subject. He further highlighted following points in the talk:

- Various career opportunities.
- Productive utilization of COVID period for academics & competitive exams.
- Do's & don't to become a topper.
- Analogy from 'Many arrows in one quiver'.
- Art of making effective notes.
- How to face different phases of recruitment (Written Test/GD/Interview).

At the end of the talk, query session was organised and students gave a positive feedback for this talk. Vote of thanks was given by Dr. Chandan Kumar.

Report on
Awareness about IEEE Society and Design and Development of Flexible and Wearable Antenna

Date, Time and Venue of the event: - 10th February 2022/ 2:00 PM -3:00 PM / Webex (Online)

Level of the event: - College level

Event brochure / banner:-

Details/List of invited guest/speakers:- Dr. Dinesh Yadav (Associate Professor, Manipal University, Jaipur)

Objective of the event:- IEEE-MTT student chapter of Swami Keshvanand Institute of Engineering and Technology Management and Gramothan, Jagatpura , organised an interactive session on "Awareness of IEEE Society" and "Design and Development of Flexible and Wearable Antenna" on 10.02.22. Special guest for this interactive session was Dr. Dinesh Yadav, Associate Prof.,Manipal University , Jaipur.

Details (Execution):-

At the beginning of this interactive session Dr. Shubhi Jain briefed about the IEEE- MTT student chapter of college. Then Dr. Praveen Kumar Jain welcomed the guest with humble words.

In this interactive session Dr. Dinesh Yadav told the students about the immense contribution that IETE & IEEE chapters can bring to academic career of students, and how IEEE can help students pave their way in research field. IEEE being an international society can assist students to connect with international researchers and get their guidance. He encouraged students to go for a career in the field of research and specifically, he insisted on research related to microwave. He further briefed the students about flexible and wearable antenna, and how these are designed and developed. Further he added that flexible and wearable antennas can help in communication techniques like tracking , navigation and remote computing ,and also added the medical application of wearable antennas like treatment and diagnosis, and the prescribed frequency and conductive material for the medical purpose.

This interactive session was concluded by the note of thanks by Assistant Prof. Harshal Nigam . The webinar was organised by the IEEE-MTT student chapter members Dr. Shubhi Jain, Assistant Prof. Harshal Nigam, Assistant Prof. Abhinandan Jain, and student coordinators Priyanshu Lohar & Debopam Sinha.

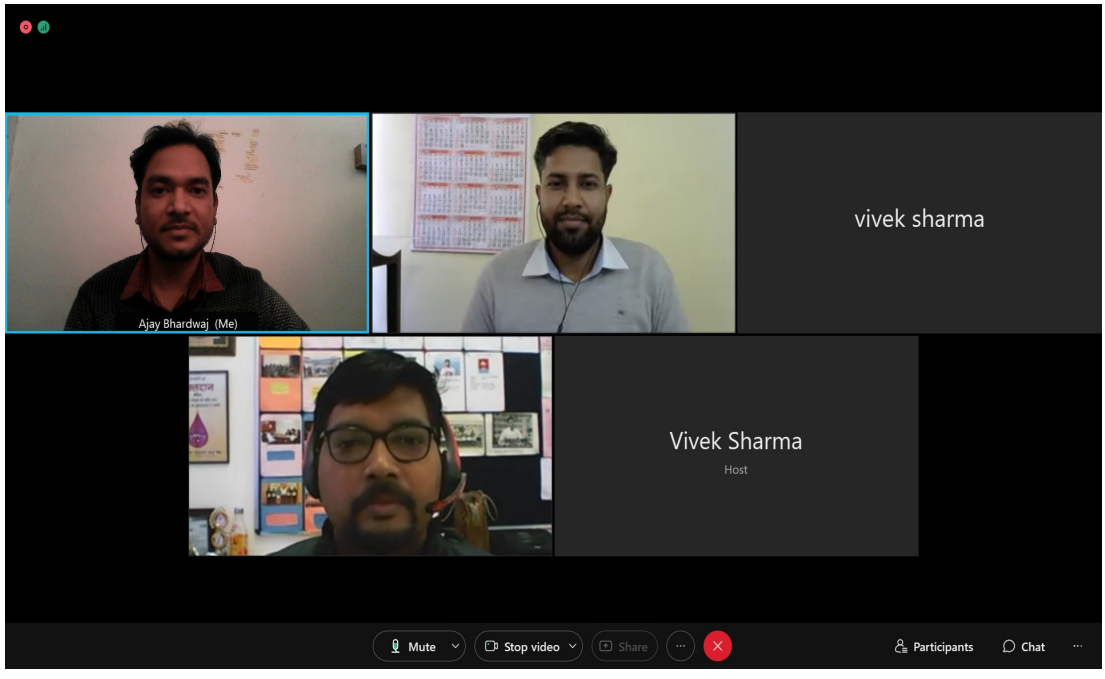
Expert lecture on Fundamental of Power Electronics by Dr. Ajay Kumar, Assistant Professor, Department of EE, BIT Mesra



An expert lecture on "Fundamental of Power Electronics" by Dr. Ajay Kumar, Assistant Professor, Department of EE, BIT Mesra is organized by Electrical Engineering Department on 10 February 2022. This session was organized for all the higher semester students of Electrical Department. Dr. Kumar discussed about fundamental of power electronics. Keeping in tune with the spirit of the session, he explained basic concepts of fundamental of power electronics from very starting level to make the things clear. The expert lecture proved fruitful to enhance the knowledge of students which will help them to understand the power electronics subject. The event was coordinated by Mr. Vivek Sharma (Assistant Professor, Department of EE) and Mr. Ajay Bhardwaj (Assistant Professor, Department of EE). At the last of lecture Dr. Dhanraj Chitara (HOD Dept of EE) put thanks to speaker and all the participants for their presence.

Biography

Dr. Ajay Kumar acquired his B.Tech degree in Electrical and Electronics Engineering from Kurukshetra University, Kurukshetra, Haryana, in 2012. He received his M.Tech degree in Power Systems and PhD degree in Power Electronics and Renewable Energy from Malaviya National Institute of Technology Jaipur, India, in 2016 and 2020 respectively. Since August 2021, he has been working as an Assistant Professor in the Department of Electrical and Electronics Engineering at Birla Institute of Technology Mesra, Ranchi, Jharkhand. His research interests are in the areas of Distributed Generation, Integration of Renewable Energy Sources, Power Quality Assessment and Improvement, and related fields. More specifically, his research spans theory and control structures of an electronically interfaced multifunctional photovoltaic (PV) system, with applications to science and technology. His recent work emphasizes the theme of renewable energy integration (control structure development, hardware testing, and result analysis). In general, he spends his time developing new

controllers for acquiring the efficient operation of the grid-integrated PV system. He is a Member of IEEE.

1. About SKIT: -

SKIT(SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic. Students joining the institute share the box full of opportunities for professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Our Inspiration

"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation, we need to root it out as early as possible."

– Swami Keshvanand

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centres and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavours to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player.

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to 'achievement of quality' as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves. Institute would pursue quality in

- All its endeavors like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.

- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services."

2.Committee for the Expert Talk: -

FACULTY COORDINATORS

Mrs.Pooja Jain,Assistant Professor

Mr.Mohd.Imran,Assistant Professor

Dr. Sarfaraz Nawaz, Associate Professor

(Department of Electrical Engineering)

3.Details of The Expert: -

Dr. Akanksha Shukla completed her Ph.D. and M.Tech. in Electrical Engineering from Malaviya National Institute of Technology Jaipur, India in 2019 and 2015 respectively. She received her B.Tech. degree in Electrical Engineering from Harcourt Butler Technical University (Formerly-Harcourt Butler Technological Institute), Kanpur, India in 2013. She is currently working as an Assistant Professor in Electrical Engineering Department, SVNIT Surat.

Her research interests include load modeling, distribution system modeling, and renewable and Electric Vehicle (EV) integration to the grid. She has published several research papers in reputed international and national conferences and journals. She is a reviewer of many international journals and conferences. She is a Member IEEE, USA, and Member IET, UK.

Department of Electrical Engineering of Swami Keshvanand Institute of Technology (SKIT) Jaipur was honoured to organise Expert talk on “Charging Infrastructure to Enable Electrified Transportation” through Cisco Webex platform. The chief Guest of the session was Dr. Akanksha Shukla,Assistant Professor,SVNIT,Surat. The session was commenced with heartful welcome and gratitude to the Chief Guest by Mrs. Pooja Jain (Assistant Professor, Department of Electrical Engineering) at 10:30 A.M.

Dr.Akansha discussed about the adoption of EVs.She explained that EVs will not only benefit the environment but also reduce reliance on the oil markets, thus, dealing with energy crisis. It also has economic and smart grids benefits. However, cost, driving range and charging time are still major concerns of EV users. Proper planning of charging infrastructure can reduce the charging time and driving range anxiety. Major Topics whch are discussed during the expert session are:

1) Challenges associated with the adoption Electric Vehicle (EV).

2) Charging Levels

3) Current Scenario in India

4) Planning of Fast Charging Stations (FCSs) in integrated network (distribution network coupled with transportation network considering uncertain behaviour of EV consumers).

5) Case Study

6) Possible future extension of this researc

At last, Dr.Akanksha answered the questions from the audience conveyed by the host. A heartful vote of thank was presented by Dr. Sarfaraz Nawaz (Associate Professor, EE Department, SKIT) to Chief Guest and also urged her to visit college premises. This session gave an insight of importance oftechnology in e-Vehicle sector. In this way, the session lasted for 1 hour.

Topic: - "Blockchain and Cyber Security"

Date: - 05-02-2022 (**9:00 AM-10:00 AM**)

Resource Person: - Prof (**Dr). S. C. Jain**, Professor, Department of Computer Science & Engineering, Rajasthan Technical University, Kota, Rajasthan.

1. Session was taken by Prof. (**Dr). S. C. Jain**, Professor ,Department of Computer Science & Engineering, Rajasthan Technical University, Kota, Rajasthan
2. He started the session with the basics of Bank transactions and cyber crimes and security measures.
3. He explains the topics and various techniques of Blockchain Generations from 1 to 4.
4. He also talked about Blockchain 4 emerges in business application and also discussed Blockchain as Service (Baas).
5. He also explains the various challenges faced by these techniques and also discuss latest emerging areas.
6. At the end a very healthy question answer session also took place. Different questions were asked by the participants related to various application of Blockchain and its Applications

Topic: - "Internet of Things"
Date: - 05-02-2022 (**9:30-10:00)**
Resource Person: - Ms. Pratibha Sharma, Technical Test Lead, Infosys Ltd.

1. Session was taken by **Ms. Pratibha Sharma**, Technical Test Lead, Infosys Ltd.
2. She started the session with a brief introduction on IoT, Internet of Things.
3. She talked about different waves of technologies like IoT, AI and Robotics.
4. She explained the 3 A's of IoT namely Aware, Autonomous & Actionable.
5. She also explained the elements of IoT namely Identification, sensing, communication, computation and data visualization.
6. At the end a very healthy question answer session also took place where different questions were asked by the participants related to the various applications of IoT.

(Session: - 2021-22)

Topic: - "Neural Architecture Search: - A Hardware Perspective**"**

Date: - 05-02-2022(09:00 am - 11:30 am)

Resource Person: - Prof. (Dr.) Arun K. Somani, Associate Dean for Research, College of Engineering, Iowa State University, Ames, USA.

Prof. (Dr.) Arun K. Somani, Associate Dean for Research, gave his presentation on "Neural Architecture Search: - A Hardware Perspective". His main discussion points were:

- He started the session with the basics of Hardware Perspective of Neural Architecture Search.
- He explained the neural network processing hardware.
- He also talked about Image and weight reuse without layer fusion.
- He also discussed various case studies on this like ASIC: Accelerator Aware NAS. .

At the end a very healthy question answer session also took place. Different questions were asked by the participants related to various applications of Deep learning in Image Processing.

Hardware Aware Neural Architecture Search (HW-NAS)
HW-NAS automates the design process to find models with good trade-off between accuracy and performance
Metrics include latency, FLOPS, power consumption, energy, and memory usage, etc.

CONCLUSIONS
Activities involving biotech, greentech, medtech, artificial intelligence, big data, block chain and distributed ledgers, cyber security, 5G, Web 3.0 and gaming and fintech drive this demand.
For example, an accountant who does general auditing today may need to acquire skills to do "green audits". A lawyer will have to segue his or her legal mind towards environmental, social, and governance (ESG)-driven activity.
In short, our workforce must acquire the requisite skills to remain relevant in this new workplace. Much of this will have to be via mid-career training.
Top 20 clusters of skills most urgently needed in Singapore's digital, green and care sectors

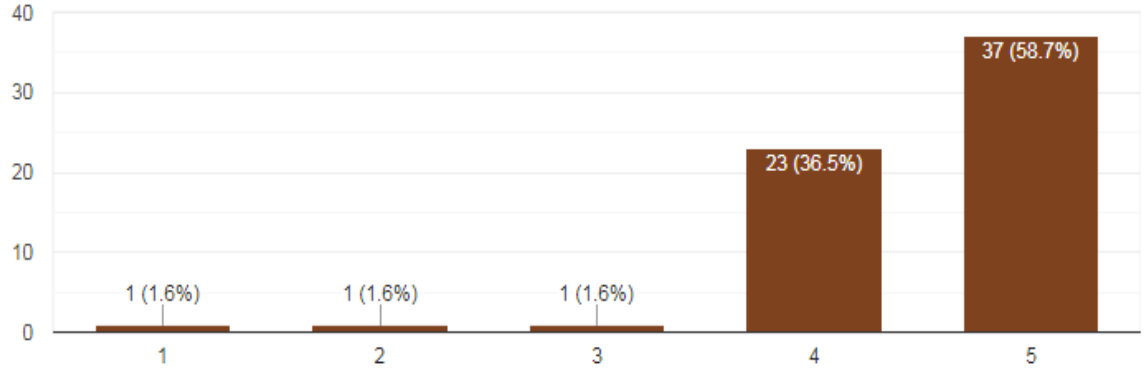
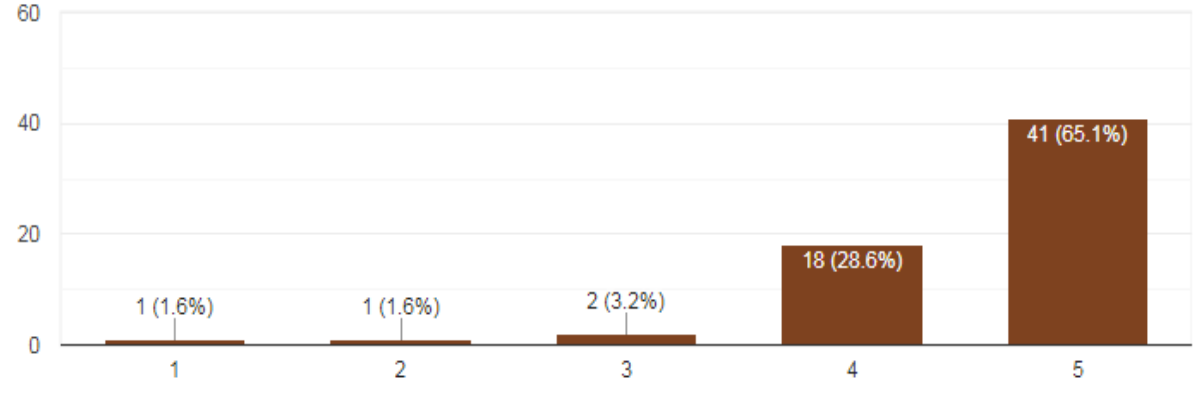
8. Feedback report

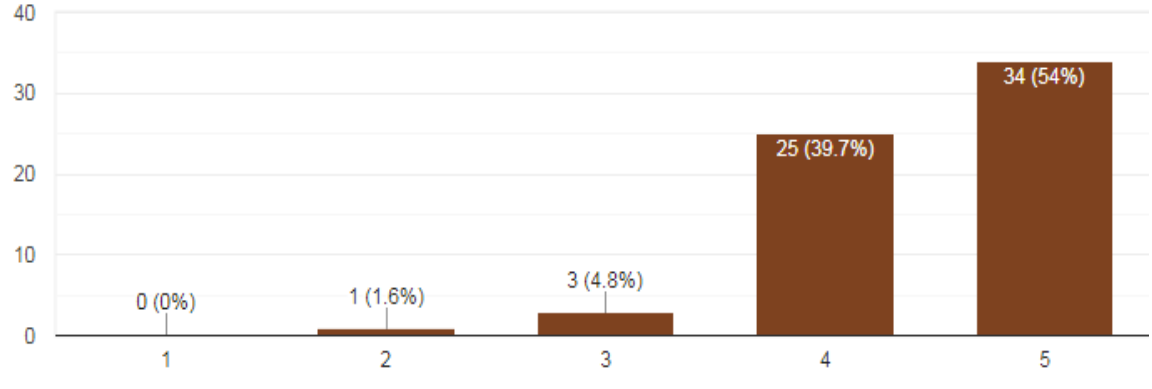
1. Your experience about the session



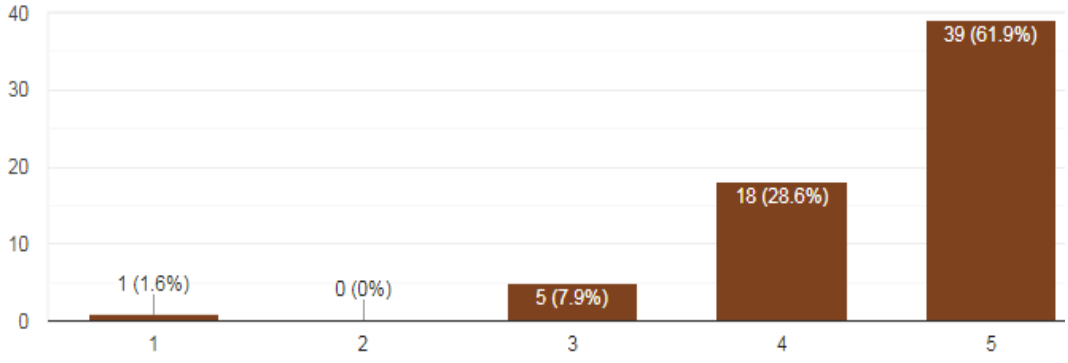
2. Overall, how do you rate the program you attended in terms of usefulness and effectiveness?



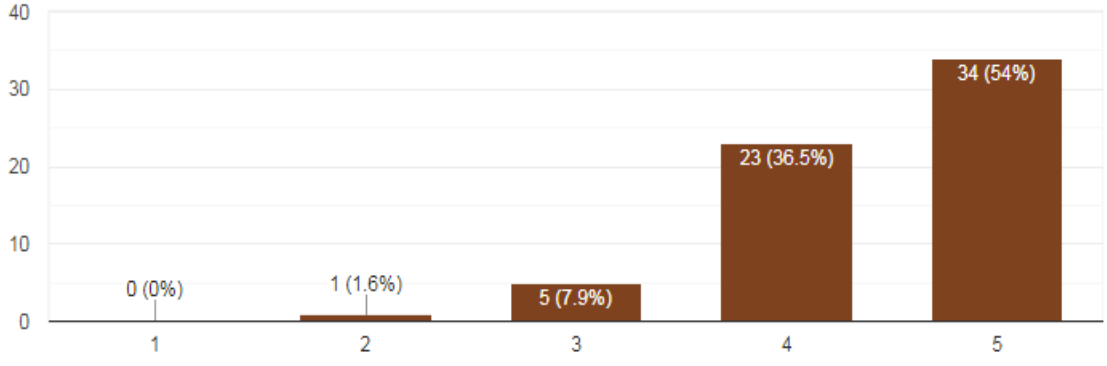
3. how do you rate the content of the interaction? (On a scale of 1 to 5, 1 being lowest):



4. About speaker



5. up to which extent this session will help to build your career



6. What do you like the most in this interaction

about carrier planning
The speaker confidence
Way of answering
About proper path
The vast knowledge of speaker
Asking question and solve problems
As a Btech student of 1 year , the difficulties i facing currently he (nikhil agarwal)has already faced . So he is giving suggestions how to tackle difficulties. What things to do 4years of btech
the things that were told by the speaker

7. Topic that can be covered in the next session

Something in depth .
Cryptocurrency
Scope in electronic
–
AI and ML
Placement in PSUs
AI
network

8. How do you plan to share the gained knowledge/skill with your colleagues who did not attend the program?

Telling them
By giving information qbout cyber security
how we improve our skill
Normally in group chat
I will motivate them to join other session and will tell the summary of this session
by sharing them the things which i have learned
By telling about this in college
I didn't planned anything. If someone would call then i would just tell him/her

10. Technical Report

Alumni Interaction Program on "Career Opportunity in Cyber Security" has been organized by the Department of Electronics and Communication, Institution of Engineers (India) at Swami Kesavananda Institute of Technology, Management and Gramothan, Jagatpura. The guest of the event was Shri Nikhil Agarwal, Senior Solution Architect, Fortanix Inc.

In the beginning of the program the Head OFA and Department of Electronics and Communication Prof. Mukesh Arora welcomed all the guests. Dr. Swati Arora introduced the student's about the achievements of student chapter Institution of Engineers (India). Then expert of session Mr. Nikhil Agarwal, an ex-student of the college addressed the gathering, he shared his experiences and discussed the entire journey of cyber security and companies from his college days.

He told how from the time of college he did not give up the stubbornness of making his dreams come true and always made good use of his time. He emphasized on use of technical knowledge, smart work, and work ethics. He has also shared his field experience among the students. Educated the students about the emerging challenges and importance of cyber security course. Nikhil told that whenever he got time, he used to study in the college library, always paying attention to the college exams, practical, classes as well as extra-curricular activities. Students also interacted with the alumni by asking some questions and clearing some doubts in their mind in the session. The program was conducted by Miss Manju Choudhary and Miss Pooja Choudhary. The coordinators of this program were Dr. Swati Arora, Miss Manju Choudhary and Miss Pooja Choudhary. At the end of the function Miss Manju Choudhary presented a vote of thanks to all the participants and guests. In this program Dr. P.K. Jain, Dr. Rukhsar Zafar and Dr. Monika Mathur were present.

'Awareness about CAD/CAM Softwares'

Date: 14 Dec 2021

Mr. Ravi Kr. Swami, Director CADEMATE Jaipur explained the importance of Computer-aided design/computer-aided manufacturing (CAD/CAM) to engineering students on **13 dec. 2021**. He said it is a combination of two terms CAD and CAM to describe the software that is used to design and manufacture prototypes, finished products, and product runs. It offers design through manufacturing and is most often used with a computer numerical control (CNC) machine, which is a motorized, manoeuvrable tool and platform that is controlled by a computer according to specific instructions. To better understand CAD/CAM, a breakdown of the individual terms is below.

CAD : It is a software tool used by engineers, architects, designers, and drafters to create digital 2D and 3D drawings to design a variety of items and spaces. Computer models are created and defined by geometrical patterns. CAD allows designers to test the objects by simulating real-world conditions. It can design anything from a simple shampoo bottle to a complex jet plane.

CAM : It is also known as Computer-aided Modeling or Computer-aided Machining is the use of software to control machine tools and related ones in the manufacturing of work pieces. CAM may also refer to the use of a computer to assist in all operations of a manufacturing plant, including planning, management, transportation and storage. Its primary purpose is to create a faster production process and components and tooling with more precise dimensions and material consistency, which in some cases, uses only the required amount of raw material, thus minimizing waste, while simultaneously reducing energy consumption. CAM is now a system used in schools and lower educational purposes. CAM is a subsequent computer-aided process after computer-aided design (CAD) and sometimes computer-aided engineering (CAE), as the model generated in CAD and verified in CAE can be input into CAM software, which then controls the machine tool. CAM is used in many schools alongside Computer-Aided Design (CAD) to create objects.

Typical areas of concern are High-Speed Machining, including streamlining of tool paths, Multi-function Machining, 5 Axis Machining, feature recognition and machining, Automation of Machining processes, ease of Use.

After query session students given a positive response to the expert talk and shown awareness about the softwares. Vote of thanks given by Dr. Deepak kumar.

Expert Webinar on "Construction Practices" by Er. Prakash R Sharma

Department of Civil engineering in collaboration with Shree Cement Ltd. organized a technical webinar on "CONSTRUCTION PRACTICES" on September 25th 2021 with an objective to enhance one's knowledge on construction practices. The expert lecture was delivered by Er. Prakash Sharma (Additional General Manager, Shree Cement Ltd.). 65 students attended the webinar which was organized on Cisco Webex platform. These kinds of webinars will help the students to improve their technical skills.

He mainly focused on common construction negligence which are caused by unsafe scaffholds, ladders and supports, lack of fall protection, improperly operated heavy equipments, defective tools, failure to provide proper lifting equipments, improperly braced excavations and exposures to electricity and toxic materials and deformations caused by false designs.

EXPERT LECTURE ON INTRODUCTION TO PARALLEL CONDUCTOR BY Dr. KAPIL SHUKLA

Expert lecture on introduction to parallel conductor by dr. Kapil Shukla, Assistant Professor,Department of EE, MNIT Jaipur is organized on 28 September 2021.This expert lecture was a pleasant moment as Dr. Shukla is an alumni of SKIT. This session was organized for all the higher semester students of Electrical Department in association. Dr. Shukla discussed about "INTRODUCTION TO PARALLEL CONDUCTOR".He also shares his past experience during his college days. Keeping in tune with the spirit of the session, he gave real life examples and case studies on "INTRODUCTION TO PARALLEL CONDUCTOR" to make the concept clear.At the last of lecture Mr. Vivek Sharma (Dept coordinator, Alumni Association) put thanks to all the participants for their presence.

Bamboos

Bamboo has been intensively utilized as a building material since ancient times. However, due to the scarcity of wood in recent years, bamboo has gained great importance as a source of renewable fiber as a suitable alternative to wood. Particularly, bamboo is suitable for low cost housing in earthquake-prone regions due to its sturdiness and versatility. This versatile forest produce lends itself to be manufactured into mat-based industrial products such as bamboo mat board, bamboo mat veneer composite, bamboo mat molded products, bamboo mat corrugated sheet for roofing, etc.

Among these, the bamboo mat corrugated sheet is an ideal substitute for asbestos and galvanized steel sheets for roofing purposes. The Indian Plywood Industries Research & Training Institute (IPIRTI) has developed this technique, which has proved to be a boon for the housing industries among North Eastern states.

Department of Mechanical Engineering

SAEINDIA SKIT COLLEGIATE CLUB

Two days Webinar on "Design and development of E- Vehicles using Ansys"

1. **Objective:** To understand the basic structural configuration of E vehicle with the functionality of components using ANSYS.

   Outcome: After attending the webinar participants will get an understanding of the four pillars which form the basis electrification of electric vehicle namely Battery, Traction Motor, Power Electronics and Systems Engineering and how ANSYS helps in different aspects like reducing battery cost and increasing life, eliminating battery catastrophic failure modes, making the traction motor highly efficient, minimizing reliance on rare earth elements, meeting EMI–EMC regulations, and developing fuel cells

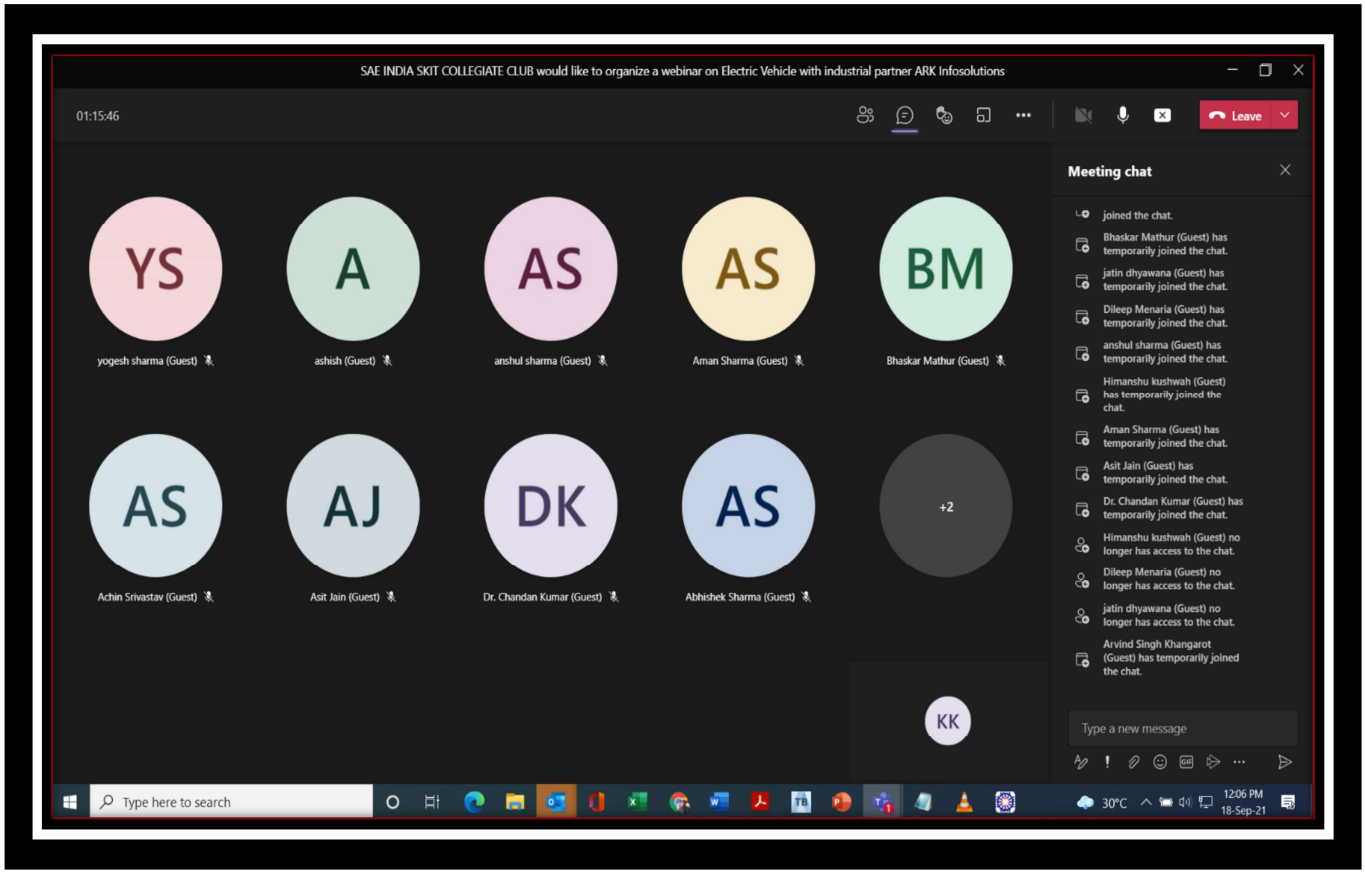
जयपुर ! स्वामी केशवानंद इंस्टीट्यूट ऑफ टेक्नोलॉजी मैनेजमेंट एंड ग्रामोत्थान (एसकेआईटी) रामनगरिया, जगतपुरा, जयपुर में इंडस्ट्रियल पार्टनर ऐआरके इन्फ़ोसोलूशन्स और इलीट चैनल पार्टनर ऑफ़ एनसीस के सहयोग से ऑनलाइन प्लेटफॉर्म पर एसऐई इंडिया एसकेआईटी कॉलेजिएट क्लब (मैकेनिकल इंजीनियरिंग डिपार्टमेंट) द्वारा इलेक्ट्रिक व्हीकल विषय पर दो दिवसीय वेबिनार का समापन हुआ।

इस वेबिनार में विशेषज्ञों ने इलेक्ट्रिक व्हीकल्स टेक्नोलॉजी के विभिन्न आयामों और इलेक्ट्रिक व्हीकल्स के भारत में चुनौतियों पर विस्तृत चर्चा की। डॉ. धीरज जोशी, विभागाध्यक्ष, (मैकेनिकल इंजीनियरिंग) ने सभी आगंतुकों का ऑनलाइन प्लेटफार्म पर स्वागत किया और इ-व्हीकल्स के लाभ एवं उसके चैलेंजेज पर प्रकाश डाला। श्री कार्तिकेश कुमार झा (एप्लीकेशन इंजीनियर, ऐआरके इन्फ़ोसोलूशन्स) ने डिज़ाइन एंड डेवलपमेंट ऑफ़ इलेक्ट्रिक व्हीकल्स यूसिंग एनसीस पर विस्तृत चर्चा की। वेबिनार समापन समारोह में वेबिनार के कोऑर्डिनेटर डॉ. आशीष नैय्यर (प्रोफेसर, मैकेनिकल इंजीनियरिंग डिपार्टमेंट), ने सभी वक्ताओं तथा प्रतिभागियों का धन्यवाद ज्ञापित किया। कार्यक्रम का संचालन मैकेनिकल इंजीनियरिंग डिपार्टमेंट के फैकल्टीज, योगेश शर्मा और मोनिका खुराना ने किया।



8. Feedback report from participants and invited guest/speakers

The event was a successful event as it got a very good feedback from both guest speakers and participants. The speaker **Mr. Kartikesh** was happy with the way the webinar organized. We also got feedback from participants that the event was very good and helped them in understanding concept of e vehicle and the research area in future for one of the most relevant topic.

The participants also shared their views on social media platforms like Instagram, Facebook, etc. They also asked several questions to our guest speaker related to the topic, and were satisfied with the answer/reply they got from the guest speaker.

9. Day wise detailed report

Day 01: 17th September

Mr. Kartikesh was the key note speaker for the webinar, which was held on the 17th of September, 2021, on the Webex meeting platform.

He conveyed his viral knowledge in a very unique way to make participants understand about the general aspect of e vehicle and its constructional pillars.

To convey the concept, he used straightforward language and real-life examples. We need to set a deadline for completing particular tasks because it will aid in their completion quickly and correctly.

Day 02: 18th September

Mr. Kartikesh continued for second day in which he explained various advanced features of ANSYS and how the simulation can be done.

9. Feedback report from participants and invited guest/speakers

The event was a successful event as it got very good feedback from both guest speakers and participants. The speaker **Mr. Vinod Garg** was happy with the way the webinar was organized, everything was just perfect. We also got feedback from participants that the event was very good and helped them in understanding life in a new way, which would be helping in making life more successful.

The participants also shared their views on social media platforms like Instagram, Facebook, etc. They also asked several questions to our guest speaker related to the topic, and were satisfied with the answer/reply they got from the guest speaker.

10. Day wise detailed report

Mr. Vinod Garg was the guest speaker for the webinar, which was held on the 15th of September, 2021, on the Zoom meeting platform.

He conveyed his viral knowledge in a very unique and entertaining style because he has a lot of project management experience.

Mr. Vinod Garg wished all the participants and students A very Happy Engineers day.

To convey the concept, he used straightforward language and real-life examples. He discussed various marks and ISO, and also he shared his wonderful experience and achievements. We can have a lot more fun and be much more successful.

We have to be up to date and update ourselves.

11. Write up expressing objective and outcome of the event

- **Objective:** To make students understand the Global and Indian standards about Project management.
- **Outcome:** After attending the webinar participants were able to understand the importance of projects in life. They were able to understand that life is also a project which can be made successful by planning and working on it according to a plan.

10.Feedback report from participants and invited guest/speakers

The event was a successful event as it got a very good feedback from both guest speakers and participants. The speaker **Mr. Vinod Garg** was happy with the way the webinar was organized, everything was just perfect. We also got feedback from participants that the event was very good and helped them in understanding life in a new way, which would be helping in making life more successful.

The participants also shared their views on social media platforms like Instagram, Facebook, etc. They also asked several questions to our guest speaker related to the topic, and were satisfied with the answer/reply they got from the guest speaker.

11.Day wise detailed report

Mr. Vinod Garg was the guest speaker for the webinar, which was held on the 12th of September, 2021, on the Zoom meeting platform.

He conveyed his viral knowledge in a very unique and entertaining style because he has a lot of project management experience.

To convey the concept, he used straightforward language and real-life examples. He reminded us that if we treat our lives as projects and work according to a plan, we can have a lot more fun and be much more successful.

We need to set a deadline for completing particular tasks because it will aid in their completion quickly and correctly.

12.Write up expressing objective and outcome of the event

- **Objective:** To make students understand the importance of projects in life.
- **Outcome:** After attending the webinar participants were able to understand the importance of projects in life. They were able to understand that life is also a project which can be made successful by planning and working on it according to a plan.

'जर्नी फ्रॉम कैंपस टू आरएस' विषय पर वेबिनार का आयोजन

इंजीनियर्स ने जाना आरएएस बनने का सफर

जयपुर (खबरों की दुनिया)। जगतपुरा स्थित स्वामी केशवानंद इंस्टीट्यूट ऑफ इंजीनियरिंग एंड टेक्नोलॉजी में अभियांत्रिकी व संचार विभाग द्वारा 'जर्नी फ्रॉम कैंपस टू आरएस' विषय पर वेबिनार का आयोजन किया गया। वेबीनार में कॉलेज के एक्स स्टूडेंट आरएएस ऋषि एस पाण्डेय ने अपनें अनुभवों को साझा करते हुए अपनी कॉलेज के समय से आरएस बनने के संपूर्ण सफर की चर्चा की।

कार्यक्रम की शुरुआत में एचओडी डॉ. मुकेश अरोड़ा ने अतिथियों का स्वागत किया तथा इस वेबिनार को छात्रों के लिए बहुउपयोगी बताया। ऋषि ने छात्रों को बताया कि कैसे उन्होंने प्राइवेट सेक्टर मे कार्यरत रहते हुए भी अपनें सपनों को साकार करने की जिद नहीं छोड़ी और अपनें समय का सदुपयोग करते हुए, अंततः सफलता अर्जित की।

अपने तैयारी के तरीकों को साझा करते हुए उन्होंने यह बताया कि चरणबद्ध तरीके से पढ़ाई करनी चाहिए तथा जब तक लक्ष्य तक पहुंच ना जाए रुकना नहीं चाहिये। हर एक असफलता , हमें अपनी मंजिल के करीब ले जाती है, बशर्ते आप उससे कुछ सीख लें। कार्यक्रम के अंत में डॉ स्वाति अरोड़ा ने सभी प्रतिभागियों को धन्यवाद दिया। इस कार्यक्रम में 110 छात्रों तथा फैकल्टी ने भाग लिया। इस कार्यक्रम के कोर्डिनेटर डॉ स्वाति अरोड़ा , मिस पूजा चौधरी रही तथा संचालन मिस ग्लोरिआ जोसेफ ने किया।
