About SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) has been ranked no.1 engineering institute in Rajasthan by RTU, Kota consecutively for the last three years. SKIT is a selective comprehensive institution offering undergraduate and postgraduate programmes in Engineering and Management. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier centre of technical education not only in Rajasthan but also in northern India which has been realized through efficient and dedicated faculty members, innovative teaching learning methods, state of the art infrastructures and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA).

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to ‘achievement of quality’ as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its Endeavour's like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services.

Department of Computer Science & Engineering and Department of Information Technology

Both the departments are NBA accredited and offer undergraduate programmes in CSE & IT, postgraduate and Ph.D. programmes in CSE. The major areas of research are Big Data Analytics, Cloud Computing & Virtualization, Artificial Intelligence, Security, Compilers & Programming Languages, Computer Architecture, Bioinformatics and Theoretical Computer Science. Both departments have various research laboratories with the state-of-the-art computing facilities. The departments’ are also recognized as a “Centre of Excellence in IoT” by Rajasthan Technical University, Kota.

Dear Sir,

You are requested to kindly approve the following proposals to organize the various events in the department of Computer Science & Engineering / Information Technology.

| S.N. | Proposed Title | Event Type | Name of Coordinator(s) | Tentative Dates | Tentative Budget |
|------|---|--------------------------|---|-------------------|------------------|
| 1 | Data Analytics with TABLEAU | Student Workshop | Ms Dolly Mittal, Mr Palika Jajoo, Mr. Ashish Pant, Ms. Shalini Singhal | 4-8 Oct, 2021 | 30000 |
| 2 | One week FDP on Recent Trend and Advancements in Computer Science & Engineering | FDP | Dr. Nilam Choudhary, Dr. Pankaj Dadheech | 23-27 Nov, 2021 | 40,000 |
| 3 | Machine Learning Frontiers in Health science | FDP | Dr Sunita Gupta, Dr. Neha Janu, Ms. Priyanka Bhardwaj | 6-10 Dec, 2021 | 30,000 |
| 4 | Computer Vision and Image Processing | Student Workshop | Ms. Priyanka Sharma, Ms. Rubal Deep Gill, Ms. Nikhar Bhatnagar, Mr. Harpreet Singh Gill | 24 - 28 Jan, 2022 | 30,000 |
| 5 | Research Applications in the field of Artificial Intelligence | FDP | Ms. Nidhi Srivastav, Ms. Shanu Tripathi, Ms. Deepa Modi, Dr Sunita Gupta | 3 - 7 Jan, 2022 | 30000 |
| 6 | Data Analytics, Intelligent System and Information Security | International Conference | Mr Ankit Kumar, Dr. Neha Janu, Ms. Priyanka Bhardwaj | 7-8 March, 2022 | 40,000 |
| 7 | Intro to Front-end Development Technologies | Student Workshop | Ms. Sanju Chaudhary, Ms. Richa Rawal | 14-18 Feb 2022 | 30,000 |

Proposed and forwarded to Registrar for Approval.

Organizing Committee of FDP

FDP is organized by Department of Computer Science & Engineering and Department of Information Technology, Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur, Under the guidance of Dr. Mukesh Gupta, HOD (CSE),SKIT and Dr. Anil Chaudhary, HOD (IT)SKIT.

Coordinators of the FDP are:

1. Mr. Harpreet Singh Gill, Associate Prof., CSE
2. Ms. Rubal Deep Gill, Associate Prof., CSE
3. Ms. Nikhar Bhatnagar, Assistant Prof., IT
4. Ms. Priyanka Sharma, Assistant Prof., CSE

Objectives of the FDP

Programme is intended to introduce with fundamentals of Computer Vision and Image Processing with its applications. Programme would help participant to understand the key concept and recent advancements in the field of Computer Vision and Image Processing. At the end of the FDP, participants shall be able

- To understand the technologies for future applications.
- To find the real-world implementation of Computer Vision and also able to explore how ML has changed our lives
- To acquaint participants with recent advancements in the field of Computer Vision and Image Processing.
- To Explore the research opportunities and challenges of the Computer Vision and Image Processing.
- To share the current state of research and practice.
- To provide an opportunity for the participants to interact and learn from experts.

Contents of the FDP

- Introduction to Computer Vision and Image Processing
- Scene Reconstruction. Object & Event Detection Video Tracking
- Object Recognition, 3D Pose Estimation, Learning, Indexing, Motion Estimation, visual
- Serving, 3D Scene Modelling, and Image Restoration.
- Image classification - Decision Tree
- Principal Component Analysis
- MATLAB GUI : Image Conversion, Image Filtering Techniques
- Applications of Computer Vision and Image Processing

Outcomes of the FDP

At the end of the FDP, participants shall be able

- To understand the technologies for future applications.
- To find the real-world implementation of Computer Vision and also able to explore how ML has changed our lives.
- Explore the research opportunities and challenges of the Computer Vision and Image Processing.
- Understand the current state of research and practice in Image Processing.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry -Institute Interface. Apart from University curriculum SKIT also pursues activities for Research and Development in various fields. The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

DEPARTMENT OF CSE & IT

Both the departments are NBA accredited and offer undergraduate programmes in CSE & IT, postgraduate and Ph.D. programmes in CSE. The major areas of research are Big Data Analytics, Cloud Computing & Virtualization, Artificial Intelligence, Security, Compilers & Programming Languages, Computer Architecture, Bioinformatics and Theoretical Computer Science. Both departments have various research laboratories with the state-of-the-art computing facilities. The departments are also recognized as a "Center of Excellence in IoT" by Rajasthan Technical University, Kota.

RESOURCE PERSONS

The various sessions of FDP will be taken by the eminent speakers from reputed Institutions and Industries across the globe.

TARGETED AUDIENCE

This FDP will be very helpful for faculties from different institutes across and outside India.

REGISTRATION FEE

There is no registration fee.

Day-wise Execution of FDP

One week International FDP on “**Computer Vision and Image Processing**”, Under the aegis of IQAC and PAQIC, was started on **31th January, 2022**.

Inaugural ceremony

Date: 31/1/2022

Time: 10:00 AM-10:30 AM

- ✓ Session was started with inaugural ceremony where **Dr. Manoj Kumar Gaur (Director, IIT-Jammu)** was the chief guest of the event. **Dr. Narendrasinh C. Chauhan** (Professor & Head, Dept of IT, A.D. Patel Institute of Technology, New Vallabh, Vidhyanagar) talked about application of computer processing and its effects on our life.
- ✓ **Shri Jaipal Meel** welcomed all the guests and participants. **Dr. S.L. Surana** told about the achievements of SKIT.
- ✓ **Prof. Anil Chaudhary** (Head, Dept of IT) detailed about the programme. He suggested participants to get acquainted with practical aspects of Artificial Intelligence by doing projects using AI and ML technique.

Day 1:

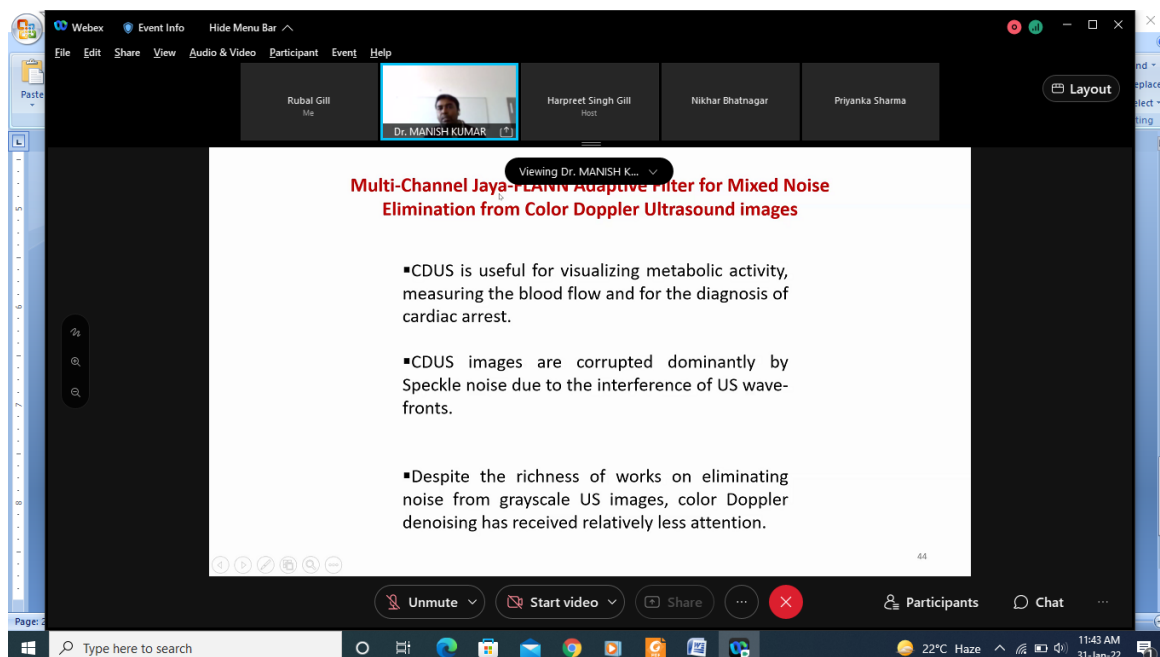

Date: 31st Jan, 2022

Session 1: (11:00AM -12:30AM)

1. First session was taken by Dr. Manish Kumar, Assistant Professor, Department of Biomedical Engineering, Mody University of Science and Technology, Sikar.
2. The session was about “**Computational Intelligence Based Image Filter Model for Denoising Medical Images**”.
3. He started the session by discussing the medical images like Computed Tomography (CT), Magnetic Resonance Imaging (MRI), Ultrasound (US), etc with their respective advantages and limitations.
4. He has given the idea which type of probable dominant noise occurred in these type of medical images. He discussed about the image denoising techniques,
5. He discussed the Particle Swarm Optimization based Functional Link Artificial Neural Network (PSO-FLANN) Filter and graphical representations of comparing various image filters.
6. He explained Teaching Learning Optimization based Functional Link Multilayer Perceptron (TLBO-FLMLP), Jaya Based Functional Link Multilayer Perceptron Filter for Denoising Medical Images, Multi-Channel Jaya-FLANN Adaptive Filter for Mixed Noise Elimination from Color

Doppler Ultrasound image. He graphically represented multichannel Jaya-FLANN adaptive filter could successfully remove the mixed noise from medical CDUS images.

7. At the end of the session a very healthy question answer session also took place.

Session 2: (1:30PM - 2:30PM)

1. The second session of the day was taken by Dr. Urvashi Prakash Shukla, Assistant Professor, Department of Computer Science, Banasthali Vidyapith, Vanasthali.
2. The topic for this session was **“Cluster-Based Hyperspectral Image Segmentation”**.
3. She started the session by discussing about the hyperspectral images, spatial, spectral and temporal resolution and spectral signature.
4. Color representation of hyperspectral data cube, compare various capturing device on the basis of different parameters and labelling of data.
5. She explained in detail segmentation including supervised and unsupervised learning. She also quoted an interesting example of Simpson’s family to explain the concept of cluster analysis.
6. She also discussed the distance measures with its properties like Symmetry, Constancy of Self-Similarity, Positivity (Separation), Triangular Inequality.
7. She discussed different clustering techniques and its algorithms. She described K-mean algorithm with example and explain cluster based hyperspectral image segmentation. Also explain the application in detail.
8. At the end of the session a very healthy question answer session also took place. Different questions were asked by the participant’s such as algorithm related to crop analysis (agriculture), cluster analysis in unsupervised learning etc.

Day 2:

Date: 1st Feb, 2022

Session 1: (10:00AM -11:30AM)

1. First session was taken by Dr. Hetal N. Patel, Professor and Head, Electronics and Communication Engg. Department, A D Patel Institute of Technology, New Vallabh Vidhya Nagar, Anand, Gujarat.
2. The session was about **"Image Processing Fundamentals: Pre-processing, Filtering and Applications"**.
3. She started the session by discussing the Fundamentals of Digital Image Processing, Applications, rendering, agriculture applications, Image inpainting.
4. She has given the brief idea about the various approaches of Image Processing.
5. She discussed about the image's washed out appearance, Indian sign Language Recognition, Histogram Processing, Log transformations etc.
6. She represented the graphical representations of various restoration and filtering reports.
7. At the end of the session a very healthy question answer session also took place. Different questions were asked by the participants such as how to handle images in spatial and frequency domains,

1. The second session of the day was taken by Dr. Gaurav Aggarwal, Assistant Professor Department of Information Technology and Engg., Amity University in Tashkent, Uzbekistan.
2. The topic for this session was **“Machine Learning in Image Processing”**.
3. He started the session by discussing about the image enhancement, image restoration, image compression, Machine Learning, Learning Associations, Classification, Clustering, Face Recognition, Video Classification, Regression, Outlier Detection, Computer Vision and Visual Inspection.
4. Working principles of traffic monitoring, automatic number plates, Fingerprint identification and verification were explained effectively.
5. He explained in detail the different evaluation such as how crop yield prediction, soil classifications, Detection of CO2 leaks etc.
6. He also discussed the future work to use with human activity recognition, Facial recognition.
7. At the end of the session a very healthy question answer session also took place. Different questions were asked by the participant's such as hardware used for this urban anomaly experiment and the computation time of the proposed network etc.

Day 3:

Date: 2nd Feb, 2022

Session 1: (10:00AM - 11:30AM)

1. First session was taken by **Dr. Sumit Srivastava, Professor in Information Technology Department & Controller of Examination in Manipal University Jaipur.**
2. The session was about **“Pneumonia Detection through Various Dense Layer Network”**.
3. He started the session by discussing the different types of pneumonia.
4. He has given the brief idea about the medical diagnosis of a healthy lung and a pneumonic lung.
5. He compared the merits and demerits of different approaches such as Transfer learning using DenseNet-201, Transfer learning using VGG-61 etc, Transfer learning using DenseNet-121.
6. He explained the ensemble framework of ResNet-18.
7. He represented the graphical representations of pneumonia detection in chest X-ray images using an ensemble of deep learning models.
8. At the end of the session a very healthy question answer session also took place.

Moving Forward with Dense network- ResNet-18

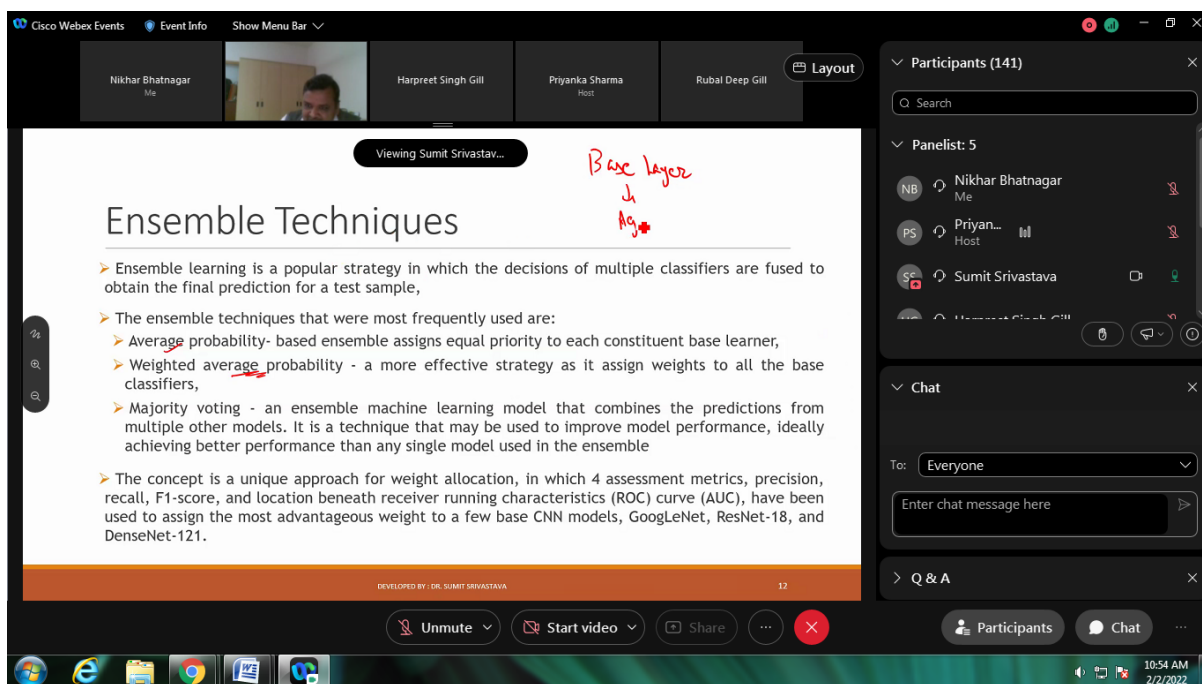

An ensemble framework of ResNet-18 proposed by He et al. [35]

- The residual blocks with inside the ResNet fashions facilitate optimization of the general network,
- It in flip improves version accuracy, in contrast to the unit unreferenceed mapping in monotonically revolutionary convolutions.
- These residuals or "bypass connections" carry out identifiat mapping, which neither provides parameters nor will increase computational complexity.

Ensemble Techniques

Base layer
↓
Avg

- Ensemble learning is a popular strategy in which the decisions of multiple classifiers are fused to obtain the final prediction for a test sample,
- The ensemble techniques that were most frequently used are:
 - Average probability- based ensemble assigns equal priority to each constituent base learner,
 - Weighted average probability - a more effective strategy as it assign weights to all the base classifiers,
 - Majority voting - an ensemble machine learning model that combines the predictions from multiple other models. It is a technique that may be used to improve model performance, ideally achieving better performance than any single model used in the ensemble
- The concept is a unique approach for weight allocation, in which 4 assessment metrics, precision, recall, F1-score, and location beneath receiver running characteristics (ROC) curve (AUC), have been used to assign the most advantageous weight to a few base CNN models, GoogLeNet, ResNet-18, and DenseNet-121.

Session 2: (12:30PM - 2:00PM)

1. The second session of the day was taken by **Dr. Arun Saini, Associate Professor and Associate Dean, ICFAI Tech, The ICFAI University, Jaipur.**
2. The topic for this session was **Topic: “Deep Learning for Facial Expression Recognition”**
3. He started the session by discussing about the fundamentals of deep learning.
4. Architecture of Alexnet, VGG-19, ResNet101 and ResNet18 were explained effectively.
5. He explained in detail the transfer learning using the pre trained deep CNN’s on UNBC & IFDCEERI databases.
6. He also gives the idea of future work in the development of explainable and trustworthy intelligent system based on contextual and common sense reasoning.
6. At the end of the session a very healthy question answer session also took place. Different questions were asked by the participant’s such as why we are using pre trained deep CNN for pain.

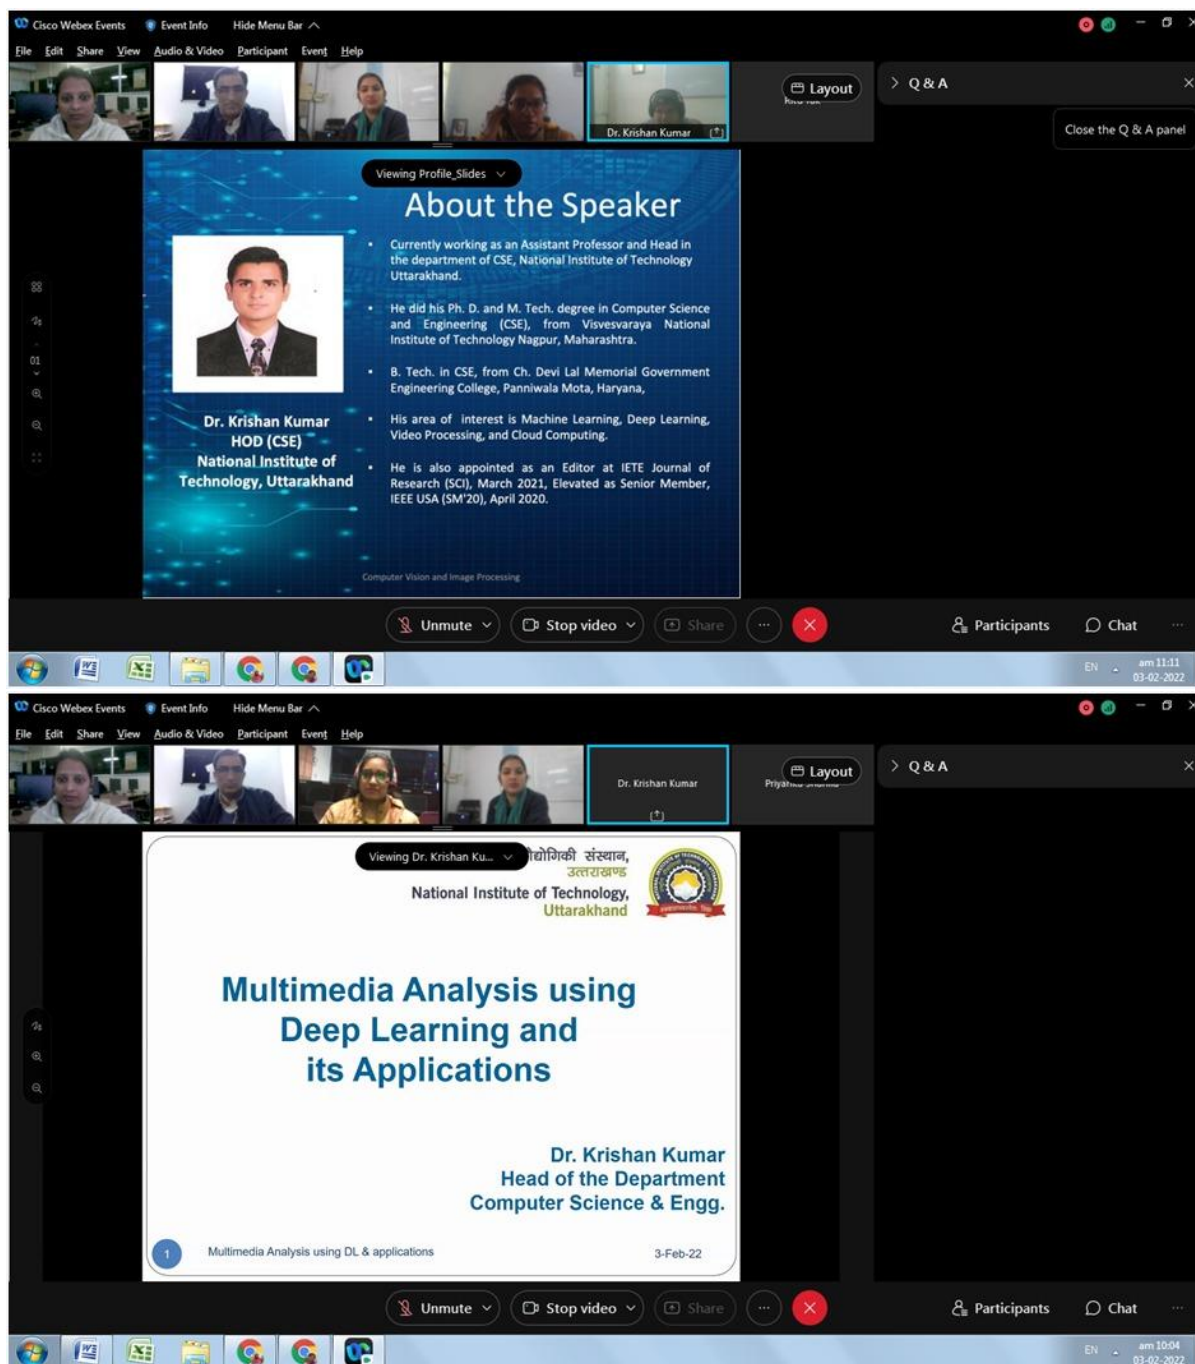

Day 4:

Session 1: (10:00AM - 11:30AM)

1. The First session of the day was taken by **Dr. Krishan Kumar, Assistant Professor and Head(CSE), National Institute of Technology, Uttarakhand**. The session was about "**Multimedia Analysis Using Deep Learning and its Applications**".
2. He discussed about the continuous sources of multimedia. He also talked about discovery of interesting patterns in multimedia data mining.
3. Multimedia data mining is interdisciplinary field which integrates image processing and understanding, computer vision, data mining and pattern recognition.
4. He discussed about how to construct deep layers using DL library. He discussed about performance of DL image classifiers. He discussed about various applications areas like prediction of handwritten digits and its performance and told it's a highly successful application.
5. He discussed about the reasons to use GPU for deep learning. He told the process such as data preparation, design network architecture, naming architecture and training and testing the model.
6. He emphasized to see the models from others and learn from them too by even re-implementing the models and check them for the claims made about the results produced.
7. We don't often build, train a new network from ground up, instead, usually try to start with an existing network whenever possible, specialize it for our task by perhaps modifying it, then training it some more with our data.
8. He discussed that operations for training a deep learning system just happen to be a great match to the operations that GPU's were designed to do, so those they are best suitable to be used for deep learning.

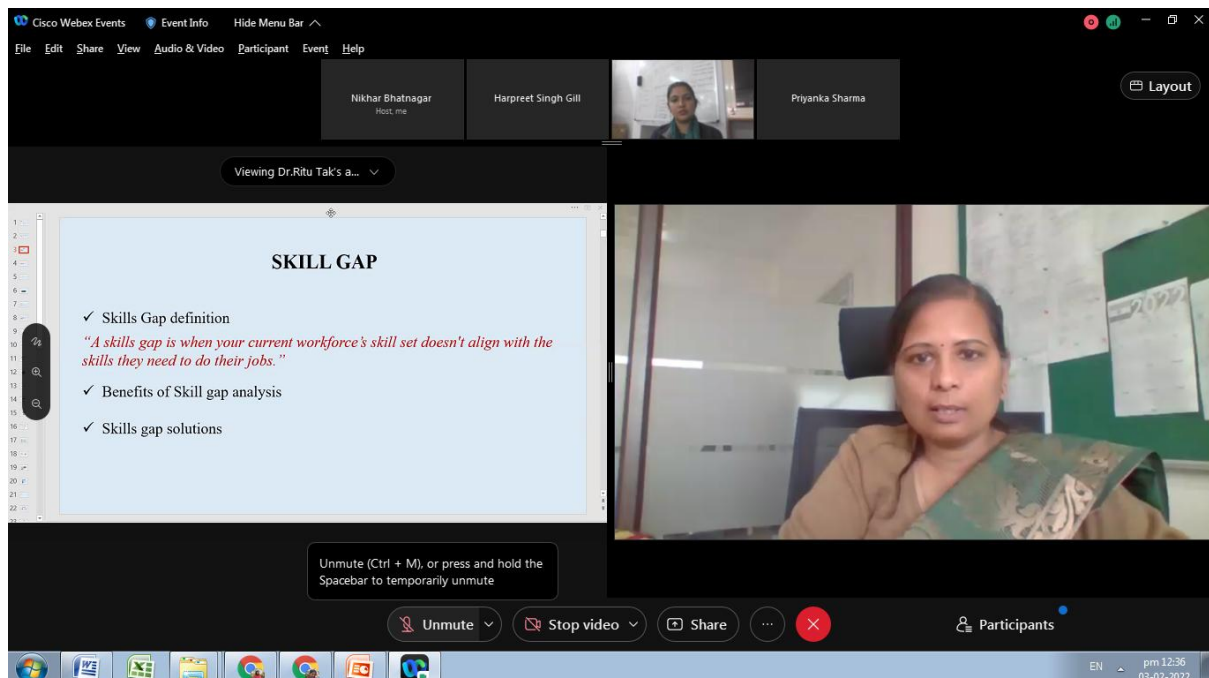

The top screenshot displays the 'About the Speaker' slide for Dr. Krishan Kumar, HOD (CSE) at National Institute of Technology, Uttarakhand. The slide includes a profile picture and a list of his qualifications and interests, such as his Ph.D. and M. Tech. degrees in Computer Science and Engineering (CSE), his B. Tech. in CSE, and his research interests in Machine Learning, Deep Learning, Video Processing, and Cloud Computing. It also mentions his appointment as an Editor at IETE Journal of Research (SCI) and his roles in IEEE USA (SM'20).

The bottom screenshot shows the 'Multimedia Analysis using Deep Learning and its Applications' slide, presented by Dr. Krishan Kumar, Head of the Department Computer Science & Engg. at National Institute of Technology, Uttarakhand. The slide features the title, the speaker's name and title, and the date 3-Feb-22.

Session 2: (12:30PM - 2:00PM)

1. The second session of the day was taken by **Dr. Ritu Tak, Associate Professor & Principal Schools of Electrical Skills, Bhartiya Skill Development University, Jaipur.**
2. The topic for this session was **Topic: “Skills in Smart Technologies (PLC/HMI/SCADA) For Practicing Computer Vision in Progressive Industry”**
3. She started the session by discussing about the National Education Policies.
4. She explained in detail about the historical background of automation.

4. Architecture, components and programming languages of Programmable Logic Controller was explained effectively.
5. At the end of the session she also gives the live example of how the elevator can work, and also demonstrate the working of HMI and SCADA technologies for computer vision.

Day 4:

Session 1: (10:00AM - 11:30AM)

1. The First session of the day was taken by **Dr. Narendrasinh C. Chauhan, Professor & Head(Information Technology), A D Patel Institute of Technology, CVM University, Anand, Gujarat**
2. The session was about "*Applications of Machine Learning and Deep Learning in Computer Vision*".
3. He started with basic introduction of AI, Machine learning, Deep Learning. Also, he compared ML and deep learning and explained the use of ML in computer vision.
4. He discussed different machine learning techniques. Popular ML techniques- Artificial Neural Network, Support Vector Machine are briefly discussed.
5. He discussed few use case like handwritten character recognition and human action detection based on machine learning techniques. He also Compared ANN and SVM based on five type of action frame wise and video wise classification.
6. He also discussed different real time application of computer vision that are performed through ML and DL like automatic cheque deposit and its processing in banking, crop disease detection in agriculture, food quality detection, medical image analysis in healthcare system, VQA, HORUS etc.
7. At the end of the session a very healthy question answer session also took place. Also Give the idea to exploring research in computer vision through ML and DL.

About the Speaker

- Total Teaching experience: 18 years +
- Research Experience: 10 years +
- He has completed his Ph.D. in Electronics & Engineering from Indian Institute of Technology, Roorkee.
- Done his M.E. in Computer Engineering from V. V. Nagar Engineering College, V. V. Nagar; B.E. in Computer Engineering from BVM Engineering College, V. V. Nagar.
- His area of interest is Artificial Intelligence, Machine Learning, Deep learning, Soft Computing, Data Science & Big Data Analytics, Image & Video Processing, Approximate Modeling & Design Optimizations.
- Over 30 expert talks delivered at Seminars / Conferences / STTPs / Workshops at State and National levels in the fields of Artificial Intelligence, Machine Learning, Deep Learning, Soft Computing, Data Science, and Image Processing.

Session 2: (12:00PM - 1:00PM)

1. The second and last session of the day was taken by **Mr. Giridhari Dasa, Life Skill Coach, Akshay Patra, Jaipur** on **“Stress Management”**.
2. He emphasized not to take material things very seriously as it leads to affect our personal life, social links etc.
3. He discussed a few principles to manage the stress-think yourself as a ship who follows the lighthouse for directions.
4. He asked the audience if there is any point in life, where all the up and downs are laid off, to which the audience responded in their own ways.
5. He emphasized that there will be the problems in the life, it's what and how we react to it, that will lead to the amount of stress that we are going to feel.
6. We need to improve our communication and conversation; we need to open heartily talk with others about ourselves.
7. We also need to hear them out as its equally important and all the great people till date were great listeners too.
8. The people should be acknowledged for what they do, as its human behavior to try to improvise whenever acknowledged.

The screenshot shows a Zoom meeting in progress. The main window displays a presentation slide with a blue background and a grid pattern. On the left side of the slide is a portrait of a man in a pink shirt. To the right of the portrait is a list of bullet points. The top of the slide has the text 'he Speake'. The bottom of the slide has the text 'Computer Vision and Image Processing'. On the right side of the screen, there is a video feed of a man speaking, with the name 'Harpreet Singh Gill' below it. Below the video feed, there is a smaller video feed of a woman, with the name 'Priyanka Sharma' below it. The top of the screen shows the Zoom toolbar with various icons like 'Stop Sharing', 'Pause', 'Share', 'Assign', 'Unmute', 'Stop video', 'Participants', 'Annotate', 'Chat', and 'More'. A notification bar at the top left says 'Stop sharing all applications and return to your event window (Ctrl + Shift + Z)'. A notification bar at the top center says 'You're sharing 1 application'.

Shriman Giridhari Das
Life skill coach
Hare Krishna Temple,
Jaipur

- Completed his studies from RTU Kota
- His Grace is Mentoring Today's youth to towards the society through a holistic com Spiritual Values and understanding Modern Realities.
- Sriman Giridhari Das Ji is giving his dedicated service to the mission of Akshayapatra started by his Spiritual Master A.C Bhaktivedant Swami Prabhupad Ji for feeding underprivileged kids and as well his Spiritual Mission of disseminating knowledge of Bhagavad Gita in a lucid Manner for the understanding of Today's Youth.
- Delivered wisdom lectures in Prestigious institutes like IIT's, NIT's, IIM's BITS Pilani, AIIMS and Various other Central Universities Like DAVV etc.

Valedictory Ceremony

Date: 8/1/2022

Time: 2:00 AM Onwards

A one week International FDP on “**Computer Vision and Image Processing**”, (Under the aegis of IQAC and PAQIC), came to an end on 4th February 2022, with a Valedictory function. There were many participants during the event alongside the experts Dr. Urvashi Prakash Shukla, Assistant Professor, Department of Computer Science, Banasthali Vidyapeeth and Gaurav Aggarwal, Assistant Professor Information Technology and Engg., Amity University in Tashkent, Uzbekistan. The experts shared their views on the relevance and execution of this FDP, also the participants shared their experience during the complete FDP.

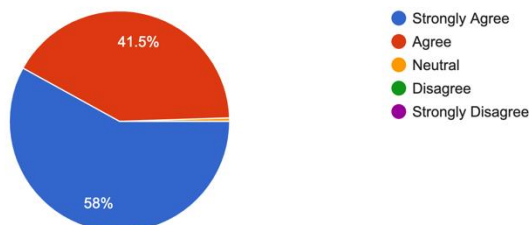

Ms. Priyanka Sharma, Assistant Professor, Dept of CSE, SKIT presented the report on the FDP during this event and at the end, to conclude this FDP, Ms. Rubal Deep Gill, Associate Professor, Dept of CSE, SKIT thanked all the speakers and participants for their participation and efforts that made this event a successful one.
