## **1. About SKIT:-**

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

The green landscaping, aesthetic elegance of arches and the vibrant pursuit of knowledge by the young aspirants make the environment serene, pleasant and dynamic.

Students joining the institute share the box full of opportunities for professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

## **2. ABOUT DEPARTMENT OF ELECTRICAL ENGINEERING: -**

The Department of Electrical Engineering is distinctly focused towards integrating academics with cutting edge technology in the field of Electrical Engineering. The B. Tech. Program has been accredited four times in succession by NBA since 2009. - 4 - Department is also conducting M. Tech. and PhD Program in Power Systems specialization.

All efforts are subtly harnessed with the aim of preparing the budding engineers to face the challenging dimensions of technical excellence in areas such as Analog & Digital Electronics, Electrical Machines, Control & Automation, Power Systems Design and Power Electronics. The department puts in consistent efforts for field exposure to students through various research oriented projects taken up for meeting the industry demands. The department offers a perfect blend of electrical, electronics and computer related courses to help students pursue a professional career or higher studies

### **Our Inspiration**

**"Mass illiteracy is the root cause behind backwardness of India. If we want speedy progress of nation we need to root it out as early as possible."**

**– Swami Keshvanand**

Swami Keshvanand, an orphan, illiterate, nomadic man who never received formal education, was the founder of more than 300 schools, 50 hostels and innumerable libraries, social service centers and museums. Swami Keshvanand had a deep understanding of the rural society of the desert region. He had explained the peculiarities of the desert region, identified the problems and suggested appropriate and logical solutions. It was Swami Keshvanand's lifelong endeavour to eradicate social evils like untouchability, child marriage, indebtedness, poverty, backwardness, alcohol abuse, moral dissipation etc.

### **3. Vision, Mission & Quality policy of the Institute**

#### **Vision**

To promote higher learning in advanced technology and industrial research to make our country a global player

#### **Mission**

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to

encourage faculty to undertake industry sponsored projects for students.

### **Quality Policy**

We are committed to ‘achievement of quality’ as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

### **Institute would pursue quality in**

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.
- Functional areas like teaching departments, Training & Placement Cell, library, administrative office, accounts office, hostels, canteen, security services, transport, maintenance section and all other services.”

## **4. Vision, Mission of the Department:-**

### **Vision**

To promote specialized knowledge in the field of Electrical Engineering along with interdisciplinary awareness and to develop a framework to support the communicative and ethical needs of industry and society at global level.

### **Mission**

- To impart quality education in the field of Electrical Engineering and to pursue research and higher studies by providing latest development through expert lectures, conferences and workshops.
- To facilitate and develop students for their better employability to adapt the changing needs.
- To encourage students and faculty members to undertake industry sponsored projects.

**ABOUT SKIT, JAIPUR**

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) has been Ranked No.1 Engineering Institute in Rajasthan by RTU Kota consecutively for the last five years. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier centre of technical education not only in Rajasthan but also in Northern India, which has been realized through efficient and dedicated faculty members, innovative teaching learning methods, and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA).

**DEPARTMENT OF ELECTRICAL ENGINEERING**

The Department of Electrical Engineering is distinctly focused towards integrating academics with cutting edge technology in the field of Electrical Engineering. The B. Tech. Program has been accredited four times in succession by NBA since 2009. Department is also conducting M.Tech. and PhD Program in Power Systems specialization. All efforts are subtly harnessed with the aim of preparing the budding engineers to face the challenging dimensions of technical excellence in areas such as Electrical Machines & Drives, Control & Automation, Power Systems Design, Power Electronics and MATLAB Applications. The department puts in consistent efforts for field exposure to students through various research-oriented projects taken up for meeting the industry demands. The department offers a perfect blend of electrical, electronics and computer related courses to help students pursue a professional career or higher studies.

**ABOUT THE SEMINAR**

Rural electrification is the process of bringing electrical power to rural and remote areas. Rural communities are suffering from colossal market failures as the national grids fall short of their demand for electricity. Electrification typically begins in cities and towns and gradually extends to rural areas, however, this process often runs into obstacles in developing nations. Expanding the national grid is expensive and countries consistently lack the capital to grow their current infrastructure. Additionally, amortizing capital costs to reduce the unit cost of each hook-up is harder to do in lightly populated areas (yielding higher per capita share of the expense). If countries are able to overcome these obstacles and reach nationwide electrification, rural communities will be able to reap considerable amounts of economic and social development.

**TOPICS TO BE COVERED**

- Rural Electrification- Overview.
- Microgrids for Rural Electrification.
- Off Grid Power Generation & Visibility.
- Planning of Grid Sub Station in Rural Electrification.
- Design cost-based tariff and financial scheme.
- Focusing on enormous and untapped market for home lightning.
- Guideline for both OFF / ON grid renewable energy system.

**SCHEDULE**

The Seminar will be conducted from 15th to 16th April, 2022 consisting of two sessions in each day.

Date	Session-I	Session-II
15-16 April, 2022	10:30-11:30 AM	12:00-1:00 PM

**REGISTRATION FEES**

There is no registration fee.

**ELIGIBILITY CRITERIA**

The seminar series is interdisciplinary and it is open for the beginners in the research in UG, PG and PhD program.

**RESOURCE PERSON**

The various session of seminar series will be conducted by renowned experts from IITs, NITs, and various reputed industries from India.

## 22. Sample Copy of the Participants Certificates:-

### **23. Words of Acknowledgement:-**

First of all, I would like to thank **SKIT M&G, Jaipur** for providing us a chance to organize such a useful & informatics student's Event.

I believe that guidance, support and blessings are the incomparable qualities that my gratitude to our Chairman, **Shri Surja Ram Meel**, Director, **Shri Jaipal Meel** and Registrar, **Smt. Rachna Meel** for providing unconditional freedom and financial support to execute this student's Event.

I also thanks to **Industry experts**, who educated our participants in this 2 day seminar series.

I would also like to thank **Dr. S.L. Surana**, Director (Academics) and **Prof. (Dr.) Ramesh Kumar Pachar**, Principal (SKIT) to allow me to execute this event in the college campus and your guidance.

I would also thank to **Dr. Dhanraj Chitara** , HOD, EE for the support and contribution for this event.

I would also like to thank all the technical and non-technical staff members for providing their valuable time for the successful execution of this program.

I would also thank to Prof Dr. Amber Srivastava ji for covering this event on various media platform.

I would also thank to all our participants and students for their participation in this Event and my best wishes to all the students for their bright future and life.

# Thank You
