27.09.2021

Dear Madam,

This has reference to your request letter dated 15.09.2021 for organizing an International Conference on **Environmental Pollution Abatement and Disaster Management** (ICEPADM-21) during 18-20 October, 2021 at the Department of Chemistry, Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur, India. We are pleased to inform you that the National Executive Committee (NEC) of InDA has agreed to your request to associate in organizing the said conference and it has also sanctioned a financial support of **Rs. 25,000/- (Rupees Twenty Five Thousand Only)** for this purpose.

InDA President should be invited as Guest of Honor during the inauguration function and InDA should be given due reorganization at all appropriate places including conference brochure, banners, Website, etc. Other office bearers of InDA NEC should be given due reorganization at appropriate places in consultation with President/ Hon. Secretary of InDA. You are further required to submit a report on the conference with photographs and utilization certificate. We would appreciate it if you could share the conference brochure for uploading on InDA website.

Wishing a grand success for the conference.

Sincerely yours,

(Dr. Dipaloy Datta)  
Hon. Secretary

## About SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today the institute is recognized as one of the centres of academic excellence in Northern India. The institute is affiliated to Rajasthan Technical University (RTU), Kota for offering Ph.D, Postgraduate and Graduate Courses in Engineering and Management. The institute is approved by

All India Council for Technical Education (AICTE), New Delhi. Engineering branches are accredited by National Board of Accreditation (NBA), New Delhi and also by Institute of Engineers, Kolkata. Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry - Institute Interface. Apart from university curriculum SKIT also pursues activities for research and development in various fields. The Vision of the Institute is "To promote higher learning in advanced technology and industrial research to make our country a global player" and the mission "To promote quality education, training and research in the field of engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students"

SKIT has been consecutively ranked No.1 in engineering programmes for 4 years from 2017-18 to 2020-21 in Rajasthan by Rajasthan Technical University (RTU), Kota.

## Indian Desalination Association (InDA)

InDA was established in the year 1991 with the main goal for the development and promotion of the appropriate use of desalination and water treatment technologies. Being a neutral association without any commercial bias, InDA is active in spreading awareness and providing an interface for enhanced interaction amongst the stakeholders namely the user sectors, industries, academicians, policy makers and program implementation agencies. InDA is an affiliate of International Desalination Association (IDA) and Asia Pacific Desalination Association (APDA) for policy advocacy and adopting world best practices. Each year InDA conducts an international conference to enhance the skills as well to interact with small & medium industries to enable them to mitigate the problems related to wastewater & water management in addition to pollution control.

## Department of Chemistry

The Department of Chemistry strives its best for excellence in research and teaching. Faculty of the department is well qualified and motivated with a strong commitment towards teaching, research and mentoring. The commitment towards research is reflected in the research paper publications in reputed national and international journals as well as presentations in conferences/seminars. The department is well equipped to undertake projects sponsored by the Ministry of Human Resources and Development, Department of Science and Technology, and Council of Scientific and Industrial Research. The department also encourages industry sponsored research. The faculty has been active in organizing conferences, seminars, workshops, FDPs and scientific meetings from time to time. Department offers a vibrant and dynamic atmosphere to nurture the spirit of inquisitiveness amongst students and faculty members.

## About The Conference

This conference ICEPMDM-2021 aims at providing an ideal environment to develop new collaborations and gather scholars from all over the world to provide a platform for various researchers around the globe working on the burning issues of the environment and to foster an environment conducive to exchanging ideas and information. Through the scheduled sessions, the conference intends to create awareness amongst all the stakeholders in coherence with various current and emerging issues of environment. The topic of the conference will cover major issues related to the environmental challenges & disaster and measures that can be taken to protect the environment, gearing towards innovative approaches to environmental remediation and restoration.

## Themes of the Conference

- Environmental Aspects and Impact of Climate Change in Water Sector
- Advanced and economically feasible methods for removal of pollutants in air, water and soil
- Natural resource management
- Environmental education and awareness
- Disaster management
- Environmental innovations
- Environmental laws and policies
- Desalination and Water Conservation Schemes for Rural and Remote Areas Environmental protection measures
- Global warming and Climate Change
- Health and Environment
- Industrial waste issues and management
- Water Resource Management
- Environment Pollution Abatement/mitigation
- Other related topics

## Call for Papers

We invite scientific fraternity to share his/her research/review/theoretical contributions at the conference.

All participants are requested to fill the registration form on or before 05-10-2021 (for Oral / E-poster).

To: Sangeeta vyas <drsangeeta@skit.ac.in>

Dear Dr. Prof. Sangeeta-Ji Vyas

I thank you for your request & invitation to present an Invited Keynote Talk at the International Conference on **"Environmental Pollution Abatement and Disaster Management (ICEPADM - 2021)"** during October 18-20, 2021, organized by the Department of Chemistry at Swami Keshvanand Institute of Technology (SKIT), Management & Gramothan, Ramnagar, Jagatpura, Jaipur-302017, in association with Indian Desalination association (InDA).

I would be honoured to present an Invited Keynote Talk on **"Sustainable Water Supply, Contaminated Water Source Rejuvenation, Sewage/Wastewater Recycle/Reuse and Advanced Seawater Desalination Technologies"** which will also provide detailed overview on Advances in Non-Revenue Water Supply Management & Leakage Minimization, Industrial & Municipal Wastewater Treatment, Effluent Recycle/Reuse and Seawater Desalination Technologies. I will require a minimum 50-60 minutes slot to do justice to my Invited Keynote Talk followed by additional time for Questions & Answers. Please kindly accommodate.

Please find a copy of my Biographical Sketch (CV) & Photograph. I have also attached a brief Abstract of my Presentation for Circulation to all invitees & attendees via email. Once the date & time for Expert Lecture is confirmed, I can forward the PowerPoint Presentation Copy in PDF..

Please do not hesitate to call me at 98202-96832 / 93245-74343 with additional comments.

**SCIENTIFIC LANDFILLS**

"A scientific landfill ensures that there is no risk of pollutants seeping underground or enough generation of methane to light up the garbage. This reduces the risk of environmental or health hazards tremendously, said A.K. Agnihotri, Professor, The Energy and Resources Institute (TERI)."

Engineers with technical know-how of constructing scientific landfills remain rare, more so because for years this aspect of waste management hasn't been explored.

**Conclusion**

1. As the percentage of crumb rubber increases from 0% - 7.5% in the concrete mix there is an increase in insertion loss values. The insertion loss value is maximum for 7.5% of crumb rubber, at all the distances from the sound sources.
2. All the barriers with different composition ratio of crumb rubber are best suited for frequency range of 750 Hz to 4 kHz.
3. For all the considered ratios of the mix, it is observed that the maximum attenuation is achieved at 1 kHz frequency, which makes barriers suitable to be used in Indian traffic condition.
4. These results open a sustainable way to use crumb rubber particles as sound absorbing material where noise has relatively high frequency from 750 Hz to 4 kHz. Thus, employing the rubber particles in concrete mix may provide a solution to both noise pollution and solid waste management.

## Day wise report

The First International Conference on Environmental Pollution Abatement & Disaster Management ICEPADM-2021, during 18-20 October 2021 was organized by Department of Chemistry of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur *In association with Indian Desalination Association (InDA)*. The conference brought together 200 participants from various academic colleges and industry across the globe.

The main objective of this event was to provide a platform for various researchers around the globe working on the burning issues of the environment and objective was fulfilled by active participation.

The topic of the conference covered all the issues related to the environment and measures that can be taken to protect the environment.

The conference preparations started with the call for abstracts and the next step was the call for papers for oral /E-poster presentations.

Selected research papers after peer review process will be published in UGC Care list II journal energy, env.and conservation or Indian Journal of Environmental science or SKIT Research Journal.

The first day of the conference started with Saraswati Vandana to invoke and seek blessing of Goddess Saraswati. After this, Prof.Archana Saxena,Co-covenor of the conference talked about the institute .conference overview was given by Prof.Sangeeta Vyas Chairperson of the conference.

Dr. Anupama, Senior, Scientist, CSIRO, Adelaide, South Australia graced the occasion as Chief Guest. And Prof.P.K.Joshi school of environmrntal science and chairperson of special center for disaster research, JNU,new delhi also graced the occasion as Guest of Honor. Dr.Sharda Soni proposed vote of thanks.

The Chief Guest Dr. Anupama,focused upon the cause of the pollution and ways to mitigate the pollution effects.

Guest of honour Prof.P.K.Joshi discussed on challenging issues of environment and suggested how to overcome these challenges and especially he asked the youth to come forward and resolve such issues.

During three days conference there were total 12 plenary sessions and five technical sessions were scheduled in which more than 75 papers were presented by the authors in different research areas in the presence of different session chair speakers

Eminent speakers of their respective field chaired the technical sessions.

On the first day of the conference Mr. Sriram Kulkarni delivered his talk on (Sustainable Water Supply, Contaminated Water Source Rejuvenation, Sewage/Wastewater) and Prof. (Dr.) Ajay Bansal gave the talk on (E-Waste: Issues, Challenge and opportunities) last but not the least Dr. Satya Prakash Mehra gave his talk on (Local approach with global vision towards nature conservation)

On the Second day of the conference Prof. (Dr.) Ajay Kumar Dalai delivered his talk on (Clean sustainable energy production for pollution abatement)

Prof (Dr.) V.C. Srivastava on (Valorization of industrial solid waste) and Prof. (Dr.) Amrit Pal Toor delivered her talk on (Photo catalysis illuminates chemistry with brilliant green principles).

On the third day of the conference, Dr. Shraddhakar gave his talk on (Structural Integrity and Environmental Forces). Dr. Ramprasad delivered his talk on (Exploring the biology of underground root engineering). Dr. Garima Prajapat gave her talk on (Plastic waste and its management).

The Chief Guest of the Valedictory Program was Dr. Shraddhakar, Principal Engineer and SME, Worley Engineers, Charleston USA and Guest of Honor, Ms. Anju Harsh, Executive Engineer, PHED. Dr.Sangeeta Vyas proposed vote of thanks.

## **Objectives & Outcome of the ICEPADM-21 Conference**

### **OBJECTIVE OF THE CONFERENCE**

The conference ICEPMDS-2021 aims at providing an ideal environment to develop new collaborations and gather scholars from all over the world to provide a platform for various researchers around the globe working on the burning issues of the environment. Through the scheduled sessions, the Conference intends to create awareness amongst all the stakeholders in relation to the various current and emerging issues of environment. The topic of the conference will cover major issues related to the environment and measures that can be taken to protect the environment, gearing towards innovative approaches to environmental remediation and restoration.

#### **The expected outcomes from the Conference are:**

- Learning and knowledge exchange among conference participants through interdisciplinary discussions;
- A series of documented case studies, video interviews, information briefs and other materials for environmental pollution and their minimization.

The conference ended with leaving an impression of important areas of environmental challenges for our present and future. Researchers emphasized that source of pollution need to be focused upon and their removal techniques have to be adopted. All the speakers mainly focused upon various pollution mitigation techniques and management of both natural and anthropogenic disaster.

Conference received good response in the form of virtual mode participation. Research papers were read and discussed.

Overall, it was a nice gathering of research fraternity through online who shared and discussed their research among each other and the research scholars and other students were benefitted.

# Thanks Note

Organizers and Chemistry Department is thankful to Mr. Surja Ram Meel Chairman SKIT Mr. Jaipal Meel Director SKIT, Prof. S.L. Surana Dir (Acad.) SKIT, Ms. Rachna Meel Registrar SKIT, Prof. R.K. Pachar Principal SKIT Jaipur for permitting and extending all round support and guidance to make this event successful.

We are thankful to InDA Rajasthan for their support to the conference. We are also thankful to all the esteemed guests/ experts/ scientists and all the delegates from various institutes and universities for attending the conference and making it a success.

We are grateful to the members of International, National and local advisory committee for their valuable guidance.

We are confident that the outcome of the conference will build the bridge between the present challenges and their solution in the fields of environment and will open the opportunities for collaborative research.

We thank all the other contributors, experts, advisors, reviewers and entire technical and organizing team for organizing this conference.
