// PROJECT REPORT //

This is a project report on 'Situation of government school'. We visited the government school situated at 80 feet road, Kanto, Jhotwara Jaipur.

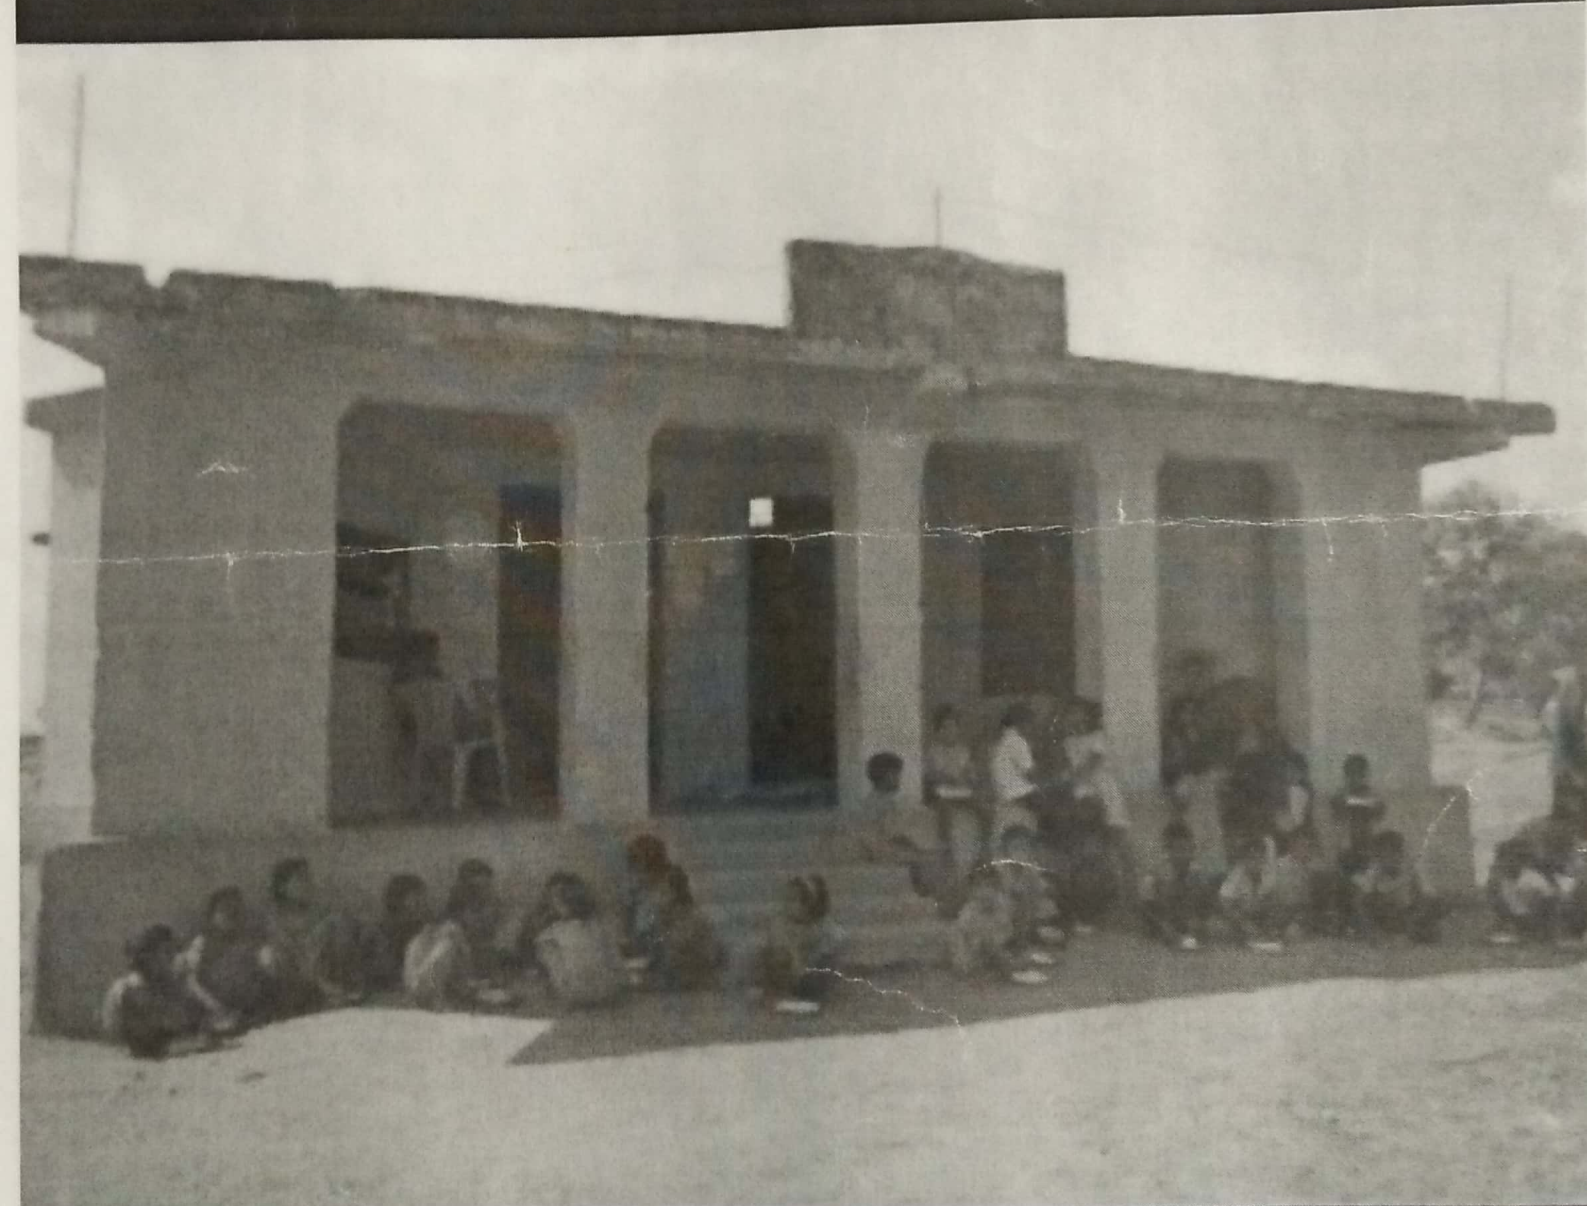

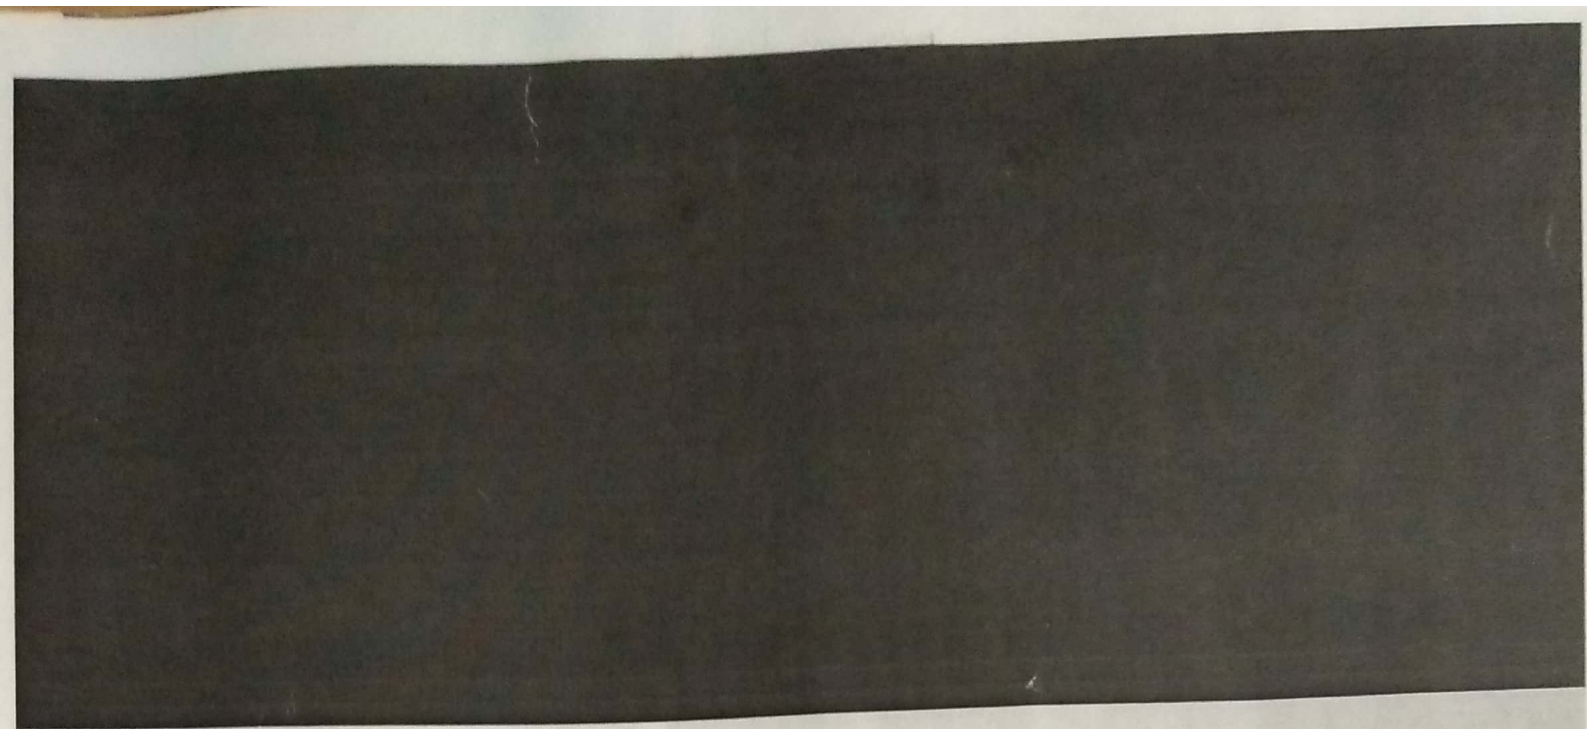

Firstly we met principal of school Mr. Sunil Choudhary. We asked him about the problem in the school. They told us that big problem in school is lack of teachers. There is only 55% teachers than required.

We met a teacher of Sanskrit Mr. Rahul Kumar Yogi. He told that he teaches the Hindi as well Sanskrit due to lack of teachers. He said that now days the number of students is getting reduced year to year.

After we met the mid-day-meal man. He told us that every day of the week there are different dishes and fruits are included in it.

We visited the school building then we found that there was no proper cleaning of floor and condition of toilets were not good.

We interacted with students of primary class. They said that they are enjoying their school life but when we met students of higher class they were in tension about their future. They told that they have to take coaching of many subjects due to lack of teachers.

7.) In this School Handpumps ~~are~~ was not properly working.

8) The wall of School was dirty. due to some financial Problems (we think)

9) At Last There was not Emergency ^{ENC} kit. for Example
If a child ~~is~~ is hurt then no ^{first aid box} ~~Emergency~~ kit are
available for Immediately treatment which can help
hurt student for get fast Recovery.

⇒ PROBLEMS WITH SCHOOL ⇐

There are some problems regarding Government School:

① Lack of Academic resource →

In Academic resource like that blackboard, books, stationery, desks are not available or sufficient.

② In Government School Electricity, toilet and so on are at a very poor state within the premises.

③ In this Government School the school struggle with is unavailability of teachers AND two or three was training of all subjects for all classes.

④ Students have no idea about practical knowledge AND in reality most leave could not read properly in English.

⑤ In this school number of students are not sufficient ~~and~~ teachers are not sufficient for teaching the students.

⑥ If talking about drinking water, there are no sufficient water for drinking water AND in water some impurities are mixed. So this water is not for drinking.
