ABOUT TEQIP-III

The project, third phase of Technical Education Quality Improvement Program (referred to as TEQIP-III) is fully integrated with the twelfth five-year plan objectives for Technical Education as a key component for improving the quality of engineering education in existing institutions with a special consideration for low income states and special category state and support to strengthen few affiliated technical universities to improve their policy, academic and management practices.

RAJASTHAN TECHNICAL UNIVERSITY, KOTA

Rajasthan Technical University (RTU) is located at Kota in the state of Rajasthan. It was established in 2006 by the Government of Rajasthan. The university currently affiliated about 129 engineering colleges, 04 B. Arch, 41 MCA Colleges, 95 MBA Colleges, 44 M. Tech. Colleges and 03 Hotel Management and Catering Institute. The University aims to provide quality technical education which may help Rajasthan in its technical development and will boost technical environment in the country.

ABOUT SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) has been ranked no.1 engineering institute in Rajasthan by RTU, Kota consecutively for the last four years. SKIT is a selective comprehensive institution offering undergraduate and postgraduate programmes in Engineering and Management. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier centre of technical education not only in Rajasthan but also in northern India which has been realized through efficient and dedicated faculty members, innovative

teaching learning methods, state of the art infrastructures and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accrediation (NBA).

DEPARTMENT OF EE

The department of Electrical Engineering is distinctly focused towards integrating academics with cutting edge technology in the field of electrical engineering and it is completely dedicated towards providing its students with a motivating environment and facilitating their academic requirements with committed and expert supervision of faculty and experts from various fields time to time. B.Tech Degree program in Electrical Engineering has been accredited by NBA (National Board of Accreditation). Also, EE Department is a recognized Research Centre of Rajasthan Technical University. The department of Electrical Engineering offers a perfect blend of Electrical, Electronics and Computer related courses to help students pursue a professional career in prestigious companies or higher studies from reputed institutes. We invite you to kindly join us to put in best efforts to provide technical knowledge by conducting this workshop for the society.

WORKSHOP OBJECTIVES

Electrical Industries are changing in terms of structure, operation and management due to technical and financial reasons. The system keeps on developing and becoming automated and user friendly with relevance to present scenario. The main theme of the workshop is to address these developments by providing basic knowledge of the different simulation software to electrical engineers. This workshop will provide the platform to share the knowledge and expertise in the usage of various simulation software.

THRUST AREAS OF WORKSHOP

- Overview of Simulation Software in Electrical Engineering.
- Power System Analysis with PowerFactory-DigSilent Software.
- Design of Electric Power System Studies using MiPower.
- GAMS (General Algebraic Modeling System) Modeling for Power System Operations.
- MATLAB Simulation (Power System).
- MATLAB Coding for Load Flow Analysis.
- Image Processing using MATLAB.
- Design, Simulate and Analyze Power Systems in ETAP (Electrical Transient Analyzer Program).
- Introduction to PSpice Circuit Simulator Software.
- Introduction to Power World Simulator.
- Engineering: Specific to COSMOL Multi Physics.
- EMTP Simulation using PSCAD.
- An introduction to PLC/SCADA for Electrical Engineers.

WORKSHOP SCHEDULE

Date	Time
8 th – 12 th Feb, 2021	09:00AM – 03:30PM

RESOURCE PERSON

- Experts and Eminent personalities from various IITs, NITs, reputed Institutions and Industries.

REGISTRATION FEE

- There is no Registration fee.

SCRIPTS AND FUNCTIONS

- Matlab is usually used in a command-driven mode, when we enter single-line commands, Matlab processes them immediately and displays the results.
- Matlab can also execute sequences of commands that are stored in files. Such files are called *m-files* because they have an extension of .m.
- Two types of m-files can be used: *Script* and *Function*.
 - Script m-files automate long sequences of commands.
 - Function m-files provide extensibility to Matlab.

EXAMPLE 1: SIMPLE LP

- A boy has up to ₹ 10 to spend on apples and oranges. Every rupee spent on apples brings his two units of happiness whereas each rupee spent on oranges brings his three units of happiness. His goal is to maximize happiness.
- Mathematical Formulation**

$$\max_{x_A, x_O} f(x_A, x_O) = 2x_A + 3x_O$$

$$s.t. \quad x_A + x_O \leq 10$$

$$x_A \geq 0$$

SUMMARY OF FEEDBACKS OF "SSEE-2021"WORKSHOP

This report summarizes the content of participant`s feedback on presentations and workshop sessions led by The TEQIP-III RTU (ATU) Sponsored E-Workshop in association with Department of Electrical Engg. Swami Keshvanand Institute of Technology Management & Gramothan, Jaipur on the topic "Simulation Softwares for Electrical Engineers"

The workshop consisted of several sessions covering different discussion and lecture topics .After the workshop, feedbacks of the attendees were surveyed to follow up on workshop outcomes, gauge the utility and success of the event, and determine whether such workshops would be useful in the future and, if so, whether they could be improved.

Summary

Overall, attendees characterized the workshop as very useful and targeting the right impediments .They were very satisfied with the workshop speakers and the topics discussed.Attendees also reported increased awareness on the software which is mostly used by engineers., knowledge gains.Attendees had specific recommendations for improving future workshops by providing more time, background information, and documentation. In addition, there were suggestions about broadening the focus on more such topics and addressing new topics at future workshops.

**TEQIP-III RTU (ATU) sponsored E-workshop on
“Simulation Software for Electrical Engineers”**

(SSEE-2021)

8-12 February, 2021

Organized By

Rajasthan Technical University, Kota

&

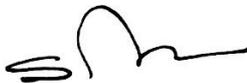

**Swami Keshvanand Institute of Technology,
Management & Gramothan, Jaipur**

A five day TEQIP-III sponsored E-workshop on “Simulation Software For Electrical Engineers” organized Department of Electrical Engineering, Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur in association with by Rajasthan Technical University, Kota, was held from 8th February, 2021 to 12th February, 2021.

The E-workshop had 13 informative sessions which was on the different simulation software. These software were elucidated by eminent speakers from various IIITs, NITs and reputed engineering colleges and industries from all over of India. The aim of this E-workshop was to addresses the developments in electrical engineering by providing basic knowledge of different simulation software to electrical engineers. There are more than 850 participants successfully registered for this program from different universities and colleges.

On 8th February, the workshop was inaugurated. Dr. Dhanraj Chitara (Head of EE Dept., SKIT, Jaipur) introduced the program with the welcome of dignitaries, eminent speakers and participants. Eco-friendly sustainable solar plant is there at the institute premises. Under pandemic COVID-19 situation, digital platform learning is effectively deliberated by faculties. Institute is among top 100 private engineering colleges countrywide. Its privilege to be a part of Swayam ranking awarded and NBA accredited institute. He also welcomed our chief guest Shri Surendra Lamba (IPS Officer (2013) Punjab, India), Dr. S.K. Sharma (Assistant Professor) and Dr. M. Lalwani (Associate Professor), Event coordinators, RTU Kota.

Dr. Sarfaraz Nawaz (Associate Professor), Event coordinators, SKIT, Jaipur thrown light on

about the workshop. He spoke about the importance of simulation software in electrical engineering. He also talked about the future scope in electrical engineering through simulation in power industries. Dr.S.K.Sharma (RTU, Event coordinator) enlightened on TEQIP-III scheme and how it is useful to spread the technical knowledge in this pandemic. He also focused on innovative and productive technologies related to simulation in power system.

Chief Guest Shri Surendra Lamba signified importance of student-teacher learning for capacity building and remove deficiencies of literacy. He also shared about his memorable experience of being the part of SKIT family. He gave an insight about his life as a student with big dreams. He discussed about his goals and how he prepared to achieve it. He motivated the young minds to make strategies and work on their goals. He encouraged our attendees to be leader with knowledge and confidence.

Mr. Lamba concluded his words by motivating our participants to choose the path as a leader and thanking all his teachers and mentors who guided him to choose the path of success in his life in a better way.

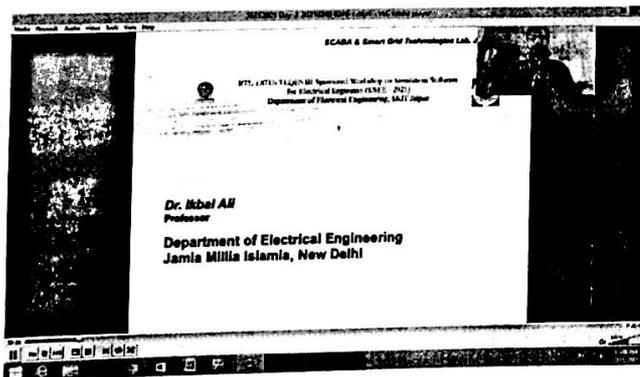

The session was concluded with a vote of thanks given by Mrs. Deepti Arela (Assistant Professor and Event coordinator, SKIT, Jaipur) on the behalf of the entire SKIT family, Jaipur to Shri Surendra Lamba for sharing his encouraging words and experiences. She also thanked all dignitaries, eminent speakers, participants and present one and all. The ceremony ended with a group photograph session of the entire panellist present during the session.

After the inaugural ceremony the workshop was anchored by Mrs. Pooja Jain (Assistant Professor) of SKIT, Jaipur. She invited Prof. (Dr.) Rajesh Kumar Nema (MANIT, Bhopal) for the first session to brief us on the topic "PSpice Circuit Simulator Software". In this session he gave the demonstration of components in PSpice. The second session was taken by Dr. Pushkar Tripathi (IET, Lucknow) to throw light on the topic "EMTP simulation using PSCAD (Power System Computer Aided Design)". He explained the audience the mathematical equations of circuits, its representations were based on Dommel's representation theory of power system developed in 19th century.

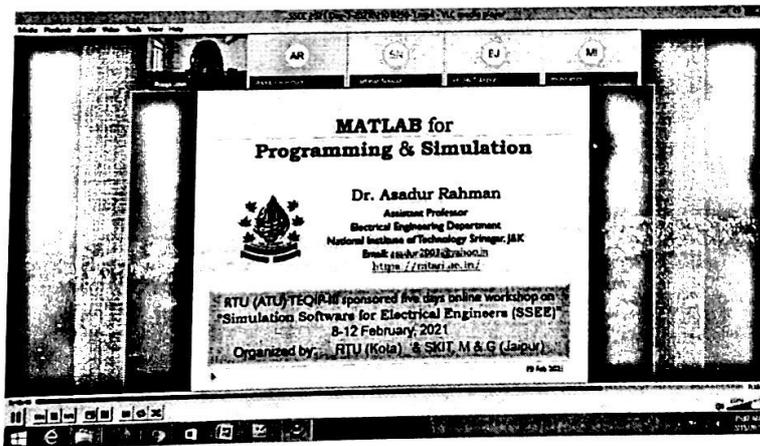

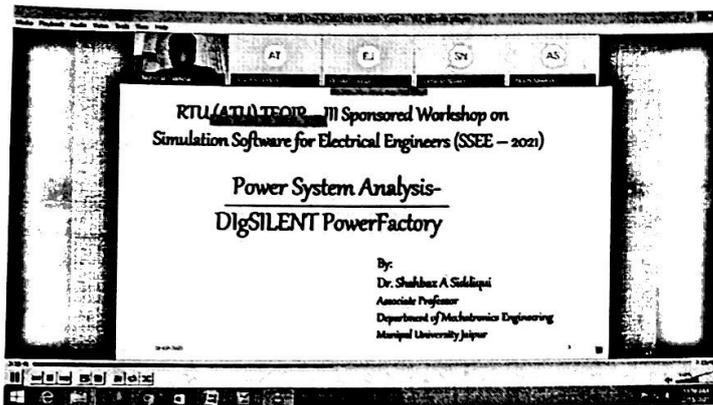

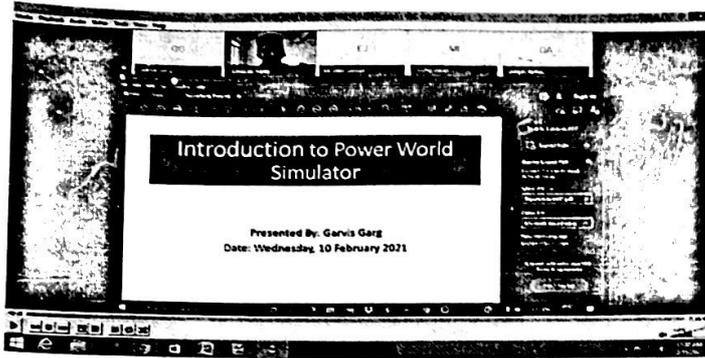

On successful completion of first day, on second day (9 Feb, 2021), session first Prof. (Dr.) Ikbal Ali (JMI, New Delhi) took the opportunity to give the knowledge about "Introduction to PLC/SCADA for Electrical Engineers". He explained about 'Interposing Relays' and the characteristics required for better 'SCADA communication' followed by various modes of communication. He also explained "Human Machine Interface (HMI)" which enables interaction between the master station and the Operators/Users. The second session of the day 2 was on the topic "MATLAB Coding" by Prof. (Dr.) N P Patidar, (MANIT Bhopal). He briefed about MATLAB Software its scripts and functions. The third session was by Dr. Kushal Jagtap (NIT Srinagar) to enlighten the audience on "Design, simulate and analyze Power Systems in ETAP (Electrical Transient Analyzer Program)". He explained MVAR Control in which the voltage changes to incorporate for reactive power and PF Control and its formula. Further he discussed about the Generator Capability Curve, its formula and its diagram/figure.

On third day (10 Feb, 20221) , first session was commenced by Mr. Garvis Garg (Software Engineer Specialist, General Electrical Digital, Hyderabad) on the topic “Power Flow Analysis using Power World Simulator”. He explained about function of log window and its configuration to monitor results after a fixed interval of time for proper observations. The second session of third day was on topic “Power System Analysis with Power Factory - Dig SILENT Software” by Dr. Shahbaz Ahmed (Manipal University, Jaipur). He clarified every topic using live demonstration of theories solidifying basic knowledge of layout, development and visualization feature. The last session of the day-3 was by Dr.Asadur Rahman (NIT Srinagar) on the topic “MATLAB Simulation (Power System Tool Box)”. He gave an insight of the modelling, simulation environment, accessing different library, run, edit, plot and representing various figures in MATLAB.

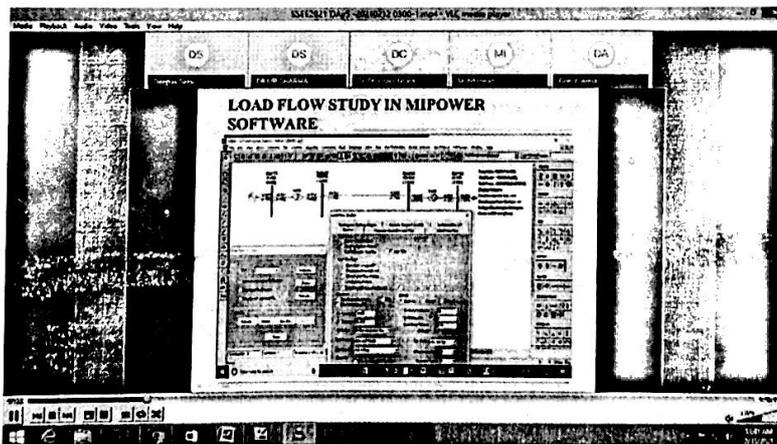

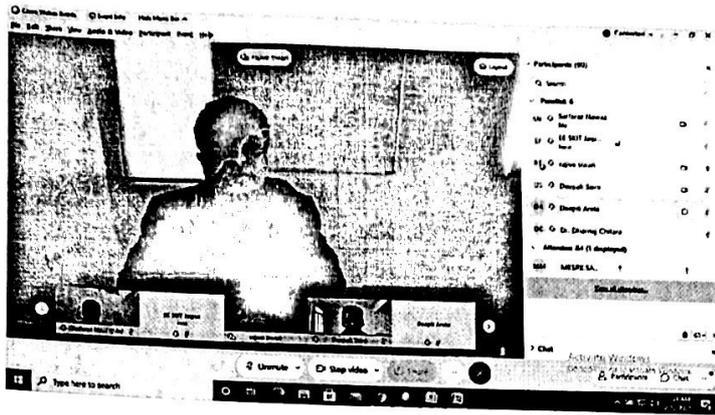

On second last day (11 Feb, 2021) of the webinar, the session was kicked off by Dr. Hemant Sharma (NIT Rourkela) to brief on the topic "Image Processing using MATLAB". The next session was started by Dr. Akhilesh Tiwari (IIIT Allahabad) to brief on the topic "Overview of Simulation Software In Electrical Engineering : Specific to COMSOL Multi

On 12th February, 2021, last day of the webinar was commenced by Dr. M.P. Sharma (Design Engineer, RRVPNL Jaipur) on the topic “Design of Electric Power System Studies Using MiPower”. He explained Impact of Change of 400/220 KV Transformer Tap Position from 9 to 5 on Load Flow Study. The last session of the SSEE-2021 was on the topic “MATLAB Coding for Load Flow Analysis” by Prof. (Dr.) Rajive Tiwari (MNIT Jaipur). He discussed Complex power flow, Newton-Raphson Power flow solution, power flow analysis, Data Preparation, Fast Decoupled power flow solution.

Valedictory session of TEQIP-III RTU (ATU) sponsored E-workshop “Simulation Software for Electrical Engineers (SSEE-2021)” was held after the second session of 12-02-2021.

The Programme started with the welcome address by Mr. Deepak Saini (Assistant professor, EE Department, SKIT,Jaipur). We had around 550 participants. All the lectures were very well appreciated by the participants and interaction with the resource persons was very good. All the resource persons and professors were very patient in clearing the doubts of the faculties, he added.

The session and thus the whole E-workshop commenced with the details of the sessions held in past 5 days by Mrs. Deepti Arela, Workshop coordinator, EE department, SKIT M & G, Jaipur.

Dr.Kushal Jagtap (one of from our eminent resource person) gave his valuable feedback and suggestion of E-workshop .He praised about the management, organisation and communication of workshop event. He also suggested organizing individual workshops for each software discussed in five days event. Some of our participants also give their valuable feedback. They were very thanked full to event coordinators for choosing this kind of topic for workshop and also thanked to organising committee for well organization.

Congratulated by Dr. S.K.Sharma, From RTU TEQIP-III co-ordinator, told about grant success of this programme, more than 850 participants are there, out of which some were international. Although, he was not there throughout the FDP because of his presence in other events he talked about the well organization by the host institute, SKIT, Jaipur. At last, he thanked all.

The session and thus the whole workshop successfully ended with vote of thanks given by Mr. Ankush Tandon, Associate Professor, EE department, SKIT M & G, Jaipur. He expressed his

thanks to Prof. R. A. Gupta Ji, Hon'ble Vice-Chancellor, RTU, Kota, Dr. Dharendra Mathur Ji, RTU (ATU) TEQIP-III Coordinator, who gave us this opportunity to conduct this faculty development program. Also, he expressed his sincere gratitude to our eminent speakers from different organizations who honoured this event.

He thanked beloved Management, Principal SKIT (Dr. Ramesh Kumar Pachar Ji), Director Academics (Dr. S. L. Surana Ji), RTU event coordinator Dr.S.K.Sharma and Dr.M.Lalwani , Head of Department (Dr. Dhanraj Chitara Ji), event coordinators (Dr.Sarfraz Nawaz and Mrs. Deepti Arela), anchors and all members of organizing team of this faculty development program, staff members, participants and our student coordinators who richly deserves the dept. and institute felicitation and he offered the same. Finally, he added, "We remain grateful to one and all who has directly or indirectly attached to this faculty development program".
