1. About TEQIP-III:-

The project, third phase of Technical Education Quality Improvement Program (referred to as TEQIP-III) is fully integrated with the twelfth five-year plan objectives for Technical Education as a key component for a improving the quality of engineering education in existing institutions with a special consideration for low income states and special category state and support to strengthen few affiliated technical universities to improve their policy, academic and management practices.

2. About Rajasthan Technical University:-

Rajasthan Technical University (RTU) is located at Kota in the state of Rajasthan. It was established in 2006 by the Government of Rajasthan. The university currently affiliated about 129 engineering colleges, 04 B. Arch, 41 MCA Colleges, 95 MBA Colleges, 44 M. Tech. Colleges and 03 Hotel Management and Catering Institute. The University aims to provide quality technical education which may

help Rajasthan in its technical development and will boost technical environment in the country.

3. About SKIT:-

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today, the Institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Ph. D., Postgraduate and Graduate Courses in Engineering and Management.

Located in the Pink City Jaipur, which is a blend of traditional history and modern outlook, SKIT is putting in efforts for making industry ready engineers and managers through effective Industry –Institute Interface. Apart from University curriculum, SKIT also pursues activities for research and development in various fields.

Students joining the institute share the box full of opportunities for professional and personal development through an environment of practical orientation, industrial interaction and student led activities which help the students to develop good communication skills, integrated personality and greater competitive spirit.

Vision

To promote higher learning in advanced technology and industrial research to make our country a global player

Mission

To promote quality education, training and research in field of Engineering by establishing effective interface with industry and to encourage faculty to undertake industry sponsored projects for students.

Quality Policy

We are committed to ‘achievement of quality’ as an integral part of our institutional policy by continuous self-evaluation and striving to improve ourselves.

Institute would pursue quality in

- All its endeavours like admissions, teaching- learning processes, examinations, extra and co-curricular activities, industry institution interaction, research & development, continuing education, and consultancy.

Connected

Q&A

Apex Web Services

We can interact from external system to salesforce by using Apex web services. We can use two types of services as following:

1. Apex Rest API
2. SOAP API

You'll probably use SOAP mostly when integrating with legacy applications or for transactions that require a formal exchange format or stateful operations.

To Call Salesforce API from external system we need to connect with Salesforce. To make connectivity with salesforce we need to create a connected app in Salesforce ORG from there we can get Consumer Key & Consumer Secret to get Session ID.

Select "Access and manage your data (api)" scope in OAuth scopes.

The screenshot shows a Cisco Webex Events window. The main content is a presentation slide titled "Ceremonies" with a subtitle "PBR/ GROOMING-10 PERCENT". The slide features a pyramid diagram with four levels. The top level is labeled "2-3 Sprints" and is associated with "Waiting for Development" criteria: "Fully Groomed", "With Acceptance Criteria", "With Story Point Estimates", and "2-3 Sprints in Advance". The second level is associated with "Waiting for Estimation" criteria: "High-level Stories Written Without Acceptance Criteria" and "No Major Issues to Be Resolved". The third level is associated with "In Progress" criteria: "Epics Defined" and "Major Story Titles Defined". The bottom level is associated with "To Be Defined" criteria: "Functionality Needs Further Definition". The slide also includes a small icon of a head with a gear and a lightbulb. At the bottom of the slide, there is a small text "17" and a credit line "* Pic Credits... managedoffice.com, Chuck Cobb". The window header and menu bar are identical to the first screenshot. The "Participants (8)" panel is visible on the right. At the bottom, there are controls for "Connect audio", "Share", and "Participants Chat ...". The system tray at the bottom right shows the time "8:36 AM" and date "9/18/2020".

This screenshot shows a Cisco Webex meeting window. The main content area displays a whiteboard with the following text: "s/w" at the top and "Bank X----IT com budget and time" in a text box below. The meeting interface includes a top menu bar with "File", "Edit", "Share", "View", "Audio & Video", "Participant", "Event", and "Help". On the right side, there is a video gallery with a "Speaking: kratika tiwari" window at the top and other participants like "kailash soni (Me)", "kailash soni (Host)", "DJ", and "Dr. Neha Janu". The bottom control bar shows "Unmute", "Start video", "Share", and "Participants" buttons. The system tray at the bottom right indicates the time as 1:41 PM on 9/19/2020.

This screenshot shows a Cisco Webex meeting window displaying a presentation slide. The slide title is "How Salesforce B2B Commerce Introduced?". The slide content includes:

- Commerce Cloud** is a key part of the Salesforce Customer Success Platform and offers ecommerce solutions for B2C (business to consumer) and B2B (business to business) customers.
- Salesforce B2C Commerce**: Commerce Cloud was created in July 2016, when Salesforce acquired Demandware, an industry leader in ecommerce sites and solutions designed with the shopper in mind. The Demandware technology has grown and evolved to become the Salesforce B2C Commerce product.
- Salesforce B2B Commerce**: In 2018, Commerce Cloud expanded beyond B2C ecommerce with the acquisition of CloudCraze, a leader in ecommerce designed for organizations selling to business customers. What was CloudCraze is now the Salesforce B2B Commerce product.
- Now Commerce Cloud spans across B2C and B2B to offer leading ecommerce solutions"**
- Unified Commerce**: One of the most compelling benefits of Commerce Cloud is how well it brings together each of the channels to create a unified customer experience. Rather than think of your online store, your social selling, or your brick-and-mortar as individual entities you can bring them all together for the benefit of the customer.

 The slide footer contains the logo for "www.ranocys.com | Confidential". The meeting interface is similar to the first screenshot, with a video gallery on the right showing "Speaking: Sakshi Khanna" and a chat window displaying a message from "kailash soni to everyone: 3:07 PM transction between businesses". The system tray at the bottom right indicates the time as 3:10 PM on 9/19/2020.

Quick Question

There are 100 users in an organisation. We want single user to not have access to view the records. Rest 99 users should have access to view the records. What will be the OWD?

PRIVATE

OWD must be most restrictive in Record Level Security because other Record Level Security implementations only grant additional access, they cannot restrict the access.

REPORT OF THE EVENT

Faculty Development Program on **Salesforce** was jointly organized by Rajasthan Technical University, Kota & Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur, from 16th Sep 2020 to 20th Sep, 2020. This FDP was fully sponsored by RTU (ATU) under Technical Education Quality Improvement Program Phase III (TEQIP-III) and conducted on Webex online platform.

Dr. Harish Sharma, Nodal officer Academic TEQIP-III and Associate Professor, Department of Computer Science & Engineering, RTU Kota, was the FDP coordinator from RTU side. The FDP began with the welcome address by Prof. Anil Chaudhary Head of the department Information Technology. In the Inauguration ceremony Prof. Harish Sharma, RTU Kota, and Prof. Mukesh Kumar Gupta (Head, CSE Deptt.) were also present. I Dr. Neha Janu addressed the participants about importance of enhancing knowledge of Salesforce and its relation to the engineering stream. Dr. Ramesh Kumar Pachar (Principal SKIT) proposed vote of thanks on the occasion of Inauguration. 150 faculty members from different institutes of the country have participated in this FDP.

In the first session of the first day Mr. Shrey Sharma, Chief Executive Officer, Cyntexa, Jaipur, delivered an expert talk on Overview of Salesforce in Practical world. He highlighted the importance of enhancing knowledge on Salesforce. In the second session Sachin Upmanyu, Team Lead, Ranosys Technologies Jaipur, enlightened the participants with Bird eye view of Salesforce Eco-system.

The day one is ended with the final session of Mr. Mahesh Jikhariya, Associate Software Engineer, Ranosys Technologies, Jaipur. He shared his knowledge in the field of Salesforce: Demystifying Marketing Cloud.

Commencement of second day was done again by Mr. Shrey Sharma. He shed light on the Salesforce customer 360, Sachin Upmanyu and Suman Choudhary, Senior Software Engineer, Ranosys Technologies, Jaipur, also shared their knowledge on Application Lifecycle and Development Models in Salesforce, respectively on the subsequent sessions of Day2.

Mr. Rajeev Koul, Sr. Program Manager, Agile Compunnel, Noida, started the Day3 Session. He enlightens with the basics of Agile Methodologies. The session is followed by Mr. Abhishek Pareek, Senior Software Engineer, Ranosys Technologies, Jaipur and Suman Choudhary. They shed light on beginning journey with Salesforce B2C commerce and Unlocking Integrations in Salesforce respectively.

Day 4 began with interactive session of Ms. Kritika Tiwari, Q3 Technology, Jaipur. She highlighted the importance of testing

followed by two interesting sessions on Simplifying B2B Commerce and Enterprise data security within Salesforce. These sessions were convened by Ms. Sakshi Khanna, Senior Business Analyst, Ranosys Technologies, Jaipur, and Ms. Kavita Saini, Senior Software Engineer, Ranosys Technologies, Jaipur, respectively.

Day 5 was opened with the much awaited session of Introduction to testing which was continued by Ms. Kritika Tiwari. This lecture is followed by Ms. Sakshi Khanna on Simplifying B2B Commerce and Mr. Shrey Sharma and Mr. Umashankar Arora VP of Engineering, Ranosys Technologies, Jaipur, India, it was quite informative session.

The discussed areas are of great benefit for the participants as they are enlightened with the most widely used advance strategies in Salesforce. Feedback of the FDP was collected from the participants on daily basis.

For the valedictory session of RTU TEQIP-III sponsored Five Days faculty development program on “Salesforce Trailhead”, Dr. Mukesh Kumar Guta, Head, department of CSE, did welcome of guests. Ms. Sanju Choudhary Coordinator of this FDP delivered vote of thanks.

The final report of this FDP was read by Dr. Neha Janu, Associate Professor, Department of CSE, SKIT M&G, Jaipur.
