Approval Letter Notice

No. RTU/TEQIP-II/F(56)/2020-21/4892-97

Date: 05/08/20

Hon'ble Vice-Chancellor is pleased to approve the FDP program to be conducted in online mode at the affiliated college under subhead 1.2.2.4 of RTU (ATU) TEQIP-III Action plan as per the mentioned Schedule.

RAJASTHAN TECHNICAL UNIVERSITY

Rawatbhata Road, Akolgarh, Kota-324 010

TEQIP III-RTU(ATU) OFFICE

Phone: 0744-2473060 Fax: 2473062 Email: ctuteqip@rtu.ac.in

No. RTU/TEQIP-III/F(56)/2019-20/ *5181-91*

DATE: *12/3/20*

OFFICE ORDER

Hon'ble Vice-Chancellor is pleased to approve following faculty development programme to be conducted at the affiliated engineering colleges under subhead 1.2.2.4 of RTU (ATU) TEQIP-III Action plan as per the mentioned schedule.

S.No	Name of Institute	Dates	Title of the FDP	RTU Co-ordinator
1	SKIT Jaipur	14/09/20 to 18/09/20	Emerging Tools and Techniques in Communication system	Dr. D.K. Sambariya
2	SKIT Jaipur	23/09/20 to 27/09/20	Application of Mathematical Science in Engg. And Technology	Dr. S.D. Parohit and Dr. Kamlesh Jangal
3	Geetanjali Institute of Technical Studies Udaipur	21/09/20 to 25/09/20	Advances in Nature Inspired Algorithms	Dr. Harish Sharma
4	Poojitma College of Engineering, Jaipur	28/09/20 to 30/09/20	Latent Mathematics in Sanskrit Context	Dr. Kamlesh Jangal & Dr. S.D. Parohit

The respective institute has to conduct the mentioned program as per the TEQIP-III norms under direction of RTU event coordinator.

Coordinator
TEQIP III, RTU (ATU)

Copy to:-

1. P.S. to Hon'ble Vice-Chancellor
2. Registrar
3. Comptroller
4. Dean FA
5. Head, HEAS Dept./Head, CS Dept.
6. Concerned RTU Event Coordinator
7. Principals of Host Institutes through official Email
8. Guard File

Coordinator
TEQIP III, RTU (ATU)

Objective of ETTCS-2020

The emergence of a variety of new technologies such as fast and inexpensive hardware for processing of data/ information had a significant impact on implementation of communication systems. This program has been organized to fully explore the recent technologies used in communication systems.

The objectives of this FDP include:

- To introduce recent trends in Communication technologies
- Establish basic concepts about the recent technologies in Communications along with their tools and techniques
- To provide a platform for interaction among academicians and our experts to discuss new technologies, developments, challenges and research activities in the field of communication

The aim of this course is to provide an in-depth exposure to the faculty members and research scholars to different communication systems and the techniques to implement the system

FDP Program

- The program is split into various lectures.
- Assignment for enhanced learning.
- Interaction and learning with experts from academia.
- Certificate to the participants by TEQIP III and RTU Kota.

Content of the FDP

Recent Advances in Antennas

Recent Trends in Microstrip Antennas

Internet of Things

Renewable Energy

LTCC and e-grain technologies for communication systems: An overview

Non Linear Optical Phenomena

Artificial Intelligence and Deep Learning

Modelling of Systems

Advancement in RF and Microwave systems

Design of Reconfigurable Antennas for Ultra-Wideband applications

Wireless Body Area Network (WBAN) Antennas: Concept, Design and Challenges

How to do VLSI design using open source tools

Emerging trends in Nano Technology

Digitally Assisted Multi-Octave Filter-less Transmitter

Plasmonic based optical sensing technique

Expert Details

1. Dr. Ananjan Basu

Professor
Indian Institute of Technology, Delhi
Email id: Ananjan.Basu@care.iitd.ac.in

2. Dr. Mithilesh Kumar

Professor
Electronics Engineering, Rajasthan Technical University, Kota
Email id: mith_kr@yahoo.com

3. Dr Kalpana Dhaka

Assistant Professor
Department of Electronics and Electrical Engineering
Indian Institute of Technology, Guwahati
Email id: kalpana.dhaka@iitg.ac.in

4. Dr. Ujjwal Kalla

Associate Professor
MANIT Bhopal
Email id: ukkalla@gmail.com

5. Dr. Satish Kumar Bhatnagar

Emeritus Scientist (CSIR)
Professor and Director (Research)
SKIT Jaipur
Email id: satish.bhatnagar@skit.ac.in

6. Dr. Manish Tiwari

Professor and Head
Department of Electronics and Communication Engineering
Manipal University Jaipur
Email id: manish.tiwari@jaipur.manipal.edu

7. Dr. Kuldeep Singh

Assistant Professor
MNIT Jaipur
Email id: kuldeep.ece@mnit.ac.in

8. Dr. Rajesh Kumar

Professor, Electrical Engineering Department
MNIT Jaipur
Email id: rkumar.ee@mnit.ac.in

9. Dr. Gaurav Mittal

Scientist D, DEAL
DRDO, Dehradun
Email id: gaurav.mittal@deal.drdo.in

10. Dr. Dinesh Yadav

Assistant Professor, Department of Electronics and Communication Engineering
Manipal University, Jaipur
Email Id:dinesh.yadav@jaipur.manipal.edu

11. Dr. Raghvendra Singh

Associate Professor, Department of Electronics and Communication
Pranveer Singh Institute of Technology, Kanpur
Email Id: raghvendra.singh@psit.ac.in

12. Dr. Nandakumar Nambath

Assistant Professor, Electrical Engineering Department
Indian Institute of Technology, Goa
Email Id: npnandakumar@iitgoa.ac.in

13. Dr. Pallavi Kohli

Former Assistant Director
AICTE, New Delhi
Email Id: Pallaveekarya@gmail.com

14. Dr. Hemant Kumar Singhal

Assistant Professor, Dept. of Electronics Engineering,
NIT, Uttarakhand
Email Id: hksinghal@nituk.ac.in

15. Dr. Rukhsar Zafar

Associate Professor, Dept. of Electronics and Communication Engineering,
SKIT Jaipur
Email Id: rzafar@skit.ac.in

Event Coordinator

Assistant Professor

Department of Electronics and Communication Engineering

Swami Keshvanand Institute of Technology Management and Gramothan, Jaipur

Email id: hrshlnigam@gmail.com

Phone no: 9460005284

4. Ms. Manju Choudhary

Assistant Professor

Department of Electronics and Communication Engineering

Swami Keshvanand Institute of Technology Management and Gramothan, Jaipur

Email id: manjuchoudharymec@gmail.com

Phone no: 9694724109

Resource Person

The Various sessions of the FDP preceded by the experts from IITs, NITs and other reputed institutes.

Registration Fee

There is No Registration Fee.

Targeted Audience

Faculty of various engineering institutes affiliated to Rajasthan Technical University, Bikaner Technical University and other academic institutions.

FDP Schedule

RAJASTHAN TECHNICAL UNIVERSITY, KOTA
SWAMI KESHVANAND INSTITUTE OF TECHNOLOGY,
MANAGEMENT & GRAMOTHAN, JAIPUR

Internet of Things (IoT).pdf - Adobe Acrobat Reader DC

Home Tools Internet of Things (.pdf)

Padova, Italy Smart City project

Service	Network type(s)	Traffic rate	Tolerable delay	Energy source	Feasibility
Structural health	802.15.4; WiFi and Ethernet	1 pkt every 10 min per device	30 min for data; 10 s for alarms	Mostly battery powered	1: easy to realize, but seismograph may be difficult to integrate 2: possible to realize, but requires smart garbage containers
Waste management	WiFi; 3G and 4G	1 pkt every hour per device	30 min for data	Battery powered or energy harvesters	1: easy to realize, but greenhouse gas sensors may not be cost effective 2: the second pattern detection scheme may be difficult to implement on constrained devices
Air quality monitoring	802.15.4; Bluetooth and WiFi	1 pkt every 30 min per device	5 min for data	Photovoltaic panels for each device	1: easy to realize, but greenhouse gas sensors may not be cost effective 2: the second pattern detection scheme may be difficult to implement on constrained devices
Noise monitoring	802.15.4 and Ethernet	1 pkt every 10 min per device	5 min for data; 10 s for alarms	Battery powered or energy harvesters	1: easy to realize, but requires authorization from energy operators 2: simple to realize, but requires intervention on existing infrastructures
Traffic congestion	802.15.4; Bluetooth and WiFi; Ethernet	1 pkt every 10 min per device	5 min for data	Battery powered or energy harvesters	1: requires the realization of both air quality and noise monitoring 2: simple to realize, but requires authorization from energy operators
City energy consumption	PoC and Ethernet	1 pkt every 10 min per device	5 min for data; higher requirements for control	Main powered	1: requires the realization of both air quality and noise monitoring 2: simple to realize, but requires authorization from energy operators
Smart parking	802.15.4 and Ethernet	On demand	1 min	Energy harvester	1: Smart parking systems are already available on the market and their integration should be simple 2: does not present major difficulties, but requires intervention on existing infrastructures
Smart lighting	802.15.4; WiFi and Ethernet	On demand	1 min	Main powered	1: Smart parking systems are already available on the market and their integration should be simple 2: does not present major difficulties, but requires intervention on existing infrastructures
Maintenance and safety of public buildings	802.15.4; WiFi and Ethernet	1 pkt every 10 min for remote monitoring; 1 pkt every 30" for in-loc control	5 min for remote monitoring, few seconds for in-loc control	Main powered and battery powered	1: Smart parking systems are already available on the market and their integration should be simple 2: does not present major difficulties, but requires intervention on existing infrastructures

Dr. Kuldeep Singh
Assistant Professor, MNIT Jaipur

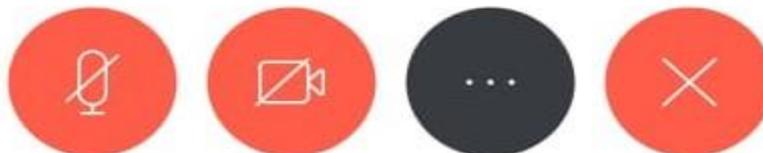

- **Dr. Kuldeep Singh** has received his Ph.D. degree in Computer Vision from Delhi Technological University, New Delhi, India and M.Tech. degree in Signal Processing from Netaji Subhash Institute of Technology, New Delhi.
- He has worked as postdoctoral fellow at University of Alberta, Canada, where he was involved in development of deep learning based functional prototype for agriculture applications.
- Before joining MNIT, he has worked at Central Research Laboratory of Bharat Electronics Ltd. (BEL) Ghaziabad as Scientist from Jan 2007 to Mar 2019. During his stint at BEL, he has worked on various projects of national importance.
- He was involved in software development of various C4I systems for Indian & foreign defence forces. He has been awarded R & D Excellence award at Bharat Electronics Ltd. in 2009 and 2011. He is reviewer of various IEEE transactions, Elsevier & Springer Journals.

5. Day 4

The screenshot shows a Cisco Webex meeting interface. The main content is a presentation slide with the following text:

FDP "Emerging Tools and Techniques in Communication Systems" (ETTCS-2020)

"Design and Development of Reconfigurable Antennas"

Presented By:
Dr. Dinesh Yadav
Hony. Secretary, IETE Rajasthan Centre, Jaipur

Manipal University Jaipur
Assistant Professor
Department of Electronics & Communication Engineering
School of Electrical, Electronics & Communication Engineering
Manipal University Jaipur

The slide also features logos for IETE (The Institution of Electronics and Telecommunication Engineers) and SKIT (Sri Krishna Institute of Technology).

The meeting interface includes a top bar with "Cisco Webex Events", "Event Info", and "Hide menu bar". Below the top bar are tabs for "File", "Edit", "Share", "View", "Audio & Video", "Participant", "Event", and "Help". The meeting controls at the bottom show "Unmute", "Stop video", and "Share" options. The right sidebar displays "Participants (10)", "Panelist: 3" (listing ECE SKIT, Dr. Dinesh Yadav, and Monika Mathur), and "Attendee: 7 (0 displayed)". The bottom status bar shows the time as 10:11 AM on 9/17/2020.

The screenshot shows a Cisco Webex meeting interface displaying a presentation slide titled "Introduction". The slide content is as follows:

Introduction

- In recent years, frequency reconfigurable antennas are more versatile for wireless devices due to switching their resonant frequency to operate in the multi serviced radio spectrum.
- However, practically the physical size of the antenna does not allow designing separate antennas for each application.
- Therefore, researchers have been proposed various antenna structures to combine two desired antennas together by using a single fed antenna that can be switched between two and more operating bands.

(ETTCS-2020) @ SKIT, Jaipur 17 September 2020

The meeting interface is similar to the previous screenshot, but the participant count has increased to "Participants (16)". The "Attendee" count is now "Attendee: 13 (0 displayed)". The bottom status bar shows the time as 10:23 AM on 9/17/2020.

ES ECE SKIT (Host: me) Raghendra Singh M Monika Mathur MK Mukesh Kumar

1. Introduction: WBAN

WBAN sensors are capable of sampling, monitoring, processing and communicating various vital signs as well as providing real time feedback to the user and medical personnel without causing any discomfort.

The use of a WBAN allows continuous monitoring of one's physiological parameters thereby providing greater mobility and flexibility to patients.

Applications of WBAN

WBAN Applications	Medical	Wearable WBAN	Assessing Soldier Fatigue and Battle Readiness
			Aiding Professional and Amateur Sport Training
			Sleep Staging
		Asthma	
		Wearable Health Monitoring	
	Implant WBAN	Cardiovascular Diseases	
		Cancer Detection	
	Remote Control of Medical Devices	Ambient Assisted Living (AAL)	
		Patient Monitoring	
		Tele-medicine Systems	
Non-Medical	Real Time Streaming		
	Entertainment Applications		
	Emergency (non-medical)

Harmonic Cancellation using Conventional Method

Baseband Processing

ISMP / FPCA Quadrature Modulator

Switched Filter Bank

Drawbacks

- As the number of channels increases, the order of SPNT switches increases, it makes lossy.
- A high roll-off factor of the filter increases the numbers of resonators in the filter. It makes bulky.

- For new frequency planning, entirely new switched filter-banks has to be developed.
- The switching architecture of switched filter bank restricts concurrent multi-band transmission.
- No flexibility of transmitting a wide-band signal at corner frequencies of the switched filter bank
- It is not able to transmit at all the frequencies defined in each transmission channel in case of broadband signals

Spectral Regrowth ??

7. Valedictory Session

Report of the Event

Faculty Development Program on **Emerging Tools and Techniques in Communication Systems (ETTCS-2020)** was jointly organized by Rajasthan Technical University, Kota & Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur from 14th September 2020 to 18th September, 2020.

This FDP was fully sponsored by RTU (ATU) under Technical Education Quality Improvement Program phase III (TEQIP-III) and conducted on webex online platform

Dr. Ananjan Basu, Professor, IIT Delhi, was the guest of honor along with **Dr. D. K. Sambariya, RTU Kota (FDP coordinator)**. The FDP began with the welcome address by **Prof. Mukesh Arora (Head, ECE Department SKIT)**. The Inauguration ceremony also witnessed the presence of **Prof. Praveen K. Jain (Dy. Head, ECE Department, SKIT), Dr. Monika Mathur, Ms. Manju Choudhary and Mr. Harshal Nigam**. Dr. Monika Mathur addressed the participants about importance of Emerging Tools and Technique in communication system and its application in the Engineering. 113 faculty members from different institutes of the country have participated in this FDP.

In the first session of the first day, **Dr. Ananjan Basu**, delivered an expert talk on Recent Advances in Antennas. He discussed different techniques to design a Reconfigurable Antenna for different applications and presented some of the Antenna designs which were designed under his guidance.

In the second session **Dr. Mithilesh Kumar, Prof. RTU Kota** shared his experience in the field of Recent Trends in Microstrip Antennas. He started with some basics concepts of Antenna and presented some recent designs in the field of Reconfigurable Antennas for Wi-fi, WLAN, Ultra-wide Band and many recent applications.

In the subsequent session, **Dr Kalpana Dhaka, Assistant Professor, Department of Electronics and Electrical Engineering, IIT Guwahati**, gave her insights on Internet of things. She started with the basic concepts of IOT implementation in communication system

Day 2 started with an expert lecture of **Dr. Ujjwal Kalla Associate Professor, NIT Bhopal**. He enlightened the participants with the overview of Renewable Energy along with recent power electronic circuits that can be used to implement a communication system

In Second session **Prof. S K Bhatnagar Director (Research), Electronics and Communication Engineering Department, SKIT**, shared his experience in LTCC and e-grain technologies for communication systems. He discussed about the manufacturing process using LTCC technique and how it is useful to miniaturize the device or systems.

The day two ended with an expert lecture of **Prof. Manish Tiwari Head, Department of Electronics and Communication Engineering, Manipal University, Jaipur**. He shared his

talk in the field of Non-Linear Optical Phenomena along with recent researches that are going on in the field of optical communication

Day 3 started again with an expert lecture of **Dr. Kuldeep Singh, Assistant Professor, MNIT Jaipur**. He delivered a talk on Artificial Intelligence and Deep Learning and discussed different models for neural network that can be implemented for a communication system.

This lecture was followed by **Prof. Rajesh Kumar Electrical Engineering Department, MNIT Jaipur**. He shared his knowledge on Modelling of Systems where he discussed several models based on Artificial Intelligence, computational intelligence and Intelligent system

The day three ended with an expert lecture of **Dr. Gaurav Mittal, Scientist D, DEAL, DRDO, Dehradun**, he delivered a talk on Advancement in RF and Microwave systems. He focused on some research topics that are going on in the field of RF and microwave.

Day 4 opened with the session of **Dr. Dinesh Yadav, Assistant Professor, Department of Electronics and Communication Engineering, Manipal University, Jaipur**. He enlightened us with the knowledge of Design of Reconfigurable Antennas for Ultra-Wideband applications and presented some designs of reconfigurable antenna that were published by him.

In next session **Dr. Raghvendra Singh, Associate Professor, Department of Electronics and Communication, Pranveer Singh Institute of Technology, Kanpur** shared his experience with the participants on Wireless Body Area Network (WBAN) Antennas: Concept, Design and Challenges. He discussed about some models that are available and about the research work going on in the field of wireless body area network.

In subsequent to that, **Dr. Nandakumar Nambath, Assistant Professor, Electrical Engineering Department, IIT Goa**, delivered a talk on How to do VLSI design using open source tools and discussed the VLSI analog and digital flow, software installation steps on different platform, and some resources that are required to design VLSI circuits.

Day 5 started with the session of Emerging trends in Nano Technology by **Dr. Pallavi Kohli, Former Assistant Director, AICTE, New Delhi**. She focused on concept of nanotechnology, its application and impact of nano technology in current and future scenario.

This was followed by a talk on Digitally Assisted Multi-Octave Filter-less Transmitter by **Dr. Hemant Kumar Singhal, Assistant Professor, Department of Electronics Engineering, NIT, Uttarakhand**. He presented different designs of recent RF transmitters and harmonic cancellers used in communication systems

Day 5 ended with an expert lecture of **Dr. Rukhsar Zafar Associate Professor, Department of Electronics and Communication Engineering, SKIT Jaipur**, she shared her experience in the field of Plasmonic based optical sensing technique. She enlightened the gathering with her knowledge and related research work

The discussed areas were of great benefit for the participants as they were enlightened with the most widely used advance tools, strategies and techniques being used in the communication system

स्वामी केशवानंद इंस्टीट्यूट ऑफ टेक्नोलॉजी मैनेजमेंट एंड ग्रामोथन में 'इमर्जिंग टूल्स एंड टेकनिक्स इन कम्युनिकेशन सिस्टम्स' पर पांच दिवसीय फैकेल्टी डेवलपमेंट प्रोग्राम का शुभारंभ

जयपुर। आधुनिक जगत में बढ़ते संचार तकनीकियों के परिदृश्य में एडवांस एंटीना जैसे कि रिकॉन्फिगरेबिल एंटीना, माइक्रोस्ट्रिप एंटीना की केंद्रीय भूमिका होती है। इसी विषय पर आधारित जगतपुरा स्थित स्वामी केशवानंद इंस्टीट्यूट आफ टेक्नोलॉजी मैनेजमेंट एंड ग्रामोथन में 'इमर्जिंग टूल्स एंड टेकनिक्स इन कम्युनिकेशन सिस्टम्स' पर पांच दिवसीय फैकेल्टी डेवलपमेंट प्रोग्राम का शुभारंभ हुआ। एफडीपी के इन्निग्रेशन समारोह में मुख्य अतिथि डॉ. अनंजन बसु (प्रोफेसर, आईआईटी, दिल्ली), एवं डी. के.सामरिया (एफडीपी कोर्डिनेटर आरटीयू, कोटा) रहे । कार्यक्रम की शुरुवात में

अभियात्रिकी एवं संचार विभाग के विभागाध्यक्ष डॉ. मुकेश अरोड़ा ने अतिथियों का स्वागत करते हुए कम्युनिकेशन तकनीकी के महत्व को बताया। डॉ. प्रवीण कुमार जैन (प्रोफेसर एसकेआईटी) ने गत तीन वर्षों से आरटीयू की रैंकिंग में शीर्ष पर विद्यमान एसकेआईटी की उपलब्धियों से अवगत कराया। डॉ. मोनिका माथुर ने इस एफडीपी में होने वाले सभी सत्र के बारे में बताते हुए इसके महत्व पर प्रकाश डाला। प्रो. अनंजन बसु ने एसकेआईटी द्वारा आयोजित की जाने वाली इस तरह के कार्यक्रमों की सराहना की। अंत में एफडीपी के को-ऑर्डिनेटर हर्षल निगम ने सभी अतिथियों को धन्यवाद अर्पण किया।

संचार जगत के विभिन्न आयामों पर हुई चर्चा

डेली न्यूज, **mix** रिपोर्टर, जयपुर। वर्तमान में बढ़ते संचार तकनीकों में एडवांस एंटीना जैसे कि रि कॉन्फिगरेबिल एंटीना, माइक्रोस्ट्रिप एंटीना की केंद्रीय भूमिका होती है। ये हाई टेक्नोलॉजी पर आधारित तथा विभिन्न फ्रीक्वेंसी पर कार्य कर सकते हैं। संचार से जुड़े कुछ ऐसे ही तर्क दिए एक्सपर्ट्स ने। मौका था स्वामी केशवानंद इंस्टीट्यूट ऑफ टेक्नोलॉजी में सोमवार से शुरू हुए पांच दिवसीय फैकल्टी डवलपमेंट प्रोग्राम का। एफडीपी के पहले दिन कम्यूनिकेशन क्षेत्र के विभिन्न उपयोगी तकनीकियों पर चर्चा की। आईआईटी दिल्ली के प्रो. अनंजन बसु ने एंटीना डिजाइन के क्षेत्र में उपयोग होने वाली नई तकनीकों के बारे में जानकारी दी। उन्होंने रि कॉन्फिगरेबिल एंटीना की

डिजाइन तकनीक के बारे में बताया। इनोवेशन समारोह में मुख्य अतिथि आईआईटी दिल्ली के डॉ. अनंजन बसु, एवं एफडीपी कोर्डिनेटर आरटीयू डीके सामरिया रहे। कार्यक्रम की शुरुआत में अभियांत्रिकी एवं संचार विभाग के विभागाध्यक्ष डॉक्टर मुकेश अरोड़ा ने अतिथियों के स्वागत के साथ की। वहीं एसकेआईटी के प्रोफेसर डॉक्टर प्रवीण कुमार जैन एवं डॉक्टर मोनिका माथुर ने इस एफडीपी से संबंधित विभिन्न सत्रों पर प्रकाश डाला। विभिन्न सत्रों के दौरान आरटीयू के प्रोफेसर डॉक्टर मिथिलेश कुमार, आईआईटी गुवाहाटी से प्रो. डॉ. कल्पना ढाका ने संबोधित किया। उन्होंने आईओटी तकनीकी को कम्यूनिकेशन सिस्टम से जोड़ते हुए उसके वास्तविक जीवन में उपयोगिता को बताया।

Invitation Mail

**Dear All,
Greetings !!!**

Department of Electronics and Communication Engineering, Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT), Jaipur in association with Rajasthan Technical University is going to organize an RTU(ATU) TEQIP-III Sponsored One week Faculty Development Program on "Emerging Tools and Techniques in Communication Systems" (ETTCS-2020) from 14/09/2020 to 18/09/2020.

E-certificate: All registered participants will be eligible to get e-certificate whose attendance is above 80% in all sessions and after submitting feedback form.

Registration Link: <https://forms.gle/4QksZsETm8xerLjK8>

Registration Fee: No registration fee required

This FDP will focus on:

- **To introduce recent trends in Communication technologies**
- **Establish basic concepts about the recent technologies in Communications along with their tools and techniques**
- **To provide a platform for interaction among academicians and our experts to discuss new technologies, developments, challenges and research activities in the field of communication**

WhatsApp group link: <https://chat.whatsapp.com/GIe6kByfVGfETjw8jwgjo7>

Google Classroom Code: sx4e7j6

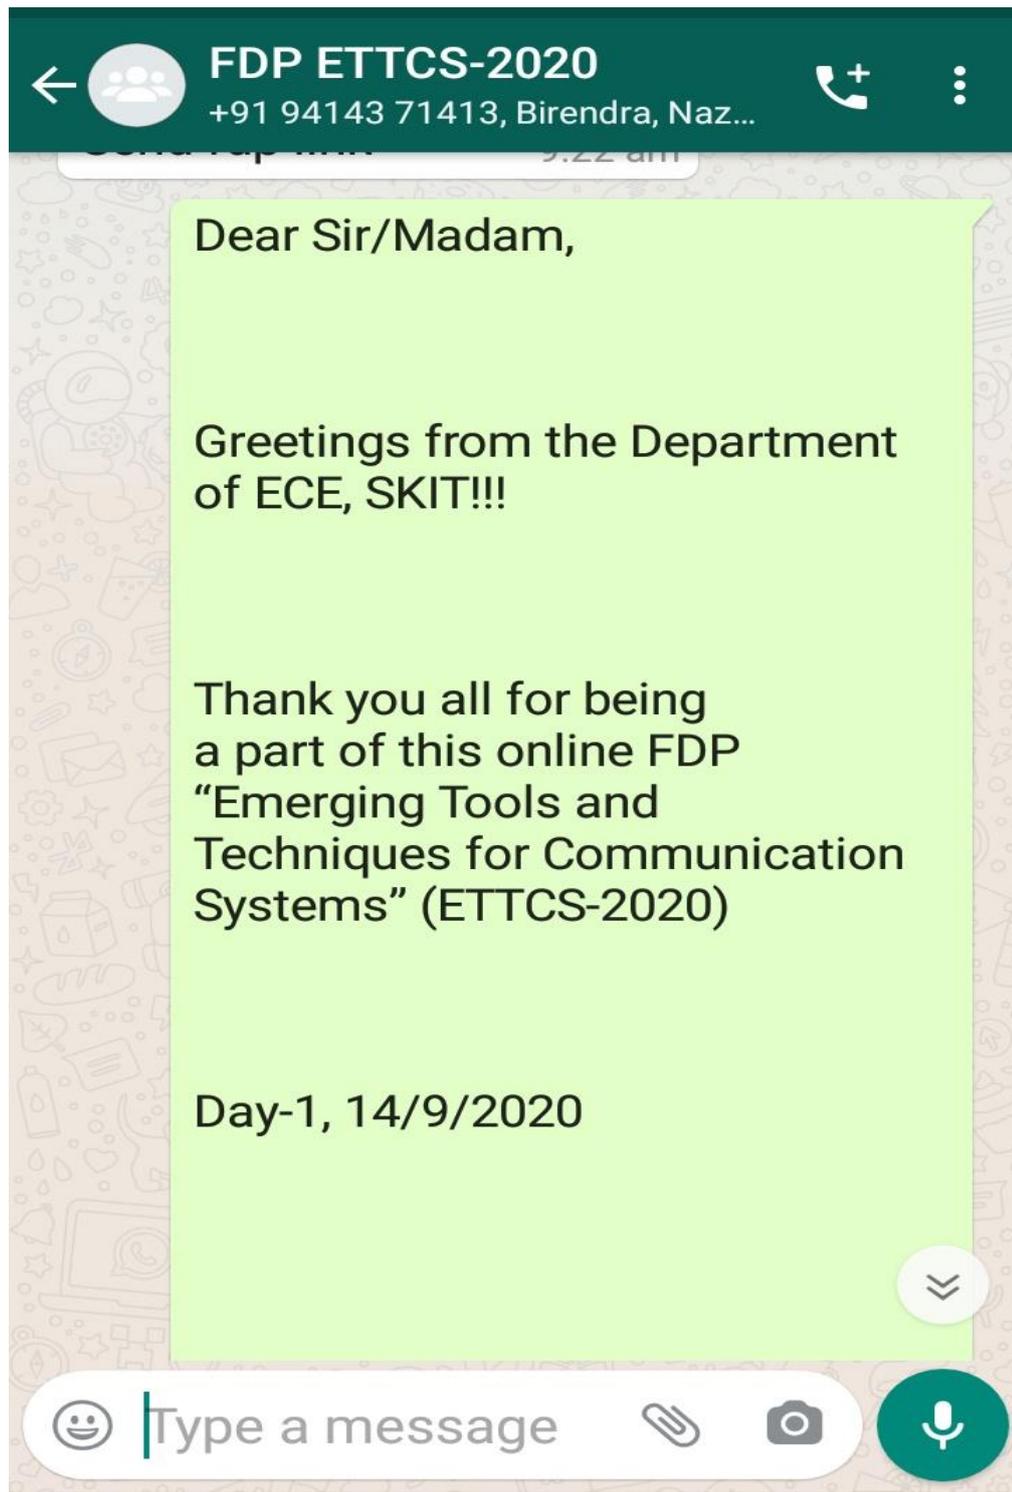

Email id for correspondence: fdpece@skit.ac.in

Note: It is advised to download WebEx and join either WhatsApp group or Google Classroom in the Context of this FDP.

Coordinator ETTCS-2020:

- 1. Prof. Mukesh Arora (9829630099)**
(Head, ECE Department)
- 2. Dr. Monika Mathur (9460265776)**
(Associate Professor)
- 3. Mr. Harshal Nigam (9460005284)**
(Assistant Professor)
- 4. Ms. Manju Choudhary (9694724109)**
(Associate Professor)

Daily Whatsapp Message Sample

Dear Sir/Madam,

Greetings from the Department of ECE, SKIT!!!

Thank you all for being a part of this online FDP “Emerging Tools and Techniques for Communication Systems” (ETTCS-2020)

Day-1, 14/9/2020

We will have Inauguration followed by three Sessions.

Looking forward to see you on 14-09-2020 at 9:30 A.M. to the WebEx Inauguration session

Inaugural Session: (from 9:30 AM onwards)

Guest of Honour: “Prof. Ananjan Basu, IIT Delhi “

Expert Talks:

(1) Prof. Ananjan Basu, IIT Delhi , 10:00-11:30 AM

(2) Prof. Mithilesh Kumar, RTU Kota, 11:40 AM-01:10 PM

(3) Dr. Kalpana Dhaka, IIT Guwahati, 02:30 -04:00 PM

The Session will be held on WebEx platform.

WebEx Meeting Link (DAY 1)

<https://skitjaipur.webex.com/skitjaipur/onstage/g.php?MTID=e296c7d8c4670239d8e7edec177f5e473>

Note:-

(1) Please don't change the password, keep it default.

- (2) Please join the session at Webex before 10 minute of scheduled time.**
- (3) Attendance will be shared on Google Classroom only (Classroom Code-
sx4e7j6).**
- (4) Feedback link will be shared at the end of FDP i.e. 18-09-2020.**
- (5) Please join Whatsapp group through link for more updates:
<https://chat.whatsapp.com/GIe6kByfVGfETjw8jwgjo7>**

Thanks & Regards

Institute / Organization *

Your answer _____

The input image has been converted into a matrix of size 28 X 28 and a kernel/filter of size 7 X 7 with a stride of 1. What will be the size of the convoluted matrix? *

- A) 22 X 22
- B) 21 X 21
- C) 28 X 28
- D) 7 X 7

Wireless LANs implement security measures in the *

- A. System Layers
- B. Data Link Layers
- C. Sub Layers
- D. Multi Layers.

An antenna, which have capability to switch its pattern according to desired specification is called *

- A. Dipole antenna
- B. Pattern reconfigurable antenna
- C. Frequency reconfigurable antenna
- D. Yagi-Uda array

Global Sensor Network is built for *

- A. Reducing cost and time for development
- B. Reducing cost and increasing time for development
- C. Increasing cost and increasing time for development
- D. Increasing cost and decreasing time for development

In an optical fiber communication system, which among the following is not a typical transmitter function *

- A. Coding for error protection
- B. Decoding of input data
- C. Electrical to optical conversion
- D. Recoding to match output standard

In single-mode fibers, how does the fraction of energy traveling through bound mode appear in the cladding *

- A. As a crescent wave
- B. As a gibbous wave
- C. As an evanescent wave
- D. All of the above

To convert a continuous image $f(x, y)$ to digital form, we have to sample the function in *

- A. Coordinates
- B. Amplitude
- C. All of the mentioned
- D. None of the mentioned

To convert a continuous sensed data into Digital form, which of the following is required *

- A. Sampling
- B. Quantization
- C. Both Sampling and Quantization
- D. Neither Sampling nor Quantization

Statement 1: It is possible to train a network well by initializing all the weights as 0
Statement 2: It is possible to train a network well by initializing biases as 0 Which of the statements given above is true *

- A. Statement 1 is true while Statement 2 is false
- B. Statement 2 is true while statement 1 is false
- C. Both statements are true
- D. Both statements are false

Statement 1: It is possible to train a network well by initializing all the weights as 0
Statement 2: It is possible to train a network well by initializing biases as 0 Which of the statements given above is true *

- A. Statement 1 is true while Statement 2 is false
- B. Statement 2 is true while statement 1 is false
- C. Both statements are true
- D. Both statements are false

A antenna which attempts to direct all its energy in a particular direction is called as a *

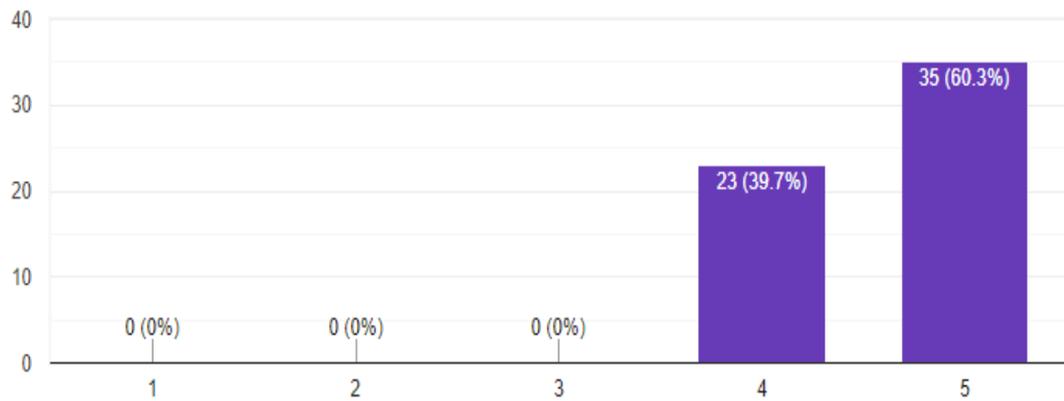

- A. Directional Antenna
- B. One to One Antenna
- C. Propagation Antenna
- D. Single Direction Antenna
