

Faculty Development Program on Emerging Trends in Organic-Electronics (ETOE-2020) 27-29 July 2020

1. Title of the activity: Emerging Trends in Organic Electronics (ETOE-2020)

2. Activity Detail :

a. Objective:

The FDP aimed to provide a platform for expert technical exchange regarding the advance technologies and innovations in the field of Organic electronics. The FDP drawn attention of faculty and researcher towards the field of organic electronics. The FDP looks for significant contributions to the applied sciences, engineering and technology in theoretical and practical aspects

b. Program detail:

Faculty Development Program on Emerging Trends in Organic Electronics (ETOE-2020) was jointly organized by Rajasthan Technical University, Kota & Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur from 27st July 2020 to 29th July 2020. This FDP was fully sponsored by RTU (ATU) under Technical Education Quality Improvement Program phase III (TEQIP-III). In this FDP 149 participants from Rajasthan are well connected through google Classroom social media and WebEx for the entire duration of the FDP.

The FDP was inaugurated on the 27 July 2020 by the chief guests, Dr Jamil Akhtar, Director, SEEC Manipal University Jaipur and Prof Dhirendra Mathur (Coordinator RTU TEQIP-III). In the Inauguration ceremony Sh. Jaipal Meel (Director, SKIT), Prof. S L Surana (Director Academics, SKIT), Prof. Ramesh Kumar Pachar (Principal, SKIT), Prof S K Bhatnagar, Director (Research), SKIT and Prof. Dr Mukesh Arora, HOD, ECE were present. Sh. Jaipal Meel appreciated the new mode of the conduction of FDP and talked about the importance of such type of programs for faculties. Prof. S L Surana explained in detail that the use of electronic devices in everyday life has grown tremendously and this result in the tremendous generation of e-waste which contains harmful materials like lead, cadmium, chromium etc. Most of these devices are made of inorganic materials which are not biodegradable and that's why researcher are now focusing on the use of organic electronic materials that are constructed from organic (carbon based) molecules or Polymers which are biodegradable. He had also introduced the participants with the various organic device and explained about their flexibility and capability and also discussed the theme of the FDP. Prof S K Bhatnagar pulled the attention of participants towards the history of organic electronics and explained that in this area a lot of

research is possible. Prof. Dharendra Mathur explained about the importance of organising such programs under RTU (TEQUIP III), and appreciated the active participation of SKIT in organising such events.

In the first session of the first day Dr Jamil Akhtar delivered an expert talk on Tool technology and Materials used in organic electronics. Also, he explained Flexible Electronics in detail. In the second session Dr Deepak Bharti, Assistant Professor, MNIT shared his knowledge on the small-scale fabrication technique for organic transistor and sensors. He also explained various method used in the fabrication process of organic electronics and shown his research in this field. After these technical sessions assignment were given to participants on Google Classroom.

On the second day first session is started with the expert talk of Dr Praveen Kumar Jain, Professor, SKIT, Jaipur and participant learnt about the graphene based flexible RRAM in this session. He also explored with his own research and suggested further scope in this area to the participants. In the second session Dr Arun Dev Dhar Dwivedi, Associate Professor, VIT University, Vellore has enlighten the participants with his knowledge and experimental results on Organic materials, devices and its modelling.

Third day was started with the expert talk of Prof Dr G D Sharma of LNMIIT Jaipur, on recent advancement on future generation Organic solar cell. He has shown his research with national and international collaboration which familiarize researcher to the new possibilities in this area. In the last session of the FDP Dr Poornima Mittal, Associate Professor, DTU, Delhi delivered her expert talk on research aspect of flexible Electronics and provides a deep insight on performance enhancement of various organic devices by her research work.

In the valedictory session Mr Shobi Bagga, RTU Coordinator of this event, Dr Mukesh Arora and organizers of the event were present. Mr Shobi Bagga had appreciated the prominent speakers and experts of this program. He had congratulated the organising team for successful conduction of this FDP. Mr. Rahul Pandey, assistant professor, SKIT has a given brief summary of the events conducted in FDP and expressed his gratitude to the management of SKIT, and to the whole ECE department. Dr Mukesh Arora has expressed his vote of thanks to everyone involved in this event and appreciated the group effort of the whole organising team.

c. Outcome:

The FDP was organized so that the researchers working in the field of organic electronics, gain a good insight of new technologies and new research ideas related to it.

d. Type: National

3. Details of the Activity

a. Resource person

S. No.	Name of Expert	Organization
1	Dr. Jamil Akhtar	Director, School of Electrical , Electronics & communication Manipal university Jaipur
2	Dr. Deepak Bharti	Assistant Professor MNIT, Jaipur
6	Dr. P.K. Jain	Professor, SKIT
3	Dr. Arun Dev Dhar Dwivedi	Associate professor VIT Vellore.
4	Dr. G.D Sharma	Professor, LMNIIT , Jaipur
5	Dr. Poornima Mittal	Associate Professor, DTU Delhi

b. No. of Participants – 149 [List Attached]

c. Brief Proceeding of each day of the activity

Day	Date	Time	Event/Speaker	Affiliation
1	July 27	10:00 am – 11:00 am	Inauguration	
		11:00 am – 12:30 pm	Dr. Jamil Akhtar	Director, SEEC, Manipal University, Jaipur
		02:00 pm – 03:30 pm	Dr. Deepak Bharti	Assistant Professor, MNIT, Jaipur
		03:30 pm – 04:00 pm	Assignment 1	
2	July 28	02:00 pm – 03:30 pm	Dr. P. K. Jain	Professor, SKIT, Jaipur
		04:00 pm – 05:30 pm	Dr. A. D. D. Diwedi	Associate Professor, VIT university, Vellore
		05.50 pm – 06.00 pm	Assignment 2	
3	July 29	02:00 pm – 03:30 pm	Dr. G. D. Sharma	Professor, LNMIIT, Jaipur
		04:00 pm – 05:30 pm	Dr. Poornima Mittal	Professor, DTU, Delhi
		05.50 pm – 06.00 pm	Valedictory Session	

d. Attainment of the activity: The FDP attained most of the objectives to cover in the field of Organic Electronics that can be beneficial to researchers and faculty.

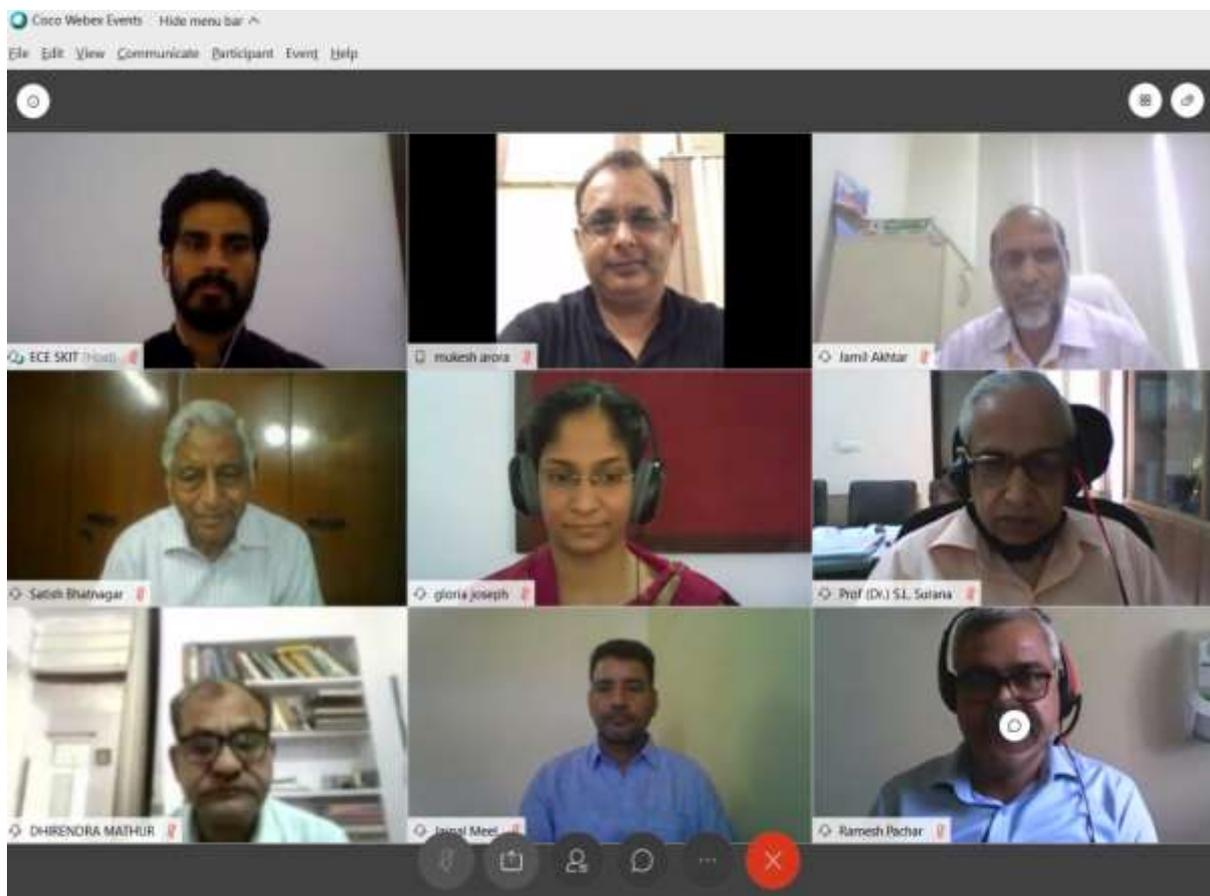

e. Recommendations:

We recommend such types of FDP in future.

4. Enclosures

- a. **Brochure:** Attached
- b. **Detail of funding if any:** RTU (ATU) TEQIP III
- c. **Souvenir:** NIL
- d. **Proceedings :** NIL
- e. **Photographs:**
