## **About The Club:- “ECOFRIENDS CLUB”**

**Objective:-**EFC mainly engage club members in ecofriendly habits or practice by being more conscious of how we use resources.

**Outcomes:-** Students will be able to understand the importance of clean and green environment and will use the habits of cleanliness in practice and will become aware about the environmental issues and methods to solve them by applying their engineering knowledge.

**Achievements of the Club (2021-22):-** Ecofriends club has always been engaged with the conduction of activities or events which mainly focuses on environment. In continuation of the series, in this session on the occasion of birth anniversary of our Father of Nation, Mahatma Gandhi, club organized a tree plantation drive. To know the view of students about the growth and development of India club organized poster Competition on “View of India after Covid Impact”. Then for promoting energy conservation slogan writing activity and to spread awareness for environment essay writing competition on sustainable development was were organized.

**Glimpses of event:-**

The screenshot shows a Google Form titled "Energy Conservation" with a folder icon and a star. The form is in the "Responses" tab, showing 6 responses. The questions are "Write a slogan on 'Energy Conservation'". The responses are:

- Save today, survive tomorrow.
- Energy serves you the way your have the right to be dealt with.
- Conserve energy to preserve future.
- Switch off the Light..  
It really prevents fight....
- Build energy build today 🤝
- Energy saved is energy generated.  
We should save energy because we have borrowed it from our children.

At the bottom right, there is a watermark "Activate Windows".

# “Workshop for students on fuels and lubricants”

**Date, Time and Venue of the event:-** 16/02/2022, from 10:30 am to 12:30 pm (Online on Google Meet) and from 12:30 pm to 3:30 pm (Off-line in Chemistry Lab II)

Dr. Poonam Ojha-9928086033	6204338698
<b>(Faculty Co-ordinator)</b>	<b>(Student Co-ordinator)</b>

**Objective of the event:-** Due to Covid situation, students were not able to attend their labs and theory classes regularly, even at the school level, most of the students were not aware about the laboratory experiments. This workshop was targeted for the I year students, and through on-line video demonstration and practical performance in Chemistry Lab, students were taught some experiment based on the topic Fuels and Lubricants. like Bomb Calorimeter, Proximate Analysis, Redwood Viscometer, Pensky-Martens Apparatus and Cloud & Pour point Apparatus.

### **Details(Execution):-**

Student workshop was organized on the topic Fuel and Lubricants. Students of I year participated in the workshop. In morning, in the on-line session, taken on Google Meet, experiments like proximate analysis of coal, Bomb calorimeter were demonstrated via a video documentary. Afternoon session was comprising of the Practical Demonstration and performance by Students of Redwood Viscometer, Cloud & Pour point apparatus, Pensky-Martens apparatus and

Proximate analysis of coal of the experiments in the Chemistry lab. After a long covid break, students were very much benefitted of this workshop and a good learning experience was observed by them. More than 120 students participated with enthusiasm. Participation certificates were also given to them.
