Dear Abhishek

It will be a pleasure for me to deliver an expert talk in the FDP entitled "Ecological and Eco-efficient Construction Practices (EECP-2022)." My preferable date for the lecture will be 20 or 21st January 2022. I like to deliver a talk at 9:30 am IST. The topic of my lecture is "Accelerated carbonation curing and low-energy cement - An efforts towards sustainable infrastructure construction practices."

Please let me know if you have any queries.

Thanks and Regards

Dr. Raju Sharma

Prof. D. K. Sharma (Head – Civil Engineering) briefed the audience about the FDP. Dr. Bharathi M. delivered a vote of thanks. Ten eminent speakers from industry, academics and research institutions shared their knowledge and experiences during the course of event. I would like to thank all the experts for accepting out invitation and delivering wonderful session. More than 350 faculty members from various educational institutes across India have registered for the event.

On Day 1, first session was delivered by Ms. Sri Rekha Mavulati (Counsellor, IGBC). she discussed the benefits of green building construction and their impacts on environments. Second session of the day was taken up by Er. Rohit (Director-TeXel Consulting Engineers Pvt. Ltd.). He explained the various techniques for the repair and rehabilitation of construction activities.

On Day 2, first session was delivered by Dr. Vivek Gupta (Assistant Professor- Thapar University, Patiala, Punjab). He enlightened the participants about the development of sustainable bricks. Characterization methods for various industrial ashes were also explained. Second session of the day was taken up by Er. Vinod Garg (Director, Promac Advisors Pvt. Ltd.). He explained about IS codes 15883 guidelines and their various parts for the construction project management.

On Day 3, In session 1, Dr. Trilok Gupta (Associate Professor, CTAE, Udaipur) discussed in detail about the utilization of plastic and rubber waste in road construction. Second session of the

day was conducted by Prof. O P Chhangani (Vice Chancellor, Apex University). He discussed the challenges in civil engineering profession in construction and sustainable development.

Day 4 started with session of Mr. Sandeep Narang (Senior Consultant, New Delhi). He briefed the participants about the various sustainable construction practices in civil engineering and impact of construction activity on the surrounding climate. He also told the audience about that this is one of the emerging topics and more research is required in this sector. In second session Er. Sunil Nandipati (Assistant Professor, GITAM University, Vishakhapatnam) delivered a session on the applications of drone technology in construction industry.

First session of Day 5 was delivered by Dr. Raju Sharma (Post-Doctoral Researcher, Incheon National University, South Korea). He briefed the participants about accelerated carbonation curing & low-energy cement and also discussed various schemes and criteria to achieve sustainable development goals. Last session of the FDP was delivered by Prof. Sandeep Chaudhary (IIT Indore) on “sustainable construction products”. He discussed the various techniques to produce sustainable building products.

The discussed areas are of great benefit for the participants as they are enlightened with the most widely used techniques to produce sustainable building products.

13. **Objective and Outcome of the event**

Objectives

- To disseminate knowledge on sustainable construction practices.
- To encourage faculty members and scholars to go for ecological and eco-efficient construction practices.

Outcomes

The participants of the FDP will be able to understand the various techniques to produce sustainable construction products. This FDP will bring a positive transformation in the faculty member's attitude in their project and research works and get them more focused on the sustainable development of construction products.

---Thank You-----
