INTRODUCTION

SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) has been ranked no.1 engineering institute in Rajasthan by RTU, Kota consecutively for the last three years. SKIT is a selective comprehensive institution offering undergraduate and postgraduate programmes in Engineering and Management. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier centre of technical education not only in Rajasthan but also in northern India which has been realized through efficient and dedicated faculty members, innovative teaching learning methods, state of the art infrastructures and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA).

DEPARTMENT OF CSE & I.T.

The Department is dedicated towards providing its students with a motivating environment and facilitating their academic requirements with committed and expert supervision of faculty and experts from various fields from time to time. The department offers B.Tech (CS) & B.Tech (IT), M.Tech. (CS) and PhD. (CS). The B.Tech degree programme has been accredited by NBA in both CSE and IT. The department Computer Science & Engineering is a recognized Research Centre of Rajasthan Technical University. Organises Spoken Tutorial and NPTEL Certification by IIT Bombay and has Virtual Lab setup by IIT Madras.

Five day Student Workshop

On

Programming in Python

16 August - 20 August, 2020

OBJECTIVE OF WORKSHOP

The goal is to get students up and running with Python in as short a time as possible. Students will learn the basics of writing and running Python scripts. We will cover topics for students completely new to programming, along with comparisons and contrasts to other programming languages. The course is designed to provide basic knowledge of Python. This Python workshop leads students from the basics of writing and running Python scripts to more advanced features such as file operations, regular expressions, working with binary data, and using the extensive functionality of Python modules. Extra emphasis is placed on features unique to Python, such as tuples, array slices, and output formatting.

The learning objectives of this workshop are to:

1. Understand the fundamentals of writing Python scripts.
2. Learn and understand Python programming basics elements and paradigm.
3. Discover how to work with Python looping, control statements and string manipulations.
4. Write Python functions to facilitate code reuse.
5. Use lists, tuples, and dictionaries in Python programs.

OUTCOME OF WORKSHOP

After completing the study of the discipline “Programming in Python”, the students are expected to perform Problem solving and programming capability in core Python. Learn core Python scripting elements will help them to discover new concepts intended for software engineers, system analysts, program managers, and user support personnel who wish to learn the Python programming language. Besides software development, **Python** is used for web, data analytics, machine learning, and even design. We take a closer look at some of the uses of **Python**, as well as why it's such a popular and versatile programming language.

INVITATION

Dear Student

Greetings of the Day!

We are pleased to inform you that Department of Computer Science and Information Technology of **Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur** are going to organize Five day student workshop for B.Tech. I Year Students from AI, CSE, ECE, IT disciplines on **"Programming in Python"** on virtual platform from 16th- 20th August, 2021.

Registration Details: Student can register online through the given link:
<https://forms.gle/vuwEJcxfGs6B4Ar78r>

Last date of Registration:13-Aug-2021

There is no Registration fee.

E-certificate will be provided to those Students who will attend all sessions and submit feedback on daily basis.

Note: After submitting the registration form you can find the WhatsApp group. It is advised to join this WhatsApp Group after registration to get regular important information on workshop.

INTRODUCTION

The python language is one of the most accessible programming languages available because it has simplified syntax and is not complicated, emphasizing natural language. Due to its ease of learning and usage, python codes can be easily written and executed much faster than other programming languages.

Notice

Date: 06/08/2021

This is to inform all the students of B.Tech. I Year from AI, CSE, ECE, IT disciplines that Department of CSE and IT is organising a Five-day student workshop for B.Tech. I Year Students on "**Programming in Python**" on virtual platform from 16th- 20th August, 2021. The registration process for Workshop is as below:

1. Fill the Google Form by the link provided below with your valid details, namely:
 - Name
 - WhatsApp Number
 - Branch
 - RTU ROLL Number
 - Email ID (skit domain)
2. No Registration fee.
3. E-Certificate will be provided after successful completion of all sessions and submit feedback on daily basis.
4. The last date for registration is 13/08/2021.
5. It is advised to join WhatsApp group (Python Workshop) after submitting the Registration form to get regular important information about workshop

Five day STUDENT WORKSHOP

"PROGRAMMING IN PYTHON "

16 AUGUST-20 AUGUST,2021

DAY TO DAY EVENT REPORT

Department of Computer Science & Engineering and Information Technology of Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur has organized Five day Student workshop on “ **Programing in Python** ” from 16 August- 20 August, 2021 on online Webex platform.

The Five day workshop comprised of two informative sessions one each day with theoretical as well as practical knowledge delivered by the experts. 192 students of B.Tech I year from various disciplines AI, CSE, IT and ECE have participated in this workshop.

Day 1:16th August, 2020, Monday(11:00 am-12:30 pm)

The event started with Opening Ceremony at 11:00-11:30 AM by Ms. Palika Jajoo (Assistant Professor, Computer Science & Engineering). She welcomed the Dr. Anil Chaudhary (Prof. & HOD,IT), Dr.Mukesh Kumar Gupta (Prof. & HOD,CSE) and Dr.Rohit Mukherjee (Prof. & B.Tech. I Year Inchage) and participants of workshop and appreciated the new mode of conduction of workshop and to opened the great opportunities for students to learn in Python Programming.

Prof. Mukesh Kumar Gupta, highlighted the importance of Python Programming in current scenario and motivate students for their active participation and to get benefitted from eminent experts.

Ms. Palika Jajoo, Workshop Coordinator gave introduction about the workshop and execution plan of workshop during these 5 day.

Mr. Neeraj Garg, Coordinator delivered the vote of thanks to all dignitaries, experts and participants to participate in the opening session and becoming a part of this Workshop.

Technical Sessions (11:30 am-12:30 pm)

Session I was conducted by Mr. Pankaj Jadwal on topic “Python Programming”. He addressed to the participants that how important is python programming to build a successful

online presence for any business. He briefly described about the Why Python, Applications of Python and Introduction, Installation process of python. The hands-on session was conducted for Creating, saving and running a Python file

Day 2 - 17th August, 2020, Tuesday (11:00 am -1:00 pm)

Session I was conducted by Mr. Naveen Jain in which he explained Arithmetic, Assignment, Comparison, Logical, Identity, Membership, Bitwise operator in Python with practical demonstration.

Session II was conducted by Mr. Naveen Jain in which he explained Decision Making Statements: Python Conditions and If statements, if...elif, if...else, Short Hand If ... Else, use of AND/OR, nested if...else with practical demonstration.

Day 3- 18th August, 2020, Wednesday (11:00 am -1:00 pm)

Session I was conducted by Mr. Naveen Jain in which he explained Looping Statement: for, while, else in loop, nested loops, break and continue in Python with practical demonstration.

Session II was conducted by Mr. Naveen Jain in which he explained File handling in Python with practical demonstration.

Day 4- 19th August, 2020, Thursday (11:00 am -1:00 pm)

Session I was conducted by Mr. Naveen Jain in which he explained Function defining, calling and argument passing, recursion in Python with practical demonstration.

Session II was conducted by Mr. Ganpat Singh Chauhan in which he explained String methods with examples in Python with practical demonstration.

Day 5- 20th August, 2020, Wednesday (11:00 am - 4:00 pm)

Session I was conducted by Mr. Naveen Jain in which he explained the concept of List, Set, Tuples, and Dictionaries in Python with practical demonstration.

In Session II, Mr. Neeraj Garg and Palika Jajoo conducted a Python Quiz.

In Session III Mr. Ganpat Singh Chauhan conducted a Python Programming Assessment.

After these 5-day technical sessions, Valedictory session conducted at 4:00 PM - 4:30 pm on 20th August, 2020. In this session Ms. Palika Jajoo, Workshop Coordinator has given a brief summary of the events conducted in workshop. Mr. Neeraj Garg, Workshop Coordinator has brief out the outcome of the workshop. All Experts have shared their experiences during this workshop and appreciated the efforts of organizing team to conduct such type of workshop. Some of the Participants shared their views about workshop. At the end, Mr. Ganpat Singh

Chauhan, Workshop Coordinator has expressed his vote of thanks to everyone involved in this event.

Feedback form was shared to participants at the end of each session of each day on Webex platform. After feedback and by checking the attendance of participants, on-line certificates were given to all the competent participants.

GLIMPSES OF EVENT

Workshop Inaugural

TECHNICAL SESSIONS

The screenshot displays a Cisco Webex Events interface. At the top, the title bar reads "Cisco Webex Events | Event Info | Hide Menu Bar ^" and the status is "Connected". Below the title bar is a menu with "File", "Edit", "Share", "View", "Audio & Video", "Participant", "Event", and "Help".

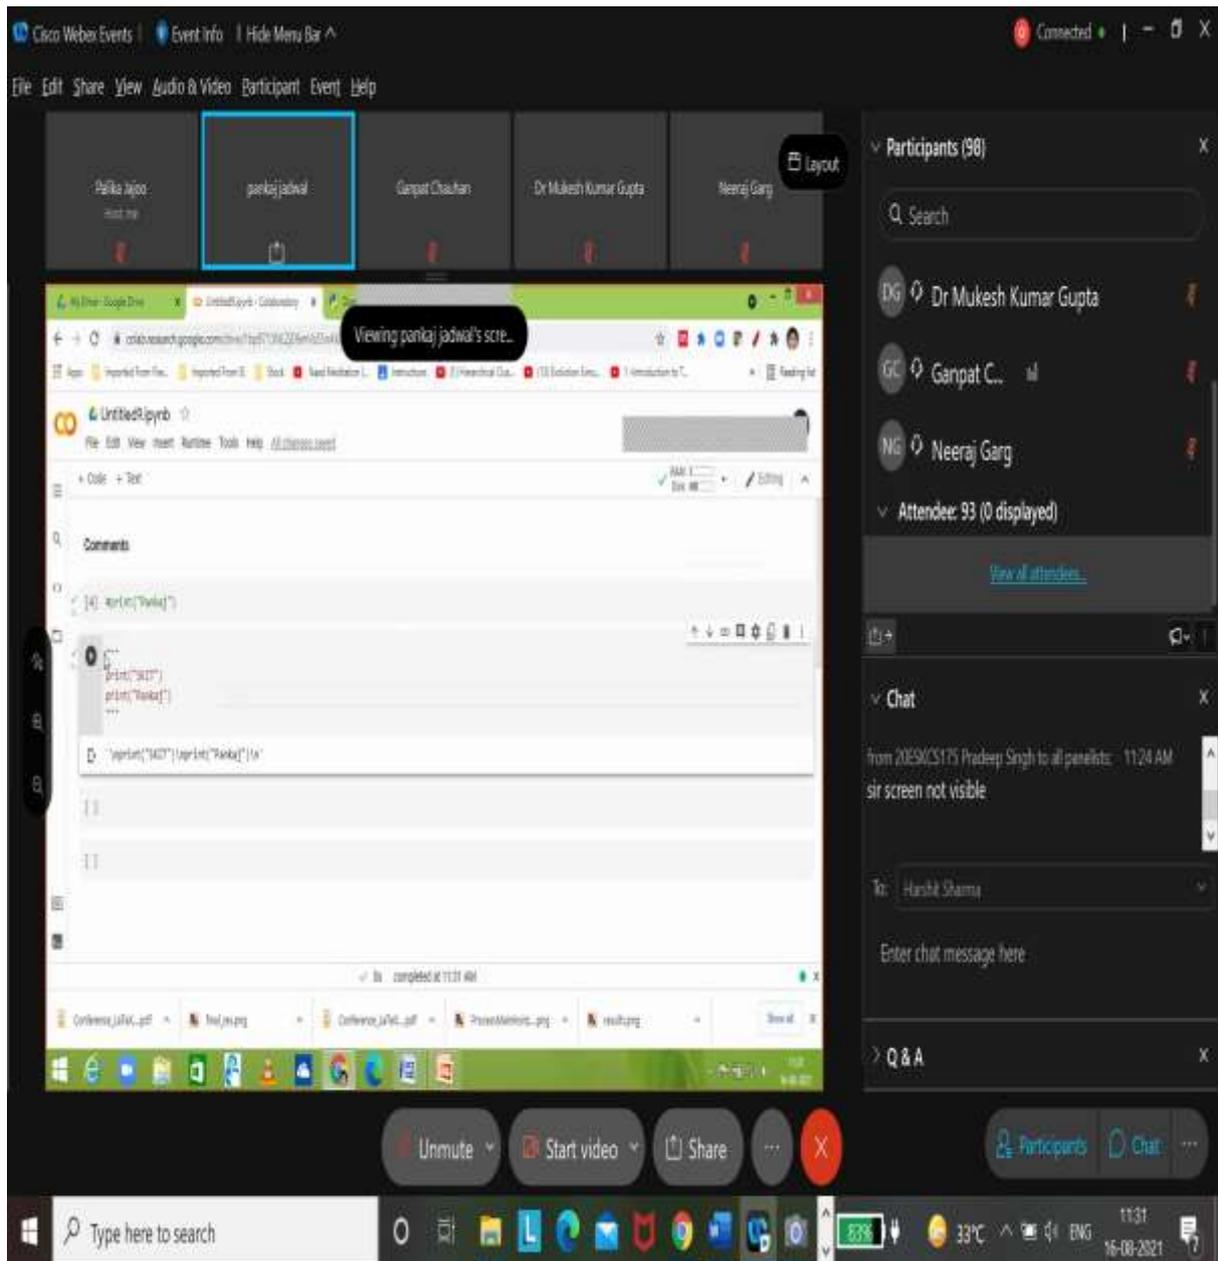

The main area is divided into several sections:

- Video Gallery:** Shows four video thumbnails. The first is "Palika Jagoo" (Host me). The second is "naveen jain" (muted). The third is "ganpat singh chauhan". The fourth is "ganpatchauhan".
- Code Editor:** A window titled "Python 3.7.4 Shell" is open, showing the following code:

```
>>> a=10
print('Hello')
print(a)
a+1

>>> a=12
>>> b=12.567
>>> c=34567L
SyntaxError: invalid syntax
>>> c=34567I
SyntaxError: invalid syntax
>>> c=345678903
>>> d=12+
SyntaxError: invalid syntax
>>> d=12+7
>>> type(a)
<class 'int'>
>>> type(b)
<class 'float'>
>>> type(c)
<class 'int'>
>>> type(d)
<class 'complex'>
>>>
```
- Participants (79):** A list of participants under "Panelist 4":
 - Palika Ja... (Host me)
 - naveen jain (muted)
 - ganpat singh chauhan
 - ganpatchauhan
- Chat:** A chat window showing a message from "Tannay Mudgal (privately)" at 11:16 AM: "yes mam". The "To:" field is set to "Everyone".

At the bottom, there are control buttons: "Unmute", "Start video", "Share", and a red "X" button. The Windows taskbar is visible at the very bottom, showing the search bar, taskbar icons, and system tray with a 67% battery level, 34°C temperature, and date/time: 11:32, 17-08-2021.

PYTHON PROGRAMMING ASSESSMENT

Note: Attempt any five Questions from Q1-Q7. Q8-Q10 is compulsory.

Q.1 Write a python program to design a calculator by making function of add, subtract, multiply and divide operation.

Q.2 Write a python program to reverse elements of a string (with and without using `reverse()` method) and find that the string is palindrome or not.

Note: you can't use any alternative string to reverse the string.

Q.3 Write Python program

(i) to count the number of occurrences of every element of a given list.

(ii) to delete all the duplicates from the given list

Q.4 Write a Python program

(i) to read the content of a file

(ii) tokenize each line based on white spaces

(iii) store each token in a tuple

(iv) display all the elements of a tuple (using loop)

Q.5 Write a Python program to find that a given element is available in list or not (using a function)

Q.6 Write a Python program to generate the next 15 leap years starting from a given year. Populate the years into a list and display the list.

Q.7 Write a Python program to check the validity of an email-Id (using regular expression)

Q.8 Compare List, Tuple and Set in Python with examples.

Q.9 Differentiate `match()`, `search()` and `findall()` in writing python regular expression with examples.

Q.10 Explain IN and IS operators with an example.
