1. PREAMBLE

Electronics & ICT Academy, Malaviya National Institute of Technology, Jaipur, Rajasthan (henceforth called- Academy) and the SKIT, MG, Jaipur, henceforth called Host-institution) here by agree to encourage academic and research cooperation through jointly organizing Faculty development programme for faculty of engineering/technology/other streams in furtherance of the development of learning as stipulated below.

Background:

The approval for setting up of Electronics and ICT Academies at IIT Kanpur, IIT Roorkee and MNIT Jaipur has already been issued by Ministry of Electronics & IT (Govt. of India) vide Administrative Approval No. 3(6)/2012-HRD(Vol.V)(Pt.), dated 09.11.2015

In order to facilitate the growth of IT/ITeS, Electronics Manufacturing industry the growth of entire spectrum of ICTE Industry as a whole is essential so that a sustainable global market share could be carved out for India. For sustaining the growth of the IT-BPO industry, IT Hardware and Electronics Manufacturing industry, availability of properly trained, skilled and qualified manpower is essential.

The requirements in the areas of ICTE sector are unique as it has a very high degree of obsolescence of existing technologies and faster emergence of newer technologies that would require a shorter cycle of updation of curricula and launching of new courses, etc. Further, the quality of R&D is the weakest link for the IT and Electronics manufacturing Sector. Quality PhDs generated in IT / Computer Science is very low.

This emphasizes on the need for a focused faculty training/updation programme for IT, Electronics and related sectors. At present the initiatives taken by the Government through the UGC, AICTE, etc. for faculty updation are generic and holistic in nature and do not specifically focus on the emerging requirement of ICTE sector.

The above mentioned aspects have been addressed through launching a scheme for setting up of Electronics and ICT Academy at IITs, IIITs, NITs, etc. in the select Seven(07) States / UT's by the respective State Governments/UTs with financial assistance from Central Government- IIT Kanpur, IIT Guwahati, IIT Roorkee, MNIT Jaipur, NIT Warangal, NIT Patna and IIITDM, Jabalpur. This would ensure a wider spreading up of quality faculty development and continuous updation of faculty in an all-inclusive manner leading to an overall improved employability of the graduates at various levels in the academic institutions.

2. OBJECTIVE AND SCOPE

Each Electronics and ICT Academy would focus on improving the quality of faculty of institutes and colleges in the respective states/UTs which would result in improvement of quality of students there by making them industry ready and employable in the ICT/ Electronics Manufacturing Industry.
