Sub: Performance monitoring & reporting on Collaborative Research Scheme (CRS) Project.

Ref.: Project ID 18 & PI Name: **Dr. Mukesh Kumar Gupta**

Dear Sir,

University has made the fund allocation to your institute for CRS Project (Project ID No.18). In the CRS Project review meeting held in March, 2020, directions were given for the submission of compliance and progress report.

You have not submitted any compliance report since, July 2019. This hampered the process of disbursement of 2nd instalment.

Fund utilization of CRS project is one of the benchmark performance indicator of TEQIP-III ATU. Under utilization of funds under this component has adversely affected the TEQIP III performance of RTU and being taken very seriously by NPIU and technical education department, Government of Rajasthan.

You are instructed to complete the requisite process regarding the CRS Project fund allocation at the earliest possible and utilize the funds for the purpose it is allotted.

As you are aware, the CRS project fund allocation and progress made is the part of QIV score. The project should be completed in time and upto the satisfaction of RTU and NPIU. A serious cognizance is observed for non compliance. Low performance on this account may affect your QIV performance.

Your early action shall be highly appreciated.

Yours Sincerely

Sd/-

1. PREAMBLE

Electronics & ICT Academy, Malaviya National Institute of Technology, Jaipur, Rajasthan (henceforth called- Academy) and the SKIT, MGB, Jaipur, henceforth called Host-institution) here by agree to encourage academic and research cooperation through jointly organizing Faculty development programme for faculty of engineering/technology/other streams in furtherance of the development of learning as stipulated below

Background:

The approval for setting up of Electronics and ICT Academies at IIT Kanpur, IIT Roorkee and MNIT Jaipur has already been issued by Ministry of Electronics & IT (Govt. of India) vide Administrative Approval No. 3(6)/2012-HRD(Vol.V)(Pt.), dated 09.11.2015

In order to facilitate the growth of IT/ITeS, Electronics Manufacturing industry the growth of entire spectrum of ICTE Industry as a whole is essential so that a sustainable global market share could be carved out for India. For sustaining the growth of the IT-BPO industry, IT Hardware and Electronics Manufacturing industry, availability of properly trained, skilled and qualified manpower is essential.

The requirements in the areas of ICTE sector are unique as it has a very high degree of obsolescence of existing technologies and faster emergence of newer technologies that would require a shorter cycle of updation of curricula and launching of new courses, etc. Further, the quality of R&D is the weakest link for the IT and Electronics manufacturing Sector. Quality PhDs generated in IT / Computer Science is very low.

This emphasizes on the need for a focused faculty training/updation programme for IT, Electronics and related sectors. At present the initiatives taken by the Government through the UGC, AICTE, etc. for faculty updation are generic and holistic in nature and do not specifically focus on the emerging requirement of ICTE sector.

The above mentioned aspects have been addressed through launching a scheme for setting up of Electronics and ICT Academy at IITs, IIITs, NITs, etc. in the select Seven(07) States / UT's by the respective State Governments/UTs with financial assistance from Central Government- IIT Kanpur, IIT Guwahati, IIT Roorkee, MNIT Jaipur, NIT Warangal, NIT Patna and IIITDM, Jabalpur. This would ensure a wider spreading up of quality faculty development and continuous updation of faculty in an all-inclusive manner leading to an overall improved employability of the graduates at various levels in the academic institutions.

2. OBJECTIVE AND SCOPE

Each Electronics and ICT Academy would focus on improving the quality of faculty of institutes and colleges in the respective states/UTs which would result in improvement of quality of students there by making them industry ready and employable in the ICT/ Electronics Manufacturing Industry.
