Description & Coverage

Description:

Artificial intelligence and its various components are rapidly engulfing almost every professional industry. Specific features of AI that have proven to be vital solutions to numerous real-world issues are machine learning and deep learning. These intelligent agents unlock higher levels of performance and efficiency, creating a wide span of industrial applications. However, there is a lack of research on the specific uses of machine/deep learning in the professional

Acknowledgment

It is very important to acknowledge the tireless support and endless contributions received from many people in completing this work. This book would not have been a reality without the support of IGI Global. We are grateful to the team from IGI Global, specially *Maria*, *Josh* and *Jan* for giving this wonderful opportunity and been extremely cooperative right from the inception of the idea of this book. Their unique contributions, advices, expertise and relentless efforts made this book a reality.

With earnest gratitude and profound thanks, we would like to acknowledge the continuous guidance of Dr. Sudha Morwal (Banasthali Vidhyapeeth), Dr, Naveen Sharma (Rochester Institute of Technology, New York) for their time, dedication, expertise and continuous support. Special thanks to Prof. Anders Henten, Prof. Kund Erik Skouby, Prof. Reza Tadayoni, Prof. Lene Tolstrup Sørensen, Anette Bysøe, Center for Communication, Media and Information Technologies (CMI), Aalborg University, Copenhagen, Denmark for providing in-depth scientific knowledge.

Our sincere thank goes to our organizations, Swami Keshvanand Institute of Technology Jaipur, Rajasthan and Sir Padampat Singhanian University (SPSU), Udaipur, Rajasthan, India, Central University of Rajasthan and Pandit Deendayal Petroleum University, Gandhinagar, Gujrat for providing a healthy academic and research environment during my consistent work.

We are truly moved by the gesture and constant support shown by all the members of Editorial Advisory Board since the beginning of the idea of the edited book. The editors would like to acknowledge the help of all the people involved in this project and, more specifically, to each author and reviewer who took part in the review process. Without their support, this book would not have become a reality.

The completion of this book could not have been possible without the contribution and support we got from our family, friends and colleagues. It is a pleasant aspect and we express our gratitude for all of them.

Mehul Mahrishi
Swami Keshvanand Institute of Technology, India

Kamal Kant Hiran
Aalborg University, Denmark

Gaurav Meena
Central University of Rajasthan, India

Paawan Sharma
Pandit Deendayal Petroleum University, India

Table of Contents

Foreword	xv
Preface	xvii
Acknowledgment	xx
Chapter 1	
Obtaining Deep Learning Models for Automatic Classification of Leukocytes.....	1
<i>Pedro João Rodrigues, CeDRI, Research Centre in Digitalization and Intelligent Robotics, Instituto Politécnico de Bragança, Portugal</i>	
<i>Getúlio Peixoto Igrejas, CeDRI, Research Centre in Digitalization and Intelligent Robotics, Instituto Politécnico de Bragança, Portugal</i>	
<i>Romeu Ferreira Beato, Instituto Politécnico de Bragança, Portugal</i>	
Chapter 2	
Deep Learning Using Keras	33
<i>Deepa Joshi, Department of Systemics, School of Computer Science, University of Petroleum and Energy Studies (UPES), India</i>	
<i>Shahina Anwarul, Department of Systemics, School of Computer Science, University of Petroleum and Energy Studies (UPES), India</i>	
<i>Vidyanand Mishra, Department of Systemics, School of Computer Science, University of Petroleum and Energy Studies (UPES), India</i>	
Chapter 3	
Deep Learning With PyTorch	61
<i>Anmol Chaudhary, Government Engineering College, Ajmer, India</i>	
<i>Kuldeep Singh Chouhan, Government Engineering College, Ajmer, India</i>	
<i>Jyoti Gajrani, Malviya National Institute of Technology, India</i>	
<i>Bhavna Sharma, JECRC University, Jaipur, India</i>	

Chapter 4	
Deep Learning With TensorFlow.....	96
<i>Shahina Anwarul, Department of Systemics, School of Computer Science, University of Petroleum and Energy Studies (UPES), India</i>	
<i>Deepa Joshi, Department of Systemics, School of Computer Science, University of Petroleum and Energy Studies (UPES), India</i>	
Chapter 5	
Employee's Attrition Prediction Using Machine Learning Approaches.....	121
<i>Krishna Kumar Mohbey, Department of Computer Science, Central University of Rajasthan, India</i>	
Chapter 6	
A Novel Deep Learning Method for Identification of Cancer Genes From Gene Expression Dataset.....	129
<i>Pyingkodi Maran, Kongu Engineering College, India & Anna University, India</i>	
<i>Shanthi S., Kongu Engineering College, India</i>	
<i>Thenmozhi K., Selvam College of Technology, India</i>	
<i>Hemalatha D., Kongu Engineering College, India</i>	
<i>Nanthini K., Kongu Engineering College, India</i>	
Chapter 7	
Machine Learning in Authentication of Digital Audio Recordings.....	145
<i>Rashmika Kiran Patole, College of Engineering, Pune, India</i>	
<i>Priti Paresh Rege, College of Engineering, Pune, India</i>	
Chapter 8	
Deep Convolutional Neural Network-Based Analysis for Breast Cancer Histology Images.....	168
<i>E. Sudheer Kumar, JNTUA College of Engineering, India</i>	
<i>C. Shoba Bindu, JNTUA College of Engineering, India</i>	
<i>Srivella Madhu, JNTUA College of Engineering, India</i>	
Chapter 9	
Deep Learning in Engineering Education: Performance Prediction Using Cuckoo-Based Hybrid Classification.....	187
<i>Deepali R. Vora, Vidyalkar Institute of Technology, India</i>	
<i>Kamatchi R. Iyer, Amity University, India</i>	
Chapter 10	
Malaria Detection System Using Convolutional Neural Network Algorithm	219
<i>Kanika Gautam, Mody University of Science and Technology, Lakshmangarh, India</i>	
<i>Sunil Kumar Jangir, Mody University of Science and Technology, Lakshmangarh, India</i>	
<i>Manish Kumar, Mody Institute of Science and Technology, Lakshmangarh, India</i>	
<i>Jay Sharma, JECRC, Jaipur, India</i>	

Chapter 11	
An Introduction to Deep Convolutional Neural Networks With Keras	231
<i>Wazir Muhammad, Electrical Engineering Department, BUET, Khuzdar, Pakistan</i>	
<i>Irfan Ullah, Department of Electrical Engineering, Chulalongkorn University, Bangkok, Thailand</i>	
<i>Mohammad Ashfaq, School of Life Sciences, B. S. Abdur Rahman Crescent Institute of Science and Technology, Chennai, India</i>	
Chapter 12	
Emotion Recognition With Facial Expression Using Machine Learning for Social Network and Healthcare	273
<i>Anju Yadav, Manipal University Jaipur, India</i>	
<i>Venkatesh Gauri Shankar, Manipal University Jaipur, India</i>	
<i>Vivek Kumar Verma, Manipal University Jaipur, India</i>	
Chapter 13	
Text Separation From Document Images: A Deep Learning Approach.....	283
<i>Priti P. Rege, College of Engineering, Pune, India</i>	
<i>Shaheera Akhter, Government College of Engineering, Pune, India</i>
