Opening Ceremony

Day 1 observed the beginning of the one week faculty development program sponsored by TEQIP-III, RTU and ATU on practical exposure to latex, MATLAB, Python and Machine Learning at the state of art J.C.Bose auditorium of SKIT. The event began with the arrival of the esteemed guest Dr Harish sharma and other experts by the the director academics and director development and welfare outside the M Viswesaraya block. Then, the guests along with the dignitaries of the institute were welcomed by the anchors and were invited for lamp lighting and saraswativandana.after this all the guests were invited for a floral welcome by the dignitaries of SKIT. Prof. Dr. S.L. Surana (Director Academics) presented the welcome note in front of the attendies and the esteemed guests which was been followed by an address to the audience by Dr. Harish Sharma, event coordinator and TEQIP-Nodal Officer. The event continued by presentation of Momento to Dr. Harish Sharma, Event Coordinator and TEQIP-III Nodal Officer, RTU by Prof.(Dr.) S. L. Surana, Director (Academics), SKIT. Further Prof. (Dr.) S.K. Calla, Director(D&W), SKIT presented the vote of thanks to the conveners, guests and the audience. To capture a glimpse of the event and to preserve a prolific and beautiful memory all the guests along with the attendies were asked to assemble for a group photograph outside the M Viswesaraya block of SKIT which to the end of the opening ceremony.

DAY 1

After a tempting opening ceremony, the guests moved for the purpose of high tea inside the civil block of SKIT. The day officially started by the beginning session from 9:00 to 11:00 AM on LaTeX BY DrMukeshSaraswat at the IAI Lab in the CS/IT block of SKIT in which he briefed the attending faculty about the topic and provided a basic idea about it. The next session took place from 11:00 to 12:30 PM ByDrRaju Pal in which he delivered a lecture on how to work with TEX and what are its applications and purpose. The second session was followed by a lavish lunch at the student mess of the institute. Third session took place from 1:15 to 2:45 PM on preparation of an article without using templates by Dr. AvinashPandey in which he described the listeners about the advantage of creating or writing our own articles rather than using templates. The fourth session began at 3:00 PM on the topic hands on approach on LaTeX by Dr. Swati Avasthi in which she delivered a lecture to how to use LaTeX. This marked the end of day 1 of the FDP at 4:30 PM.

DAY 2

Day 2 started with the high tea in the morning which was followed by the first lecture of the day from 9:30 to 11:00 AM sharp which particularly focused on the working on templates to write articles in a better way. The second session of the day was about writing journal articles by using Latex and was conducted by Dr. MukeshSaraswat which focused on a new and alternative way of writing articles which was then followed by lunch at the institute mess. Followed the third session which focused on the the basics and introduction to MATLAB and was taken by Dr. Swati Avasthi. The fourth session by Dr. AvinashPandey focused on the new and advanced data structures on MATLAB which was fruitful in instructing the new ways to use MATLAB. In this way day 2 also ended.

DAY 3

Day 3 started with the high tea in the morning which was followed by the first lecture of the day from 9:30 to 11:00 AM sharp which focused on accessing, analyzing and visualizing data in MATLAB and was delivered by Dr. MukeshSaraswat. It was essential for the participants to know about how to analyze, access and visualize data on MATLAB so that its working efficiency could be increased many times and crisp and better documents could be created. The second session of the day was about the graphical user interface by which users could achieve a better way to play with the graphics and also could create interesting projects by its use. The lecture was delivered by Dr. AvinashPandey in which he described about the different ways of increasing the graphical user interface so that the ease to work with it could be increased, which was then followed by lunch at the institute mess. Followed the third session which saw the beginning of the third topic of the program that is Machine learning. This session was conducted by Dr. Raju Pal in which he gave a basic idea about machine learning and also conducted a brief discussion on it. The fourth session by Dr. Swati Avasthi focused on the machine learning toolbox on MATLAB which was fruitful in instructing the new ways to use MATLAB by different types of pre-defined and user defined functions on it. In this way day 3 also ended.

DAY 4

Day 3 started with the high tea in the morning which was followed by the first lecture of the day from 9:30 to 11:00 AM sharp which started by an introductory session on python, its variables and types. The session was conducted by Dr. Swati Avasthi in which she told about the different types of variables in python and how to specify them according to the users need. The second session of the day was about the numbers and math input from users in python and was conducted by Dr. MukeshSaraswat in which he instructed about how to take number and math input from the users in python according to which data type and so on. Then the participants assembled for lunch at the institute mess and had a peaceful quality time with their fellow participants. The third session was based on how to pass arguments, block of code, functions and conditional statements in python which constitute an essential part of the language and was conducted by Dr. Raju Pal. The fourth session emphasized on for and while loops in python which constituted the iteration statements and description about their working format and different strategies and functions. The session was conducted by Dr. AvinashPandey. This way day 4 came to an end.

DAY 5

Day 3 started with the high tea in the morning which was followed by the first lecture of the day from 9:30 to 11:00 AM which was based on how to use lists and tuples in python. The lecture was conducted by Dr. AvinashPandey which was essential so as to create organized documents using lists and tuples. In the next session, Dr. Raju Pal discussed about the dictionaries, sets and strings in python that is their types, forms and groups. This was followed by lunch at the institute mess. The third session emphasized on the different file operations in python, its steps, format and difference. The session was conducted by Dr.MukeshSaraswat and was an effective one too. The last session of the program focused on the creation of an effective and organized user defined project which was conducted by Dr. Swati Avasthi. Thus an effective program successfully took place which in turn was very beneficial for the various faculty members and also for the upcoming batches of the different RTU affiliated colleges.
