A PROPOSAL FOR a FIVE DAY FACULTY DEVELOPMENT PROGRAMME

(10th-14th August, 2020)

Objectives:

- To enable the faculty members of Higher Education to learn new pedagogic techniques.
- To empower the faculty members with innovative teaching competencies, skills and attitudes.

- To provide the participants with experiential learning integrating various teaching tools in teaching through group activities and interactions.
- To sensitize the participants towards issues and challenges in Higher education
- To expose the faculty members to the importance of communication skills

Thrust Areas:

- Motivational techniques.
- Teaching Strategies to facilitate active learning.
- Instructional planning and Evaluation methods.
- Outcome-based education.
- Constructivist Approach.
- Professional ethics and Classroom Communication.
- E-Learning, Blended learning and Flipped Learning Techniques.
- Role of ICT and Use of Technologies in teaching and learning.
- Preparing and using animations in teaching.
- Traits of an effective teacher.
- New Pedagogical approaches in Higher Education.
- Issues and Challenges in Higher Education.
- Strategies for enhancing Women enrolment in Higher Education.
- Best Practices in learner-centered teaching.
- Gender Issues in Higher Education.

FDP Impact on Faculty and their teaching:-

1. The FDP will benefit faculties as quality of teaching-learning will improve.
2. Participants will become suitable resource for students
3. Faculty will get a forum for interaction with experts from different area.

DAY-WISE REPORT OF THE FDP

During the last decade in India, major employers of engineering graduates have observed in their recruitment drives that while thousands of students graduated with an engineering degree, only about 20% or less, were really “employable” directly. An analysis revealed that the root cause of this lack of “quality graduates” was the paucity of “trained” teachers, who are expected to ensure “quality” education. Consequently, major for-profit employers have initiated programs in faculty development. For example, WIPRO Technologies has initiated well-designed programs, e.g., Mission10X, for training engineering college teachers with respect to the pedagogical aspects of the teaching-learning process. Infosys Ltd has actively participated in the Indo-US Collaboration for Engineering Education (IUCEE) program. Both Mission10X and IUCEE focus on faculty development across the engineering programs in India. However, training engineering college teachers across the large number of engineering programs in India is a huge task that requires multiple efforts across diverse engineering disciplines. The quality of higher education definitely depends a lot on the quality of its teachers and the present FDP, we all may agree, truly helped us in unravelling the fundamental strategies and techniques to be incorporated by teachers across the academic and professional spectrum.

Day 1 : Keeping the above mentioned perspective in mind, a five day online FDP on “Student -Centred Teaching Methods and Strategies in Higher Education” witnessed its inaugural ceremony at Swami keshvanand Institute of Technology, Management and Gramothan(SKIT) Jaipur on 10 August 2020 .The Department of English, SKIT in collaboration with the Rajasthan Technical University Kota under RTU TEQUIP III organized it . The five day FDP was inaugurated by the Director SKIT, Mr. Jaipal Meel who focused on quality education which is the defining element to achieve academic excellence. This event was graced by the Vice-Chancellor RTU, Professor R.A Gupta as a chief guest who spoke about the pertinent question on the role of teachers for the new normal. The other members present in the ceremony were Director Academics SKIT, Professor S.L Surana, Principal SKIT, Professor Ramesh Kumar Pachar and other Professors from RTU like TEQIP coordinator Professor Dharendra Mathur, Professor A.K Dwivedi, Professor M.L Meena. On this inaugural day the first speaker Prof. Sanil

Viswanathan from IIT Delhi gave his expert talk on how to empower the faculty members, with innovative teaching, competencies, skills and attitudes, to provide the participants with experiential learning and the second speaker Prof. Prerna spoke on psychological needs of the students mentioning pandemic issues and challenges in higher education with specific reference to youth.

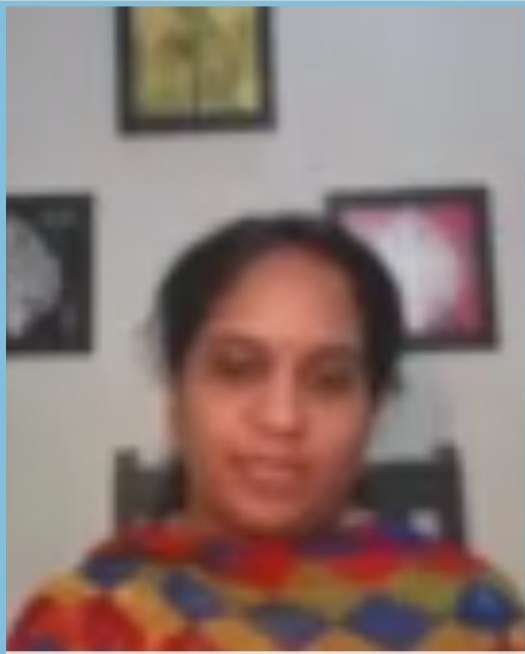

After the inaugural session the programme commenced with the first session of the event with an expert talk by Prof. Sanil V. from IIT Delhi who delivered at length on how to empower the faculty members with innovative teaching competencies, skills and attitudes so that the teachers are able to implement the concept of experiential learning as teaching tools. On the same day, the speaker of the second session, Dr. Prerna Puri, spoke on the psychological needs of the students mentioning pandemic issues and challenges in higher education with specific reference to youth.

Day 2: commenced with the first session of Dr. Preeti Bhatt, who threw light on the classroom strategies and teaching pedagogies for student learning in higher education whereas the second session had Prof. GS Dangayach, Professor in ME dept of MNIT highlighting on the various teaching tools that the teachers have to be equipped with for effective teaching.

Day 3 : began with Dr. Narendra Kumar's relevant experience based lecture on the current methods of teaching & dealing with the online & automated system of evaluation whereas Dr. Sheetal Setia in the second session unleashed the critical review of the latest policies adopted by the government and its implementation in higher learning.

Day 4: kicked off by an interesting lecture by Dr. Shipra Malik where she unraveled latest online strategies to be incorporated by the teachers for effective production like flip & blended learning and she also highlighted on the recurrent usage of animation in language and literature teaching for effective reception by the students.

Day 5: The last session on the fifth day of the FDP program we had Prof. Anita Singh's lecture stressing on the pressing need to conduct such kind of professional FDPs that produce promising outcomes in the learning and teaching practices. She also recommended that teachers in higher education should attend FDP training activities on regular basis and that the scope of planned FDPs should extend beyond the particular discipline to include social skills necessary for collaboration, professional growth as well as management, and leadership abilities.

All the delivered lectures were enlightening and the organizers are sure that they must have definitely exposed the participants to various pedagogical skills to enable them to practice at high level. The present FDP has also enabled the participants to understand and practice "Outcome Based teaching" and "Learner Centric Teaching Strategies" to develop appropriate tools of assessment and imbibe the proficiencies and qualities of good teacher.

SKIT, Jaipur

A five-day FDP on “Student-Centred Teaching Methods and Strategies in Higher Education” witnessed its inaugural ceremony at Swami Keshvanand Institute of Technology, Management and Gramothan (SKIT) Jaipur on 10 August 2020. The Department of English, SKIT in collaboration with the Rajasthan Technical University Kota under RTU TEQUIP III organized it. This five-day FDP was inaugurated by the Director SKIT, Mr. Jaipal Meel who focused on quality education which is the defining element to achieve academic excellence. This event was graced by the Vice-Chancellor RTU, Professor R.A Gupta as the chief guest who spoke about the pertinent question on the role of teachers for the new normal. The other members present in the ceremony were: Principal SKIT, Professor Ramesh Kumar Pachar and TEQUIP coordinator Professor Dharendra Mathur, Professor A.K Dwivedi, Professor M.L Meena. On this inaugural day the first speaker Prof. Sanil Viswanathan from IIT Delhi gave his expert talk on how to empower the faculty members, with innovative teaching, competencies, skills and attitudes to provide the participants with experiential learning and the second speaker Prof. Perna, Associate Professor, Department of Psychology, University of Rajasthan, spoke on the psychological needs of the students mentioning pandemic issues and challenges in higher education with specific reference to youth. In the end, The Head Department of English Dr. Neha Purohit extended the vote of thanks and conveyed the best wishes to all the participants.
