Campus Recruitment Training (CRT)

Campus Recruitment Training (CRT) is an intense placement oriented drill initiated in the year 2009. It is come under the Capacitive Development Cell (CDC). This cell has been constituted in the institute on 18 July, 2014 and after that CRT comes under CDC cell. This training is conducted to train students for upcoming campus recruitment drives. The CDC Cell in consortium with TIME Institute organizes Campus Recruitment Training (CRT) Program for pre-final year students. The CDC Cell organizes and conducts Aptitude training, Technical training and soft skills training along with the Mock Tests for the students of Pre Final Year and Final Year. Regular Counseling/Guidance sessions are organized for all students of Pre Final and FinalYear. The major topics covered in the course are:

- Quantitative Ability
- Logical Reasoning
- Verbal Ability
- Group Discussion
- Personal Interview

To hit the bull's-eye, every final year students undergoes a 42 Hours Refresher Training Programme. The exhaustive programme includes:

- Group Discussions
- Technical Brush-up sessions
- Corporate Etiquette
- Effective Resume Building
- Personal Interviews by Industry visitors
- Individual assessments by CoCubes/AMCAT/FACE/TIME/MyPerfectice

CAMPUS PLACEMENT POLICY

1. Preamble

The biggest concern of a final year engineering student is to get a good job in a reputed organization before he/she completes his/her B.Tech degree. The Institute's placement cell provides the students with the best possible opportunities through campus placements. Many good students sometimes fail to get jobs in good companies due to absence of right guidance. The purpose of placement policy is to prepare them well in advance so that students get selected by their dream companies.

2. Apex Placement Committee

Purpose: The purpose of this committee is to formulate placement policy and to provide guide-lines to the Placement Working Committee. The Apex Placement Committee will review from time to time the achievements of placement working committee and may make changes in the policy.

Composition:

The Apex Placement Committee will be composed of the following members

1. Director (Academics)
2. Principal
3. Adviser
4. Registrar
5. All Heads of Engineering Departments

3. Placement Working Committee

Purpose: The purpose of this committee is

1. to contact and invite companies for placement.
2. to organize training in various skills required for placement and to motivate students to participate wholeheartedly.
3. to obtain feedback from all stake holders.
4. to forward quarterly reports to the Apex Placement Committee

Composition:

Placement working committee will be composed of the following members

1. Adviser
2. Two members to be nominated by the Apex Placement Committee
3. T.P. Officer
4. One faculty member from each engineering department to be nominated by respective HODs
5. Two students from each department (one each from B.Tech V & VII semesters) to be nominated by respective HODs)

Nomination

The members of the placement working committee may be changed or re-nominated by the Apex Placement Committee

4. Implementation of Policy

The training of students in various skills may be organized in stages which may be decided by the Placement Working Committee. Keeping in view the importance of communication skills, soft skills and CRT programme in the corporate world, every student who is interested in campus placement will have to undergo these trainings to be organized in the Institute. Without under-going these trainings no student will be permitted to participate in the campus interviews. It is suggested that training for communication skills, soft skills and CRT programme may be imparted during B.Tech I/II sem, III/IV sem and V/VI sem respectively. The training should be organized during free periods, if possible or beyond Institute's working hours. While organising these trainings care should be taken that as far as possible academic programmes are not curtailed.

During B.Tech I year the faculty members and batch counselors, after the admissions are finalized, will assess strengths and weaknesses of each student based on their observations. The ~~media~~ for observation will be prepared and provided by the placement cell.

At the beginning of the B.Tech III semester, the students will register themselves with the placement cell and provide the required information such as their contact numbers and e-mail addresses.

At the beginning of the B.Tech VI semester, the students interested in campus placements will fill the detailed application form obtainable from placement cell & register themselves for campus placements. Based on the information provided by the students, the placement cell compile the data and the Placement Working Committee will carry out the process of placements of the students.

5. Placement options for students

A renowned company as decided by the Apex Placement Committee will be given the status of Day One Company which will be invited by the Placement Working Committee before all other companies. At the time of registration the students will give their choice for any company henceforth will be called **Dream Company**. Sometimes it may happen that core companies may be permitted to hold campus interviews before the visit of Day One Company. In order to give fair chance to all the students certain restrictions will be imposed on the participation of students in campus interviews. The participation rules are as follows.

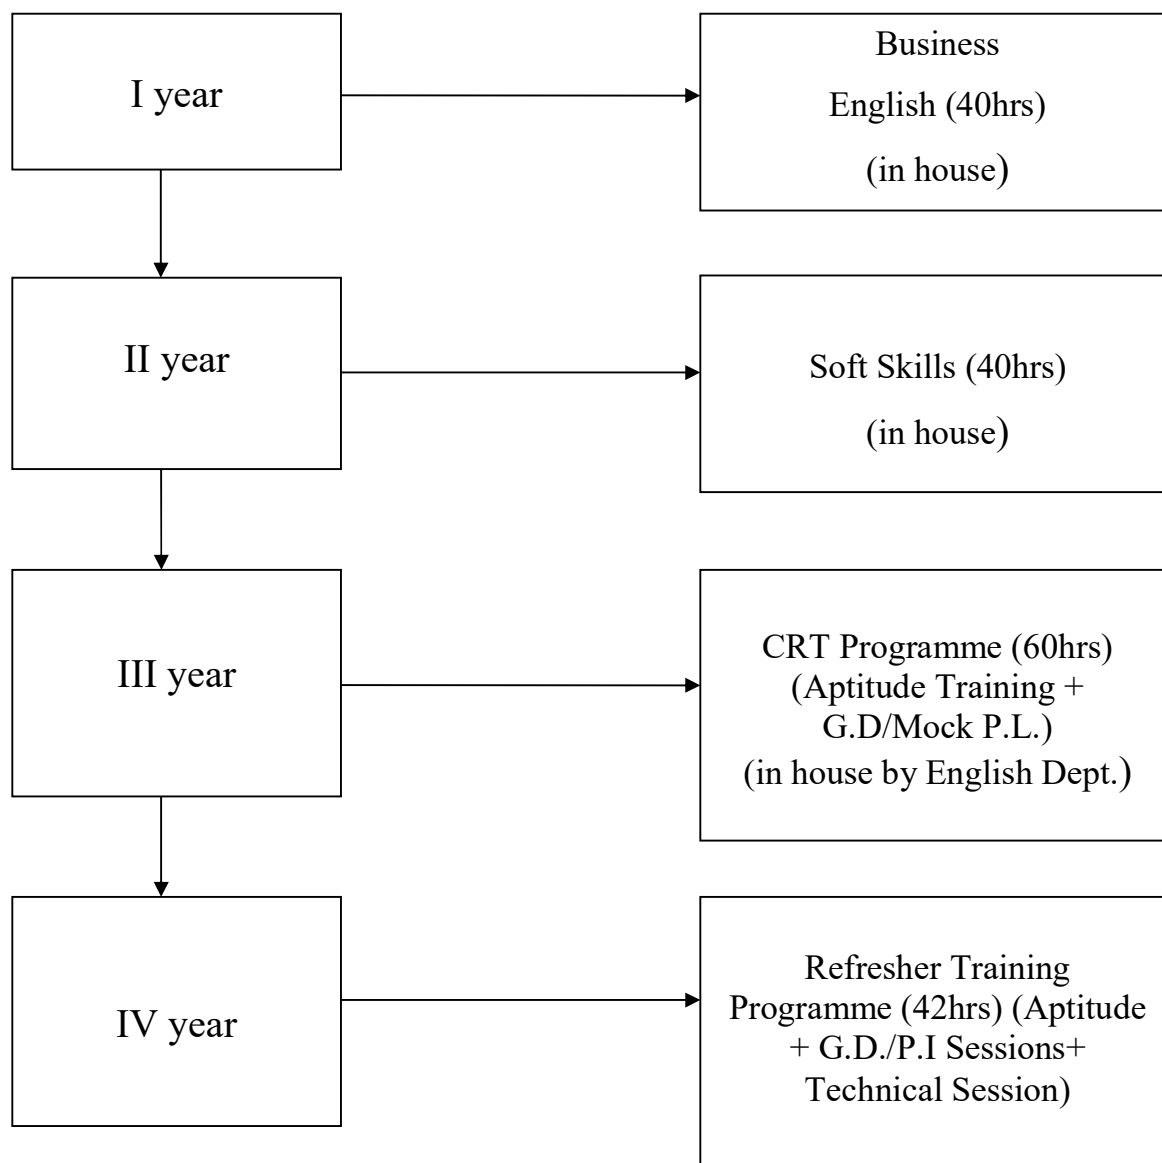

1. Every eligible registered candidate will be permitted to participate in the campus interview of his/her dream company.

2. If a registered student gets selected in his/her Dream Company, prior to the arrival of day one company, he/she will not be permitted to participate in the subsequent campus interviews including that of day One Company.
3. All eligible registered students debarring the category as mentioned in (1) above will be permitted to participate in the campus interview of Day One Company.
4. Eligible registered students not selected under categories (1) and (2) above will be permitted to appear in subsequent campus interviews till he/she gets placed in some company. However, if a student is rejected in two consecutive campus placements he/she will have to undergo retraining prescribed by placement cell. Without undergoing retraining the student will not be permitted to appear in subsequent campus interviews.
5. No student will be allowed to seek more than one offer letter from companies other than BPOs through campus placements.
6. No student will be allowed to seek more than one offer letter from BPOs through campus placements.
7. In some exceptional circumstance the Apex placement committee may permit some or all students to appear in some renowned company.
8. Any student who has registered for any particular campus placement will have to participate seriously in all stages of recruitment process failing which he/she will be debarred from participation in two subsequent campus placements.
9. Any student furnishing false information will be debarred from that and the next campus placement.

6. Future Action Plan

1. An action research plan will be prepared and based on that effectiveness of each of the modules of different trainings imparted to the students for their placements will be analysed. Based on the outcomes these modules may be revised or enlarged/curtailed.
2. For any other uncovered point the Placement Working Committee will seek guidance from the Apex Placement Committee.

Training & Placement Program flow

Year wise journey of a SKITTIAN

Overall grooming and making a student industry ready is a regular practice at SKIT.

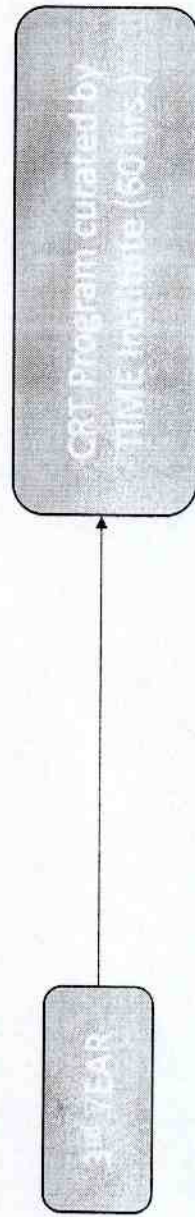

The student starts his journey towards placements right from the 1st Year.

Year wise journey contd..

The Placement Cell in consortium with TIME Institute organizes Campus Ready Training (CRT) Program for pre-final year students. The topics covered in the course are not limited to:

- Quantitative Ability
- Logical Reasoning
- Verbal Ability
- Data Interpretation

The Placement Cell organizes and conducts Aptitude training, Technical training and soft skills training along with the Tests for the students of Pre Final Year and Final Year.

Regular Counseling/Guidance sessions are organized for all students of Pre Final and Final Year.

Faculty Mentors

The concept of Mentorship was introduced in the year 2018 and has shown a rising trend in the placement process smoothness and placement index as well.

Faculty Mentors are allocated in pre-final year to every student. Students can discuss not only their weakness but also their personal problems which are hindrance in their growth. Mentors are like the institute level guardian of a student. The professional guidance of mentor is not limited to:

- Projects,
- Technical Skills Development
- SWOT Analysis

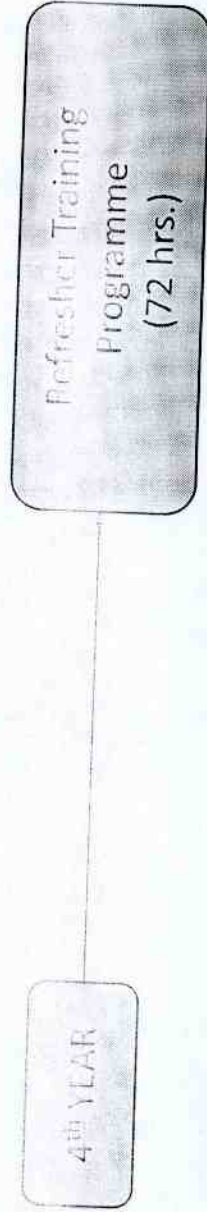

The Faculty mentors also help students to prepare their CV's and also to sharpen their technical skills before a company process and continue to do so until a student gets placed.

Year wise journey contd..

To hit the bull's-eye, every final year students undergoes a 42 Hours Refresher Training Programme.

➤ The exhaustive programme includes:

- Group Discussions
- Technical Brush-up sessions
- Corporate Etiquette
- Effective Resume Building
- Personal Interviews by Industry visitors
- Individual assessments by CoCubes/AMCAT/FACE/TIME/MyPerfectice

SKIT organized a two week Induction Program for the newly inducted students during 1st to 15th August 2019. A brief description of the activities performed during the Induction Program is as under:

1. ORIENTATION SESSION

A three day Orientation Session was held for the B. Tech. I Year students from 1st to 3rd August, 2019. The parents of the students were also invited in the inaugural ceremony of the Orientation Session. Dr. K K Pathak, Commissioner, Department of Industries, Rajasthan, was the Chief Guest during the inaugural ceremony. The activities held during the three day Orientation Session are as under:

On day one the inaugural ceremony of the Orientation ceremony started with a thought provoking yet a humble session by the Chief Guest Dr. K.K. Pathak, Commissioner, Department of Industries, Rajasthan. Dr. K.K. Pathak, in his address exhorted the importance of spirituality, discipline and meditation in a person's life. He exemplified the traits of a successful person through his own experiences and events of his life. Dr. Pathak said that human life is a store house of good and evil practices and only a person with strong determination, time-management skills, self respect and dignity can keep the evil practices at bay.

Dr. Pathak's message was not limited to students only. He also touched upon the role of parents and duties of teachers in imparting valuable meaning to the lives of students.

The day two of the orientation session unfolded the prominence of informative sessions regarding the institute's rules and regulations and academic environment. The day started with a vital engagement of students towards a healthy lifestyle. Mr. Satveer Singh, a trained & professional yoga practitioner discussed the importance of a healthy life-style and practice of yoga in the day-to-day life.

During the informative session related to the academic environment of the institute, the students gained light on the batch counseling system, discipline, use of the central library and the university examination pattern. The day ended with a visit of Departments, library, labs and other central facilities of the institute.

The day three of the orientation session marked its beginning with an energetic Zumba session. Mr. Ajay Haldunia, Trainer-The Figure Point Gym, made the students dance on his power packed tunes. He emphasized upon the need of physical fitness for youngsters and motivated the students to engage themselves in one physical activity daily. The second activity of the day was directly related to the personality grooming of students. It was a detailed showcase of the extracurricular activities and clubs that function in the institute on a regular basis. This induction helped the students choose a club of their preference and aptitude. The day ended with a screening of a patriotic movie. This movie dealt with the fervour of serving the nation selflessly and diligently. The students enjoyed this activity and expressed their gratitude for the organizers.

6. Proficiency Modules

Proficiency classes for English, Mathematics and Computer were held during the period from 5th to 14th August 2019 as per the schedule given in Annexure II. These special classes catered to the academic domain of proficiency among the budding engineers. It had been observed over a period of time that the heterogeneous group of students encompassed diverse levels of competencies in their academic score. These proficiency classes aimed at giving a push to the basic requirements and challenges to students in the specified subjects. It was intended as a kick start before the rigorous classes and thus facilitated a potential background before the beginning of the formal academic session.

“Changing Role of HR”
January 29th, 2020

The Department of Management Studies, SKIT invited Mr. Suresh Babu L. to deliver an expert talk on the topic “Changing Role of HR” on 29th January, 2020. Mr. Babu highlighted that Human resources role has now changed to become more strategic and aligned with the business objectives. The role has changed to implement talent strategies and support business results. HR professionals now encompass many roles but the top three are the role of marketers, designers and supply and demand experts. He also discussed that Human resources is often in charge of many roles from planning and overseeing the administrative functions of a company to strategizing any talent management or hiring tasks.

Further he mentioned that the role of the HR manager, director, or executive must parallel the needs of his or her changing organization. He discussed some of the more common issues coming up for HR includes:

- Legislation and policies
- Shifting loyalties
- Recruiting and job-hoppin
- Compensation and benefits Wellness
- Diversity and inclusion
- Technology

In the last Mr. Babu discussed that organizational change is unavoidable. We no longer live in a world where businesses can succeed just because they're doing what's worked for thirty years. With technology reshaping the world, the role of HR needs to become more adaptable to this new working reality.

Expert Lecture on
“Building brand through corporate communication”
October 7th, 2019

The Department of Management Studies, SKIT organized an interactive session on “Building brand through corporate communication” on 7th October, 2019. Mr. Opesh Singh, Motivational Speaker associated with 3B(Big Dream, Big Network, Big Money)was invited to address the gathering. Mr. Singh shared her insights on “Building your brand via corporate reputation”. He started with the basics of the corporate communications which involves transfer of information and feedback. He also explained Branding Strategy: how, what, where, when & to whom you plan on communicating & delivering on your brand messages. He explained that the communication helps to inform your customers about your product or your offer and to accelerate a purchase decision. This last point is about customer acquisition and retention. The few points of discussion were as follows:

- Reliable Information
- Oral and Written Communication
- Wide Coverage of Information
- Managing Brand Identity
- Brand expectation and Gaps

In the later session MR. Singh mentioned that establishing link with the outside world—with the customers, vendors, investors, bankers, similar business organizations within and outside the country, various departments of the government, etc. also depends on communication. Corporate business houses are, in most cases, engaged in international business. Excellence in brand communication in such cases is a basic need.

Expert Lecture on
“Creativity & Innovation in Corporate through Young Managers”
September 15th, 2019

The Department of Management Studies organized interactive session on “Creativity & Innovation in Corporate through Young Managers” on 15th September, 2019. Mr. Amit Kapoor, Director, Teoler Unbounded was invited for the expert talk. He mentioned that creativity is the nature of creating something new, either a new idea, concept or method. Innovation is using creativity to enhance performance of a process, person, team or organization. Further he explained that to innovate is to intentionally let go of the “way things are” and welcome “the way they could be.” Breakdown is the first step toward innovation, an intentional release of established habits of thought, expectations, assumptions, and beliefs in order to embrace “not knowing”. The concept of surfing the “edge of chaos” sounds exciting until you get there and leave control at the door. In Adaptive Change we call this the Fall.

In the later session he discussed that innovation and development is fragile, complex and conceptual. He said that nothing kills it faster than premature exploitation- rushing to capitalize on it too soon. Development is not charted but it is navigable, it is a learned activity in action where hunches are tested and theory is developed in the process of action.

The session was thoroughly enjoyed by the students. The session was ended with the question and answers round in which students got solved their doubts.
