## Campus Recruitment Training (CRT)

Campus Recruitment Training (CRT) is an intense placement oriented drill initiated in the year 2009. It is come under the Capacitive Development Cell (CDC). This cell has been constituted in the institute on 18 July, 2014 and after that CRT comes under CDC cell. This training is conducted to train students for upcoming campus recruitment drives. The CDC Cell in consortium with TIME Institute organizes Campus Recruitment Training (CRT) Program for pre-final year students. The CDC Cell organizes and conducts Aptitude training, Technical training and soft skills training along with the Mock Tests for the students of Pre Final Year and Final Year. Regular Counseling/Guidance sessions are organized for all students of Pre Final and FinalYear. The major topics covered in the course are:

- Quantitative Ability
- Logical Reasoning
- Verbal Ability
- Group Discussion
- Personal Interview

To hit the bull's-eye, every final year students undergoes a 42 Hours Refresher Training Programme. The exhaustive programme includes:

- Group Discussions
- Technical Brush-up sessions
- Corporate Etiquette
- Effective Resume Building
- Personal Interviews by Industry visitors
- Individual assessments by CoCubes/AMCAT/FACE/TIME/MyPerfectice

## CAMPUS PLACEMENT POLICY

### 1. Preamble

The biggest concern of a final year engineering student is to get a good job in a reputed organization before he/she completes his/her B.Tech degree. The Institute's placement cell provides the students with the best possible opportunities through campus placements. Many good students sometimes fail to get jobs in good companies due to absence of right guidance. The purpose of placement policy is to prepare them well in advance so that students get selected by their dream companies.

### 2. Apex Placement Committee

**Purpose:** The purpose of this committee is to formulate placement policy and to provide guide-lines to the Placement Working Committee. The Apex Placement Committee will review from time to time the achievements of placement working committee and may make changes in the policy.

#### Composition:

The Apex Placement Committee will be composed of the following members

1. Director (Academics)
2. Principal
3. Adviser
4. Registrar
5. All Heads of Engineering Departments

### 3. Placement Working Committee

**Purpose:** The purpose of this committee is

1. to contact and invite companies for placement.
2. to organize training in various skills required for placement and to motivate students to participate wholeheartedly.
3. to obtain feedback from all stake holders.
4. to forward quarterly reports to the Apex Placement Committee

#### Composition:

Placement working committee will be composed of the following members

1. Adviser
2. Two members to be nominated by the Apex Placement Committee
3. T.P. Officer
4. One faculty member from each engineering department to be nominated by respective HODs
5. Two students from each department (one each from B.Tech V & VII semesters) to be nominated by respective HODs)

#### Nomination

The members of the placement working committee may be changed or re-nominated by the Apex Placement Committee

#### 4. Implementation of Policy

The training of students in various skills may be organized in stages which may be decided by the Placement Working Committee. Keeping in view the importance of communication skills, soft skills and CRT programme in the corporate world, every student who is interested in campus placement will have to undergo these trainings to be organized in the Institute. Without under-going these trainings no student will be permitted to participate in the campus interviews. It is suggested that training for communication skills, soft skills and CRT programme may be imparted during B.Tech I/II sem, III/IV sem and V/VI sem respectively. The training should be organized during free periods, if possible or beyond Institute's working hours. While organising these trainings care should be taken that as far as possible academic programmes are not curtailed.

During B.Tech I year the faculty members and batch counselors, after the admissions are finalized, will assess strengths and weaknesses of each student based on their observations. The ~~media~~ for observation will be prepared and provided by the placement cell.

At the beginning of the B.Tech III semester, the students will register themselves with the placement cell and provide the required information such as their contact numbers and e-mail addresses.

At the beginning of the B.Tech VI semester, the students interested in campus placements will fill the detailed application form obtainable from placement cell & register themselves for campus placements. Based on the information provided by the students, the placement cell compile the data and the Placement Working Committee will carry out the process of placements of the students.

#### 5. Placement options for students

A renowned company as decided by the Apex Placement Committee will be given the status of Day One Company which will be invited by the Placement Working Committee before all other companies. At the time of registration the students will give their choice for any company henceforth will be called **Dream Company**. Sometimes it may happen that core companies may be permitted to hold campus interviews before the visit of Day One Company. In order to give fair chance to all the students certain restrictions will be imposed on the participation of students in campus interviews. The participation rules are as follows.

1. Every eligible registered candidate will be permitted to participate in the campus interview of his/her dream company.

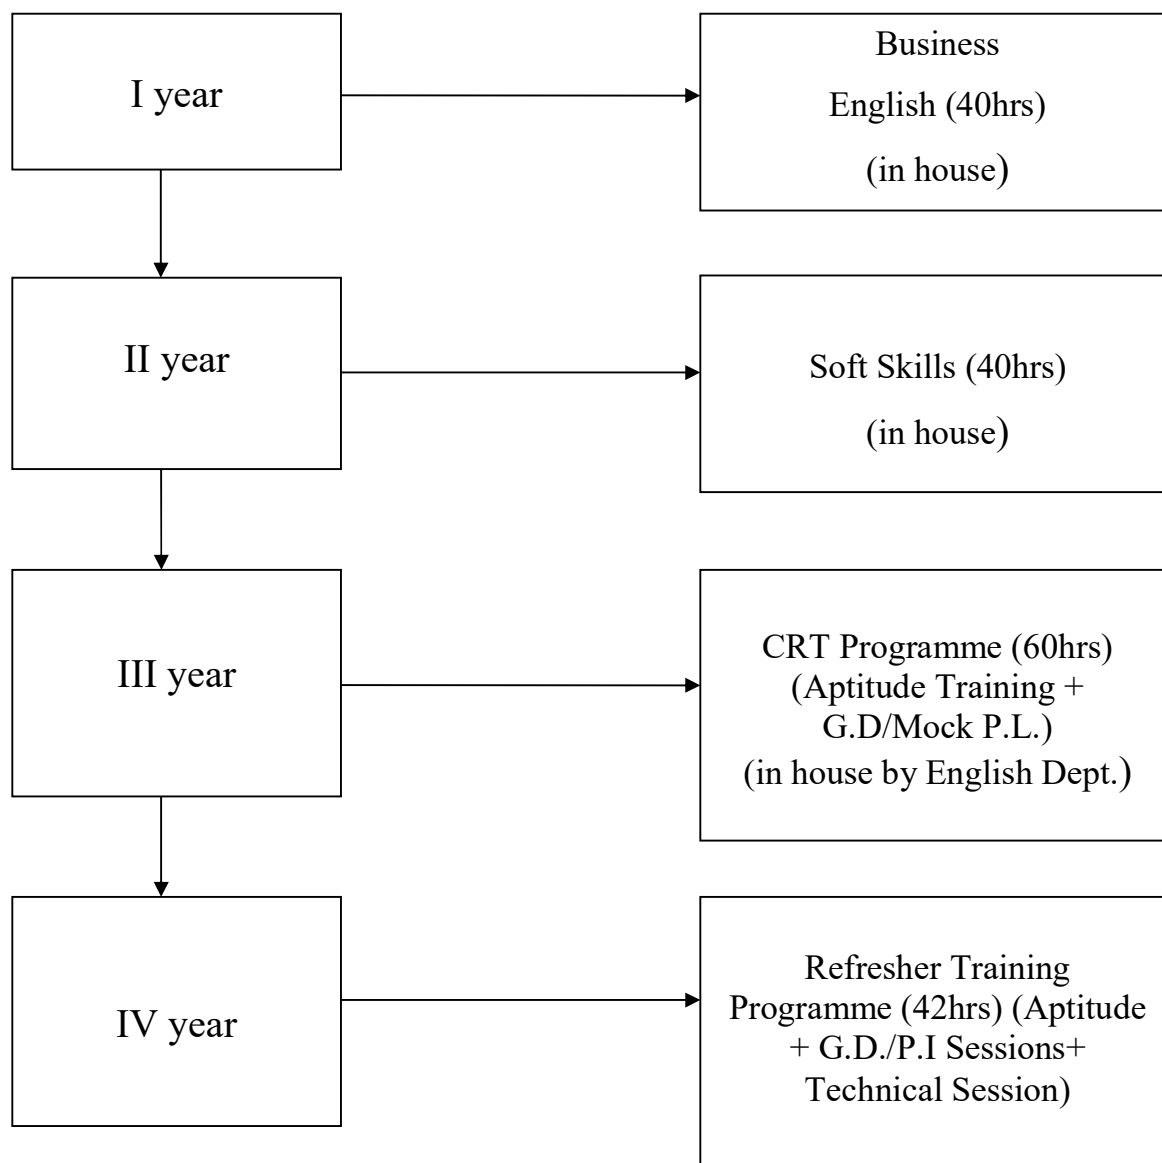

2. If a registered student gets selected in his/her Dream Company, prior to the arrival of day one company, he/she will not be permitted to participate in the subsequent campus interviews including that of day One Company.
3. All eligible registered students debarring the category as mentioned in (1) above will be permitted to participate in the campus interview of Day One Company.
4. Eligible registered students not selected under categories (1) and (2) above will be permitted to appear in subsequent campus interviews till he/she gets placed in some company. However, if a student is rejected in two consecutive campus placements he/she will have to undergo retraining prescribed by placement cell. Without undergoing retraining the student will not be permitted to appear in subsequent campus interviews.
5. No student will be allowed to seek more than one offer letter from companies other than BPOs through campus placements.
6. No student will be allowed to seek more than one offer letter from BPOs through campus placements.
7. In some exceptional circumstance the Apex placement committee may permit some or all students to appear in some renowned company.
8. Any student who has registered for any particular campus placement will have to participate seriously in all stages of recruitment process failing which he/she will be debarred from participation in two subsequent campus placements.
9. Any student furnishing false information will be debarred from that and the next campus placement.

#### 6. Future Action Plan

1. An action research plan will be prepared and based on that effectiveness of each of the modules of different trainings imparted to the students for their placements will be analysed. Based on the outcomes these modules may be revised or enlarged/curtailed.
2. For any other uncovered point the Placement Working Committee will seek guidance from the Apex Placement Committee.

The process of registering and connecting the students to Webex was carried out by the above group coordinators during 3<sup>rd</sup> to 6<sup>th</sup> November 2021. Then after, the online classes were conducted on the said platform during 7<sup>th</sup> to 11<sup>th</sup> and 20<sup>th</sup> to 30<sup>th</sup> November 2021. Dipawali Break was observed during 12<sup>th</sup> to 19<sup>th</sup> November 2021.

These special classes catered to the academic domain of proficiency among the budding engineers. It had been observed over a period of time that the heterogeneous group of students encompassed diverse levels of competencies in their academic score. These proficiency classes aimed at giving a push to the basic requirements and challenges to students in the specified subjects. It was intended as a kick start before the rigorous classes and thus facilitated a potential background before the beginning of the formal academic session.

Besides the proficiency classes of the above mentioned subjects, introductory lectures pertaining to the subjects prescribed in the RTU syllabus of B. Tech. first year were also included in the schedule to familiarize the students with the basic concepts.

## **2. Orientation Programme *AAGAAZ - 2020***

A six day Orientation Programme *AAGAAZ - 2020* was held for the newly admitted students of B. Tech. first year from 25<sup>th</sup> to 30<sup>th</sup> November 2020, in virtual mode on Cisco WebEx platform due to the ongoing pandemic crisis. A brief description of the activities held during the orientation session as under:

On day one the inaugural ceremony of the orientation programme was held. The parents of the students were also invited to attend the ceremony online. Prof. R. A. Gupta, Honourable, Vice-Chancellor, RTU, Kota, was the Chief Guest and Mr. Ajay Pal Lamba (IPS) Additional Commissioner of Police, Jaipur, was the Guest of Honour during the ceremony.

Prof. Gupta inspired the freshers with his words of wisdom and emphasized upon the regularity, punctuality and discipline in student life. He in his session discussed the legacy of RTU and the expectations from the new entrants to make RTU achieve heights of glory. He also motivated the students to be innovative and contribute towards a progressive society.

Mr. Lamba (IPS), in his thought – provoking session threw light on the personality traits of a successful person through his own experiences and events of his life. He urged the students to realize their potential in life and move ahead with a positive mindset.

The inaugural ceremony ended with vote of thanks proposed by Prof. Rohit Mukherjee, Incharge B. Tech. First Year, who wished the students have a great learning experience at SKIT.

### 3. **Workshop on Universal Human Values (UHV)**

The sessions on UHV were held for the newly admitted students during the five day Workshop on *Incorporating Universal Human Values in Education* organised during 25<sup>th</sup> - 30<sup>th</sup> November, 2020. Dr. Archana Saxena, Professor, Dept. of Chemistry; Dr. Sangeeta Vyas, Professor, Dept. of Chemistry and Dr. Shikha Agarwal, Assistant Professor, Dept. of English, were the coordinators of this workshop.

#### *Day-wise Schedule of the workshop*

Day 1– Introduction and Overview, Basic Human Aspiration, Intensions & competence, Company, Happiness

Day 2– Right Understanding, Natural Acceptance, Confidence Relationships

Day 3– Family Expectations, Prosperity, Competition and Cooperation, Competition and Excellence, Self and Body

Day 4– Harmony, Four Orders (Material order, Plant order, Animal order, Human order), Gratitude

Day 5– Panel Discussion and Reflections from participants.

#### *Objectives of the workshop*

- To help the student to see the need for developing a holistic perspective of life.
- To sensitize the student about the scope of life – individual, family, society and nature/existence
- Strengthening self-reflection
- To develop more confidence and commitment to understand, learn and act accordingly. The purpose is to help develop a holistic perspective about life. The aim of NEP 2019 to make “Just and Equitable society” is be achieved by imparting knowledge and skills with universal human values.

### *Methodology and Content*

- A self-reflective methodology of teaching is adopted. It facilitates understanding through self-exploration. The dialogue starts between the faculty and the student
- It opens the space for the student to explore his/her role (value) in all aspects of living – as an individual, as a member of a family, as a part of the society and as an unit in nature
- Through this process of self-exploration, students are able to discover the values intrinsic in them Page 3 of 23 Values are our guidelines for our success - our paradigm about what is acceptable.

Human behaviour depends on the characters defining the identity, choosing the values and establishing the beliefs. Value-based education is essential to bring about the desired transformation – individual transformation towards the development of human consciousness and societal transformation towards an un-fragmented, humane society. The speakers of the sessions were Prof. Archana Saxena, Prof. Sangeeta Vyas, Dr. Shikha Agrawal, Mr. Sumit Gill (Life Coach and spiritual guide).

Special address was delivered by Prof. S.L. Surana. He emphasized on realizing and practices these values in our day to day life.

This workshop was aimed to help the student to see the need for developing a holistic perspective of life, to sensitize the student about the scope of life – individual, family, society and nature/existence, to strengthening self-reflection and to develop more confidence and commitment to understand, learn and act accordingly

The following nine types of feelings/values known in relationships were also discussed:

- Trust (Vishwas)
- Respect (Samman)

- Affection (Sneha)
- Care (Mamataa)
- Guidance (Vaatsalya)
- Reverence (Shraddha)
- Gratitude (Kritagyataa))
- Glory (Gaurav)
- Love (Prema)

Apart from the above mentioned points, the faculties also imparted knowledge on the day-to-day life, answered the questions via sharing their personal experiences of life

Technology, Management and  
Gramothan, Jaipur

B.Tech I Year  
2020-2021

## *Message from The Principal*

Dear Students

Heartiest congratulations for choosing one of the most promising career options. We welcome you as a new member to SKIT family. SKIT has a long-cherished tradition of redefining efforts for creating the best of opportunities for students. Since the onset of the global pandemic, all of us have transformed the way we used to think and act. SKIT has embraced this change and stands committed to provide the same quality training to its budding engineers.

I urge you all to take active interest in the activities of the institute and remain in touch with your teachers and mentors for any support required.

Prof. Ramesh Kumar Pachar

Principal

## **PROPOSAL**

## **Introduction:**

What images come to mind when you think of the term professional? Do you picture an executive in a fancy suit strutting into a boardroom? Or, perhaps you envision a supervisor walking among cubicles and issuing orders to employees. While it is true that professionalism encompasses how we present ourselves outwardly, the meaning of the term goes far beyond appearances. Professionalism also encompasses inward characteristics and attitudes that affect how others in the workplace perceive us. The professional world can be full of challenging situations, including conflicting personalities, miscommunication, and cultural differences. In this course, you will learn about typical workplace etiquette protocols, communication standards, and cultural awareness strategies in order to navigate these common obstacles as smoothly as possible.

This course will guide you through strategies for establishing and maintaining your professional image in the workplace. Whether you are working on a construction site or in a medical facility, practicing professional etiquette will help ensure that your occupational environment is a positive and productive one. You will focus on integrating internal attitudes with external behaviors so that your personal attributes work together to enhance your professional image.

You will begin this course with an introduction to professional manners and common courtesy. Then, you will learn how to communicate effectively and courteously via common workplace communication modes - verbal communication, nonverbal communication, and virtual communication - paying particular attention to how technology affects these forms of workplace communication. In the last unit of this course, you will investigate the topic of workplace diversity in order to gain an awareness of differences and how to respond to and respect them.

## **Objectives of the Workshop:**

In accordance to imparting training in the area of skill development as promoted by AICTE, this five-day Short term training programme in the arena of Soft Skills Development entitled “Developing Soft skills for Employability” is mainly aimed at adding value education to any technical qualification which may in turn help the students to acquire competence to secure jobs in any area related to engineering & in other service related industries. This program comprises numerous sessions that form the core areas of Soft Skills training programme. This course would help students to groom their personality, learn the ropes of fine professional etiquette and assimilate industry oriented techniques to face job interviews. The objectives of the Skills Soft Training programme are to give each student a realistic perspective of

work and work expectations, to help formulate problem solving skills, to guide students in making appropriate and responsible decisions, to create a desire to fulfill individual goals, and to educate students about unproductive thinking, self-defeating emotional impulses, and self-defeating behaviors. The programme would also promote active learning by engaging the students in the instructional process by having the students read the material which includes real-life situations. Reflecting through the use of famous quotes and developing analytical skills through small group problem solving activities labeled “Thinking Skills”, the students shall raise platform for individual enrichment.

**Learning Outcomes:** After the completion of the course the students will be able to become industry ready and also will be able to incorporate the basic skills required in the industry.

**Duration of the Course:** Six days

**Registration Fee:** Free for all the students

**Outline of the Course:**

- Career Planning and Placements
- Body Language
- Corporate Dressing
- Professional Grooming
- Leadership Skills
- Team Building
- Assertiveness
- Time & Stress Management
- Employability Skills

## **BROCHURE**

## WHY SOFT SKILLS ?

Most interactions with other people require some level of soft skills. At a company you might be negotiating to win a new contract, presenting your new idea to colleagues, networking for a new job, and so on. We use soft skills everyday at work and developing these soft skills will help you win more business and accelerate your career progression. On the other hand, a lack of soft skills can limit your potential, or even be the downfall of your business. By developing strong leadership, delegation, teamwork, and communication abilities, you can run projects more smoothly, deliver results that please everyone, and even positively influence your personal life by improving how you interact with others. Outside of the office, soft skills such as communication are used to build friendship groups and meet potential partners. You might be negotiating the price of your new house renovation, or mentoring your neighbours children on the weekend. Soft skills are useful both in our professional and personal lives. The recruiters have found that "Ninety-four percent of recruiting professionals believe an employee with stronger soft skills has a better chance of being promoted to a leadership position than an employee with more years of experience but weaker soft skills".

## ABOUT SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) inspired from the learnings of Swami Keshvanand, was established in the year 2000 by Technocrats and Managers Society for Advanced Learning. Today the institute is recognized as one of the centers of academic excellence in Northern India. The Institute is affiliated to Rajasthan Technical University, Kota for offering Postgraduate and Graduate Courses in Engineering and Management. Our sister institution Swami Keshvanand Institute of Pharmacy (SKIP) is affiliated to Rajasthan University of Health Sciences for offering Graduate Course in Pharmacy.

## INTRODUCTION

What images come to mind when you think of the term professional? Do you picture an executive in a fancy suit strutting into a boardroom? Or, perhaps you envision a supervisor walking among cubicles and issuing orders to employees. While it is true that professionalism encompasses how we present ourselves outwardly, the meaning of the term goes far beyond appearances. Professionalism also encompasses inward characteristics and attitudes that affect how others in the workplace perceive us. The professional world can be full of challenging situations, including conflicting personalities, miscommunication, and cultural differences. In this course, you will learn about typical workplace etiquette protocols, communication standards, and cultural awareness strategies in order to navigate these common obstacles as smoothly as possible. This course will guide the participants through strategies for establishing and maintaining their professional image in the workplace. Whether you are working on a construction site or in a medical facility, practicing professional etiquette

will help ensure that your occupational environment is a positive and productive one. You will focus on integrating internal attitudes with external behaviors so that your personal attributes—work together to enhance your professional image. You will begin this course with an introduction to professional manners and common courtesy. Then, you will learn how to communicate effectively and courteously via common workplace communication modes - verbal communication, nonverbal communication, and virtual communication - paying particular attention to how technology affects these forms of workplace communication. In the last session of this programme, the participants will be able to investigate the topic of workplace diversity in order to gain an awareness of differences and how to respond to and respect them.

## LEARNING OUTCOMES

After the completion of the course the students will be able to become industry ready and also will be able to incorporate the basic skills required in the industry.

## **DAY-WISE REPORT OF THE FDP**

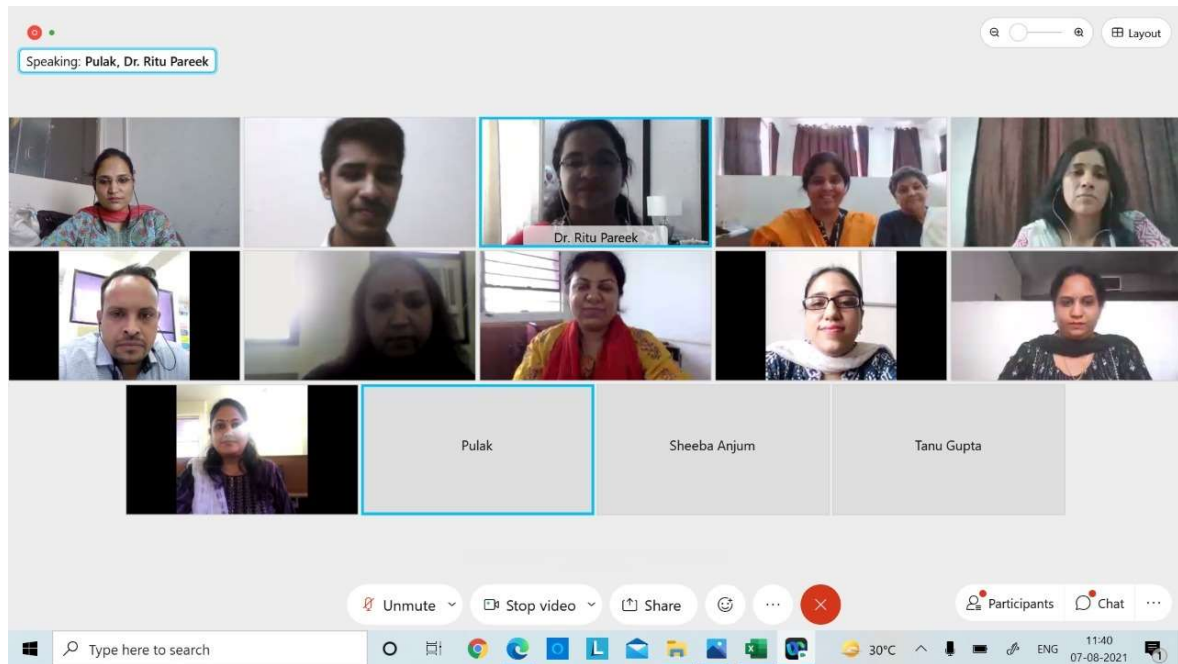

During the last decade in India, major employers of graduates have observed in their recruitment drives that while thousands of students graduated with an engineering, medical or any degree, only about 20% or less, were really “employable” directly. An analysis has revealed that the root cause of this lack of low employability ratio is the paucity of ‘soft skills’ among the students. Soft skills not only help in grooming their overall personality but also enhances their potential capacity. Our Prime Minister has also emphasized the need to enhance skills. Consequently, major companies like Infosys, WIPRO Technologies has initiated well-designed programs for skills enhancement and personality development in India. Infosys Ltd has actively participated in the Indo-US Collaboration for Engineering Education (IUCEE) program. However, more soft skills and capacity building programs and training in India is a huge task that requires multiple efforts across diverse disciplines. The quality and frequency of such trainings is the need of the hour. To meet the global standards, the present STTP, we all may agree, will truly help in unleashing the fundamental strategies and techniques to be incorporated by teachers as wells as students to make them future-ready as job-seekers or job-givers across the academic and professional spectrum.

**Day 1:** Keeping the above mentioned challenging perspectives in mind, the Department of English, SKIT, hosted the inaugural ceremony of a Seven-Day International Short Term Training Programme (ISTTP) on 6 August 2021. The Coordinators of the ISTTP were Dr. Neha Purohit, Head, Department of English, Dr. Krishna Sharma and Dr. Nidhi Sharma. The Chief Guest and the keynote speaker of the programme was Mr. Kartik Bajoria, a writer, columnist and literary moderator. The Guest of Honour and the second speaker was Dr. Shipra Malik from Al Baha University, Saudi Arabia. Mr. Bajoria in his address on ‘Surviving Atrocities through Soft Skills’ delineated the value of soft skills from his own life and musings. He maintained that no matter what phase we are into our lives, we can always count on the power of soft skills for creating better versions of ourselves. Dr. Shipra Malik in her talk on ‘Importance of Metacognition and Non-Verbal Communication in 21<sup>st</sup> Century Professional Success and Job Employment Scenario’ wittily brought to the fore some interesting facets of nonverbal communication. She also sketched the boundaries for the do’s and don’ts of body language acceptable at the global crossroads. Prof. Ramesh Pachar, Principal, SKIT welcomed the guests and introduced SKIT to the audience by highlighting the culture of the institute. Dr. Neha Purohit and Dr. Nidhi Sharma outlined the efforts of the department of English at SKIT and projected level of participation from presenters across the nation. They invited the audience to be a part of the upcoming sessions by renowned experts from all across the nation. The Director of the institute, Mr. Jaipal Meel encouraged the students to be a part of such programmes. The programme was moderated by Sanidhya Bharadwaj and technically coordinated by Ms. Rashmi Dadheech, Ms. Deepika Jain, Ms. Deepti Arela and Tanu Gupta. The event concluded with a vote of thanks by Prof. Krishna Sharma.

**Day two:** of the ISTTP began with an impressive and informative session on ‘Enhancing Listening Skills for Capacity Building’ by Dr. Ritu Pareek, Assistant Professor, BIT, Jaipur Campus. She, in her session threw light on the necessity of improving listening skills for students and to become effective and active listeners by using certain techniques. She emphasized on the fact that listening is one of the most important skills one can have and has a major impact on job effectiveness, and on the quality of our relationships with others. The session was interesting and received a thumping response from the students.

The second session of the day was on a very new topic ‘Netiquette and Media Literacy’ taken by Dr. Pulak Avinashi, Assistant Professor, Amity University, Noida. She gave a comprehensive presentation explaining how digital etiquette can help students improve their soft skills, prevent miscommunications, can also assist students to understand better what is socially acceptable when working and collaborating online in different environments. Students found her session enlightening and interesting.

**Day-3:** With the same enthusiasm, the first session of the third day on “How Creative Are We All?” was delivered by Prof. Chandrasekharan Praveen, Former Principal, Institute of Advanced Study, Thrissur, Kerala. He engaged the students with his lively examples both from literature and science and depicted the importance of creativity and originality in this Google dominated era of the cut-copy-paste culture. His session was aptly aided with relevant audio-video sessions highlighting on the concept of creative thinking. He also had a lively question-answer session with the students and motivated them to use the basic concepts of science and technology to recreate things of their own. His basic agenda to was to let them believe that by just twisting and twirling the popular nursery rhymes, one can come up with things something really exciting. Students interacted with full enthusiasm and the discussion culminated with a benchmark quote by Einstein “Create your problems rationally and solve them creatively”

**Day 4:** The participants experienced another spell of Soft-skills' training sessions on the 4<sup>th</sup> day of the ISTTP. Two eminent speakers Dr. Preeti Bhatt, Associate Professor Department of HSS, MNIT Jaipur and Dr. Ranjeet Kaur, Assistant Professor, St. Xaviers College, Jaipur delivered their presentation on, 'Empowering through Communication Skills' and 'Self-Confidence' respectively. In the session on Communication Skills, the use of tools and softwares to learn English language using internet was emphasized. Websites like Hello English, Times Speak English (by TOI), Bolo App, and Duolingo were recommended by Dr. Bhatt. Focus on building the vocabulary with the thought that learning a new word is adding a new experience in life was really thought provoking. Moreover, Dr. Bhatt advised the students to opt for MOOC courses to learn native English for the global job perspectives. Focusing on building self-confidence, Dr. Ranjeet Kaur gave insightful thoughts like, 'Confidence comes with the first-hand knowledge' and '3 types of energy system: Body, Mind and Soul'. Dr. Kaur also talked about the different levels of confidence: Low, Optimal, & Over-confidence. She also talked about the Bandura's Self-Efficacy theory and told a very catchy story about a bankrupt man whose confidence was boosted up by a lunatic from asylum. Ultimately, Dr. Kaur motivated everyone to find the matchless qualities in the 'self' which we have but fail to acknowledge.

**Day 5:** started with an informative session on 'Interview Skills' by Dr Niraja Saraswat, Assistant Professor, MNIT, Jaipur. She gave insights about how to prepare oneself for an interview. She gave a checklist of do's and don'ts of answers to various questions likely to be asked during a personal interview. Dr Niraja also emphasized that discussing about salary should be avoided as it creates bad impression on the interviewer. It was followed by a second session on **Occupational Skills** by Ms. Jyoti Kathju, Life coach, Trainer soft skills from Jodhpur . She threw light on various aspects of occupational skills like- Decision Making, Active Disengagement, Active Engagement, Right Attitude, Technical Skills, Human Skills, Conceptual Skills, Intentional Mindset Behaviour etc. Dr Kathju stressed on the need to break the shackles of the past and to learn a new way of doing the work.

**Day 6:** witnessed an interactive session by Dr. Chithra G.K, Vellore Institute of Technology, Chennai, on ‘Interpersonal Skills’ she emphasized the need of interpersonal skills, to understand others perspective, adapt in diverse teams or organizations while working with others. She elaborated on emotional intelligence, communication, verbal & non-verbal communication, reliability and dependability, leadership, positivity and negotiation. She pointed out that interpersonal skills can help people to perform better and to be in good tuning with them. She added that listening actively by paying heed to other’s words helps in creating a connection or a bonding with people. While listening your body language also plays an important role. Dr. Chitra said that self-awareness is a vital element in developing relationship with others, positive self-development allows us to see every situation from their point of view. She also guided the audience with a self-relaxation technique of ‘self-hypnotism’ during the session. She concluded that being communicative is one of the most

important skill as it will form the basis of everything to improve one's confidence as an independent learner.

In the next session Dr. Alpana, Christ University, Lavasa, gave a powerful presentation on body language, stressing that 'what you say is not important, rather how you say it is important.' She stressed that Mirroring helps us to build our own personality and that body language, especially Gestures, vary from culture to culture. She opined that Asians are the most expressive people on the Earth. She further added that we as Asians can use 1000 distinct facial expressions. Delineating eyes as the windows to the soul, she added that they reflect the feelings and thoughts of a person in a vibrant manner. Dr. Alpana stressed that the success of an interview lies in the positive signs of friendship and understanding. Enumerating the nuances of paralanguage she concluded that appropriate tone, speed, pitch, volume and the length of pauses/ silence play a great role in interpersonal relations and then moved to Kinesics by explaining about Body Posture, Gestures and Manipulators.

**Day 7:** The first session of day seven witnessed the presence of Dr. Aditi Dev, Assistant Professor, Amity University, Jaipur. Dr. Dev enlightened the audience about the nuances of employability skills through her topic: ***Employability Skills for Students of Technology***. Dr. Dev highlighted multiple facets of soft skills including teamwork, leadership, body language, communication etc. Dr. Dev also took into consideration various books and articles of experts and discussed the visions and philosophies about the topic of concern. The session ended with an interesting question and answer round from students. The event was moderated by Rishit Rastogi. The question-and-answer session followed a formal vote of thanks by Dr. Shikha Agarwal.

The last session on day 7 was marked as the valedictory ceremony of the International Short Term Training Programme- 2021 on 'Soft Skills for Capacity Building'. The Chief Guest of the

ceremony was Ms. Manika Singh, Director, Outshine. Ms. Singh chose to answer all the possible questions received from students in a very pragmatic manner. The students had queries related to meaning and significance of soft skills, interview skills, questions being asked during interviews, various professional skills and many more. The event was graced by Director, Mr. Jaipal Meel and the members of the department. Mr. Meel welcomed the guest and the audience and expressed his elation on organization of such activities. The event ended with a video on the events of the last six days, and a vote of thanks by Dr. Neha Purohit, Professor and Head, Department of English.

# Training & Placement Program flow

# Year wise journey of a SKITTIAN

Overall grooming and making a student industry ready is a regular practice at SKIT.

The student starts his journey towards placements right from the 1<sup>st</sup> Year.

# Year wise journey contd..

The Placement Cell in consortium with TIME Institute organizes Campus Ready Training (CRT) Program for pre-final year students. The topics covered in the course are not limited to:

- Quantitative Ability
- Logical Reasoning
- Verbal Ability
- Data Interpretation

The Placement Cell organizes and conducts Aptitude training, Technical training and soft skills training along with the Tests for the students of Pre Final Year and Final Year.

Regular Counseling/Guidance sessions are organized for all students of Pre Final and Final Year.

# Faculty Mentors

---

The concept of Mentorship was introduced in the year 2018 and has shown a rising trend in the placement process smoothness and placement index as well.

Faculty Mentors are allocated in pre-final year to every student. Students can discuss not only their weakness but also their personal problems which are hindrance in their growth. Mentors are like the institute level guardian of a student. The professional guidance of mentor is not limited to:

- Projects,
- Technical Skills Development
- SWOT Analysis

The Faculty mentors also help students to prepare their CV's and also to sharpen their technical skills before a company process and continue to do so until a student gets placed.

---

# Year wise journey contd..

To hit the bull's-eye, every final year students undergoes a 42 Hours Refresher Training Programme.

➤ The exhaustive programme includes:

- Group Discussions
- Technical Brush-up sessions
- Corporate Etiquette
- Effective Resume Building
- Personal Interviews by Industry visitors
- Individual assessments by CoCubes/AMCAT/FACE/TIME/MyPerfectice

# TEQIP- III RTU (ATU) sponsored One Day Industry Expert Lecture on

“What after B.Tech....? Different Career Paths”

Organized By Rajasthan Technical University, Kota & Department of Mechanical Engineering, Swami Keshvanand Institute of Technology, Management & Gramothan, Jaipur

Date : -January 16, 2021

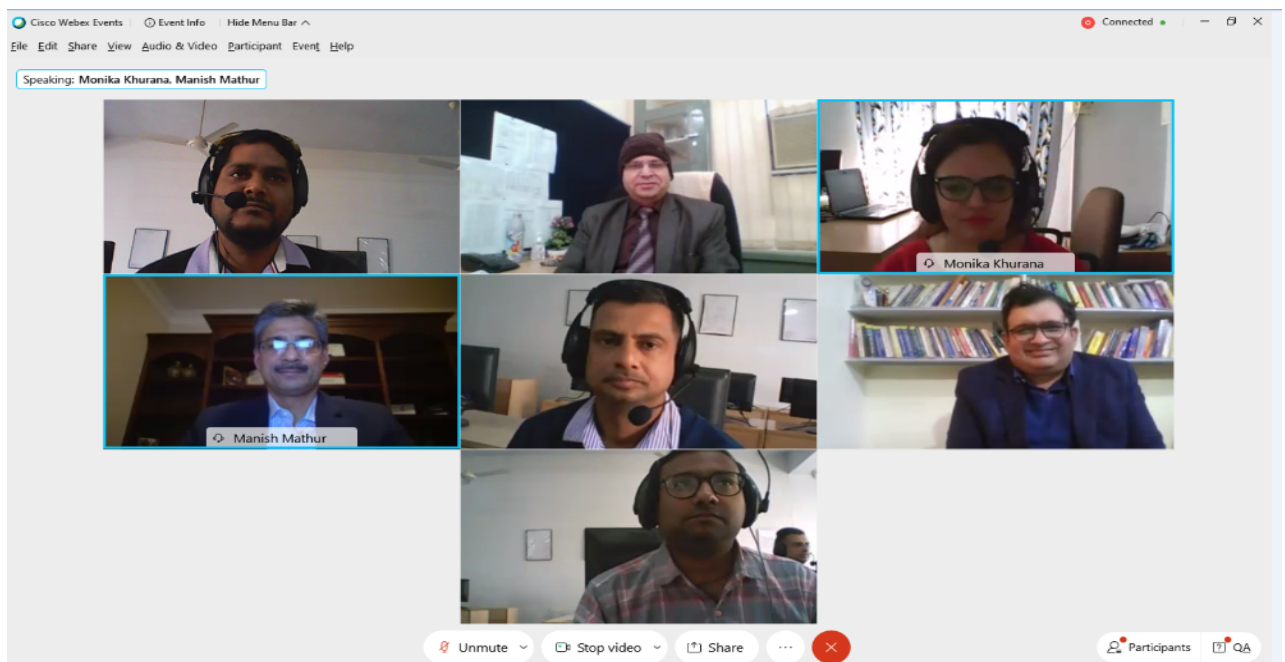

Time:- 9:30 AM-10:45 AM (IST)

**Expert -** Mr. Manish Mathur, Director Sourcing,  
Husqvarna Group, Charlotte, North Carolina, USA

**RTU Event coordinator-** Dr. Lata Gidwani

Rajasthan Technical University, Kota and Swami Keshvanand Institute of Technology, Mgt. & Gramothan, Jaipur organised One day expert Industry talk sponsored by TEQIP- III RTU (ATU) on 16 January 2021. Dr. Lata Gidwani organised the event as RTU event coordinator.

Industry expert Mr. Mathur sir, USA who is highly motivated strategic and operation executive with strong technical background, explained that Engineering is by its very nature a creative profession. Because we are in a time of rapid social and technological changes, the need for engineers to think creatively is greater now than ever before. Engineers are dedicated to solving problems and creating new, useful, and efficient things. We have to identify new opportunities and challenges which are coming in front of engineers after the corona pandemic. four segments of opportunities were discussed. Further studies in India or overseas can be done by the graduate engineers. They can explore new jobs as full time managerial in some technical applications. Product design , R & D, Manufacturing , system management and Energy management are the new emerging fields in domain of engineering.

# बीटेक के बाद कैरियर आयामों पर चर्चा

## ‘जर्नी फ्रॉम कैंपस टू आरएस’ विषय पर वेबिनार का आयोजन

### इंजीनियर्स ने जाना आरएस बनने का सफर

जयपुर (खबरों की दुनिया)।

जगतपुरा स्थित स्वामी केशवानंद इंस्टीट्यूट ऑफ इंजीनियरिंग एंड टेक्नोलॉजी में अभियांत्रिकी व संचार विभाग द्वारा ‘जर्नी फ्रॉम कैंपस टू आरएस’ विषय पर वेबिनार का आयोजन किया गया। वेबिनार में कॉलेज के एक्स स्टूडेंट आरएस ऋषि एस पाण्डेय ने अपने अनुभवों को साझा करते हुए अपनी कॉलेज के समय से आरएस बनने के संपूर्ण सफर की चर्चा की।

कार्यक्रम की शुरुआत में एचओडी डॉ. मुकेश अरोड़ा ने अतिथियों का स्वागत किया तथा इस वेबिनार को छात्रों के लिए बहुउपयोगी बताया। ऋषि ने छात्रों को बताया कि कैसे उन्होंने प्राइवेट सेक्टर में कार्यरत रहते हुए भी अपने सपनों को साकार करने की जिद नहीं छोड़ी और अपने समय का सदुपयोग करते हुए, अंततः सफलता अर्जित की।

अपने तैयारी के तरीकों को साझा करते हुए उन्होंने यह बताया कि चरणबद्ध तरीके से पढ़ाई करनी

चाहिए तथा जब तक लक्ष्य तक पहुंच ना जाए रुकना नहीं चाहिये। हर एक असफलता , हमें अपनी मंजिल के करीब ले जाती है, बशर्ते आप उससे कुछ सीख लें। कार्यक्रम के अंत में डॉ स्वाति अरोड़ा ने सभी

प्रतिभागियों को धन्यवाद दिया। इस कार्यक्रम में 110 छात्रों तथा फैकल्टी ने भाग लिया। इस कार्यक्रम के कोर्डिनेटर डॉ स्वाति अरोड़ा , मिस पूजा चौधरी रही तथा संचालन मिस ग्लोरिआ जोसेफ ने किया।
