in collaboration with

Rajasthan State Productivity Council

&

IIM-A Alumni Association, Jaipur Chapter

organize a National Seminar on

“CIRCULAR ECONOMY FOR PRODUCTIVITY AND SUSTAINABILITY”

Feb 16th, 2019

About the Seminar

India has the opportunity to save money, make money and do good by adopting the principles of the circular economy. It has the opportunity to leapfrog other economies and establish a leadership position. Traditionally, the Indian economy has been one where reusing, re-purposing and recycling have been second nature. In a world that is increasingly running out of natural resources, this thinking is an asset that must be leveraged by businesses, policymakers and citizens in an organized manner and expanded to include other elements to make the economy truly circular. Several building blocks of circularity are deeply ingrained in Indian habits, as exemplified by the high rates of utilization and repair of vehicles and the distributed recovery and recycling of materials post-use. Often handled informally, these activities provide the only source of livelihoods to some of the poorest populations. By turning these existing trends into core development strategies, India could generate significant economic savings, massively cut down on carbon emissions. The world's growing and the increasingly affluent population has caused an overuse of resources, higher price levels and increasing market volatility. An ambitious long-term vision of a circular economy, built on the current strengths of the Indian market and engaging business, policy, and education in its realization, could, on the contrary, provide the basis for a regenerative development path towards long-term prosperity. Keeping the importance of realizing higher productivity on continual basis for various sectors of economy, "Circular Economy for Productivity & Sustainability" is selected as the theme for this National Seminar.

Objectives of Seminar-

- To understand concept of Circular Economy
- To Understand Role of Circular Economy in Productivity and Industrial Development
- To address opportunities for visioning the present and future in changing environment of Indian Economy.
- To foster dialogue among various stakeholders, including senior level policy makers, researchers, academicians, managers, regulators and those engaged in non government sector.

India has the opportunity to save money, make money and do good by adopting the principles of the circular economy. It has the opportunity to leapfrog other economies and establish a leadership position. Traditionally, the Indian economy has been one where reusing, re-purposing and recycling have been second nature. With this view Department of Management Studies organized Seminar on “Circular Economy for Productivity and Sustainability” on Feb 16th, 2019. Dr. Ona Ladiwal was the convener of the Seminar.

The seminar constituted a good opportunity to foster the sharing of knowledge on various issues related to Circular Economy. The Seminar met its objectives in filling gaps about Circular Economy. Students given pretention on various aspects of circular economy and enrich their knowledge base. Key note speaker Dr.S.S. Somara share knowledge about efforts of various International companies for circular economy.

Outcome of the Event-National Seminar on “Circular Economy for Productivity and Sustainability”

India has the opportunity to save money, make money and do good by adopting the principles of the circular economy. It has the opportunity to leapfrog other economies and establish a leadership position. Traditionally, the Indian economy has been one where reusing, re-purposing and recycling have been second nature. In a world that is increasingly running out of natural resources, this thinking is an asset that must be leveraged by businesses, policymakers and citizens in an organized manner and expanded to include other elements to make the economy truly circular. Several building blocks of circularity are deeply ingrained in Indian habits, as exemplified by the high rates of utilization and repair of vehicles and the distributed recovery and recycling of materials post-use.

Outcome of the event are –

The Seminar was attended by more than 100 participants.

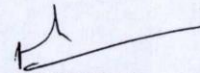

The seminar constituted a good opportunity to foster the sharing of knowledge on various issues related to Circular Economy.

The Seminar met its objectives in filling gaps about Circular Economy.

Students given presentation on various aspects of circular economy and enrich their knowledge base.

Key note speaker Dr.S.S. Somara share knowledge about efforts of various International companies for circular economy.

In the last seminar was end by the vote of thanks by Convener.

Swami Keshvanand Institute of Technology Management and Gramothan, Jaipur

Swami Keshvanand Institute of Technology, Management and Gramothan, Jaipur, was established in the year 2000 by a team of committed professionals and academicians. SKIT enjoys the reputation of being one of the premier institute in northern India, possessing qualified and experienced faculty along with well-developed infrastructure. A great sense of discipline, sincerity and an environment conducive to learning makes SKIT an educational paradise. All the Courses are duly approved by AICTE and affiliated to Rajasthan Technical University, Kota. B.Tech courses are accredited by the National Board of Accreditation (NBA, New Delhi).

Department of Management Studies

In its endeavor to strengthen the philosophy of Swami Keshvanand Ji and achieve excellence in Techno-managerial environment, the institute established Department of Management Studies in the academic year 2006-2007. The Department of Management Studies offers an AICTE approved Master of Business Administration (MBA) degree course, affiliated to Rajasthan Technical University, Kota. The Department aims at developing future managers equipped with curricular & co-curricular skills, which will help them to make a mark in the industry. To achieve its vision the Department uses a blend of well-qualified and experienced core faculty and renowned visiting faculty members from other institutes. To enhance the horizon of knowledge, various Seminars, Workshops, and Entrepreneurial Activities are organized regularly. The Department is an active member of All India Management Association (AIMA).
