ABOUT TEQIP

The project, third phase of Technical Education Quality Improvement Programme (referred to as TEQIP-III) is fully integrated with the twelfth five-year plan objectives for technical education as a key component for improving the quality of engineering education in existing institutions with a special consideration for low income states and special category states and support to strengthen few affiliated technical universities to improve their policy, academic and management practices.

RAJASTHAN TECHNICAL UNIVERSITY

Rajasthan Technical University (RTU) is located in Kota in the state of Rajasthan. It was established in 2006 by the Government of Rajasthan. The university currently affiliates about 129 Engineering Colleges, 4 B.Arch., 41 MCA Colleges, 95 MBA Colleges, 44 M. Tech. Colleges and 3 Hotel Management and Catering Institutes. The University aims to provide quality technical education which may help Rajasthan in its technical development and will boost technical environment in the country.

ABOUT SKIT

Swami Keshvanand Institute of Technology, Management & Gramothan (SKIT) is Ranked No.1 (Fourth consecutive year) Engineering College in Rajasthan declared by Rajasthan Technical University (RTU), Kota. SKIT is a selective comprehensive institution offering undergraduate and postgraduate programmes in Engineering and Management. The institute was established in the year 2000 by a team of committed professionals and academicians. During all the past years SKIT has emerged as a premier center of technical education not only in Rajasthan but also in northern India which has been realized through efficient and dedicated faculty members, innovative teaching learning methods, state of the art infrastructures and core value of discipline. The various undergraduate programmes of the institute are accredited by the National Board of Accreditation (NBA).

DEPARTMENT OF CIVIL ENGINEERING

The Department offers UG program in Civil Engineering and PG program in Transportation Engineering. The Vision of the department is "to become a discipline of excellence that promotes higher learning and advanced technology to meet current and future challenges of Civil Engineering industry". The department has grown tremendously over the years and has established all the laboratories providing necessary infrastructure for various research projects. The department has active student chapters of ICI, IBC and IGBC. The department also provides consultancy services to the government and non-government agencies. Many alumni of the department are working at prestigious positions in various organizations of repute.

ABOUT THE FDP

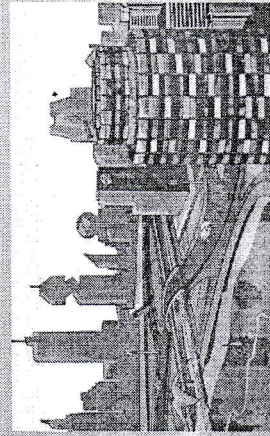

The FDP is purely intended to provide platform to get exposure with experts associated to infrastructural works. In this FDP, experts will elaborate their knowledge with case studies. This faculty development program includes smart city infrastructural work, sustainable infrastructure development, health monitoring of structure and safety aspects in infrastructure constructions.

ELIGIBILITY CRITERIA

The FDP is interdisciplinary and is open for all faculty members from various institutions.

REGISTRATION FEE

There is **no registration fee**.

REPORT

RTU (ATU) TEQIP-III sponsored Faculty Development Program on
“Emerging Trends in Infrastructure Development (ETID-2021)”
(25th February – 01st March, 2021)

The Department of Civil Engineering at Swami Keshvanand Institute of Technology Management and Gramothan, Jaipur in association with Rajasthan Technical University, Kota organised a one week RTU (ATU) TEQIP-III sponsored Faculty Development Program on **“Emerging Trends in Infrastructure Development (ETID-2021)”** from 25th February 2021 to March 01st 2021.

The FDP received a good response in terms of the registrations from various institutions of repute. More than hundred participants from across the country participated in the event.

The inaugural session was graced by the presence of Guest Speaker Er. Rakesh Srivastava (Senior Vice President, JWIL Infra Ltd.), Er. Harshil K Trivedi, (BD Head, Chevrox Construction Pvt. Ltd.), Prof. (Dr.) A.K. Dwivedi (RTU Event Coordinator), Mrs. Pooja Jain (Dy Head, Civil Engg.), Er. Anirudh Mathur (Host Institute Coordinator), Dr. Lalit Kumar Gupta, Mr. Kishan Lal Jain, Mr. Ankur Mishra and others.

In first session of Day 1, **Er. Rakesh Srivastava** (Senior Vice President, JWIL Infra Limited) delivered his talk on **‘Dispute Handling in Infrastructure Industry.’** He explained the ease of doing business by resolving the disputes on site. He also discussed the importance of PPP Model and the various reasons for delay of projects. At the end, he briefed about the arbitration act in industry.

During the second session **Er. Harshil K Trivedi** (Business Development Head – Water and Executive Partner, Chevrox Construction Private Limited) delivered his talk on **‘Activities for Major Projects from Bidding to Execution and Final Handling.’** He

explained about the various points considered during the planning and execution phase of an infrastructure project. He explained the stepwise procedure involved in an infrastructure project.

In the first session of Day 2 (26th February 2021), **Er. AswinPrem** (Assistant Manager – Structure, Pinnacle Infotech) delivered his talk on **'Building Information Modelling – Applications and Potential.'** Mr. Aswin laid stress on the usage of software's for modelling of structures. He explained the main concepts of BIM software with the help of which the designer, engineer and client can review the entire structure with full clarity and safety. He urged the academic community to equip themselves and their students with the advanced technology. He added infrastructures can be better analysed with the help of BIM software's.

During the second session of Day 2, **Er. Rohit Yadav** (Consultant, Texel Consulting Engineering Private Limited) delivered his talk on **'Health Monitoring of Structures.'** He explained about the various techniques used for monitoring the life of structures. During the presentation he discussed case studies of various bridges whose health was monitored for the safety and longevity of the structure. He added maintenance of infrastructure is essential for long run.

In the first session of Day 3 (27th February 2021), **Er. Pradeep Garg** (SE, CPWD) delivered his talk on **'Construction of Earthquake Engineering Lab at MNIT, Jaipur.'** The recent construction of the giant laboratory has been one of its kind. Mr. Garg explained the vision and the construction challenges that came during the entire phase. Many innovative technologies were being used for the timely and economic construction of the laboratory. He said that engineering students must be taken for site visits to such structures for better understanding of the subjects.

During the second session of Day 3, **Er. Vikram Gupta** (ICT Expert, Eptisa) delivered his talk on **'SMART city: Vision and Solution.'** He described about the vision behind the SMART city conceptualisation. He discussed the various components of SMART city along with various case studies. The challenges in converting the existing situations into SMART solutions were described by the speaker.

In the first session of Day 4 (28th February 2021), **Er. Rakesh Bharti** (Deputy Manager, Tata Projects Limited) delivered his talk on **'Safety Aspects in Construction of**

Infrastructure.' He briefed about the various incidents that happen on the site due to mere negligence's and how we can avoid them. He added that precaution is better than cure. If we have certain safety gadgets installed in our vicinity, we all must be aware of using it, else it is of no use during the emergency situation. The safety of the infrastructure is not given due weightage during the contract preparation. He explained that with minor expenditure safety can be enhanced.

During the second session of Day 4, **Dr. Srimanta Ray** (Assistant Professor and Head, Department of Chemical Engineering, NIT Agartala) delivered his talk on *'Sustainability and Infrastructure.*' Dr. Ray explained the relationship between sustainability and infrastructure. He said that now it's the time to do research in the area of minimising waste from the infrastructure industry and reuse of the construction materials which is going to enhance the sustainable development.

In the first session of Day 5 (01st March 2021), **Dr. Gaurav Sancheti** (Associate Professor) delivered his talk on *'Changing Scenario of Civil Engineering with Nanotechnology.*' Dr. Sancheti explained the concept of nanotechnology and its importance for the civil engineering infrastructure industry. He discussed his research work in concrete with the usage of nanotechnology.

In the second session of Day 5 (01st March 2021), **Er. Pradeep Garg** (SE, CPWD) delivered his talk on *'Design of Approaches to Signature Bridge, New Delhi.'* He explained about the various challenges in the construction of Signature Bridge. He explained that how the theoretical concepts studies in the classroom are converted into reality at the site.

At the end of the session the valedictory ceremony was organised with the presence of all the faculty members and Er. Pradeep Garg as Guest. Er. Garg thanked the organisers for organising such an FDP with apt topic. He added that it is very important to have institute industry interface for better results and growth of country. Dr. Lalit Kumar Gupta (Coordinator) presented the vote of thanks to all the speakers, participants and fellow organisers.
